

## PERMISSION FOR OVER-THE-COUNTER PRODUCTS

Listed below are some common over-the-counter products that might be used for your child at school. These products have been approved by the Santa Clara County Office of Education medical consultant for use during the school day. School staff cannot apply these products without your annual written permission.

If you wish to have any additional products (not listed on this form) used during the school day, you will need to obtain written authorization from your child's personal medical doctor and provide written parent permission.
