Assessment for Learning Series

Shifting Assessment Practices to Support Mathematics Learning

Assessment for mathematical learning is more than a classroom practice. It is an interrelated set of practices, processes, and enabling conditions with the power to deepen students' development of knowledge and skills, foster greater ownership and agency over learning, and create equitable classrooms, schools, and systems.

The Assessment for Learning Series in mathematics highlight performance assessments in which students carry out performance tasks that require them to demonstrate evidence of their learning. Assessment items address key concepts drawn directly on curriculum content students are learning. Participants will conduct and score grade-level assessment using rubrics developed collaboratively by teachers. Evaluation of student work is calibrated to ensure consistency.

Session 1: Assessment for Learning
Dec 2, 2019 **4—6:30 PM**

Audience
Teachers, Instructional Coaches
and Administrators

Session 2: Performance Assessment
Dec 16, 2019 **4—6:30 PM**

Grade Levels
3-10

Session 3: Scoring **4—6:30 PM**
Grade 3—March 3, 2020 Grade 6—March 10, 2020
Grade 4—March 4, 2020 Grade 7—March 11, 2020
Grade 5—March 5, 2020 Grade 8—March 12, 2020

Cost:
Free
