

Alternative Education Independent Study Program

For students who need
a fresh start at learning

Individualized Program

A-G College Prep and AP Honors Courses

General Education One-on-One Support

The Alternative Education Department Independent Study Program – approved by the Western Association of Schools and Colleges – provides an individualized course of study in which students utilize Edgenuity online platform to complete course work and attend class once a week to receive direct instruction, guided practice, targeted assessments, and support to earn their high school diploma.

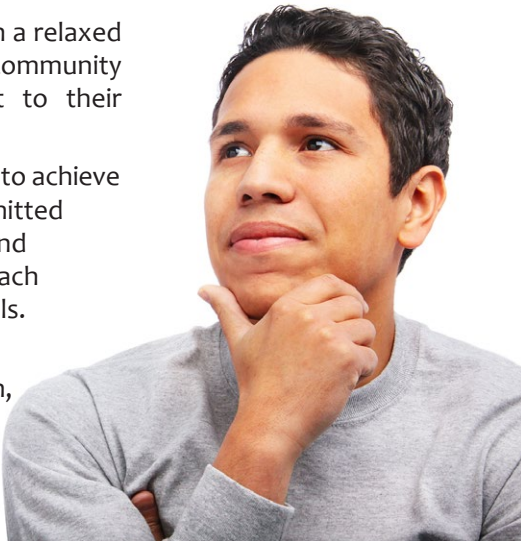

Our students need options beyond the traditional school setting. They are motivated, intelligent, and interested in navigating their own educational path and earn a California High School diploma.

Students attend their sessions in a relaxed learning environment at Sunol Community School and they can connect to their courses anywhere

Students enter into our program to achieve their full potential. We are committed to supporting individual needs and ensuring that they are able to reach their educational and career goals.

Interested in learning more?
