

Destination: College
Reach Higher. Own Your Future!

October 10, 2014

College Day is Coming

College Day is building a college-going culture from kindergarten through high school; showing there's a path and a reason to follow it. It particularly seeks to inspire first-generation students to pursue a college education.

The process begins now, with ongoing activities at Santa Clara County schools. There will be a College Day event at each school on **Oct. 10th**, followed by a Family Conference on **Nov. 1st** at San Jose State University.

It's time to start getting ready in your classroom. Visit www.collegeday.org for:

- Lesson plans
- Education Journey posters
- Conversation starters

Use College Day activities to talk to your students about college. Expand their horizons. Help them reach higher and own their futures!
