3. ACTION ITEM
   A. Approve Local Indicators Self-Reflection Tool
      The State Board of Education (SBE) approved standards for the local indicators that support local educational agencies (LEAs) in measuring and reporting their progress within the appropriate priority area. For each local indicator, the approved standard includes: Measuring LEA progress on the local indicator based on locally available information, and reporting the results to the LEA’s local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and the public through the Dashboard.

For each applicable local indicator, LEAs assign one of three performance levels: Met, Not Met, Not Met for Two or More Years. LEAs make the determination for each applicable local indicator by using self-reflection tools to measure and report their progress through the Dashboard. The collection and reflection on locally available information relevant to progress on local priority areas will support LEAs in local planning and improvement efforts.
