**Terminology**

**Fiscal Year** - also known as budget year is a period used by the government or businesses for accounting purposes to formulate annual financial statements and report. Any 12-month accounting period and may not end on December 31.

**Accounts Payable** – Accounts Payable or (AP) is an amount that a company needs to give to vendors for goods and services purchased on credit. It must be paid off to its creditors or suppliers within a period. Accounts payable is a liability for a company.

**Accounts Receivable** – is money due to a company for goods or services delivered or used but not yet paid by customers. Accounts Receivable is any amount of money owed by customers for purchase made on credit.

**Accrual** - Used when goods or services are received in this fiscal year (FY2021-22) and will be paid for next fiscal year (FY2022-23). An accrual can be completed when you know the goods/services have been received and the invoice will not post to the ledgers by the end of the June Preliminary ledgers.

**Accrued Expenditure**
Expenditures incurred during the accounting period that are not paid until the subsequent accounting period

**Accrued Revenue**
Revenue earned during the current accounting period that is not collected until a subsequent accounting period
Accrual – Example
TDSD orders 2 servers against PO123456 and the servers are received on 06/30/22 at 5.00 PM. Invoice from the vendor is received on July 14, 2022.

Since the goods were received in this fiscal year 2021-22, we must recognize this expense in FY2021-22. However, because the invoice will be paid next year, in (FY2022-23) we must accrue this invoice to accurately record the expense in the correct fiscal year 2021-22.

Roll-Over – The term is used to in QCC to roll transactions and create invoices in the next fiscal year. Used when goods or services will be received in the next fiscal year (FY2022-23) even though the requisition or purchase order were initiated in the previous fiscal year (FY2021-22).

****Please Note:  When a purchase order is Rolled Over into the new year (FY2022-23), the funds from fiscal year 2021/22 will not roll into the next year’s budget (FY2022-23) and will need to be re-budgeted with 2022/23 funds, unless carryover funds such as grants, local contract revenues etc. from fiscal year 2021/22 are available to cover the cost.

Rollover of Purchase Order
Purchase Order balance or a portion of the Purchase Order balance is rolled over into the new fiscal year. The expenditure is recognized in the next fiscal year.

Example:
Since the goods were received in this fiscal year 2021-22, we must recognize this expense in FY2021-22. However, because the invoice will be paid next year, in (FY2022-23) we must accrue this invoice to accurately record the expense in the correct fiscal year 2021-22.
