**Total Annual Expenditures for Current Site Plan: $133,610.00**
Form A: Planned Improvements in Student Performance

The school site council has analyzed the academic performance of all student groups and has considered the effectiveness of key elements of the instructional program for students failing to meet API and AYP growth targets. As a result, it has adopted the following school goals, related actions, and expenditures to raise the academic performance of student groups not meeting state standards:

Goal Area: English-Language Arts

Goal Title: All Students will Reach High Standards in English Language Arts by 2013-14

On the CST ELA, the percentage of students performing below proficient will decrease from 97% to 87% by June 2011. The percent of students performing at proficient or above will increase from 3% to 13%. Among English Learners and Economically disadvantaged the percentage of each of these groups performing below proficient will decrease from 99% to 89%. The percent of students in each of these groups performing at proficient or above will increase from 1% to 11%.

On the CAHSEE, the percentage of all students passing ELA in grade 10 will increase __ percentage points, from 30% to __%. Among Hispanic student, the percentage passing ELA in grade 10 will increase __ percentage points, from 27% to __%.

What data did you use to form this goal (findings from data analysis)?

The data that was used to form this goal was California Standards Test (CST).
How does this goal align to your Local Educational Agency Plan goals?
This goal is included in our Local Educational Agency plan.

What did the analysis of the data reveal that led you to this goal?

Which stakeholders were involved in analyzing data and developing this goal?
All members of the School Site Council were involved in the data analysis and the development of this goal.

Who are the focus students?
All students performing below proficient on CST ELA, English Learners and Economically Disadvantaged, at all grade levels.

What is the expected growth?
This year the percentage of students performing below the proficient level on CST ELA will decrease by 10 percentage points.

What data will be collected to measure student achievement?
Edge Assessments
California Standards Test
California High School Exit Exam

What process will you use to monitor and evaluate the data?
Performance in ELA will be monitored by routine Edge assessments and the annual CST ELA and CAHSEE.
Actions to improve achievement to exit program improvement (if applicable).

**Action Title: Increase student engagement by providing real life applications to use English Language Art skills**

**Means of Achievement: Auxiliary services for students and parents**

**Tasks:**
Hire a Job Developer at the Odyssey site to provide students with opportunities to apply English Language Art skills in the job market.

**Measures:**
Students' academic performance as measured by Edge gains assessments, CST, and CAHSEE.

**People Assigned:**
Principals  
Coordinator of Categorical and Special Projects

**Start Date:** 7/1/2011  
**Completion Date:** 6/29/2012

**Action Title:** Increase student engagement by reducing the student to staff ratio.
Form A: Planned Improvements in Student Performance

The school site council has analyzed the academic performance of all student groups and has considered the effectiveness of key elements of the instructional program for students failing to meet API and AYP growth targets. As a result, it has adopted the following school goals, related actions, and expenditures to raise the academic performance of student groups not meeting state standards.

Goal Area: Mathematics
Goal Title: All Students will Reach High Standards in Mathematics by 2013-14

By June 2011, the percentage of students performing below proficient will decrease from % to %. The percent of students performing at proficient or above will increase from % to %.

By June 2011, the percentage of English Learners and Economically disadvantaged students performing below proficient will decrease from % to %. The percent of students performing at proficient or above will increase from % to %.

What data did you use to form this goal (findings from data analysis)?

The data from the California Standards Test was used to form this goal.
Santa Clara County Office of Education School District
County Community School
CST General Mathematics
2008 to 2010 Students Percent Proficient or Above by Grade

Santa Clara County Office of Education School District
County Community School
CST General Mathematics
2010 Students Percent Proficient or Above by Grade
How does this goal align to your Local Educational Agency Plan goals?
This goal is included in our Local Educational Agency Plan.

What did the analysis of the data reveal that led you to this goal?

Which stakeholders were involved in analyzing data and developing this goal?
All of the members of the School Site Council were involved in analyzing the data and developing this goal.

Who are the focus students?
All underachieving students

What is the expected growth?
Each year all significant underachieving student subgroups will decrease by 33% the number of students performing below the proficient level as measured on the Mathematics portion of the California Standards Tests (CST). Maintaining this yearly rate of improvement will enable all students to attain a score of Proficient or better on the Mathematics portion of the CST by the year 2013-14.

What data will be collected to measure student achievement?
Students’ academic performance will improve as measured in standards aligned formative assessments

What process will you use to monitor and evaluate the data?
Progress towards this goal will be measured based on the CST results.

Actions to improve achievement to exit program improvement (if applicable).

Goal Area: English Language Development

Goal Title: All Limited English Proficient Students will become Proficient in English

The County Community school, in collaboration with the Coordinator of Multilingual Programs from the SCCOE Educational Services Department, has developed a master plan describing the English Learner (EL) program. The plan details how the County Community school will implement program policies, EL Academic plans, curriculum, assessment tools, as well as professional development.

What data did you use to form this goal (findings from data analysis)?

The results from the California English Language Development Test was used to form this goal.

---

Who are the focus students?
All underachieving students

What is the expected growth?
The number of incident reports will be reduced
Attendance rates will improve.
The numbers of students passing the California English Language Development Test will increase.
Students' academic performance will improve as measured on standards aligned formative assessments
Students' academic performance will improve as measured on the California Standards Test.
The percentage of students passing the California High School Exit Exam will increase.

What data will be collected to measure student achievement?
Incident reports
Attendance reports
CELDT
CST
CAHSEE

What process will you use to monitor and evaluate the data?
Incident reports
Attendance reports
CELDT
CST
CAHSEE

Actions to improve achievement to exit program improvement (if applicable).
Action Title: Increase Student Engagement by Providing Independent Study Opportunities

Means of Achievement: Increased educational opportunity

Tasks:
- Hire a part-time Independent Studies teacher

Measures:
- The number of incident reports will decrease
- The attendance rate will increase
- The numbers of students passing the California English Language Development Test will increase.
- Students’ academic performance will improve as measured on standards aligned formative assessments
- Students’ academic performance will improve as measured on the California Standards Test.
- The percentage of students passing the California High School Exit Exam will increase.

People Assigned:
- Director of Alternative Schools
- Principals
- Teachers
- Coordinator of Categorical and Special Projects

Start Date: 7/1/2010 Completion Date: 6/29/2012

Goal Area: Other
Goal Title: All Students will Graduate from High School

County Community Schools will reduce the percentage of students dropping out of school, and therefore, increase the percentage of students who graduate from high school. The utilization of Student Success Plans (SSPs) will help to support students in achieving graduation or its equivalency through the process of completing an educational plan to get the most from the time they are enrolled in one of the sites. Students will be given the opportunity to participate in a Credit Recovery Program to earn specific credits in courses in addition to the regular courses offered during the school day. The California High School Exit Exam (CAHSEE) is offered 3 times during the school year as well as 1 time during the summer to maximize passing rates.

What data did you use to form this goal (findings from data analysis)?

The results from the California High School Exit Exam was used to form this goal.
All underachieving students

Who are the focus students?
All underachieving students

What is the expected growth?

What data will be collected to measure student achievement?
High School Graduation Rate
Passing rate on the California High School Exit Exam (CAHSEE)

What process will you use to monitor and evaluate the data?
High School Graduation Rate
Passing rate on the California High School Exit Exam (CAHSEE)

**Total amount of categorical funds allocated to this school:** $133,610 | $133,610 | $0
Analysis of Current Educational Practice

1. Use of state and local assessments to modify instruction and improve student achievement (ESEA):

The school uses state assessments at the beginning of the school year and establishes school and grade level goals. Local benchmark assessments are used throughout the year, sites analyze trends and develop reteaching activities for students not meeting standards.

2. Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC):

The school uses regularly scheduled formative assessments on local benchmark assessments that are aligned to standards and that provide timely data on students' progress in all subjects and in the intervention programs. Results from these assessments are used to inform teachers and administrators on student placement, instructional needs and progress, and the effectiveness of instruction.

3. Status of meeting requirements for highly qualified staff (ESEA):

100% of teachers of core academic subjects qualify as Highly Qualified Teachers. All teachers of core academic subjects possess at least a bachelor's degree, hold the appropriate credential for the academic subjects they teach, and have demonstrated knowledge and competence in the subjects they teach.

4. Principals' Assembly Bill (AB) 75 training on State Board of Education (SBE) adopted instructional materials (EPC):

5. Sufficiency of credentialed teachers and teacher professional development (e.g. access to AB 466 training on SBE-adopted instructional materials) (EPC):

6. Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA):

We have a comprehensive staff development program that is aligned with our school plan goals.

7. Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC):

The district provides instructional assistance and ongoing support to teachers of all subjects and grade levels. Teachers receive professional development from content experts and work with coaches from the Educational Services branch to deepen their knowledge about the subject content and delivery of instruction.

8. Teacher collaboration by grade level (K-8) and department (9-12) (EPC):

The district facilitates and supports structured collaboration meetings in order for all teachers to analyze, discuss, and utilize the results of the local assessment system to guide student placement, instructional planning and delivery, and progress monitoring.

9. Alignment of curriculum, instruction, and materials to content and performance standards (ESEA):

The school utilizes textbooks and supplemental materials that are aligned with state standards in English language arts, mathematics, and science. Teachers use differentiated instruction to accelerate student learning in these subject areas. Student progress toward meeting state standards in English language arts, mathematics, and science is measured using a system of quarterly benchmark assessments and a summative assessment at the end of the year. These assessments are scaled in order to ensure proper monitoring of student growth throughout the year.

10. Adherence to recommended instructional minutes for reading/language arts and mathematics (K-8) (EPC):

The school complies with and monitors the daily implementation of instructional time for English language arts and math core programs, as well as additional time for strategic support and ELD for identified English Learners.

11. Lesson pacing schedule (K-8) and master schedule flexibility for sufficient numbers of intervention courses (EPC):
The district prepares, distributes, and monitors the use of the annual assessment pacing guide being used for each grade level for all subjects, including strategic support and intensive intervention reading and mathematics programs, in order for all teachers to follow a common sequence of instruction and assessment.

12. Availability of standards-based instructional materials appropriate to all student groups (ESEA):

Every student has access to standards-based instructional materials appropriate to his or her student group description, which include English Learners and Title I.

13. Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC):

The school provides universal access to the current core subject programs, and the ancillary materials for those programs. The school also provides the current intensive interventions for English language arts, ELD, and mathematics. These programs are implemented as designed and are documented to be in daily use in every classroom, with materials for every student.

14. Services provided by the regular program that enable underperforming students to meet standards (ESEA):

15. Research-based educational practices to raise student achievement at this school (ESEA):

16. Resources available from family, school, district, and community to assist under-achieving students (ESEA):

17. Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of consolidated application programs. (5 CCR 3932):

The staff and School Site Council (SSC) annually review student performance data and analyze current instructional programs to determine goals for the following school year. Services and activities designed to improve academic performance are established, and categorical funds are allocated based on the priority of the service or activity. The school continually invites the community to participate in School advisory committees to review the school plan and provide input on ways the plan can meet the needs of students.

18. Services provided by categorical funds that enable underperforming students to meet standards (ESEA):

The staff and School Site Council (SSC) annually review student performance data to determine goals for the following school year. Services and activities needed to accelerate learning among underperforming students are determined for each goal. Categorical funds are then allocated based on the priority of the service or activity. Throughout the year, the SSC monitors the spending of these funds.

19. Fiscal support (EPC):

The district’s general and categorical funds are coordinated, prioritized, and allocated to align with the full implementation of the EPCs in reading and language arts, ELD, mathematics, as specified in the Single Plan for Student Achievement.
1. Use of standards-based State Board of Education (SBE)-adopted (kindergarten through grade eight) or standards-aligned (grade nine through twelve) English/reading/language arts and mathematics instructional materials, including intensive interventions and * English Language Development materials.

2. Implementation of instructional minutes for basic core Reading/Language Arts and mathematics programs, intensive intervention and strategic support courses as well as additional instructional time for structured English Language Development at all grade levels.

3. Use of an annual district instructional/assessment pacing guide for grades K-8 and high school.

4. Implementation of School Administrator Instructional Leadership Training Program- Instructional materials based professional development and ongoing targeted professional development and support for instructional leaders to ensure the full implementation of the district adopted program and the EPCs.

5. Fully credentialed, highly qualified teachers, per the requirements of the Elementary and Secondary Education Act (ESEA) and professional development on SBE-adopted instructional materials.

6. Implementation of ongoing instructional assistance and support for R/LA, ELD and mathematics teachers through the use of content experts, specialists, and instructional coaches.

7. For all grade levels, implementation of a student achievement monitoring system that provides timely data from common formative and curriculum-embedded and summative assessments for teachers and principals to use to monitor ongoing student progress, identify student needs, inform instruction and determine effectiveness of instructional practices and implementation of the adopted programs.

8. Implementation of monthly structured teacher collaboration for all RLA/ELD and mathematics teachers by grade level (K-8) and common course and department levels (9-12) facilitated by the principal.

9. Implementation of Fiscal Support aligned to full implementation of EPCs.
