

Parent Engagement Program Family Engagement - Community of Practice

Family Engagement - Community of Practice

The Parent Engagement Program invites District Teams to participate in building sustainable and empowering parent and family engagement programs for effective family partnerships which impact student success. This Community of Practice will provide District Teams with

- foundational knowledge from Dr. Joyce L. Epstein's Framework for School, Family and Community Partnerships including The Six Types of Parent Involvement and Action Teams for Partnerships
- foundational knowledge of Dr. Karen Mapp's Dual Capacity-Building Framework for Family-School Partnerships
- best practices for engaging transformative school family and community partnerships
- time to reflect and use evaluation tools from the CDE's Family Engagement Framework and Toolkit to create equitable parent engagement teams in their district
- listening session with CDE's Family Engagement Office

Participants in this Community of Practice will learn about best practices from other participants, create equitable action plans for their own district, and seek continuous growth in their family engagement efforts at their school district.
