Education Preparation for Inclusive Classrooms (EPIC): Preliminary Education Specialist Credential

The EPIC Preliminary Credential program is designed to prepare candidates to earn their Preliminary Education Specialist Instruction Credential through a CCTC accredited program. The EPIC program prepares candidates to become teacher specialists in an inclusive classrooms. It provides instructional and experiential opportunities to work with families, develop collaborative skills, and become proficient classroom managers. Candidates learn from experts in the field – current and past teachers, special education directors and scholars. Coursework is divided into modules covering a two-year period, while candidates will work as interns in their second year. While in a cohort throughout the program, participants share their learning experiences and begin cross program collaborations–learning collaborative behaviors that will assist them throughout their careers as Education Specialists. Each EPIC module unit is equivalent to ten hours of classroom instruction. Each Specialist Credential is equal to 45 quarter units. To accommodate work schedules, classes meet late afternoons and evenings, and on some Saturdays. We also have summer courses. We currently offer the following options: Preliminary Early Childhood Special Education (ECSE) & Preliminary Moderate/Severe (Mod/Severe), and Preliminary Mild to Moderate is under review.

Leaders in Educational Administration Program: Clear Administrative Services Credential Program (CASC) (Tier II)

The Santa Clara County Office of Education offers a superior, innovative, educational credentialing program for current administrators needing to clear their preliminary credential. This program is designed to develop systems thinking leaders who know how to build capacity in their organizations to ensure equity and access for all students.

Program Overview
The CASC program delivers a cohesive and comprehensive curriculum that integrates coaching and Professional Learning over the course of two years. Professional Learning, delivered in a seminar format, is based on the California Professional standards for Education Leaders (CPSELs) and designed to develop proficiencies in these standards. Each participant is assigned a one on one coach. Coaches meet with participants bi-weekly guiding them through the development of the standards with ongoing self-assessment and reflection. Participants develop an Individual Learning Plan (ILP) with specific goals and objectives that align with their job-embedded fieldwork. In addition participants attend eight Professional Learning seminars over the two year period focused on practical implementation of the CPSELs and development of organizational leadership.

Julia Robinson Mathematics Festival (JRMF)

A JRMF is an event at which students play with mathematics. A dozen or more tables, each with a facilitator and a problem set, game, puzzle, or activity are provided for students to play and explore individually or in groups, share insights, and make discoveries. Facilitators elicit logical processes for approaching, exploring, or solving problems. Success is not measured by the number of problems solved nor students’ speed, but rather by how engaged students are with activities and by the breadth and depth of their explorations and insights.
