2017-20 Plan Summary

THE STORY

Briefly describe the students and community and how the LEA serves them.

MISSION STATEMENT:
Evergreen Elementary School District provides all students a high quality education in a safe and nurturing environment where each student demonstrates a spirit of respect, responsibility and a commitment to academic and civic excellence.

VISION STATEMENT
Evergreen Elementary School District, in partnership with the community, will be recognized at the local, state and national level as a model for excellence in academics, arts and the sciences.

Evergreen School District has a very diverse population of 12,282 TK-8 students. There are eighteen schools; fifteen elementary and three middle schools. The ethnicity of our students are as follows: White 7.47%, Hispanic 23.99%, Filipino 7.67%, Asian 39.53%, Asian Indian 17.2%, American Indian 1.05%, Pacific Islander .65% and African American 2.15%. The significant subgroups are low income 33%, English learners 24% and foster youth <1%. Our unduplicated percentage is 39.94, per CALPADs report.

The district's Strategic School Plan is comprised of five goals that align to improved student achievement and academic success:
1. Retaining existing students and attract new students to the District.
2. Provide equitable education resources and facilities.
3. Achieve financial stability and sustainability.
4. Enhance use and integration of technology by student, teachers,staff and families.
5. Attract and retain teachers and staff, especially those with specialized credentials.

In keeping with our mission of providing all students with high quality education where each student demonstrates respect and a commitment to academic excellence, our goals have guided the district priorities, actions and allocation of resources. These goals will continue to guide our efforts to identify best practices and close achievement and opportunity gaps. Our Professional Learning Communities (PLCs) and other professional learning opportunities have helped in the identification of best practices. Our efforts of using data to drive decisions show improved outcomes for some students and areas of challenge that we intentionally have on the forefront of this plan.

The diversity of our district is an asset for our schools and communities. Students who attend schools with a diverse population can develop an understanding of the perspectives of children from different backgrounds and learn to function

in a multicultural, multi-ethnic environment. Yet, as we become more diverse, demands increase to find the most effective ways to help our students succeed academically as well as learn to get along with each other. Teachers are faced with the challenge of making instruction "culturally responsive".

All of the district's eighteen schools have been California Distinguished schools. The California Department of Education recognizes outstanding educational programs and practices. This Award was created to honor public schools since the program's inception. Most recently the California Gold Ribbon was awarded to four (Chaboya Middle School, LeyVa Middle School, Quimby Oak Middle School, Evergreen Elementary School) of our eighteen schools and the National Blue Ribbon to two (James Franklin Smith Elementary and Evergreen Elementary) schools. We are happy to be honored among the the list of prestigious recipients.

There are 900 employees in our district. Our school staffs work tirelessly to support their students. From teachers cultivating curiosity to food service staff dishing up nutritious meals, the dedication of school staff is evident! We continue to foster healthier, happier school employees who are satisfied, successful and productive at work.   School employee wellness is an important piece of the puzzle. School employee wellness means support for the physical, emotional and professional well-being of all school employees, from teachers and administrators to food service and maintenance staff. Supporting the well being of school employees will foster a culture of health among all staff in which healthy behaviors are supported and encouraged both at school and at home.

Increased need for collaboration, communication and transparency for our work is a significant driver behind change in our district. Technology plays an important role in innovation and educational design. With the increase in technological devices and mind shifts, there has been an immense wider-spread change with the implementation of innovative educational programs. The challenge is to ensure that innovation plays a constructive role in improving educational opportunities for our students. We take pride in the district wide opportunities for teachers to provide 21st Century Skill Building for students as we prepare our students for college and careers.

Parent Involvement is at an all time high. Parent engagement portrays innovation and is exemplary as it improves the quality of education for all students, boost academic achievement, and smooths the transition for students moving from elementary to secondary schools. Not only do our programs focus on core subject areas, but they also look at the importance of 21st Century skills and builds in that strand enabling parents to have access to academic language and skills that are a significantly critical for our 21st Century students. The evidence of effectiveness is obvious through our data and the participation rate. The instructors' content enable parents to become familiar with district standards as they enjoy classes tailored to meet their specific needs. Parent engagement in our district is unique because of the opportunities for parents to attend specified classes at the district level as well as attend various events at the school site.   The opportunities in which parents can participate is "cutting edge" and clearly above and beyond what is typically found in parent involvement opportunities.

LCAP HIGHLIGHTS

Identify and briefly summarize the key features of this year's LCAP.

Full-day kindergarten is a successful strategy for closing achievement gaps and encouraging success. Longitudinal data suggest that full-day kindergarten classes show greater reading and mathematics gains (Walston and West). Full-day kinder can produce long-term educational gains, especially for low-income and minority students (Education Commission of the States). Teachers have more time to get to know kids and identify and address their learning challenges early (Center for Evaluation and Education Policy). Full-Day kindergarten offers social, emotional and intellectual benefits to kindergarteners, giving them more time to focus and reflect on activities and transition between them (National Institute for Early Education Research). Parents prefer full-day kindergarten (National Center for Educational Statistics).
Social workers have now become a very viable and integral part of the district structure. They assist students and families in many ways. Social workers improve their school attendance and performance, promote positive working relationships and communication between parents/guardians and the school, complete assessments to determine students' needs,provide advocacy for children and their families, refer students to after school programs, and assist in alleviating family stress to enable the child to function more effectively in school and community. Social, emotional and behavioral support is provided through crisis intervention and crisis management. It provides short-term individual student counseling, provides group counseling for students and helps the student develop appropriate social interaction skills while connecting families with appropriate community services. Community outreach and resource development is exemplified through consulting with other community agencies, coordinating community resources, and help schools receive support from mental health agencies.

SEAL is a model of the Sobrato Family Foundation that is designed to build the capacity of preschools and elementary schools to produce engaged, confident, skilled and motivated learners. The program develops the language, literacy, and academic skills of all children, especially young English learners. SEAL provides professional development and support for teachers and educational leaders focusing on articulation, implementation, of high leverage instructional strategies, and curricular alignment with 21st Century Skills and the Common Core standards. We have implemented SEAL (Sobrato Early Academic Language) for the second year. Two of our Title 1 Schools (Holly Oak and Dove Hill) participate in this program. First year of implementation was in grades TK, K, and 1st grade and second year of implementation will be in grades 2 and 3.

Project Based Learning is a teaching method in which students gain knowledge and skills by working for an extended period of time to investigate and respond to an authentic, engaging and complex question, problem, or challenge. Essential project design elements include key knowledge, understanding and success skills, challenging problem or question, sustained inquiry, authenticity, student voice and choice, reflection, critique and revision and publication of a public product. (Buck Institute for Education)

Parent University is a series of district-offered parent workshops designed to address interests and issues concerning parents with children of all ages, backgrounds and educational status. The philosophy of the Parent University is that parenting is an ongoing and life-long process. The purpose is to offer opportunities for parents to learn about specific topics from professionals with expertise in the focus area. The workshops provide a venue for parents to meet other parents with similar interests and to share challenges and successes with others in a positive environment. Many of the classes are structured for the parent and child. We believe that when parents are learning shoulder to shoulder with their child that it can be very powerful as well as beneficial Since launching Parent University more than a decade ago, our strategy has been clear and direct. We train the families to enhance their learning curve enabling them to be more motivated to referee their scholastic life.

REVIEW OF PERFORMANCE

Based on a review of performance on the state indicators and local performance indicators included in the LCFF Evaluation Rubrics, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

GREATEST PROGRESS	Conditions of Learning Our work to increase or improve conditions of learning has been focused around expanding extended TK and Kinder programs, with anticipated full implementation for the fall of 2018. This is a key shift in our course offerings. Our Instructional Coaches, site administration, and Instruction Departments have been engaging in intentional work to drafting and development of a profile of a graduate and learning outcomes. This work has resulted in the creation of six outcomes we want for all students: Learner, Advocate, Collaborator, Communicator, Critical Thinker, and Innovator. In conjunction with the use of instructional rounds, Professional Learning Communities, and a clearer understanding of California State Standards we see instructional shifts in classrooms that are resulting in continued growth in pupil outcomes for all students, particularly for our student who are economically disadvantaged. Economically Disadvantaged Students who met or exceeded standard (growth from 2015 to 2016): ELA 68% to 76% MA 64% to 74% Pupil Outcomes Overall we saw gains in proficiency on the CAASPP. Intentional programs and services that have supported these gains include: 1 full day of release time for teacher collaboration, adoption of materials for Math and English Language Arts/English Language Development in the last two years and additional support staff of counselors and social workers. The addition of a Technology Teacher on Special Assignment has allowed for systematic training of all staff with Google App for Education and all technology resources that support classroom learning. Engagement Through the measure of YouthTruth and the Project Cornerstone Survey we see continued growth in our engagement measures. These data support not only the work in LCAP, but our Comprehensive Safe School Plans and Individual School Plans. Students are feeling connected to school and engaged in learning. Additionally, with the opening of the District Parent Resource Center at LeyVa Middle School we saw a historic number of Parent University registrations. Parent University offered the following new and improved classes 5 spanish only sessions, dads class, robotics at 3 more schools including the purchase of kits, and global competency class. Additionally, in collaboration with First 5 the Early Start Parent Resource Center was opened at Katherine Smith School.

Referring to the LCFF Evaluation Rubrics, identify any state indicator or local performance indicator for which overall performance was in the "Red" or "Orange" performance category or where the LEA received a "Not Met" or "Not Met for Two or More Years" rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

GREATEST NEEDS	While CAASPP scores show slight to moderate increases for most significant subgroups, the English learner subgroup showed slight declines. English learners who met or exceeded standard decreased from 25% to 21% in English Language Arts and from 26% to 25% in mathematics. This trend indicates a need to analyze the delivery of integrated and designated ELD instruction. The adoption of new materials for the 2016-17 school year is anticipated to assist with this effort. Presenting materials and information in a coherent and accessible form will contribute to student success. Continued professional learning with a specific focus on English learners is needed. Suspension Rate and ELA (grades 3-8) for students with disabilities showed as areas of greatest need as well. To address suspension rates for our students with disabilities, we are expanding our PBIS programs and have formed a Multi-Tier Systems of Support Committee, as funded by a grant out of Orange County Office of Education, to expand programs of support like mindfulness and preventative mental health supports.

To address ELA proficiency levels (grades 3-8) for our students with disabilities we are increasing training and use of programs like Systematic Instruction in Phoneme Awareness, Phonics, and Sight Words (SIPPS) and Dynamic Indicators of Basic Early Literacy Skills (DIBELS) to create better learning objectives and goals, expanding use of base curriculum's intervention programs, and supporting differentiated learning needs with technology and the use of accessibility tools like Google Extension ReadWrite. This tool supports speech to text, tracking, and text to speech features for students with literacy needs.

Referring to the LCFF Evaluation Rubrics, identify any state indicator for which performance for any student group was two or more performance levels below the "all student" performance. What steps is the LEA planning to take to address these performance gaps?

PERFORMANCE GAPS

State indicator: Suspension
- The "All Students" category received a performance level of 5.
- Students with disabilities (performance level 3) scored two or more performance levels below the "all student" performance

State indicator: English learner progress
- The "All Students" category received a performance level of 2.

State indicator: English Language Arts (3-8)
- The "All Students" category received a performance level of 4.
- Students with disabilities (performance level 1) scored two or more performance levels below the "all student" performance
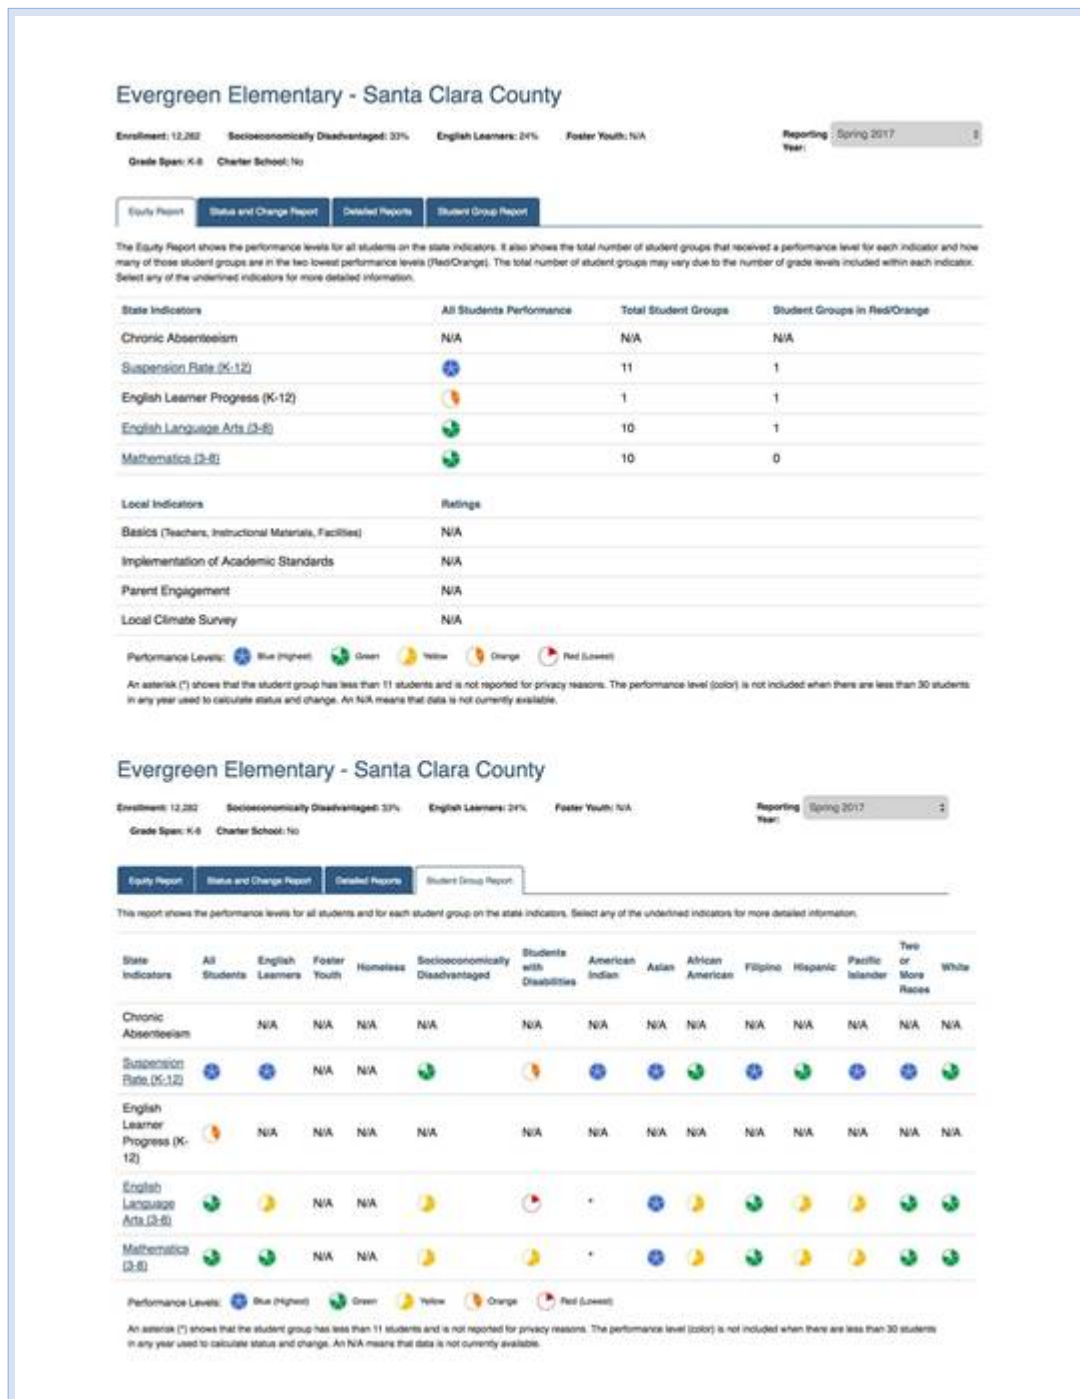

State indicator: Mathematics (3-8)
- The "All Students" category received a performance level of 4.
- All subgroups performed within 1 performance level of the "all student" group.

Evergreen School District adopted new English Language Arts and English Language Development materials for use in the 2016-17 school year. With these materials, there was a focus on professional development specifically in the area of English Language Development.

The suspension rate for students with disabilities is being addressed through strategic conversations facilitated by our Pupil Services department. Ensuring that staff have appropriate strategies for addressing specific needs ensures student success.

The ELA proficiency levels (3-8) for students with disabilities will be addressed by increasing training and use of programs like Systematic Instruction in Phoneme Awareness, Phonics, and Sight Words (SIPPS) and Dynamic Indicators of Basic Early Literacy Skills (DIBELS) to created better learning objectives and goals, expanding our use of our base curriculum's intervention programs, and supporting differentiated learning needs with technology and the use of accessibility tools like Google Extension ReadWrite. This tool supports speech to text, tracking, and text to speech features for students with literacy needs.

INCREASED OR IMPROVED SERVICES

If not previously addressed, identify the two to three most significant ways that the LEA will increase or improve services for low-income students, English learners, and foster youth.

During the 2017-2018 school year we have the following increased or improved services:

- Expansion of Sobroto Early Academic Language Program (SEAL) to Cadwallader and Montgomery Elementary Schools. This program serves to halt students from becoming Long-term English language learners.
- Creation of Career Tech Pathway program at LeyVa Middle School for English language learners and Low Income students.
- Increased targeted Mental Health Services and Mindfulness Programs through the Multi-Tier Support System (MTSS) for Foster Youth Students.

With the LCFF being 96% funded in conjunction with our local issue of declining enrollment, we are faced with the challenge of maintaining supplemental funding program at their current status. We currently spend more than the minimum funding targets. This may not technically be an increase, but these program do engage in ongoing reflection and improvement cycles to ensure that the programs are worth continuing to support student learning. Below is a summary of programs that we have protected and continue to improve through the feedback process.

During the 2016-17 school year, Evergreen School District implemented full-day (extended) kindergarten programs at 5 of 15 schools, with the expansion to 11 schools for the 17-18 school year. Full-day kindergarten is a successful strategy for closing achievement gaps and encouraging success. Longitudinal data demonstrate that children in full-day kindergarten classes show greater reading and mathematics achievement gains than those in half-day classes (Walston and West). Full-day kindergarten can produce long-term educational gains, especially for low-income and minority students (Education Commission of the States). In full-day kindergarten classrooms, teachers have more time to get to know kids and identify and address their learning challenges early— saving money and resources over the long term and increasing the odds that children will be successful later in school. Full-day kinder can produce long-term educational gains, especially for low-income and minority students (Education Commission of the States). Teachers have more time to get to know kids and identify and address their learning challenges early (Center for Evaluation and Education Policy). Full-Day kindergarten offers social, emotional and intellectual benefits to kindergarteners, giving them more time to focus and reflect on activities and transition between them (National Institute for Early Education Research). Parents prefer full-day kindergarten (National Center for Educational Statistics).

During the 2016-17 school year, Evergreen School District hired three District social workers to assist students, families and staff. Social workers have become a very viable and integral part of the district structure. They assist students and families in many ways. Social workers improve school attendance and performance, promote positive working relationships and communication between parents/guardians and the school, complete assessments to determine students' needs, provide advocacy for children and their families, refer students to after school programs, and assist in alleviating family stress to enable the child to function more effectively in school and community Social, emotional and behavioral support is provided through crisis intervention and crisis management. It provides short-term individual student counseling, provides group counseling for students and helps the student develop appropriate social interaction skills while connecting families with appropriate community services. Community outreach and resource development is exemplified through consulting with other community agencies, coordinating community resources, and help schools receive support from mental health agencies. District based social workers assist staff in many ways. Social workers provide staff with essential information to better understand factors affecting a student's performance. They participate in SST, 504 and IEP meetings to provide support, insight and strategies. These individuals support the implementation of social emotional goals for students. They provide staff with information around social-emotional learning monitor student attendance, and assist teachers with behavior management, community outreach and resource development. Additionally they make home visits to establish or expand home/school connection,coordinate support for students with school's staff and community agencies

Parent University was born out of a need to engage parents of English language learners and help them connect with schools. The program embodies innovation and is exemplary as it improves the quality of education for all students, boosts academic achievement, and smoothes the transition for students moving from elementary to secondary schools. Not only does Parent University focus on helping parents understand core subject areas and District standards, but it also addresses the importance of 21st Century Skills by offering opportunities for parents to learn academic language and skills that are critical to their ability to support our 21st Century students. The program provides "cutting edge" learning for parents and students involving them in such tasks as solving complex math problems, writing family histories, and creating movies. A few of the opportunities offered in fall, winter and spring include: Cyber Bullying: How to Protect Your Child; 21st Century Learning Skills; What are the California State Standards and Literacy Classes for Adults. The true evaluation of our Parent University Program comes from the participants themselves. Ms. Mamata stated, "The classes and workshops help me to help my children." Ms. Nguyen stated, "Now I know what my child means when she talks about Writer's Workshop!" Mr. Huynh commented, "I have signed up for all of the classes!" And, Mrs. Barragan said, "These classes really need to be much longer."

The instructional coaches in collaboration with site administrators and the Instruction Department Team have been intentionally developing a "Profile of A Graduate" in service of preparing all students with the skills they need to be career and college ready. This profile sharpens our instructional focus to support what students, particularly low income, English learners, and foster youth need. This has allowed us to deepen our work with Professional Learning Communities (Richard Dufour) (PLCs) with classroom teachers. In our PLCs teachers look at the direct impact of classroom teaching on student work and student assessments. The third piece of the work is with the practice of Instructional Rounds (Elmore, 2009). Instructional Rounds ask educators to collaboratively observe classrooms to support the observer's growth as an educator. The observer identifies the learning task and collects evidence of how the student, teacher, and content is connecting to the learning task. Creating a "Profile of a Graduate", using PLCs, and engaging in Instructional Rounds are high leverage strategies to support our students and increase rigor in our classrooms.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.	All the actions and services listed above have been actioned for the 2016-2017 except "Develop tool to monitor student proficiency and provide supports for digital citizenship." Based on our student achievement data, we saw growth in all subgroups except English learners. This year was the first year for our new English Language Arts/English Language Development Curriculum to be fully implemented. We anticipate that the supports in these materials will show in the CAASPP scores for the fall of 2017.
Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.	When we look at our CAASPP, all sub-groups saw gains in ELA and MA from 2014-2015 to 2015-2016 with the exception of English learners. Students reported increases in all areas on the YouthTruth survey about academic engagement and school climate. The areas are: Student Engagement, Academic Expectations(ES)/Academic Rigor(MS), Relevance, Instructional Methods(ES)/Relationship with Teachers(MS), Personal Relationships(ES)/Relationship with Peers(MS), Classroom Culture.
Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.	Costs for science camp were lower than expected. Work with Path to Excel was an additional $22,000. All other expenditures were with in the expected range.
Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.	We have a new strategic plan that was created with our board and community stakeholders in the fall of 2016. The 2017-2018 LCAP will have our services and actions fully aligned with the new strategic plan.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.	Overall, the actions and services in the goal were fully implemented. The committee anticipates having some recommendations for the school board in June of 2017.
Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.	In addition to the Budget Advisory Committee's 5 meetings for the 2016-2017 school year, the community had opportunities to learn about the budget and give feedback on goals and actions during LCAP consultation sessions. 62% of stakeholders that completed our survey reported being somewhat or very familiar with the budget and LCAP. The BAC will present budget planning recommendations to the Board to assist in building on strategies to develop budget stability.
Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.	There are no differences between budget expenditures and estimated actuals expenditures.
Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.	Based on the survey data and the importance of continued local control and input this goal continues to serve us well. Additionally, we will continue to look for additional revenue options via grants and community organization collaborations. Also, we have a new strategic plan that was created with our board and community stakeholders in the fall of 2016. The 2017-2018 LCAP will have our services and actions fully aligned with the new strategic plan.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.	We had our first State of the District Webinar. We reached a historic high for registration in Parent University with 848 registrations. We continued to increase the number of documents translated for our community. Acquisition of in person translation for Vietnamese Language continues to be a challenge.
Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.	• Specific additions for our communications came in the form of the first Annual Report (multi-lingual)in the fall of 2016. This was shared with our community at large as well as city, state, and national partners in education. • We continue to have growing following on Facebook. We are up to 1,224 followers. Our Facebook presence allows for a quick venue of communication as well as a great way to share "our story" in a dynamic way. • The Director of Communications has begun sending out a weekly email via School Messenger to all our families. The reception from families has been really positive and allowed for a two-way path of communication between the District Office and families. • 17 of 18 school websites have also been redesigned. • In collaboration with First 5 we have opened an Early Start Family resources center at Katherine Smith School.

- Parent University also opened a Parent Resource Center this year.

- We have continued career and college pathway collaborations through projects like: Frontload for Success, Advancing Latinx Achievement and Success (ALAS), Global Exchange Class, and San Jose State University's African American Education Summit.

- In a first for our district, we have launched a Technology at Home program with our Migrant Ed families. 49 students in grades 3-6 received a chromebook to take home for use to support learning. The students were also given accounts to Prodigy, Front Row, and Razz Kids.

- The East Side Alliance, a collaborative between the East Side Union High School District and the elementary feeder districts supports all students K-12 and was developed to provide comprehensive and continuous supports for all students as they transition between Districts.

- Developed by the East Side Alliance, the Spartan East Side Promise is essentially a guarantee of admission to East Side students that fulfill specific criteria. We are providing a pathway to admission to SJSU by clearly specifying admissions requirements and actively sharing this information with students and families at the 13 high schools in the East Side Union High School District. It is an initiative that fosters a college-going culture in San Jose schools and promises to help prepare students for admission to San Jose State University.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.	Due to limited updates and increased support services, there was a reduction in the anticipated expenditures to maintain, review and/or update materials to inform foster youth and families about educational services available. There are no other material differences between budget expenditures and estimated actual expenditures.
Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.	We have a new strategic plan that was created with our board and community stakeholders in the fall of 2016. The 2017-2018 LCAP will have our services and actions fully aligned with the new strategic plan.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.	All the actions and services from this goal were actioned. We continue to struggle to fill all substitute vacancies, but schools were still able to release teachers for collaborative work. Additionally, we will have six teachers be eligible for the clear professional credential this year.
Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.	Professional learning community (PLCs) establish an ongoing process in which educators work collaboratively in recurring cycles of collective inquiry and action research to achieve better results for the students they serve. Professional learning communities operate under the assumption that the key to improved learning for students is continuous job-embedded learning for educators. A significant portion of District professional learning time has been dedicated to PLCs. We believe that if we provide PLC training to principals and instructional coaches, then they will have the tools to engage their staffs in inquiry based professional conversations. If teachers, principals and coaches engage in inquiry based professional conversations they will be better able to meet the needs of their students so that all students will perform at high levels. With the support of the New Teacher Center, we have provided extensive training and coaching for all principals and instructional leaders. We have set a goal to train at least one teacher at each grade level at each school. To date, we have trained over 90 teacher facilitators. To date, we have had 113 substitute vacancies left unfilled this year in comparison to 116 substitute vacancies left unfilled at this same time last year.
Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.	Most actions and services are tied to personnel support services with predictable costs. As such, the material difference between budgeted expenditures and actual expenditures are minimal.
Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.	We have a new strategic plan that was created with our board and community stakeholders in the fall of 2016. The 2017-2018 LCAP will have our services and actions fully aligned with the new strategic plan.

ANALYSIS
Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.	Students report feeling more engaged at school and safe on our campuses. YouthTruth Student Engagement (GR3-6) 2014-2015 – 78th percentile nationally 2015-2016 – 85th percentile nationally 2016-2017 – 89th percentile nationally Student Engagement (GR 7-8) 2014-2015 – 40th percentile nationally 2015-2016 – 49th percentile nationally 2016-2017 – 63rd percentile nationally Our Equity Professional Learning team has been leading work with groups of staff using the book Cultural Proficiency. This included a kick of with Dr. Jeff Duncan-Andrade. Additionally, the team facilitated a board conversation on our ongoing work to better define equity and what it means in practice. Suspension rates are down across the district as well. Year/Suspension Rate 2011-2012 – 1.6 2012-2013 – 0.8 2013-2014 – 0.8 2014-2015 – 0.4
Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.	We continue to see our data show the growth we would have across all Engagement and Climate indicators. We do know that students still report feeling sad. Our mental health committee is working to build capacity in our teaching staff in the areas of mindfulness in addition to providing counselor and support services through our counselors, social workers, and marriage and family interns.
Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.	Most actions and services are tied to specific contracts or services with predictable costs. For our goal for the CAPP program there was an increased cost as a result of vendor personnel costs.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

We have a new strategic plan that was created with our Board of Trustees and community stakeholders in the fall of 2016. The 2017-2018 LCAP will have our services and actions fully aligned with the new strategic plan.

INVOLVEMENT PROCESS FOR LCAP AND ANNUAL UPDATE

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

While the Local Control and Accountability Plan (LCAP) is a 3-year plan, Evergreen School District continues to work closely with all stakeholders to update and adjust the Local Control and Accountability Plan. The Local Education Agency Plan (LEA Plan or LEAP) which includes the Title III Accountability Plan and the Single School Plan for Student Achievement (SPSA), function to share and explicitly state student outcomes and goals. The 2016 update to the LCAP specifically aligned with the Local Education Agency Plan and Single School Plans for Achievement.

2016-2017
In the fall we began our LCAP feedback by meeting with our District English Language Advisory Committee and District Advisory Committee (DELAC and DAC). We shared a fall update and gathered feedback with the following two prompts:

At school I want my child to _____.
I would like to see _____ improve.

In all we conducted 26 in person consultations. The consultations reached all stakeholders, students, staff, parents, community members, and our Board. We have 412 points of contact during these meetings.

For the third year, we also deployed a multilingual survey, and had 436 respondents to our survey across all stakeholder groups.

Lastly, we presented through a webinar, which had 189 views.

As we look forward, we see site based consultation result in the highest participation. Additionally, we hope that the executive summary will help to support a deeper understanding of our funding and the LCAP.

.	Multilingual Survey	Webinar	In Person Consultation	Total
2014-2015	491	0	159	650
2015-2016	679	31	184	894
2016-2017	436	189	412	1037

Our yearly update began in October at the DELAC and DAC join meeting. In early January 2017 a broad LCAP survey was sent via social media and e-mailed to Evergreen stakeholders. During the survey window of January 6, 2017 to February 28, 2017, 258 parents, 99 teachers, 32 classified staff, 6 administrators, 6 students, and 13 'other' participated in the survey. In the survey, respondents rated how strongly they felt on 27 LCAP components including: My child/student takes pride in his/her work, I am aware of opportunities to learn more about the District budget, I understand the academic expectations for my child/student, our family feels/I feel valued by our school/district and I feel welcome at my child's school. Respondents also had the opportunity to request a personal call back in the survey. 36 calls/e-mail requests were made and responded to by the Assistant Superintendent, Dan Deguara.

All 18 school principals discussed the LCAP document and solicited feedback for the LCAP from their school site councils/parent groups. Presentations and feedback sessions were held for the following district advisory groups: District English Language Advisory Committee, Parent Advisory Committee, District Advisory Committee, and Migrant Education Parent Advisory. A feedback and information meeting were held with CSEA on 1/24/17 with 17 staff in attendance. A feedback and information meeting were held with ETA 12/13/16 on with 27 staff in attendance. Please see our LCAP Appendices for detailed outreach data.

Date of Public Hearing: May 11, 2017
Date of Approval: June 8, 2017

After significant work by the LCAP writing team to digest and summarize community input, a summary of suggested revisions was presented to the DELAC and DAC February 15, 2017 and the Board of Trustees on May 11, 2017.

Superintendent Kathy Gomez responded publicly to questions from the DELAC and DAC as required on February 15, 2017. All input was synthesized and incorporated into the final draft which was presented to the Evergreen School Board of Trustees on May 11, 2017 when the Board held a Public Hearing. The 2017 LCAP update was recommended to the Board of Trustees for approval on June 8, 2017.

IMPACT ON LCAP AND ANNUAL UPDATE

How did these consultations impact the LCAP for the upcoming year?

2017-2018 Feedback Themes are listed below. Starred themes indicate included in LCAP.
- Visual and Performing Arts and PE Programs
- Enrichment and afterschool programs
- Opportunities for Parent Involvement*
- School counselors and other mental health supports*
- Planning time for teachers*
- Tech support at all sites and more technology
- Programs and resources to support English language learners
- PBL/STEM Instruction and resources for students
- Smaller class sizes
- Improvement of school lunches
- Opportunities for students to become more confident communicators and collaborators
- Intervention programs*
- Salary Increase*

Additionally, based on feedback from our survey, those who took the survey have a greater awareness and understanding of the LCFF and LCAP.
Parents surveyed who reported being somewhat to very familiar with LCAP:
14-15   32%
15-16   47%
16-17   62%

In the Fall of 2016, stakeholder groups identified student outcomes that aligned with the district strategic plan goals and the eight state priorities. The LCAP writing team synthesized the input into student outcomes that would become the focus of the LCAP. The stakeholder groups provided feedback on the actions and services for students that were considered on the LCAP. The services and actions were reviewed for alignment to student outcomes, ability to be analyzed with metric/data, viability based on research, and then prioritized.

LCAP writing team aligned services and actions addressing the needs of all students with additional services and actions specific to our significant subgroups: English learners, reclassified English learners, students with disabilities, low income, and Foster Youth. These student outcomes, actions and services are equal in priority and not listed under the goal in any priority of need or importance. In 2016-17, not all actions and services from the stakeholder groups met the criteria to be included in the plan.

District leadership and the LCAP writing team determined that the 2016-17 District LCAP goals would be updated to align with the Evergreen School District Strategic Plan created in the Fall 2016. The Strategic Plan will be updated in August 2017 through a committee of district and community stakeholders. Should adjustments to the goals during this process take place, they will be incorporated in the LCAP at a future update.

Identified Need

We have seen a 400+ enrollment drop in students and anticipate this trend to continue for three more years. The retention of and recruitment of students is realized through fostering a caring school climate, authentic learning that prepares students with the skills to be global minded citizens, responsive and enriching programming, and academic rigor. To ensure this happens we need to:

- be digitally competent to be college and career ready.
- be learners, collaborators, critical thinkers, communicators, innovators, and advocates.
- demonstrate a mastery of CCSS literacy and mathematical foundational skills and apply them to real world experiences.
- be actively engaged in learning and motivated to do well in school.
- feel and be safe at school and travel safely to and from school.
- be resilient and able to adapt to changes.
- feel welcomed, respected, and valued to be engaged academically.
- be physically, socially, and emotionally healthy and well nourished so they can focus on learning and be connected to their school.

Identified Need

Through 2017-18 strategic plan work a working definition of equity was established: Equity at its core is giving each student what he or she needs to meet academic standards and to be socially/emotionally ready for learning.

In alignment with our CAASSP results and specifically our sub-group scores, we recognize that we continue to underserve students in the sub-groups of ELL, SWD, Econ. Dis., Hispanics, and African American. As such, we are committed to equitable distribution of programs and services to better meet the needs of our students.

To this end:

- students need specific instructional support to reach expected outcomes.
- schools need flexibility to make local decisions in local context in relationship to our broader learning community.
- parents need strong pathways of communication (district to family, school to family, teacher to family) as well as enhance opportunities to connect with their children both socially and academically.
- staff need opportunities for professional development that build capacity around support for strong pedagogical practices, English language learners and culturally responsive instruction. Professional learning communities and instructional rounds assist in building this capacity.

Identified Need

We have experienced a shortage of special education, math, science, school psychologists, language, dual immersion, and electives teachers.
Teachers with these qualifications will help the district:
To provide high quality instruction and learning opportunities to prepare every student to graduate ready for college or career.
To provide collaborative instructional planning time to develop high quality lessons and learning experiences for students.

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year ☒ 2017–18 ☐ 2018–19 ☐ 2019–20

Estimated Supplemental and Concentration Grant Funds: $7,158,208   Percentage to Increase or Improve Services: 8.18%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds (see instructions).

Evergreen School District believes that a strong instructional program is the entry point for supporting all students – especially at risk students. For this reason, Evergreen has chosen to use the majority of its proportionate share of the total LCFF increase ($8 million supplemental funds for the current LCAP year) to strengthen core instructional programs. In line with Evergreen School District's core vision and goals, Evergreen will offer a variety of programs and supports specifically for English learners, low-income students and foster youth.

The District is providing services that exceed the required supplemental expenditures (Refer to Section 2 for specific details and expenses). In addition to service and actions for all students identified in Section 2 of the District's Local Control and Accountability Plan, the following service and actions for low income, foster youth and English learner pupils will be provided districtwide:

- For low income pupils, additional intervention programs will be provided for students who do not make expected progress. Summer school learning opportunities will be provided for at-risk pupils. For example, Career Tech Education summer school, use of programs like Frontrow, SIPPs.
- The interventions/programs provided will ensure that the students will be immersed in on-going rigorous instruction to prevent gaps in learning and impact student potential and learning capabilities.

- For English learners, para-professional staff will provide supplemental instruction to students. Additional intervention programs will be provided for students who do not make expected progress. Additionally, supplemental materials will be provided to specific students as appropriate.
- These services for English language learners will enable students to feel capable in participating with the English Only peers and increase their academic language. they will also build their leadership capacity as well as enhance language development and aquisition.
- For foster youth, the district will provide individual outreach to families to coordinate services and will provide intervention if necessary. For example our Social Workers make contact to coordinate services for the student and family, including student participation in all districtwide Parent University classes like 21st Century Whole Child, Whole Family series.
- Our foster youth interventions will help provide a low stress school environment. We are hopeful that we will relieve students of emotional and psychological trauma that is very difficult to overcome. Additionally, students will become empowered and feel more confident in their school environment. Our work will provide a stable emotional, social, and educational foundation.

PART B
Evergreen Elementary School District:
The increase in proportionality for English learners, low income students and Foster Youth is 8.18%

The District's unduplicated count is 4,512 resulting in $7,158,208 for target supplemental grant funding.

Quantitatively - The expenditure of LCFF funds for additional personnel, materials or services targeted primarily to unduplicated students as detailed in 3A, provides services above and beyond those provided for all students.

- For low income pupils, additional intervention programs will be provided for students who do not make expected progress. Summer school learning opportunities will be provided for at-risk pupils.
- For English learners, para-professional staff will provide supplemental instruction to students in conjunction with teachers. Additional intervention programs will be provided for students who do not make expected progress. Additionally, supplemental materials will be provided to specific students as appropriate.
- Provide supplemental materials specific to the needs of students.
- For Foster Youth, the District will provide individual outreach to families to coordinate services and will provide intervention if necessary.

Qualitatively – The following additional services will be provided for unduplicated students, with no additional cost:

- Enhanced opportunities for parent engagement.

In order to ensure equity, we recognize the need to improve and expand services for our students in need. Consistent with our vision and goals, the actions and services described are designed specifically to increase achievement for English learners, low income students, and Foster Youth.

Specific actions to support these key areas include, but are not limited to:

- Continuation and improvement of intervention programs
- Implementation of English Language Development (ELD) standards through the utilization of newly adopted ELA/ELD materials and the purchase of supplemental ELD materials (expository)
- Integrated ELD and Designated ELD will be provided to all English learners
- Interventions provided to students are based on the needs of the targeted subgroups at the sites.
- Professional development related to instructional strategies (i.e. SEAL program)
- Continue to strengthen the Parent University Program. Expand Parent University to include a Resource Center to further provide resources for parents who are not able to attend evening classes.

The center will also provide:

- Literacy Alive Classes for parents
- Information and referral services
- Health and Nutrition
- Behavioral, Health and Physical Screenings
- Leadership and advocacy opportunities for parents
- Resources to assist parents with the whole child development(books, pamphlets, online access)
- Instructional Coaches will provide support to teachers on best practices for English learners and Low Income students.
- District continuing collaborative work with teachers and classified to craft a relevant and meaningful Professional Learning structure that will enhance the work for teachers to meet the needs of ELs, Low Income Students and Foster Youth.(Our Curriculum and Instruction Team)
- Families will be provided increased access to counseling services as needed.
LEA Wide Services:

Supplemental allocations for local site funds, technology, and interventions are allocated LEA Wide, but distributed equitable based on individual school unduplicated counts.

Also, many LEA wide supplemental funded services are provided by one or a very small team of staff. This requires the staff to work across all schools and work with targeted students in our unduplicated categories. For example our counselors, may work 1/2 a day at a school with a smaller unduplicated count and spend the rest of the week at a specific school with a higher level of students in the unduplicated category.

Please note: Any funding that is connected with personnel includes salary and benefits.

Revised Local Control and Accountability Plan and Annual Update Template Instructions

[Addendum](#)

The Local Control and Accountability Plan (LCAP) and Annual Update Template documents and communicates local educational agencies' (LEAs) actions and expenditures to support student outcomes and overall performance. For school districts and county offices of education, the LCAP is a three-year plan which is reviewed and updated in the second and third years of the plan. Charter schools may complete the LCAP to align with the term of the charter school's budget, typically one year, which is submitted to the school's authorizer. The LCAP and Annual Update Template must be completed by all LEAs each year.

For school districts, the LCAP must describe, for the school district and each school within the district, goals and specific actions to achieve those goals for all students and each student group identified by the Local Control Funding Formula (LCFF) (ethnic, socioeconomically disadvantaged, English learners, foster youth, pupils with disabilities, and homeless youth), for each of the state priorities and any locally identified priorities.

For county offices of education, the LCAP must describe, for each county office of education-operated school and program, goals and specific actions to achieve those goals for all students and each LCFF student group funded through the county office of education (students attending juvenile court schools, on probation or parole, or expelled under certain conditions) for each of the state priorities and any locally identified priorities. School districts and county offices of education may additionally coordinate and describe in their LCAPs services funded by a school district that are provided to students attending county-operated schools and programs, including special education programs.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in Education Code (EC) sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

Charter schools must describe goals and specific actions to achieve those goals for all students and each LCFF subgroup of students including students with disabilities and homeless youth, for each of the state priorities that apply for the grade levels served or the nature of the program operated by the charter school, and any locally identified priorities. For charter schools, the inclusion and description of goals for state priorities in the LCAP may be modified to meet the grade levels served and the nature of the programs provided, including modifications to reflect only the statutory requirements explicitly applicable to charter schools in the Education Code. Changes in LCAP goals and actions/services for charter schools that result from the annual update process do not necessarily constitute a material revision to the school's charter petition.

For questions related to specific sections of the template, please see instructions below:

Instructions: Linked Table of Contents

For additional questions or technical assistance related to completion of the LCAP template, please contact the local county office of education, or the CDE's Local Agency Systems Support Office at: 916-319-0809 or by email at: lcff@cde.ca.gov.

Plan Summary

The LCAP is intended to reflect an LEA's annual goals, actions, services and expenditures within a fixed three-year planning cycle. LEAs must include a plan summary for the LCAP each year.

When developing the LCAP, mark the appropriate LCAP year, and address the prompts provided in these sections. When developing the LCAP in year 2 or year 3, mark the appropriate LCAP year and replace the previous summary information with information relevant to the current year LCAP.

In this section, briefly address the prompts provided. These prompts are not limits. LEAs may include information regarding local program(s), community demographics, and the overall vision of the LEA. LEAs may also attach documents (e.g., the LCFF Evaluation Rubrics data reports) if desired and/or include charts illustrating goals, planned outcomes, actual outcomes, or related planned and actual expenditures.

An LEA may use an alternative format for the plan summary as long as it includes the information specified in each prompt and the budget summary table.

The reference to LCFF Evaluation Rubrics means the evaluation rubrics adopted by the State Board of Education under *EC* Section 52064.5.

Budget Summary

The LEA must complete the LCAP Budget Summary table as follows:

- **Total LEA General Fund Budget Expenditures for the LCAP Year**: This amount is the LEA's total budgeted General Fund expenditures for the LCAP year. The LCAP year means the fiscal year for which an LCAP is adopted or updated by July 1. The General Fund is the main operating fund of the LEA and accounts for all activities not accounted for in another fund. All activities are reported in the General Fund unless there is a compelling reason to account for an activity in another fund. For further information please refer to the *California School Accounting Manual (http://www.cde.ca.gov/fg/ac/sa/)*. (Note: For some charter schools that follow governmental fund accounting, this amount is the total budgeted expenditures in the Charter Schools Special Revenue Fund. For charter schools that follow the not-for-profit accounting model, this amount is total budgeted expenses, such as those budgeted in the Charter Schools Enterprise Fund.)

- **Total Funds Budgeted for Planned Actions/Services to Meet the Goals in the LCAP for the LCAP Year:** This amount is the total of the budgeted expenditures associated with the actions/services included for the LCAP year from all sources of funds, as reflected in the LCAP. To the extent actions/services and/or expenditures are listed in the LCAP under more than one goal, the expenditures should be counted only once.

- **Description of any use(s) of the General Fund Budget Expenditures specified above for the LCAP year not included in the LCAP:** Briefly describe expenditures included in total General Fund Expenditures that are not included in the total funds budgeted for planned actions/services for

the LCAP year. (Note: The total funds budgeted for planned actions/services may include funds other than general fund expenditures.)

- **Total Projected LCFF Revenues for LCAP Year:** This amount is the total amount of LCFF funding the LEA estimates it will receive pursuant to *EC* sections 42238.02 (for school districts and charter schools) and 2574 (for county offices of education), as implemented by *EC* sections 42238.03 and 2575 for the LCAP year respectively.

Annual Update

The planned goals, expected outcomes, actions/services, and budgeted expenditures must be copied verbatim from the previous year's* approved LCAP. Minor typographical errors may be corrected.

> * For example, for LCAP year 2017/18 of the 2017/18 – 2019/20 LCAP, review the goals in the 2016/17 LCAP. Moving forward, review the goals from the most recent LCAP year. For example, LCAP year 2020/21 will review goals from the 2019/20 LCAP year, which is the last year of the 2017/18 – 2019/20 LCAP.

Annual Measurable Outcomes

> For each goal in the prior year, identify and review the actual measurable outcomes as compared to the expected annual measurable outcomes identified in the prior year for the goal.

Actions/Services

> Identify the planned Actions/Services and the budgeted expenditures to implement these actions toward achieving the described goal. Identify the **actual** actions/services implemented to meet the described goal and the estimated actual annual expenditures to implement the actions/services. As applicable, identify any changes to the students or student groups served, or to the planned location of the actions/services provided.

Analysis

> Using actual annual measurable outcome data, including data from the LCFF Evaluation Rubrics, analyze whether the planned actions/services were effective in achieving the goal. Respond to the prompts as instructed.
>
> - Describe the overall implementation of the actions/services to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process.
>
> - Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.
>
> - Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures. Minor variances in expenditures or a dollar-for-dollar accounting is not required.
>
> - Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the data provided in the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Stakeholder Engagement

Meaningful engagement of parents, students, and other stakeholders, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Education Code identifies the minimum consultation requirements for school districts and county offices of education as consulting with teachers, principals, administrators, other school personnel, local bargaining units of the school district, parents, and pupils in developing the LCAP. Education Code requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and pupils in developing the LCAP. In addition, Education Code Section 48985 specifies the requirements for the translation of notices, reports, statements, or records sent to a parent or guardian.

The LCAP should be shared with, and LEAs should request input from, school site-level advisory groups, as applicable (e.g., school site councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between school-site and district-level goals and actions. An LEA may incorporate or reference actions described in other plans that are being undertaken to meet specific goals.

Instructions: The stakeholder engagement process is an ongoing, annual process. The requirements for this section are the same for each year of a three-year LCAP. When developing the LCAP, mark the appropriate LCAP year, and describe the stakeholder engagement process used to develop the LCAP and Annual Update. When developing the LCAP in year 2 or year 3, mark the appropriate LCAP year and replace the previous stakeholder narrative(s) and describe the stakeholder engagement process used to develop the current year LCAP and Annual Update.

School districts and county offices of education: Describe the process used to consult with the Parent Advisory Committee, the English Learner Parent Advisory Committee, parents, students, school personnel, the LEA's local bargaining units, and the community to inform the development of the LCAP and the annual review and analysis for the indicated LCAP year.

Charter schools: Describe the process used to consult with teachers, principals, administrators, other school personnel, parents, and students to inform the development of the LCAP and the annual review and analysis for the indicated LCAP year.

Describe how the consultation process impacted the development of the LCAP and annual update for the indicated LCAP year, including the goals, actions, services, and expenditures.

Goals, Actions, and Services

LEAs must include a description of the annual goals, for all students and each LCFF identified group of students, to be achieved for each state priority as applicable to type of LEA. An LEA may also include additional local priorities. This section shall also include a description of the specific planned actions an LEA will take to meet the identified goals, and a description of the expenditures required to implement the specific actions.

School districts and county offices of education: The LCAP is a three-year plan, which is reviewed and updated annually, as required.

Charter schools: The number of years addressed in the LCAP may align with the term of the charter schools budget, typically one year, which is submitted to the school's authorizer. If year 2 and/or year 3 is not applicable, charter schools must specify as such.

New, Modified, Unchanged

As part of the LCAP development process, which includes the annual update and stakeholder engagement, indicate if the goal, identified need, related state and/or local priorities, and/or expected annual measurable outcomes for the current LCAP year or future LCAP years are modified or unchanged from the previous year's LCAP; or, specify if the goal is new.

Goal

State the goal. LEAs may number the goals using the "Goal #" box for ease of reference. A goal is a broad statement that describes the desired result to which all actions/services are directed. A goal answers the question: What is the LEA seeking to achieve?

Related State and/or Local Priorities

Identify the state and/or local priorities addressed by the goal by placing a check mark next to the applicable priority or priorities. The LCAP must include goals that address each of the state priorities, as applicable to the type of LEA, and any additional local priorities; however, one goal may address multiple priorities. (Link to State Priorities)

Identified Need

Describe the needs that led to establishing the goal. The identified needs may be based on quantitative or qualitative information, including, but not limited to, results of the annual update process or performance data from the LCFF Evaluation Rubrics, as applicable.

Expected Annual Measurable Outcomes

For each LCAP year, identify the metric(s) or indicator(s) that the LEA will use to track progress toward the expected outcomes. LEAs may identify metrics for specific student groups. Include in the baseline column the most recent data associated with this metric or indicator available at the time of adoption of the LCAP for the first year of the three-year plan. The most recent data associated with a metric or indicator includes data as reported in the annual update of the LCAP year immediately preceding the three-year plan, as applicable. The baseline data shall remain unchanged throughout the three-year LCAP. In the subsequent year columns, identify the progress to be made in each year of the three-year cycle of the LCAP. Consider how expected outcomes in any given year are related to the expected outcomes for subsequent years.

The metrics may be quantitative or qualitative, but at minimum an LEA must use the applicable required metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. For the student engagement priority metrics, as applicable, LEAs must calculate the rates as described in the LCAP Template Appendix, sections (a) through (d).

Planned Actions/Services

For each action/service, the LEA must complete either the section "For Actions/Services not contributing to meeting Increased or Improved Services Requirement" or the section "For Actions/Services Contributing to Meeting the Increased or Improved Services Requirement." The LEA shall not complete both sections for a single action.

For Actions/Services Not Contributing to Meeting the Increased or Improved Services Requirement

Students to be Served

The "Students to be Served" box is to be completed for all actions/services except for those which are included by the LEA as contributing to meeting the requirement to increase or improve services for unduplicated students. Indicate in this box which students will benefit from the actions/services by checking "All", "Students with Disabilities", or "Specific Student Group(s)". If "Specific Student Group(s)" is checked, identify the specific student group(s) as appropriate.

Location(s)

Identify the location where the action/services will be provided. If the services are provided to all schools within the LEA, the LEA must indicate "All Schools". If the services are provided to specific schools within the LEA or specific grade spans only, the LEA must mark "Specific Schools" or "Specific Grade Spans". Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.

Charter schools operating more than one site, authorized within the same charter petition, may choose to distinguish between sites by selecting "Specific Schools" and identify the site(s) where the actions/services will be provided. For charter schools operating only one site, "All Schools" and "Specific Schools" may be synonymous and, therefore, either would be appropriate. Charter schools may use either term provided they are used in a consistent manner through the LCAP.

For Actions/Services Contributing to Meeting the Increased or Improved Services Requirement:

Students to be Served

For any action/service contributing to the LEA's overall demonstration that it has increased or improved services for unduplicated students above what is provided to all students (see Demonstration of Increased or Improved Services for Unduplicated Students section, below), the LEA must identify the unduplicated student group(s) being served.

Scope of Service

For each action/service contributing to meeting the increased or improved services requirement, identify scope of service by indicating "LEA-wide", "Schoolwide", or "Limited to Unduplicated Student Group(s)". The LEA must select one of the following three options:

- If the action/service is being funded and provided to upgrade the entire educational program of the LEA, place a check mark next to "LEA-wide."

- If the action/service is being funded and provided to upgrade the entire educational program of a particular school or schools, place a check mark next to "schoolwide".

- If the action/service being funded and provided is limited to the unduplicated students identified in "Students to be Served", place a check mark next to "Limited to Student Groups".

For charter schools and single-school school districts, "LEA-wide" and "Schoolwide" may be synonymous and, therefore, either would be appropriate. For charter schools operating multiple schools (determined by a unique CDS code) under a single charter, use "LEA-wide" to refer to all schools under the charter and use "Schoolwide" to refer to a single school authorized within the same charter petition. Charter schools operating a single school may use "LEA-wide" or "Schoolwide" provided these terms are used in a consistent manner through the LCAP.

Location(s)

Identify the location where the action/services will be provided. If the services are provided to all schools within the LEA, the LEA must indicate "All Schools". If the services are provided to specific schools within the LEA or specific grade spans only, the LEA must mark "Specific Schools" or "Specific Grade Spans". Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.

Charter schools operating more than one site, authorized within the same charter petition, may choose to distinguish between sites by selecting "Specific Schools" and identify the site(s) where the actions/services will be provided. For charter schools operating only one site, "All Schools" and "Specific Schools" may be synonymous and, therefore, either would be appropriate. Charter schools may use either term provided they are used in a consistent manner through the LCAP.

Actions/Services

For each LCAP year, identify the actions to be performed and services provided to meet the described goal. Actions and services that are implemented to achieve the identified goal may be grouped together. LEAs may number the action/service using the "Action #" box for ease of reference.

New/Modified/Unchanged:

- Check "New" if the action/service is being added in any of the three years of the LCAP to meet the articulated goal.

- Check "Modified" if the action/service was included to meet an articulated goal and has been changed or modified in any way from the prior year description.

- Check "Unchanged" if the action/service was included to meet an articulated goal and has not been changed or modified in any way from the prior year description.

  - If a planned action/service is anticipated to remain unchanged for the duration of the plan, an LEA may check "Unchanged" and leave the subsequent year columns blank rather than having to copy/paste the action/service into the subsequent year columns. Budgeted expenditures may be treated in the same way as applicable.

Note: The goal from the prior year may or may not be included in the current three-year LCAP. For example, when developing year 1 of the LCAP, the goals articulated in year 3 of the preceding three-year LCAP will be from the prior year.

Charter schools may complete the LCAP to align with the term of the charter school's budget that is submitted to the school's authorizer. Accordingly, a charter school submitting a one-year budget to its authorizer may choose not to complete the year 2 and year 3 portions of the Goals, Actions, and

Services section of the template. If year 2 and/or year 3 is not applicable, charter schools must specify as such.

Budgeted Expenditures

For each action/service, list and describe budgeted expenditures for each school year to implement these actions, including where those expenditures can be found in the LEA's budget. The LEA must reference all fund sources for each proposed expenditure. Expenditures must be classified using the California School Accounting Manual as required by *Education Code* sections 52061, 52067, and 47606.5.

Expenditures that are included more than once in an LCAP must be indicated as a duplicated expenditure and include a reference to the goal and action/service where the expenditure first appears in the LCAP.

If a county superintendent of schools has jurisdiction over a single school district, and chooses to complete a single LCAP, the LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted expenditures are aligned.

Demonstration of Increased or Improved Services for Unduplicated Students

This section must be completed for each LCAP year. When developing the LCAP in year 2 or year 3, copy the Demonstration of Increased or Improved Services for Unduplicated Students table and mark the appropriate LCAP year. Using the copy of the table, complete the table as required for the current year LCAP. Retain all prior year tables for this section for each of the three years within the LCAP.

Estimated Supplemental and Concentration Grant Funds

Identify the amount of funds in the LCAP year calculated on the basis of the number and concentration of low income, foster youth, and English learner students as determined pursuant to 5 *CCR* 15496(a)(5).

Percentage to Increase or Improve Services

Identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* 15496(a)(7).

Consistent with the requirements of 5 *CCR* 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. This description must address how the action(s)/service(s) limited for one or more unduplicated student group(s), and any schoolwide or districtwide action(s)/service(s) supported by the appropriate description, taken together, result in the required proportional increase or improvement in services for unduplicated pupils.

If the overall increased or improved services include any actions/services being funded and provided on a schoolwide or districtwide basis, identify each action/service and include the required descriptions supporting each action/service as follows.

For those services being provided on an LEA-wide basis:

- For school districts with an unduplicated pupil percentage of 55% or more, and for charter schools and county offices of education: Describe how these services are **principally directed to** and **effective in** meeting its goals for unduplicated pupils in the state and any local priorities.

- For school districts with an unduplicated pupil percentage of less than 55%: Describe how these services are **principally directed to** and **effective in** meeting its goals for unduplicated pupils in the state and any local priorities**.** Also describe how the services are **the most effective use of the funds to** meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience or educational theory.

For school districts only, identify in the description those services being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis:

- For schools with 40% or more enrollment of unduplicated pupils: Describe how these services are **principally directed to** and **effective in** meeting its goals for its unduplicated pupils in the state and any local priorities.

- For school districts expending funds on a schoolwide basis at a school with less than 40% enrollment of unduplicated pupils: Describe how these services are **principally directed to** and how the services are **the most effective use of the funds to** meet its goals for English learners, low income students and foster youth, in the state and any local priorities.

State Priorities

Priority 1: Basic Services addresses the degree to which:
  A. Teachers in the LEA are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
  B. Pupils in the school district have sufficient access to the standards-aligned instructional materials; and
  C. School facilities are maintained in good repair.

Priority 2: Implementation of State Standards addresses:
  A. The implementation of state board adopted academic content and performance standards for all students, which are:
      a. English Language Arts – Common Core State Standards for English Language Arts
      b. Mathematics – Common Core State Standards for Mathematics
      c. English Language Development
      d. Career Technical Education
      e. Health Education Content Standards
      f. History-Social Science
      g. Model School Library Standards
      h. Physical Education Model Content Standards
      i. Next Generation Science Standards
      j. Visual and Performing Arts
      k. World Language; and
  B. How the programs and services will enable English learners to access the CCSS and the ELD standards for purposes of gaining academic content knowledge and English language proficiency.

Priority 3: Parental Involvement addresses:
  A. The efforts the school district makes to seek parent input in making decisions for the school district and each individual school site;
  B. How the school district will promote parental participation in programs for unduplicated pupils; and
  C. How the school district will promote parental participation in programs for individuals with exceptional needs.

Priority 4: Pupil Achievement as measured by all of the following, as applicable:
  A. Statewide assessments;
  B. The Academic Performance Index;
  C. The percentage of pupils who have successfully completed courses that satisfy UC or CSU entrance requirements, or programs of study that align with state board approved career technical educational standards and framework;
  D. The percentage of English learner pupils who make progress toward English proficiency as measured by the CELDT;
  E. The English learner reclassification rate;
  F. The percentage of pupils who have passed an advanced placement examination with a score of 3 or higher; and
  G. The percentage of pupils who participate in, and demonstrate college preparedness pursuant to, the Early Assessment Program, or any subsequent assessment of college preparedness.

Priority 5: Pupil Engagement as measured by all of the following, as applicable:
  A. School attendance rates;
  B. Chronic absenteeism rates;

    C. Middle school dropout rates;
    D. High school dropout rates; and
    E. High school graduation rates;

Priority 6: School Climate as measured by all of the following, as applicable:
    A. Pupil suspension rates;
    B. Pupil expulsion rates; and
    C. Other local measures, including surveys of pupils, parents, and teachers on the sense of safety and school connectedness.

Priority 7: Course Access addresses the extent to which pupils have access to and are enrolled in:
    A. S broad course of study including courses described under Sections 51210 and 51220(a)-(i), as applicable;
    B. Programs and services developed and provided to unduplicated pupils; and
    C. Programs and services developed and provided to individuals with exceptional needs.

Priority 8: Pupil Outcomes addresses pupil outcomes, if available, for courses described under Sections 51210 and 51220(a)-(i), as applicable.

Priority 9: Coordination of Instruction of Expelled Pupils (COE Only) addresses how the county superintendent of schools will coordinate instruction of expelled pupils

Priority 10. Coordination of Services for Foster Youth (COE Only) addresses how the county superintendent of schools will coordinate services for foster children, including:
    A. Working with the county child welfare agency to minimize changes in school placement
    B. Providing education-related information to the county child welfare agency to assist in the delivery of services to foster children, including educational status and progress information that is required to be included in court reports;
    C. Responding to requests from the juvenile court for information and working with the juvenile court to ensure the delivery and coordination of necessary educational services; and
    D. Establishing a mechanism for the efficient expeditious transfer of health and education records and the health and education passport.

Local Priorities address:
    A. Local priority goals; and
    B. Methods for measuring progress toward local goals.

APPENDIX A: PRIORITIES 5 AND 6 RATE CALCULATION INSTRUCTIONS

For the purposes of completing the LCAP in reference to the state priorities under *Education Code* sections 52060 and 52066, as applicable to type of LEA, the following shall apply:

(a) "Chronic absenteeism rate" shall be calculated as follows:

    (1) The number of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 – June 30) who are chronically absent where "chronic absentee" means a pupil who is absent 10 percent or more of the schooldays in the school year when the total number of days a pupil is absent is divided by the total number of days the pupil is enrolled and school was actually taught in the total number of days the pupil is enrolled and school was actually taught in the regular day schools of the district, exclusive of Saturdays and Sundays.

    (2) The unduplicated count of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 – June 30).

    (3) Divide (1) by (2).

(b) "Middle School dropout rate" shall be calculated as set forth in *California Code of Regulations*, title 5, Section 1039.1.

(c) "High school dropout rate" shall be calculated as follows:

    (1) The number of cohort members who dropout by the end of year 4 in the cohort where "cohort" is defined as the number of first-time grade 9 pupils in year 1 (starting cohort) plus pupils who transfer in, minus pupils who transfer out, emigrate, or die during school years 1, 2, 3, and 4.

    (2) The total number of cohort members.

    (3) Divide (1) by (2).

(d) "High school graduation rate" shall be calculated as follows:

    (1) The number of cohort members who earned a regular high school diploma [or earned an adult education high school diploma or passed the California High School Proficiency Exam] by the end of year 4 in the cohort where "cohort" is defined as the number of first-time grade 9 pupils in year 1 (starting cohort) plus pupils who transfer in, minus pupils who transfer out, emigrate, or die during school years 1, 2, 3, and 4.

    (2) The total number of cohort members.

    (3) Divide (1) by (2).

(e) "Suspension rate" shall be calculated as follows:

    (1) The unduplicated count of pupils involved in one or more incidents for which the pupil was suspended during the academic year (July 1 – June 30).

    (2) The unduplicated count of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 – June 30).

    (3) Divide (1) by (2).

(f) "Expulsion rate" shall be calculated as follows:

    (1) The unduplicated count of pupils involved in one or more incidents for which the pupil was expelled during the academic year (July 1 – June 30).

    (2) The unduplicated count of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 – June 30).

    (3) Divide (1) by (2).

NOTE: Authority cited: Sections 42238.07 and 52064, *Education Code*. Sections 6312 and 6314.

APPENDIX B: GUIDING QUESTIONS

Guiding Questions: Annual Review and Analysis

1) How have the actions/services addressed the needs of all pupils and did the provisions of those services result in the desired outcomes?
2) How have the actions/services addressed the needs of all subgroups of pupils identified pursuant to *Education Code* Section 52052, including, but not limited to, English learners, low-income pupils, and foster youth; and did the provision of those actions/services result in the desired outcomes?
3) How have the actions/services addressed the identified needs and goals of specific school sites and were these actions/services effective in achieving the desired outcomes?
4) What information (e.g., quantitative and qualitative data/metrics) was examined to review progress toward goals in the annual update?
5) What progress has been achieved toward the goal and expected measurable outcome(s)? How effective were the actions and services in making progress toward the goal? What changes to goals, actions, services, and expenditures are being made in the LCAP as a result of the review of progress and assessment of the effectiveness of the actions and services?
6) What differences are there between budgeted expenditures and estimated actual annual expenditures? What were the reasons for any differences?

Guiding Questions: Stakeholder Engagement

1) How have applicable stakeholders (e.g., parents and pupils, including parents of unduplicated pupils and unduplicated pupils identified in *Education Code* Section 42238.01; community members; local bargaining units; LEA personnel; county child welfare agencies; county office of education foster youth services programs, court-appointed special advocates, and other foster youth stakeholders; community organizations representing English learners; and others as appropriate) been engaged and involved in developing, reviewing, and supporting implementation of the LCAP?
2) How have stakeholders been included in the LEA's process in a timely manner to allow for engagement in the development of the LCAP?
3) What information (e.g., quantitative and qualitative data/metrics) was made available to stakeholders related to the state priorities and used by the LEA to inform the LCAP goal setting process? How was the information made available?
4) What changes, if any, were made in the LCAP prior to adoption as a result of written comments or other feedback received by the LEA through any of the LEA's engagement processes?
5) What specific actions were taken to meet statutory requirements for stakeholder engagement pursuant to *Education Code* sections 52062, 52068, or 47606.5, as applicable, including engagement with representatives of parents and guardians of pupils identified in *Education Code* Section 42238.01?
6) What specific actions were taken to consult with pupils to meet the requirements 5 *CCR* 15495(a)?
7) How has stakeholder involvement been continued and supported? How has the involvement of these stakeholders supported improved outcomes for pupils, including unduplicated pupils, related to the state priorities?

Guiding Questions: Goals, Actions, and Services

1) What are the LEA's goal(s) to address state priorities related to "Conditions of Learning": Basic Services (Priority 1), the Implementation of State Standards (Priority 2), and Course Access (Priority 7)?

2) What are the LEA's goal(s) to address state priorities related to "Pupil Outcomes": Pupil Achievement (Priority 4), Pupil Outcomes (Priority 8), Coordination of Instruction of Expelled Pupils (Priority 9 – COE Only), and Coordination of Services for Foster Youth (Priority 10 – COE Only)?

3) What are the LEA's goal(s) to address state priorities related to parent and pupil "Engagement": Parental Involvement (Priority 3), Pupil Engagement (Priority 5), and School Climate (Priority 6)?

4) What are the LEA's goal(s) to address any locally-identified priorities?

5) How have the unique needs of individual school sites been evaluated to inform the development of meaningful district and/or individual school site goals (e.g., input from site level advisory groups, staff, parents, community, pupils; review of school level plans; in-depth school level data analysis, etc.)?

6) What are the unique goals for unduplicated pupils as defined in *Education Code* sections 42238.01 and bgroups as defined in section 52052 that are different from the LEA's goals for all pupils?

7) What are the specific expected measurable outcomes associated with each of the goals annually and over the term of the LCAP?

8) What information (e.g., quantitative and qualitative data/metrics) was considered/reviewed to develop goals to address each state or local priority?

9) What information was considered/reviewed for individual school sites?

10) What information was considered/reviewed for subgroups identified in *Education Code* Section 52052?

11) What actions/services will be provided to all pupils, to subgroups of pupils identified pursuant to *Education Code* Section 52052, to specific school sites, to English learners, to low-income pupils, and/or to foster youth to achieve goals identified in the LCAP?

12) How do these actions/services link to identified goals and expected measurable outcomes?

13) What expenditures support changes to actions/services as a result of the goal identified? Where can these expenditures be found in the LEA's budget?

I am happy with…

- ❑ We are able to earn enough money to help the schools PE room and department
- ❑ With my child's teachers and surrounding staff and how hard they work for mine and all kids
- ❑ My son's ability to socialize with other students
- ❑ The way common core is evolving. More work but seeing the results
- ❑ The programs that are in school and are very good
- ❑ My child's support system
- ❑ My child's school and the improvement in English
- ❑ $5 per student in my classroom budget
- ❑ Our administration and support staff
- ❑ Our school has TK and is getting a major renovation project
- ❑ Our collaborative, professional teaching staff
- ❑ The innovation of technology
- ❑ The salad bar options
- ❑ Our FAC group
- ❑ The improvement I see in the test and survey scores, and I feel Quimby has a good amount of spirit.
- ❑ The teacher involvement and dedication
- ❑ The teaching staff my children have had. Their level of care and knowledge.
- ❑ All the teachers and LeyVa's support of my child.
- ❑ Common core--Kids are now more engaged working in groups
- ❑ The attention that the director has with students and parents
- ❑ I am really happy with the new STEM lab and teaching technology from the kinder level
- ❑ Quality of teachers
- ❑ Principal involvement on day to day student issues and ready to work on anything which helps students grow
- ❑ The transparency of our district and its efforts to promote equity
- ❑ The positive direction we are heading as a whole
- ❑ The small nurturing environment at Bulldog Tech
- ❑ Increased confidence and improvement of speaking and presentation skills
- ❑ School staff because they inform us about school activities.
- ❑ The school itself because my daughter is very happy with the professional staff.
- ❑ All the staff because they are good people.

I would like to see...improved.

- ❑ My child improve his reading and writing skills
- ❑ Parent teacher communication
- ❑ More parental involvement

- ❑ Safety of the students by cordoning off student area or office
- ❑ Safety around school during drop off/pick up
- ❑ Parents to get involved more with us
- ❑ The communication improve
- ❑ See after school care for middle school students. Don't like them walking home alone
- ❑ That parents get involved with us
- ❑ Parent involvement increase. A lot of time and preparation go into preparing for workshops, etc. and there is low parent turnout and that is disappointing
- ❑ The Quimby playground improved
- ❑ Parent involvement
- ❑ Parent involvement at the site
- ❑ Student enrollment improve
- ❑ School climate (improve), bullying can be a problem in this school. We just need more positive peer to peer interactions and WAY more respect.
- ❑ Improved music
- ❑ Lunch menu choices
- ❑ The fields of all ALL our schools need urgent ATTENTION!
- ❑ Nutrition service offerings improved. Salad bars are a great start!
- ❑ Performance gap between A and W and AA and Hisp students
- ❑ In achievement for Latino and ELL students
- ❑ Teacher/parent communication improve. (middle school)
- ❑ See the equity of facilities and materials between school sites actually BE equitable.
- ❑ We talk a big game, but reality is reality-there IS no equity.
- ❑ My child's math scores improve
- ❑ Large classes for educators. We need to be able to effectively communicate with our parents.
- ❑ School - our school buildings to improve and be upgraded
- ❑ Facilities/cleaner bathrooms
- ❑ Number of bilingual education programs
- ❑ My daughter's bilingual development
- ❑ My son's access to technology for use at home

At school I want my child/student to…
- ❑ Be happy, safe, and be given opportunities to grow, learn, and thrive
- ❑ Excel in studies
- ❑ Overall growth in personality
- ❑ Respect others and get respected
- ❑ Have coding classes included in curriculum

- ❑ Able to skip grades, if for that grade level the student proves that he/she is already proficient
- ❑ Succeed and be ready for middle school and high school
- ❑ Be eager to learn and be prepared for high school and college
- ❑ Feel welcome and involved in all activities
- ❑ Learn, but also enjoy learning. I want to learn lessons for academics and, I want to have a lot of school spirit as well
- ❑ Have tech in every class
- ❑ Get more tables for lunch outside
- ❑ My child to be challenged above her level/standard
- ❑ Get all the academic help he needs
- ❑ Be inspired
- ❑ Feel connected to our school community
- ❑ Ready to compete in a future job market
- ❑ Engaged and excel
- ❑ Have a GATE program
- ❑ Feel safe
- ❑ Be respectful
- ❑ Be valued
- ❑ Be prompted to learn
- ❑ Have safe fun
- ❑ Learn about things in a way that interests me through real world applications
- ❑ Feel that they belong and get help when needed
- ❑ Have access to use very useful paid websites (Raz-Kids, iXL)
- ❑ Free after school tutoring offered at each school site to student that scored below standard on CAASPP test
- ❑ To be prepared for their ongoing education
- ❑ Have useful effective materials
- ❑ To receive help and support at home
- ❑ Be comfortable with technology and their school work
- ❑ Feel safe and to have more access to technology for use at home.
- ❑ Feel happy and safe.
- ❑ Benefit from increased gatherings/reunions with teachers and principal every month.
- ❑ Engage in sports activities
- ❑ Have access to enrichment classes about personal development for students
- ❑ Have more access to technology for use at home
