corresponding portion of East Side Union High
school districts

The Santa Clara County Board of Education (SCCBOE) is the elected governing body of the Santa Clara County Office of Education (SCCOE). The SCCBOE works with the County Superintendent to develop sound educational policies and ensure the solvency of the SCCOE. Together, they are a strong and cohesive team that helps the SCCOE continuously set and achieve new levels of service and excellence. The Trustees are elected from different regions of the county and serve four-year terms.

FRAMING OUR FUTURE

Mission

The Santa Clara County Office of Education is committed to serving, inspiring, and promoting student and public school success.

Values

Students First Collaboration

Innovation Service

Vision

Transforming Education through Leadership, Service, and Advocacy

Goals

Improve student equity and access to high quality education

Provide support to districts, communities, schools, and students

Be a premier employer

Improve organizational effectiveness and efficiency

A Message from the Santa Clara County Board of Education and the Superintendent

This is the third issue of our Annual Charter School Data Book (2016-2017). This Annual Charter School Data Book provides information of vital interest to the performance and progress of the SCCOE Board authorized charter schools.

The Santa Clara County Office of Education (SCCOE) remains committed to serving, inspiring and promoting student and public school success. Our first goal is to "improve student equity and access to high-quality education." One of the avenues pursued in achieving this goal is the authorization of high-quality charter schools. The Santa Clara Board of Education (County Board) is granted the authority in California Education Code to approve or deny charter school petitions on appeal from a school district and to authorize countywide charter schools. This past year 23 County Board authorized charter schools were in operation providing instructional services to over 9,345 students.

SCCOE staff has created this Annual Data Book to provide a snapshot of the charter schools at one-point-in-time. The information and data provided has been obtained from the California Department of Education and the respective charter schools. Where appropriate, (2015-2016) demographic and student performance data from the California Department of Education (Dataquest) was utilized. Individual charter schools were also able to present their current (2015-2016) site level information.

SCCOE and the SCCBOE continue to be champions for children.

Thank you,

Michael Chang
President, Santa Clara County Board of Education

Jon Gundry
Santa Clara County Superintendent of Schools

SCCOE CHARTER SCHOOLS AT-A-GLANCE

During the 2015-2016 school year, SCCBOE considered one new countywide petition (Legacy Academy), renewed and approved six Petitions for Renewal and reviewed and approved two Material Revisions. For the current school year (2016-2017) the SCCBOE considered two new countywide and one SCCOE-Dependent charter petitions. The SCCBOE denied Options For Youth while approving Legacy Academy and Opportunity Youth Academy (OYA). The Board also reviewed and approved four Petitions for Renewal.

2015-2016 STUDENT PERFORMANCE

Based on the Local Control Funding Formula (LCFF), which was passed in 2013, California has a new accountability system that is based on multiple measures. These measures are used to determine local educational agency (LEA) and school progress toward meeting the needs of their students. The measures are based on factors that contribute to a quality education, including high school graduation rates, college/career readiness, student test scores, English Learner (EL) progress, suspension rates, and parent engagement. Performance on these multiple measures will be reported through the new California School Dashboard. The tables below reflect the year to year student performance in ELA and Math on the Smarter Balanced Summative Assessments for the past two year.

2015-2016 CHARTER SCHOOL INFORMATION

This information reflects the performance on the multiple measures through the new California School Dashboard for SCCOE authorized charter schools. The new accountability system reflects a clear expectation that all LEAs and schools can and should improve and emphasizes equity by focusing on student group performance. This new multiple measures system replaces the former Academic Performance Index (API), which was based solely on testing results, and the federal requirement to calculate Adequate Yearly Progress (AYP).

SPECIAL EDUCATION: STUDENTS WITH INDIVIDUALIZED EDUCATIONAL PLANS (IEP) ENROLLED IN SCCOE CHARTER SCHOOLS 2015-2016

As public schools, charter schools are required to enroll and serve students with disabilities in the same manner as traditional public schools. In 2015-2016 seven charter schools used the SCCOE for special education purposes, with the delivery of special education services coordinated and monitored by the SCCOE. The remaining fourteen schools are Local Education Agencies (LEAs) for special education purposes and members of the El Dorado Charter Special Education Local Plan Area (SELPA), which is directly responsible for special education services with oversight by the El Dorado SELPA. Two charter schools are LEAs for special education services with oversight by the Sonoma County Office of Education. Overall, 633 students with IEPs (8.0%) were in charter schools. The percentage of students with IEPs enrolled in these schools ranges from a high of 23% at Silicon Valley Flex (closed 6/2016), to a low of 2.4% at University Prep Academy.

2015-2016 CHARTER SCHOOL FINANCIAL STATUS

student varied depending on federal, lottery, grants, donations and other local revenues received. Information below comes from the 2015-16 independent Audit Reports for the respective Charters open for the full fiscal year and their Districts of physical location. State public funding of charter schools in 2015-16 was on average \$7,804/Average Daily Attendance (ADA) (LCFF Base Grant range of \$7,189 – \$8,801). Each school's total revenues per

School	ADA	Revenues	Expenditures	Change in Net Assets	Beginning Net Assets	Ending Net Assets	Expenditures/ ADA	District of Physical Location	District General Fund Expenditures/ADA	Expenditures/ ADA \$ Difference

SCCOE DISTRICT ENROLLMENT

When reviewing the number of students attending charter schools, almost 3% percent of students in Santa Clara County are enrolled in County Board-authorized charter schools. The growth of charter schools in the county continues to have an impact on local school districts. If total charter school enrollment is taken as a whole, the SCCOE would be the 14th largest district out of the 31 districts in the county.

Santa Clara County District Enrollment (Sorted by Largest to Smallest 2015-2016)

District Name	2014-2015	2015-2016

Appendix A. Education Code Selections Regarding Charter Schools

Legislative Intent

The provisions enabling charter schools in California were established by the "Charter Schools Act of 1992." The legislative intent is defined in Education Code 47601.

Education Code 47601

It is the intent of the Legislature, in enacting this part, to provide opportunities for teachers, parents, pupils, and community members to establish and maintain schools that operate independently from the existing school district structure, as a method to accomplish all of the following:

- (a) Improve pupil learning.
- (b) Increase learning opportunities for all pupils, with special emphasis on expanded learning experiences for pupils who are identified as academically low achieving.
- (c) Encourage the use of different and innovative teaching methods.
- (d) Create new professional opportunities for teachers, including the opportunity to be responsible for the learning program at the school site.
- (e) Provide parents and pupils with expanded choices in the types of educational opportunities that are available within the public school system.
- (f) Hold the schools established under this part accountable for meeting measurable pupil outcomes, and provide the schools with a method to change from rule-based to performance-based accountability systems.
- (g) Provide vigorous competition within the public school system to stimulate continual improvements in all public schools.

Nonsectarian, non-discriminatory, no tuition

Charter schools are free public schools and are required to be nonsectarian and are prohibited from engaging in discriminatory practices as defined by law and cannot charge tuition. These provisions are found in Education Code 47605(d)(1).

Education Code 47605(d)(1)

In addition to any other requirement imposed under this part, a charter school shall be nonsectarian in its programs, admission policies, employment practices, and all other operations, shall not charge tuition, and shall not discriminate against any pupil on the basis of the characteristics listed in Section 220.

Charter Petition Review and Approval or Denial

The provisions regarding charter petition review and decisions are found in Education Code 47605(b)(1-6). These provisions state the legislative intent that "the establishment of charter schools should be encouraged" and require the finding of one or more factors in order to deny a charter petition. In order to deny a petition, the authorizing board must find one or more of the following facts:

- The charter school presents an unsound educational program for the pupils to be enrolled in the charter school.
- The petitioners are demonstrably unlikely to successfully implement the program set forth in the petition.
- The petition does not contain the number of signatures required.
- The petition does not contain an affirmation of each of the required conditions.
- The petition does not contain reasonably comprehensive descriptions of the required elements.
- The petition does not contain a declaration of whether or not the charter school shall be deemed the exclusive public employer of the employees of the charter school for purposes of Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of Government Code.

Education Code 47605(b)(1-6)

In reviewing petitions for the establishment of charter schools pursuant to this section, the chartering authority shall be guided by the intent of the Legislature that charter schools are and should become an integral part of the California educational system and that establishment of charter schools should be encouraged. The governing board of the school district shall grant a charter for the operation of a school under this part if it is satisfied that granting the charter is consistent with sound educational practice. The governing board of the school district shall not deny a petition for the establishment of a charter school unless it makes written factual findings, specific to the particular petition, setting forth specific facts to support one or more of the following findings:

- (1) The charter school presents an unsound educational program for the pupils to be enrolled in the charter school.
- (2) The petitioners are demonstrably unlikely to successfully implement the program set forth in the petition.
- (3) The petition does not contain the number of signatures required by subdivision (a).
- (4) The petition does not contain an affirmation of each of the conditions described in subdivision (d).
- (5) The petition does not contain reasonably comprehensive descriptions of all of the following:
- (6) The petition does not contain a declaration of whether or not the charter school shall be deemed the exclusive public employer of the employees of the charter school for purposes of Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of Government Code.
- (A) (i) The educational program of the charter school, designed, among other things, to identify those whom the school is attempting to educate, what it means to be an "educated person" in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners.
- (ii) The annual goals for the charter school, for all pupils and for each subgroup of pupils identified pursuant to Section 52052, to be achieved in the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school, and specific annual actions to achieve those goals. A charter petition may identify additional school priorities, the goals for the school priorities, and the specific annual actions to achieve those goals.
- (iii) If the proposed school will serve high school pupils, the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the "A" to "G" admissions criteria may be considered to meet college entrance requirements. (B) The measurable pupil outcomes identified for use by the charter school. "Pupil outcomes," for purposes of this part, means the extent to which all pupils of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school's educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all groups of pupils served by the charter school, as that term is defined in subparagraph (B) of paragraph (3) of subdivision (a) of Section 47607. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school.
- (C) The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card.
- (D) The governance structure of the school, including, but not limited to, the process to be followed by the school to ensure parental involvement.
- (E) The qualifications to be met by individuals to be employed by the charter school.
- (F) The procedures that the charter school will follow to ensure the health and safety of pupils and staff. These procedures shall include the requirement that each employee of the school furnish it with a criminal record summary as described in Section 44237.
- (G) The means by which the school will achieve a racial and ethnic balance among its pupils that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted.
- (H) Admission requirements, if applicable.
- (I) The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority.

- (J) The procedures by which pupils can be suspended or expelled.
- (K) The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security.
- (L) The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools.
- (M) The rights of any employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school.
- (N) The procedures to be followed by the charter school and the entity granting the charter to resolve disputes relating to provisions of the charter.
- (O) The procedures to be used if the charter school closes. The procedures shall ensure a final audit of the school to determine the disposition of all assets and liabilities of the charter school, including plans for disposing of any net assets and for the maintenance and transfer of pupil records.

Charter Petition Denial and Appeal

Charter petitions that are denied can be appealed. Petitions denied by a local school board can be submitted on appeal to the County Board of Education and petitions denied by the county board of education can be submitted on appeal to the State Board of Education. These provisions are found in Education Code 47605(i)(1).

Education Code 47605(j)(1)

If the governing board of a school district denies a petition, the petitioner may elect to submit the petition for the establishment of a charter school to the County Board of Education. The County Board of Education shall review the petition pursuant to subdivision (b). If the petitioner elects to submit a petition for establishment of a charter school to the County Board of Education and the County Board of Education denies the petition, the petitioner may file a petition for establishment of a charter school with the state board, and the state board may approve the petition, in accordance with Education Code 47605(b).

Petitions to the County Board of Education

Charter petitions may be submitted directly to the County Board of Education for charter schools that propose to serve students for whom the county office of education would otherwise be responsible for serving ("county-like") or for a charter school that would offer services that could not be provided by a charter school that operates in only one school district in the county. These provisions are found in Education Code sections 47605.5 and 47605.6

Education Code 47605.5

A petition may be submitted directly to a county board of education in the same manner as set forth in Section 47605 for charter schools that will serve pupils for whom the county office of education would otherwise be responsible for providing direct education and related services. Any denial of a petition shall be subject to the same process for any other county board of education denial of a charter school petition pursuant to this part.

Education Code 47605.6

(a) (1) In addition to the authority provided by Section 47605.5, a county board of education may also approve a petition for the operation of a charter school that operates at one or more sites within the geographic boundaries of the county and that provides instructional services that are not generally provided by a county office of education. A county board of education may approve a countywide charter only if it finds, in addition to the other requirements of this section, that the educational services to be provided by the charter school will offer services to a pupil population that will benefit from those services and that cannot be served as well by a charter school that operates in only one school district in the county. A petition for the establishment of a countywide charter school pursuant to this subdivision may be circulated throughout the county by any one or more persons seeking to establish the charter school. The petition may be submitted to the county board of education for review after either of the following conditions is met per Education Code 47605.6 (A)(B)(4).

Charter Renewal

The terms of a charter and charter renewal are covered in Education Code 47607. A charter may be initially granted for a period of up to five years, and may be renewed at the end of that term. Each renewal shall be for a period of five years. The California legislature has identified specific academic criteria that must be satisfied in order for a charter to be reviewed. These criteria are found in Education Code 47607(b).

Education Code 47607

- (b) Commencing on January 1, 2005, or after a charter school has been in operation for four years, whichever date occurs later, a charter school shall meet at least one of the following criteria before receiving a charter renewal pursuant to paragraph (1) of subdivision (a):
- (1) Attained its Academic Performance Index (API) growth target in the prior year or in two of the last three years both schoolwide and for all groups of pupils served by the charter school.
- (2) Ranked in deciles 4 to 10, inclusive, on the API in the prior year or in two of the last three years.
- (3) Ranked in deciles 4 to 10, inclusive, on the API for a demographically comparable school in the prior year or in two of the last three years.
- (4) (A) The entity that granted the charter determines that the academic performance of the charter school is at least equal to the academic performance of the public schools that the charter school pupils would otherwise have been required to attend, as well as the academic performance of the schools in the school district in which the charter school is located, taking into account the composition of the pupil population that is served at the charter school.
- (B) The determination made pursuant to this paragraph shall be based upon all of the following:
- (i) Documented and clear and convincing data.
- (ii) Pupil achievement data from assessments, including, but not limited to, the Standardized Testing and Reporting Program established by Article 4 (commencing with Section 60640) of Chapter 5 of Part 33 for demographically similar pupil populations in the comparison schools.
- (iii) Information submitted by the charter school.
