California Department of Education: State Board Adoption of Arts Instructional Materials

At its meeting on November 3, 2021, the State Board of Education voted to approve instructional materials for the disciplines of visual arts and music. The programs, two for visual arts (grades 1–6 and K–8) and one for music (K–5), align with the 2019 *California Arts Standards for Public Schools, Kindergarten Through Grade Twelve*.

Three visual arts publishers and two music publishers submitted instructional programs for the 2021 Arts Adoption, which began on May 7, 2021. The State Board's action formalized the recommendations of the Instructional Materials Reviewers and Content Review Experts who participated in the 2021 Arts Adoption and approved by the Instructional Quality Commission at its meeting in September. The decisions are posted on the Arts Instructional Materials web page linked here.

While school districts may follow local processes for choosing instructional materials, those adopted by the State Board undergo a rigorous review by panels of educators. They offer high-quality materials designed to meet the needs of students with a wide range of abilities and can support quality arts learning in California schools and communities.
