2022

INTRODUCTION FROM THE COUNTY SUPERINTENDENT OF SCHOOLS

Dear Educators,

The Santa Clara County Office of Education (SCCOE) is home to over 1,500 staff who are committed to serving, inspiring, and promoting the success of Santa Clara County's students and public schools.

Day-in and day-out, staff conduct the mission-minded work that truly makes the SCCOE a premier service organization dedicated to improving access to inclusive, equitable, high-quality education and providing quality support to districts, schools, students, and communities. One of the ways SCCOE staff accomplish these goals is through the development and delivery of professional learning designed to help educators provide the instruction and support students need to succeed both in and outside of the classroom.

To aid in that effort, I am proud to present the SCCOE's 2022 Leadership & Learning Services Catalog. The catalog is designed to facilitate the development of Local Control and Accountability Plans and Single Plans for Student Achievement by school and district administrators, promote inclusive education, and expand the knowledge and skills of educators. As such, the over 350 professional learning (PL) offerings that are available to educators in 2022/23 are organized into four strands - Strategic Improvement, Teaching & Learning, Leadership & School Systems, and Early Care & Education. Each offering includes a description and information on service type, intended audiences, grade levels, alignment with state priorities, and who to contact to learn more or request customized supports.

The SCCOE is committed to designing learning experiences for educators that meet their evolving needs, effectively respond to student disengagement and learning recovery, and promote student mental health and well-being. This is evident in Teaching & Learning PL offerings that integrate equity, inclusion, and social-emotional learning principles and practice.

I hope you find this catalog a valuable resource as you plan your classroom, school, and district services and supports for the upcoming academic year. Thank you for the pivotal role you play in the academic success, health, and overall well-being of the nearly 300,000 students enrolled in Santa Clara County's early care and education settings and TK-12 schools.

Sincerely,

A handwritten signature in black ink that reads "Mary Ann Dewan".

HOW TO USE THIS CATALOG

This **Leadership & Learning Services Catalog** is designed to guide district, school, and other educational leaders to high-quality, current professional learning services offered by the Santa Clara County Office of Education (SCCOE).

The catalog highlights the SCCOE services in four strands: Strategic Improvement, Teaching and Learning, Leadership & School Systems, and Early Care & Education. Within each strand, services, communities of practice, and network opportunities for programs are highlighted by each program. There are five types of services:

-  **Training**
-  **Network**
-  **Technical Assistance**
-  **Special Event**
-  **Conference**

Each type of service is indicated by the color bar on the left side of the service description. Intended Audience is also included in each service description.

- T: Teachers**
- A: Administrators**
- C: Coaches**
- SS: Support Staff**
- G: Parents/Guardians**
- S: Students**
- P: Partners**

If your district or school is interested in any of the services, please contact the team member listed in each service description to discuss your needs.

Another key feature of this catalog is the alignment to the state priorities. Each catalog item supports one or more of the ten state priorities for improving student outcomes that must be addressed by school districts in their Local Control and Accountability Plans (LCAPs).

For more information on currently offered events, programs, and workshops, including a PDF version of this catalog, visit the Professional Learning Portal webpage at sccoe.org/plportal.
