Education Innovation Summit

De Anza College

Today's schools are creating the motivated, creative, competent, curious, and compassionate global citizens of tomorrow. To prepare students for active engagement at every level of our democracy, schools must instill deep character traits together with rigorous academics for all. Join us for a day of sharing great educational practices and innovative ideas that will:

- Improve Student Learning and Engagement
- Teach 21st Century Skills (Critical Thinking, Problem Solving, Communications, Collaboration, and Creativity)
- Close Achievement Gaps
- Support Common Core Standards
- Create World Citizens for Today's Knowledge Based, Interconnected Global Economy
- Prepare Students to be Lifelong Learners

Who should attend?

Anyone interested in improving our schools and in optimizing student learning: educators, administrators, parents, students, and policymakers.
