Differentiation in the Secondary Classroom

Uncover ways to renovate instruction to meet the individual needs of all students. Grapple with what differentiation looks like in today’s classrooms through interactive, student-centered activities focused on making differentiation practical and applicable in real 6–12 settings.

Participants will

- Engage interactive tasks designed to building classroom community, motivate various learners to grapple with challenging content, and allow for gathering evidence on student progress
- Connect differentiation to other aspects of teaching (e.g., assessment, grading, and management)
- Discover strategies for stimulating attention and interest

* On Day 2, participants will receive a copy of *Differentiation in Middle and High School: Strategies to Engage All Learners*, which includes a range of subject-area examples, easy-to-digest strategies, and templates for adapting or creating any classroom.
