

Building & Enhancing School-Based Health & Wellness Centers

Event Information

This professional learning community, provided in collaboration with the California School-Based Health Alliance (CSHA), supports educators in launching or improving a School-Based Health and Wellness Center (SBHC/WC) as part of the California Community Schools Partnership Program (CCSPP). Each session features a 20-30 minute group overview of key SBHC/WC concepts and strategies, followed by 60 minutes of breakout activities. One group will focus on starting a new SBHC/WC, while the other will focus on enhancing existing ones. These interactive sessions will allow for targeted learning, collaboration, and the application of concepts in real-time, ensuring that participants leave with actionable plans and strategies to implement in their schools.
