

Engagement = Equity

Everyone is entitled to the best possible mathematics learning and language support on their own personal journey – **from literacy to life**—in this era of digital inclusion where life stage, visual impairment, dyslexia or dis/ability are not barriers to the online opportunities that others enjoy.

Come join colleagues to take a deep-dive into the innovative EdTech that's transforming student learning and discuss where our technology is heading to engage students with equitable tools and resources to promote access and equity in mathematics learning.

Topics:

- **Intro to Read&Write** with Nora Trentacoste and Kimberly Nix
- **Using Read&Write to Support Assessment** with Nora Trentacoste
- **Creating Accessible Content with EquatIO® and MathType, EquatIO in Canvas LMS** with Greg Crisolo & Louis Shanafelt, and Dr. Bernadette Salgarino, NBCT
- **Exploring Tech for Equity** with Martin Cisneros, Ed Tech, SCCOE

Can't join us in person? Not to worry! We'll also be sharing the presentations over the web conference.

Web conference here: [Texthelp Talk: Engagement = Equity Webinar](#)

Date: December 2, 2019
8 a.m. to 2:30 p.m.
