Professional Vision

An evolving Occupational Therapist who impacts her community with its ever changing needs through service based learning, teaching and research.
In the next 5 years...

1. Create collaborative (*All IEP team members*) inclusion programs at Orchard School.

2. Evangelize the role of OT in inclusion at COE and the profession at large.

3. Pursue a doctorate in Occupational Therapy (Education and research)
Why CFL and what did I expect to accomplish?

Driven vs need

Most impactful OT interventions?

Clarity, Direction and Support

Learn by doing.
My Project

To create a model program at Orchard School District for inclusive learning using a collaborative approach
Why this topic of “Inclusion” ......after a decade of being an SCCOE Occupational Therapist??
Help create a community for the students I serve that accepts all differences by not just knowing about them but truly knowing them.

What does inclusion mean to me?

Connectedness

Positivity
What does inclusion mean in Education?

Regarding individuals with disabilities and special education, inclusion secures opportunities for students with disabilities to learn alongside their non-disabled peers in general education classrooms.
MY CFL Project Journey

1. Planning and streamlining my ideas
2. Survey of the current status of inclusion in SCCOE.
3. A model program that addresses some of the challenges involved in inclusion.
1. Discussions with my mentor – Dr. Matthew Tinsley

Invaluable insights and clarity of thoughts in streamlining my ideas.

Introduced me to several individuals in the field to deepen my knowledge on inclusion and resources.
2. Surveyed the current status of inclusion in the 165 SCCOE Classrooms
65 Respondents
~39%
Themes that Emerged from the Survey

1. 30.8% - NO direct interaction with their gen ed. Peers
2. Most inclusion happens during recess and assemblies followed by cafeteria, PE and Arts.
3. 75.4% report no effort is taken to organize inclusive activities in their sites.
Themes that Emerged from Survey

4. 33% were interested in receiving some mentoring (while 41% were unsure).
5. The largest group of the respondents were not satisfied with the current level of inclusion opportunities that their students were receiving.
Top 5 Challenges to inclusion as identified by the participants

1. **Dissimilarity** in functioning levels of students
2. General education sites not supportive
3. Stand alone sites with **no peers** in the campus
4. Don’t know how to initiate
5. **Lack** of a known method.
3. Using the survey insights and experiences gathered...

My project evolved to be

Expanding on the existing FRIENDSHIP CIRCLE program to create a model inclusive community at Orchard School
Friendship Circle

A program for middle schoolers that is universally designed for learning that ALL CHILDREN can engage and PARTICIPATE in

2018–2019 Collage Art
Playing together and having fun
Six months of gardening
Onsite Composting
Consolidating the experiences gained from:

- Two years of running Friendship Circle
- Insights into inclusion county wide through the CFL journey (Survey, inputs from experts, interviews with COE teachers)
- Information about other successful inclusion activities at SCCOE–Inclusion LCSS ’s compilation
Future/Ongoing Steps:

1. Develop an easy to adopt curriculum of Friendship Circle that is Universally Designed for Learning—Using the talents of all our COE and district staff at the site.
2. Start Best Buddies chapter at Orchard
3. Incorporating the “Changing Perspectives” curriculum wherever possible.
4. District Staff inservices on the value and curriculum standards addressed in Friendship Circle.
Inclusion challenges addressed through Friendship Circle

1. **Dissimilarity in functioning levels** – A universal design for learning for all students
2. **General education sites not supportive** – Communicate the value for ALL students.
3. **Stand alone sites with no peers in the campus** – Peers can be invited over from neighboring schools.
4. **Don’t know how to initiate** – Steps outlined in the curriculum
5. **Lack of a known method.** – Here’s one model and many more ideas put together by a one of our professional learning teams.
