The Santa Clara County Office of Education, in partnership with EduPlanet21, invites you to join us for a very engaging and practical series of workshops.

Participants will work collaboratively to design performance-based tasks that are intended to engage students in applying their knowledge and skills in authentic and relevant contexts. Such tasks can be used as rich learning activities as well as performance assessments. They enable the integration of 21st Century skills with subject area content.

In this workshop, you will learn:

- Practical and proven tools and templates for designing authentic performance tasks in ELA, Mathematics, NGSS with specific support for English learners.
- Protocols for aligning performance tasks to academic standards and 21st century skills
- A structured process for developing and refining scoring rubrics
- Curriculum Mapping 3.0 - how to map curriculum around authentic tasks.
