CREATING A SYSTEMWIDE MATHEMATICS TEACHING AND LEARNING PLAN

A County Course of Study

On behalf of the County Superintendents of the State of California, we are pleased to introduce the latest Course of Study developed by the Curriculum and Instruction Steering Committee (CISC) and the CISC Mathematics Committee.

This Course of Study is the companion document to the Mathematics Framework for California Public Schools and provides a guide to solve the complex puzzle for developing a successful systemwide approach to a mathematics program. This document is formatted around the nine guiding principals set forth by the State of California. As a roadmap, this document will ensure that all aspects of the system are examined in the creation of a mathematics teaching and learning plan.

To order your copy of this Course of Study complete the form below and return to:

Tehama County Department of Education
P.O. Box 689 • Red Bluff, California 96080
