The Santa Clara County Board of Education is the elected governing body of the Santa Clara County Office of Education. The County Board works with the County Superintendent to develop sound educational policies and ensure the solvency of the County Office of Education. Together, they are a strong and cohesive team that helps the County Office continuously set and achieve new levels of service and excellence. The Trustees are elected from different regions of the county and serve four-year terms.

Mission Statement

The Santa Clara County Office of Education is committed to serving, inspiring and promoting student and public school success.

Goals

- Improve student equity and reduce access discrepancies to high quality education
- Provide support to districts, communities, schools and students
- Be a premier employer
- Improve organizational effectiveness and efficiency

INTRODUCTION

The Santa Clara County Office of Education (SCCOE) remains committed to serving, inspiring and promoting student and public school success. Our first goal is to “Improve student equity and reduce access discrepancies to high quality education.” One of the avenues pursued in achievement of this goal is the authorization of high quality charter schools. The Santa Clara County Board of Education (County Board) is granted the authority in California Education Code to approve or deny charter school petitions on appeal from a district and to authorize county-wide charter schools. This past year, 20 County Board authorized schools were in operation providing instructional services to over 8,000 students.

One of the obligations of the SCCOE, once the County Board authorizes a school, is to monitor the charter school. In addition, the County Board has requested that the schools provide an annual update. To facilitate this process, County staff has created this data book that provides a snapshot of the schools at one point in time. The information and data provided herein has been obtained from both the California Department of Education and the respective charter schools. Absent, due to the adoption of the Common Core and Smarter Balanced Assessments, is current data on student performance.

The County Board continues to be a champion for children in the county and is focused on eliminating the achievement gap. The hope remains that all students in Santa Clara County attend a high-performing school that prepares them for success in subsequent grade levels and ultimately to attend, succeed and complete college, if they so choose.

It is the fervent desire of the County Board to forge new partnerships between county school districts and charter schools. The County Board applauds the on-going efforts of districts that have formed a collaborative with their charter schools. The SCCOE and County Board will continue to work to bridge relationships with districts and charter schools while acknowledging the shared aspirations to provide the very best in public education here in Santa Clara County.

Year in Review

During the 2014-15 school year, the County Board considered eight petitions, all on appeal from local school districts. Of the eight, five were approved and three were denied. The new charter schools are expected to enroll approximately 400 students for the 2015-16 year, with four schools planning for future growth.

County staff worked with the existing 20 schools, conducting school visits, monitoring for fiscal health, and ensuring that all reporting requirements were satisfied.

The County Board, in accordance with their policy, remain committed to giving preference to schools best able to provide comprehensive learning experiences for academically low-achieving students.

SCCOE CHARTER SCHOOLS AT-A-GLANCE

20 Charter Schools

2	TK-4 grade schools
1	TK-6 grade school
5	K-5 grade schools
2	K-8 grade schools
1	5-8 grade school
2	6-8 grade schools
4	6-12 grade schools

59%	Socioeconomically Disadvantaged
38%	English Learners

2013 Growth API**

4 schools scored above 900
3 schools scored above 800

3 schools ranked in decile "10" when compared to schools with similar demographics by California Department of Education (CDE).*

Total Charter School Revenues	\$81,778,821
Total Charter School Expenditures	\$79,132,114

* Enrollment does not include Alpha José Hernández & RS Fuerza (new schools)

** Reflects data from 2013-2014, the last time CDE API data was reported.

CHARTER SCHOOLS ENROLLMENT BY ETHNICITY

Overall, student enrollment in the charter schools reflects the diverse student population in Santa Clara County. However, upon closer examination, significantly higher numbers of Latino students, English Learners and students from low socioeconomic circumstances are attending charter schools. About half as many Asian and Caucasian students are registered in charter schools.

STUDENT PERFORMANCE

On March 13, 2014, the State Board of Education (SBE) approved not calculating the 2014 Growth and Base Academic Performance Indexes (APIs) and the 2015 Growth API. Since the first Smarter Balanced assessment results will be available after the Spring 2015 administration of the assessment, Base to Growth comparisons will be reported in 2015–16. Three alternatives were authorized by Assembly Bill 484 to meet legislative and/or programmatic requirements: (a) the most recent API calculation; (b) an average of the three most recent annual API calculations; or (c) alternative measures that show increases in pupil academic achievement for all groups of pupils school wide and among significant student groups. As a result of these changes in the academic accountability system, charter school authorizers can consider a range of options in determining increases in pupil academic achievement for charter renewals.

The table below shows the 2013 Growth API as well as the weighted 3-year API average for all SCCOE charter schools with scores. Four schools do not have scores because they opened after 2012-13: Alpha José Hernandez, Discovery II, Rocketship Fuerza, Summit: Denali.

	2013 Growth API	Weighted 3-Year API Average*
ACE Charter	731	740
Bullis Charter	990	990
Discovery Charter	907	912
Downtown College Prep - Alum Rock	787	
Leadership Public Schools - San José	663	671
Magnolia Science Academy Santa Clara	904	900
Rocketship Academy Brilliant Minds **	893	
Rocketship Alma Academy	809	
Rocketship Discovery Prep	791	
Rocketship Los Sueños Academy	793	802
Rocketship Mateo Sheedy Elementary	851	887
Rocketship Sí Se Puede Academy	837	851
Silicon Valley Flex Academy	789	
Summit Public School: Tahoma **	848	
Sunrise Middle School	684	
University Preparatory Academy Charter	895	890

Blank cell – This indicates that the school or student group did not have a valid 2011, 2012, and/or 2013 Growth API. Therefore, a 3-Year average could not be calculated.

*Assembly Bill (AB) 484 amended California Education Code sections 52052(e)(2)(F) and 52052(e)(4) to allow schools that do not have an API calculated in 2013–14 and 2014–15 to use one of the following criteria to meet legislative and/or programmatic requirements:

- The most recent API calculation;
- An average of the three most recent annual API calculations; or
- Alternative measures that show increases in pupil academic achievement for all groups of pupils schoolwide and among significant groups.

The decision to use one of the above criteria may be made on a program by program basis and is a local decision.

**Means this API is calculated for a small school, defined as having between 11 and 99 valid Standardized Testing and Reporting (STAR) Program test scores included in the API. The API is asterisked if the school was small in either 2012 or 2013. APIs based on small numbers of students are less reliable and, therefore, should be carefully interpreted.

WASC ACCREDITATION

Ten of the 17 charter schools operating in 2014-15 are accredited through the Accrediting Commission for Schools, Western Association of Schools and Colleges (ACS WASC). Accreditation involves the expectation that schools must be worthy of the public's trust to provide high-quality learning opportunities, with the added requirement that the school demonstrates it is about the critical business of continual self-improvement. For elementary and middle schools, accreditation provides a level of trust that the schools have been assessed by an outside organization and determined to have sound programs and processes. Accreditation is a critical requirement for high schools because most high schools and colleges will only accept coursework from accredited schools. (A number of charter schools do not meet minimum requirements for application.**)

School	Accredited	Grades*	District Location
ACE Empower Academy	Y	5-8	Alum Rock
Alpha: José Hernández	N	6-8	Alum Rock
Bullis Charter	Y	K-8	Los Altos
Downtown College Prep - Alum Rock	Y	6-10	Alum Rock and East Side Union HS

RS Los Sueños	Y	K-5	Alum Rock
RS Mateo Sheedy	Y	K-5	San José Unified
RS Se Sí Puede	N	K-5	Alum Rock
Summit Denali	N	6-12	Sunnyvale and Fremont Union HS
Summit Tahoma	Y	9-10	East Side Union HS
Sunrise Middle School	N	6-8	San José Unified
Silicon Valley Flex	Y	6-12	Morgan Hill Unified
University Prep	Y	7-12	San José Unified
Total	Y=10, N=10		

*Grades are from WASC Accreditation Listing and may not reflect current grade configuration.

Note: In order to apply for ACS WASC Affiliation, schools meet the following conditions:

- 1) Be in at least the second semester of operation, with students, teachers, and administration in place;
- 2) School enrollment must reach a minimum of 15 full-time students; and
- 3) School's program must include at least two grade levels. One exception would involve a new high school that opts to begin only with grade 8.

FINANCIAL STATUS

While public funding of charter schools was relatively uniform in 2013-14 with an average state funding of \$6,706/per Average Daily Attendance (ADA) (range of \$6,228 – \$7,824), each school's total revenues per student varied depending on the amount of federal, lottery, grants, donations and other local revenue received. According to the 2013-14 Audit Reports of the charter schools, Summit Public Schools-Denali had the highest expenditure per student of all charter schools at \$14,599 and at the other end of the spectrum, Magnolia Science Academy – Santa Clara, the lowest at \$6,664. In looking at the expenditure per student in comparison to the relative districts, 11 out of 20 charter schools or 55 percent spent less per student, with nine of the 20 exceeding district expenditures per student.

CHARTER MANAGEMENT ORGANIZATIONS/ CHARTER NETWORKS

The majority of County Board authorized charter schools are operated by Charter Management Organization (CMOs). CMOs are non-profit organizations that operate multiple charter schools as well as launch new schools. In 2014-15, 17 of the 20 County Board charter schools in operation were operated by CMOs; in 2015-16, 19 of the 23 County Board charter schools will be operated by 10 CMOs. In many instances these CMOs also have charter schools authorized by other entities; two of the CMOs operate or are developing charters outside of California. The table below describes the organizations that operate charter schools authorized by the County Board.

Organization	Charter School	Main Office	Comments
ACE Charter Schools	ACE Empower	San José	Local network - 4 schools open, 1 more authorized to open
Alpha Public Schools	Alpha José Hernandez	San José	Local network - 2 schools open, 3rd will open this fall

SPECIAL EDUCATION: STUDENTS WITH IEPs ENROLLED IN SCCOE CHARTER SCHOOLS 2013-14

As public schools, charter schools are required to enroll and serve students with disabilities in the same manner as traditional public schools. In 2013-14 six charter schools are schools of the County Office of Education for special education purposes, with the delivery of special education services coordinated and monitored by the SCCOE. The remaining 11 schools are Local Education Agencies (LEAs) for special education purposes and members of the El Dorado Charter Special Education Local Plan Area (SELPA), directly responsible for special education services with oversight by the El Dorado SELPA. Overall, 557 students with IEPs (7.0 percent) were in charter schools. The percentage of students with IEPs enrolled in these schools ranges from a high of 13.4 percent at Summit: Denali, to a low of 2.9 percent at Rocketship Sí Se Puede.

School	Total Enrollment ³	Students with IEPs		District Comparison

This report provides an unduplicated count of students involved in one or more incidents during the academic year who were subsequently suspended or expelled from school.

For the purposes of calculating suspensions and expulsion rates in this report, students who were suspended or expelled multiple times are counted only once in the report totals for these respective disciplinary outcome categories.

Suspension and Expulsion Rate Formulas:

(Students Suspended and Students Expelled divided by Cumulative Enrollment) multiplied by 100

*No data available

**Data available for when charter school was operated by district.

SCCOE Charter Enrollment

When reviewing the number of students attending charter schools, almost 3% percent of students in Santa Clara County are enrolled in County Board-authorized charter schools. The growth of charter schools in the county continues to have an impact on local school districts. If total charter school enrollment is taken as a whole, the SCCOE would be the 15th largest district out of the 31 districts in the county.

Petition History

The County Board has authorized more charter schools than any other COE in California. With 20 schools operating in 2014-15, and three more approved during this past year, the County Board will have 23 authorized schools open in 2015-16. The Los Angeles County Office of Education has authorized 15 schools, followed by Alameda and Nevada COEs with eight each.

Appendix A. Selected Education Code Sections Regarding Charter Schools

Legislative Intent

The provisions enabling charter schools in California were established by the “Charter Schools Act of 1992.” The legislative intent is defined in Education Code 47601.

Education Code 47601

It is the intent of the Legislature, in enacting this part, to provide opportunities for teachers, parents, pupils, and community members to establish and maintain schools that operate independently from the existing school district structure, as a method to accomplish all of the following:

- (a) Improve pupil learning.*
- (b) Increase learning opportunities for all pupils, with special emphasis on expanded learning experiences for pupils who are identified as academically low achieving.*
- (c) Encourage the use of different and innovative teaching methods.*
- (d) Create new professional opportunities for teachers, including the opportunity to be responsible for the learning program at the school site.*
- (e) Provide parents and pupils with expanded choices in the types of educational opportunities that are available within the public school system.*
- (f) Hold the schools established under this part accountable for meeting measurable pupil outcomes, and provide the schools with a method to change from rule-based to performance-based accountability systems.*
- (g) Provide vigorous competition within the public school system to stimulate continual improvements in all public schools.*

Nonsectarian, non-discriminatory, no tuition

Charter schools are free public schools and are required to be nonsectarian and are prohibited from engaging in discriminatory practices as defined by law and cannot charge tuition. These provisions are found in Education Code 47605(d)(1).

Education Code 47605(d)(1)

In addition to any other requirement imposed under this part, a charter school shall be nonsectarian in its programs, admission policies, employment practices, and all other operations, shall not charge tuition, and shall not discriminate against any pupil on the basis of the characteristics listed in Section 220.

Charter Petition Review and Approval or Denial

The provisions regarding charter petition review and decisions are found in Education Code 47605(b)(1-5). These provisions state the legislative intent that “the establishment of charter schools should be encouraged” and require the finding of one or more factors in order to deny a charter petition. In order to deny a petition, the authorizing board must find on or more of the following facts:

- The charter school presents an unsound educational program for the pupils to be enrolled in the charter school.
- The petitioners are demonstrably unlikely to successfully implement the program set forth in the petition.
- The petition does not contain the number of signatures required.
- The petition does not contain an affirmation of each of the required conditions.
- The petition does not contain reasonably comprehensive descriptions of the required elements.

Education Code 47605(b)(1-5)

In reviewing petitions for the establishment of charter schools pursuant to this section, the chartering authority shall be guided by the intent of the Legislature that charter schools are and should become an integral part of the California educational system and that establishment of charter schools should be encouraged. The governing board of the school district shall grant a charter for the operation of a school under this part if it is satisfied that granting the charter is consistent with sound educational practice. The governing board of the school district shall not deny a petition for the establishment of a charter school unless it makes written factual findings, specific to the particular petition, setting forth specific facts to support one or more of the following findings:

- (1) The charter school presents an unsound educational program for the pupils to be enrolled in the charter school.*
- (2) The petitioners are demonstrably unlikely to successfully implement the program set forth in the petition.*
- (3) The petition does not contain the number of signatures required by subdivision (a).*

- (4) The petition does not contain an affirmation of each of the conditions described in subdivision (d).
- (5) The petition does not contain reasonably comprehensive descriptions of all of the following:
- (A) (i) A description of the educational program of the school, designed, among other things, to identify those whom the school is attempting to educate, what it means to be an “educated person” in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners.
- (ii) A description, for the charter school, of annual goals, for all pupils and for each subgroup of pupils identified pursuant to Section 52052, to be achieved in the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school, and specific annual actions to achieve those goals. A charter petition may identify additional school priorities, the goals for the school priorities, and the specific annual actions to achieve those goals.
- (iii) If the proposed school will serve high school pupils, a description of the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the “A” to “G” admissions criteria may be considered to meet college entrance requirements.
- (B) The measurable pupil outcomes identified for use by the charter school. “Pupil outcomes,” for purposes of this part, means the extent to which all pupils of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school’s educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all groups of pupils served by the charter school, as that term is defined in subparagraph (B) of paragraph (3) of subdivision (a) of Section 47607. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school.
- (C) The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card.
- (D) The governance structure of the school, including, but not limited to, the process to be followed by the school to ensure parental involvement.
- (E) The qualifications to be met by individuals to be employed by the school.
- (F) The procedures that the school will follow to ensure the health and safety of pupils and staff. These procedures shall include the requirement that each employee of the school furnish the school with a criminal record summary as described in Section 44237.
- (G) The means by which the school will achieve a racial and ethnic balance among its pupils that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted.
- (H) Admission requirements, if applicable.
- (I) The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority.
- (J) The procedures by which pupils can be suspended or expelled.
- (K) The manner by which staff members of the charter schools will be covered by the State Teachers’ Retirement System, the Public Employees’ Retirement System, or federal social security.
- (L) The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools.
- (M) A description of the rights of any employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school.
- (N) The procedures to be followed by the charter school and the entity granting the charter to resolve disputes relating to provisions of the charter.
- (O) A declaration whether or not the charter school shall be deemed the exclusive public school employer of the employees of the charter school for purposes of Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code.
- (P) A description of the procedures to be used if the charter school closes. The procedures shall ensure a final audit of the school to determine the disposition of all assets and liabilities of the charter school, including plans for disposing of any net assets and for the maintenance and transfer of pupil records.

Charter Petition Denial and Appeal

Charter petitions that denied can be appealed. Petitions denied by a local school board can be submitted on appeal to the county board of education and petitions denied by the county board of education can be submitted on appeal to the state board of education. These provisions are found in Education Code 47605(j).

Education Code 47605(j)(1)

If the governing board of a school district denies a petition, the petitioner may elect to submit the petition for the establishment of a charter school to the county board of education. The county board of education shall review the petition pursuant to subdivision (b). If the petitioner elects to submit a petition for establishment of a charter school to the county board of education and the county board of education denies the petition, the petitioner may file a petition for establishment of a charter school with the state board, and the state board may approve the petition, in accordance with Education Code 47605(b).

Petitions to the County Board of Education

Charter petitions may be submitted directly to the County Board of Education for charter schools that propose to serve students for whom the county office of education would otherwise be responsible for serving ("county-like") or for a charter school that would offer services that could not be provided by a charter school that operates in only one school district in the county. These provisions are found in Education Code sections 47605.5 and 47605.6

Education Code 47605.5

A petition may be submitted directly to a county board of education in the same manner as set forth in Section 47605 for charter schools that will serve pupils for whom the county office of education would otherwise be responsible for providing direct education and related services. Any denial of a petition shall be subject to the same process for any other county board of education denial of a charter school petition pursuant to this part.

Education Code 47605.6

(a) (1) In addition to the authority provided by Section 47605.5, a county board of education may also approve a petition for the operation of a charter school that operates at one or more sites within the geographic boundaries of the county and that provides instructional services that are not generally provided by a county office of education. A county board of education may approve a countywide charter only if it finds, in addition to the other requirements of this section, that the educational services to be provided by the charter school will offer services to a pupil population that will benefit from those services and that cannot be served as well by a charter school that operates in only one school district in the county. A petition for the establishment of a countywide charter school pursuant to this subdivision may be circulated throughout the county by any one or more persons seeking to establish the charter school. The petition may be submitted to the county board of education for review after either of the following

Charter Renewal

The terms of a charter and charter renewal are covered in Education Code 47607. A charter may be initially granted for a period of up to five years, and may be renewed at the end of that term. Each renewal shall be for a period of five years. The California legislature has identified specific academic criteria that must be satisfied in order for a charter to be reviewed. These criteria are found in Education Code 47607(b).

Education Code 47607

(b) Commencing on January 1, 2005, or after a charter school has been in operation for four years, whichever date occurs later, a charter school shall meet at least one of the following criteria before receiving a charter renewal pursuant to paragraph (1) of subdivision (a):

(1) Attained its Academic Performance Index (API) growth target in the prior year or in two of the last three years both schoolwide and for all groups of pupils served by the charter school.

(2) Ranked in deciles 4 to 10, inclusive, on the API in the prior year or in two of the last three years.

(3) Ranked in deciles 4 to 10, inclusive, on the API for a demographically comparable school in the prior year or in two of the last three years.

(4) (A) The entity that granted the charter determines that the academic performance of the charter school is at least equal to the academic performance of the public schools that the charter school pupils would otherwise have been required to attend, as well as the academic performance of the schools in the school district in which the charter school is located, taking into account the composition of the pupil population that is served at the charter school.

(B) The determination made pursuant to this paragraph shall be based upon all of the following:

(i) Documented and clear and convincing data.

(ii) Pupil achievement data from assessments, including, but not limited to, the Standardized Testing and Reporting Program established by Article 4 (commencing with Section 60640) of Chapter 5 of Part 33 for demographically similar pupil populations in the comparison schools.

(iii) Information submitted by the charter school.
