

Universal Design for Learning in the Mathematics Classroom

Participants will increase their understanding of Universal Design for Learning (UDL) by articulating the relationship among learner variability, barriers to learning, and becoming an expert learner.

Participants will also learn about mathematical literacy and how it is implemented in the classroom.

Dates: Sep 21, Oct 5,
Oct 19, and Nov 2, 2020
3:45 to 5:45 p.m.

Location

On-line
