# Computer Science

## *Community of Practice*

### Please Join Us!

The Santa Clara County Office of Education is pleased to support a community of practice for teachers of computer science and general education teachers who integrate computer science into daily lessons.

### What is a Community of Practice?

A CoP is a group of people who share a passion for something they do and believe they can do it better with the support of others. Together we will identify and address problems of practice that may be common in our classrooms.

### When will we meet?

We plan to meet once a month for an hour via Zoom. If you can't make a meeting, that's not a problem. We look forward to seeing you at the next meeting.
