

# 2020 Summer CyberCamps

Bay Area Community Colleges are supporting week-long summer Virtual CyberCamps in June and a month-long CyberSecurity competition in July. Camps feature five days of introductory and advanced cybersecurity training. Campers will learn about cyber hygiene, ethics, systems administration, security audits, and network forensics. Ideal Camp Candidates are: Incoming (2020-21) **6th-12th** graders with little to no cybersecurity experience.

For more information go to the Bay Cyber Regional Website: <https://www.baycyber.net/sc>

## Participating Institutions

- |                               |                                |
|-------------------------------|--------------------------------|
| Cabrillo College              | Merritt College                |
| Chabot College                | Monterey Peninsula College     |
| City College of San Francisco | Napa Valley College            |
| College of Marin              | Ohlone College                 |
| College of San Mateo          | San Jose City College          |
| Contra Costa College          | Santa Rosa Junior College      |
| De Anza College               | Solano Community College       |
| Diablo Valley College         | <b>Partner Organizations</b>   |
| Evergreen Valley College      | Contra Costa COE               |
| Foothill College              | Dublin Unified School District |
| Gavilan College               | MIT Vallejo                    |
| Hartnell                      | Marin COE                      |
| Las Positas                   |                                |
