IV. AAPI Eductor Toolkit: Expanding Perceptions of AAPI Diaspora

V. Closing & Feedback
Land Acknowledgment

We acknowledge that Santa Clara County schools and districts occupy the unceded territory of the Muwekma Ohlone Nation, the sovereign nation and original people of the skies, land, and waters where we work. It is vitally important that we not only come to understand the history of this land, but that we recognize that the Muwekma Ohlone people are living and flourishing within Santa Clara County communities.
Statement of Solidarity

The Santa Clara County Office of Education (SCCOE) in collaboration with the Asian American and Pacific Islander Educators Network affirms its commitment to...

- creating inclusive, affirming, and equitable school environments for each and every Asian American and Pacific Islander student, family, and staff of our Santa Clara County schools. This statement thus provides rationale and a foundation for operationalizing equity and social justice at the systems level for the Asian American and Pacific Islander students, families, and staff who make up our school communities.

- recognizing that the broad categories of “Asian American” and “Pacific Islander”, when disaggregated, encompass a diversity of cultures, languages, religions, histories, geographical ties, immigration status, socio-economic backgrounds, and generations among over 50 ethnic groups, comprising almost 90,000 K-12 students (35.3%) across Santa Clara County.
Statement of Solidarity

- taking appropriate action to disrupt and dismantle the stereotypes that create barriers to full expressions of humanity for Asian American and Pacific Islander students. We recognize that such stereotypes lead to bullying, harassment, and violence as well as invisibility and dismissal of individual student’s needs in school environments.

- nurturing and cultivating the social, emotional, and academic development of all Asian American and Pacific Islander students so that each student’s full humanity is recognized and actualized.

- providing the institutional supports for Asian Americans and Pacific Islanders that are responsive to their unique experiences and needs.

In this spirit, the SCCOE proudly re-affirms its commitment to Asian American and Pacific Islander students, families, and staff as part of its ongoing practice as a leader in educational equity and social justice for all based on SCCOE’s non-discrimination policy, and its goals.

MEMORANDUM FOR

THE PRESIDENT

Congressional Briefing on Laos

The purpose of this briefing is:
(a) to bring the Congressional leadership up to date on developments in Laos since their last briefing, and
(b) to prepare them for a decision to apply a mild form of suspension of military assistance to General Phoumi.

A. Secretary Rusk, General Lemnitzer and Averell will be able to discuss recent events in Laos from a political and military point of view. You may wish to refer to your conversation with Foreign Minister Thanat and to your recent conversation with the Lao Ambassador.
Washington and Vientiane to end Laotian neutrality. This would have abrogated the 1962 Geneva Agreements, which prohibited all foreign powers but the French from maintaining a military presence in Laos. Overly committing US combat forces or even military advisors would impel the basis for a negotiated peace, worsening the Kennedy administration's fear of doing so. The upshot was that, in addition to deploying its own paramilitary resources, CIA often found itself mediating between the Viêtminh embassy and MACV in Saigon. In this capacity, it worked to preserve the ambassador’s authority...

Breakout Conversations

- How can educators use stories, art, and culture critically in the classroom?

- How do we know which stories or forms of art are appropriate AND how do we read or analyze art and culture?

Understanding and Affirming our Asian American & Pacific Islander Students

Please attend our LAST meeting on February 7, 2023 at 4-5:15!
President Rowena Tomaneng (SJCC), Dr. Harshdeep Nanda (Ohlone), and Mylinh Pham (DeAnza).
Vision

- Acknowledging an interconnected history and shared humanity
- Cultivating a culture of belonging
- Building the engine to fuel the well-being of AAPI students in schools
Expanding Perceptions of AAPI Diaspora
Guiding question:
How might these (re)considerations be incorporated into the next version of the Toolkit?
1. The notion of “homeland”
Introduction

The Asian American Pacific Islander Educator Network kicked off its four-part series with a panel of speakers who spoke about their families’ immigration stories. They shared what it means for them to think about this history as part of a global diaspora. In technical terms, “diaspora” is the movement, migration, or scattering of people from their ancestral homelands.

As the panelists spoke, they reminded us that diaspora is not only physical movement; understanding ourselves as part of a diaspora fills an emotional, psychological, and spiritual space. Individuals and families leave homelands and come to the United States for myriad reasons.

The panelists described in their talk that these reasons are deeply part of their identities. In addition -- and importantly -- these immigration stories are not only stories of individual people and families, they have much to teach us about international and U.S. politics and history, as well as our shared humanity.

Objectives:

- Understand how telling and learning stories about personal and family histories impact our work in schools
- Acknowledge an interconnected history and shared humanity
What is a homeland?

**homeland** *noun*

C1

/ˈhɔːmlænd/

/ˈhəʊmlænd/

1  C1  [usually singular] the country where a person was born

- Many refugees have been forced to flee their homeland.

Hmong people

- There is no Hmong geographical nation or state.
- They have lived in Laos, Vietnam, Thailand, and China.
- They are an ethno-linguistic group, not a nationality.
Section III

Education and Pacific Islanders: Sustaining Community and Culture

Objectives:
- Gain deeper understanding of Pacific Islander experiences with the education system
- Gain deeper understanding of Pacific Islander educational aspirations and how non-Pacific Islanders can support their communities
- Gain better understanding of Pacific Islander cultural identities
2. Who (or where) is counted in the diaspora?
There are over 260 million indigenous peoples in Asia, three-quarters of the world's total, making it the most culturally diverse region in the world.

When indigenous people from Asia must settle in the United States, what must we consider if we are to include them in our circle of support?
Questions we can ask ourselves

- Do families identify as the ethnicity of record?
- What language is spoken at home?
- What is the worldview / knowledge system held by the family?
- Others?
