A Message from the Santa Clara County Board of Education and the County Superintendent of Schools

Charter schools are public schools funded by the state. County Boards of Education such as the Santa Clara County Board of Education (SCCBOE) have the authority to approve or deny charter school petitions on appeal from school districts, authorize countywide charter schools, and renew charter petitions. The SCCBOE is currently the authorizing agency for 22 charter schools in Santa Clara County.

For the educators, students, parents/guardians, and communities of these 22 schools, the 2019–20 and 2020–21 school years presented unprecedented challenges, as the schooling experience was disrupted and different from any other year due to the impacts of the novel coronavirus disease 2019 (COVID-19) pandemic. Like its charter school partners, the Santa Clara County Office of Education (SCCOE) remained committed to serving, inspiring, and promoting student and public school equity and success. In support of this effort, the County Office of Education coordinated COVID-19 testing, vaccines, and personal protective equipment for students and educators. SCCOE also worked to ensure all public schools, including charter schools, had the information and guidance needed to safely return to in-person learning for the 2021-22 school year. SCCOE also maintained its oversight and monitoring duties to ensure students enrolled at SCCBOE-authorized charter schools continued to have access to high-quality education.

Despite the truly remarkable efforts of SCCBOE-authorized charter schools on behalf of the approximately 10,900 students they serve, the collection of evidence regarding student academic performance was no exception to the disruption caused by the pandemic. While all public schools were required to report the assessment results about student performance for the 2020-21 school year, California, recognizing the challenges schools faced in administering the state assessment during the pandemic, allowed flexibility to schools and districts that could not viably administer the CAASPP test. To collect evidence of how students fared during the pandemic, schools were required to either administer the CAASPP or one of several local assessments that met specific criteria.

In the ninth edition of our Annual Charter School Data Book (2021-22), we highlight information of vital interest to the performance and progress of the SCCBOE-authorized charter schools. The information and data provided has been obtained from the California Department of Education and the respective charter schools. Due to the flexibility offered to schools in 2020-21 in gathering student performance data, the summative assessment data from the Smarter Balance Assessment Consortium (SBAC) and the 2020 and 2021 California Schools Dashboard data are not available. Where appropriate, we have used current demographic data and the most up-to-date student performance data available from the California Department of Education (DataQuest). The self-reported data contributed by individual charter is current as of February 2022.

In this time of disrupted data and assessment flexibility, we caution against making comparisons among the data for different schools or comparing the 2020-21 data to the results for prior years. Interpretations regarding the 2020–21 ELA, mathematics, and science assessment results should be made with explicit caution, keeping in mind the specific context and conditions of the learning experience at each school.

Sincerely,

Dr. Mary Ann Dewan
County Superintendent of Schools

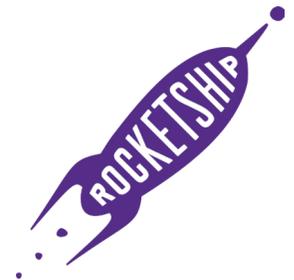

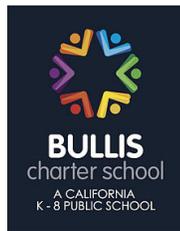

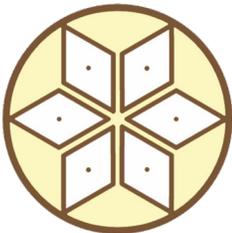

Peter Ortiz, President
County Board of Education

SCCOE Charter Schools Snapshot

For the current school year (2021-22), the SCCBOE did not review renewal petitions due to the Governor's approval of Assembly Bill 130 which extends the terms of all charter schools whose terms expire on or between January 1, 2022, and June 30, 2025, inclusive, by two years.

Student Performance

The Local Control Funding Formula (LCFF) determines how all local education agencies (LEAs) in the state are funded, how they are measured for results, and the services and supports they receive to allow all students to succeed to their greatest potential. California's accountability system is based on multiple measures that assess how LEAs and schools meet the needs of their students. Performance on these measures is reported on the California School Dashboard. The measures displayed on the Dashboard are based on factors that contribute to a quality education including high school graduation rates, college/career readiness, student test scores, English Learner (EL) progress, suspension rates, and parent engagement. Due to COVID-19, all statewide testing was cancelled or optional for 2019-21. The table below reflects the year-to-year student performance for Santa Clara County Board of Education (SCCCBOE)-authorized charter schools on the Smarter Balanced Summative Assessments (SBAC) in ELA for the three most recent years of available data. School district information has been also added to allow for comparison between the charter school and the district in which it is located.

2018-19 California School Dashboard - Charters

This information reflects the performance of SCCBOE-authorized charter schools on the state and local measures as reported on the California School Dashboard. The California accountability system reflects a clear expectation that all LEAs and schools improve and emphasizes equity by focusing on student group performance. Although performance level (color) is not available, the percentage of EL students making progress towards English language proficiency is provided. The 2018-19 California School Dashboard is the most current information, as the 2019-20 and 2020-21 California School Dashboards were cancelled due to COVID-19.

2018-19 California School Dashboard - Districts

This information reflects the performance of local school districts on state and local measures as reported on the California School Dashboard. The California accountability system reflects a clear expectation that all LEAs and schools improve and emphasizes equity by focusing on student group performance. California has transitioned to a new English Learner proficiency assessment. Although performance level (color) is not available, the percentage of EL students making progress towards English language proficiency is provided. The 2018-19 California School Dashboard is the most current information, as the 2019-20 and 2020-21 California School Dashboards were cancelled due to COVID-19.

Special Education: Students with Individualized Education Plans (IEPs) Enrolled in SCCBOE-Authorized Charter Schools 2020-22

As public schools, charter schools are required to enroll and serve students with disabilities in the same manner as traditional public schools. From 2020-22, six charter schools used the SCCOE for Special Education purposes, with the delivery of Special Education services coordinated and monitored by the SCCOE. Fourteen schools are Local Education Agencies (LEAs) for Special Education purposes and are members of the El Dorado Charter Special Education Local Plan Area (SELPA), which is directly responsible for Special Education services and oversight. Two charter schools are LEAs for the purpose of Special Education services and are members of the Sonoma County Office of Education SELPA from which they receive Special Education services and oversight. Overall, 1,118 (10.3%), Santa Clara County students with IEPs attended charter schools.

Santa Clara County Enrollment

Approximately 4.5% percent of students in Santa Clara County are enrolled in SCCBOE-authorized charter schools. When charter school enrollment is taken as a whole, SCCBOE-authorized Charter Schools are the sixth largest district of the 31 districts in the county. Santa Clara County District Enrollment, listed below, is sorted from greatest to least.

District	Enrollment		
	2019-20	2020-21	2021-22
San José Unified	30,172	28,710	26,901
East Side Union High	26,537	25,946	25,174

Selected Text from Charter School Related Education Codes

Legislative Intent

The provisions enabling charter schools in California were established by the "Charter Schools Act of 1992." The legislative intent is defined in Education Code 47601. The following includes direct quotes, summaries, and explanations of pertinent sections of the Charter School Act.

Education Code 47601

It is the intent of the Legislature, in enacting this part, to provide opportunities for teachers, parents, pupils, and community members to establish and maintain schools that operate independently from the existing school district structure, as a method to accomplish all of the following:

- (a) Improve pupil learning.
- (b) Increase learning opportunities for all pupils, with special emphasis on expanded learning experiences for pupils who are identified as academically low achieving.
- (c) Encourage the use of different and innovative teaching methods.
- (d) Create new professional opportunities for teachers, including the opportunity to be responsible for the learning program at the school site.
- (e) Provide parents and pupils with expanded choices in the types of educational opportunities that are available within the public school system.
- (f) Hold the schools established under this part accountable for meeting measurable pupil outcomes, and provide the schools with a method to change from rule-based to performance-based accountability systems.
- (g) Provide vigorous competition within the public school system to stimulate continual improvement.

Nonsectarian, non-discriminatory, no tuition

Charter schools are free public schools and are required to be nonsectarian and are prohibited from engaging in discriminatory practices as defined by law and cannot charge tuition. These provisions are found in Education Code 47605(e).

Education Code 47605(e)

In addition to any other requirement imposed under this part, a charter school shall be nonsectarian in its programs, admission policies, employment practices, and all other operations, shall not charge tuition, and shall not discriminate against any pupil on the basis of the characteristics listed in Section 220.

Charter Petition Review and Approval or Denial

The provisions regarding charter petition review and decisions are found in Education Code 47605(c)(1-8). These provisions state the legislative intent that "the establishment of charter schools should be encouraged" and require the finding of one or more factors in order to deny a charter petition. In order to deny a petition, the authorizing board must find one or more of the following facts:

- The charter school presents an unsound educational program for the pupils to be enrolled in the charter school.
- The petitioners are demonstrably unlikely to successfully implement the program set forth in the petition.
- The petition does not contain the number of signatures required.
- The petition does not contain an affirmation of each of the required conditions.
- The petition does not contain a declaration of whether or not the charter school shall be deemed the exclusive public employer of the employees of the charter school for purposes of EERA (Educational Employee Relations Act) (Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code).
- The charter school is demonstrably unlikely to serve the interests of the entire community in which the school is proposing to locate. Analysis of this shall include consideration of the fiscal impact of the proposed charter school. A finding under this section requires specific facts and circumstances showing:
 - a. The extent to which the proposed charter school would substantially undermine the existing services, academic offerings, or programmatic offerings of the district.
 - b. Whether the proposed charter school would duplicate an existing program currently offered and the existing program has sufficient capacity to meet the needs of the pupils the charter school was proposing to serve.

Selected Text from Charter School Related Education Codes

- The school district is not positioned to absorb the fiscal impact of the proposed charter school.
 - The petition does not contain reasonably comprehensive descriptions of the required elements (see A-O).
- (A) (i) The educational program of the charter school, designed, among other things, to identify those whom the school is attempting to educate, what it means to be an “educated person” in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners.
- (ii) The annual goals for the charter school, for all pupils and for each subgroup of pupils identified pursuant to Section 52052, to be achieved in the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, by the charter school, and specific annual actions to achieve those goals. A charter petition may identify additional school priorities, the goals for the school priorities, and the specific annual actions to achieve those goals.
- (iii) If the proposed school will serve high school pupils, the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the “A” to “G” admissions criteria may be considered to meet college entrance requirements.
- (B) The measurable pupil outcomes identified for use by the charter school. “Pupil outcomes,” for purposes of this part, means the extent to which all pupils of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school’s educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all groups of pupils served by the charter school, as that term is defined in subdivision (a) of Section 52052. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school.
- (C) The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card.
- (D) The governance structure of the school, including, but not limited to, the process to be followed by the school to ensure parental involvement.
- (E) The qualifications to be met by individuals to be employed by the charter school.
- (F) The procedures that the charter school will follow to ensure the health and safety of pupils and staff. These procedures shall include:
- (i) the requirement that each employee of the school furnish it with a criminal record summary as described in Section 44237.
 - (ii) the development of a safety plan which shall include the safety topics listed in (A) to (J) in Education Code 32282(a).
 - (iii) The school safety plan be reviewed and updated by March 1 of every year by the charter school.
- (G) The means by which the school will achieve a balance of racial and ethnic pupils, special education pupils, and English Learner pupils, including redesignated fluent English proficient pupils, that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted.
- (H) Admission policies and procedures, consistent with subdivision (e).
- (I) The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority.
- (J) The procedures by which pupils can be suspended or expelled from the charter school for disciplinary reasons or otherwise involuntarily removed from the charter school for any reason. These procedures, at a minimum, shall include an explanation of how the charter school will comply with federal and state constitutional procedural and substantive due process requirements that is consistent with all of the following:

Selected Text from Charter School Related Education Codes

- (i) For suspensions of fewer than 10 days, provide oral or written notice of the charges against the pupil and, if the pupil denies the charges, an explanation of the evidence that supports the charges and an opportunity for the pupil to present his or her side of the story.
- (ii) For suspensions of 10 days or more and all other expulsions for disciplinary reasons, both of the following:
 - (I) Provide timely, written notice of the charges against the pupil and an explanation of the pupil's basic rights.
 - (II) Provide a hearing adjudicated by a neutral officer within a reasonable number of days at which the pupil has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the pupil has the right to bring legal counsel or an advocate.
- (iii) Contain a clear statement that no pupil shall be involuntarily removed by the charter school for any reason unless the parent or guardian of the pupil has been provided written notice of intent to remove the pupil no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the pupil or the pupil's parent or guardian or, if the pupil is a foster child or youth or a homeless child or youth, the pupil's educational rights holder, and shall inform him or her of the right to initiate the procedures specified in clause (ii) before the effective date of the action. If the pupil's parent, guardian, or educational rights holder initiates the procedures specified in clause (ii), the pupil shall remain enrolled and shall not be removed until the charter school issues a final decision. For purposes of this clause, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions specified in clauses (i) and (ii).
- (K) The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security.
- (L) The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools.
- (M) The rights of any employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school.
- (N) The procedures to be followed by the charter school and the entity granting the charter to resolve disputes relating to provisions of the charter.
- (O) The procedures to be used if the charter school closes. The procedures shall ensure a final audit of the school to determine the disposition of all assets and liabilities of the charter school, including plans for disposing of any net assets and for the maintenance and transfer of pupil records.

Charter Petition Denial and Appeal

Charter petitions that are denied can be appealed. Petitions denied by a local school board can be submitted on appeal to the County Board of Education and petitions denied by the County Board of Education can be submitted on appeal to the State Board of Education, only if there is an abuse of discretion by the County Board of Education. These provisions are found in Education Code 47605(k).

Education Code 47605(k)

If the governing board of a school district denies a petition, the petitioner may elect to submit the petition for the establishment of a charter school to the County Board of Education within 30 days. At the same time the petition is submitted to the County Board, the petitioner shall also provide a copy of the petition to the school district. The County Board of Education shall review the petition pursuant to subdivisions (b) and (c). If the petition submitted on appeal contains new or different material terms, the County Board shall immediately remand the petition back to the governing board of the school district for reconsideration, the petitioner may resubmit to the County Board of Education for establishment of the charter. If the petitioner elects to submit a petition for establishment of a charter school to the County Board of Education and the County Board of Education denies the petition, the petitioner may file a petition for establishment of a charter school with the State Board of Education, and the state board may approve the petition, in accordance with Education Code 47605(b), however, the State Board will not become the charter school's authorizer.

Selected Text from Charter School Related Education Codes

Petitions to the County Board of Education

Charter petitions may be submitted directly to the County Board of Education for charter schools that propose to serve student for whom the county office of education would otherwise be responsible for serving (“county-like”) or for a charter school that would offer services that could not be provided by a charter school that operates in only one school district in the county. These provisions are found in Education Code sections 47605.5 and 47605.6

Education Code 47605.5

A petition may be submitted directly to a county board of education in the same manner as set forth in Section 47605 for charter schools that will serve pupils for whom the county office of education would otherwise be responsible for providing direct education and related services. Any denial of a petition shall be subject to the same process for any other county board of education denial of a charter school petition pursuant to this part.

Education Code 47605.6

- (a) (1) In addition to the authority provided by Section 47605.5, a county board of education may also approve a petition for the operation of a charter school that operates at one or more sites within the geographic boundaries of the county and that provides instructional services that are not generally provided by a county office of education. A county board of education may approve a countywide charter only if it finds, in addition to the other requirements of this section, that the educational services to be provided by the charter school will offer services to a pupil population that will benefit from those services and that cannot be served as well by a charter school that operates in only one school district in the county. A petition for the establishment of a countywide charter school pursuant to this subdivision may be circulated throughout the county by any one or more persons seeking to establish the charter school.
- (b) No later than 60 days after receiving a petition, the county board of education shall hold a public hearing on the provisions of the charter, at which time the county board of education shall consider the level of support for the petition by teachers, parents or guardians, and the school districts where the charter school petitioner proposes to place the school facilities. Following review of the petition and the public hearing, the county board of education shall either grant or deny the charter within 90 days of receipt of the petition. However, this date may be extended for an additional 30 days if both parties agree to the extension. A county board of education may impose any additional requirements beyond those required by this section that it considers necessary for the sound operation of a countywide charter school. A county board of education may grant a charter for the operation of a school under this part only if the board is satisfied that granting the charter is consistent with sound educational practice and that the charter school has reasonable justification for why it could not be established by petition to a school district pursuant to Education Code Section 47605. The county board of education shall deny a countywide petition for approval if the board finds one or more of the following:
- (1) The charter school presents an unsound educational program for the pupils to be enrolled in the charter school.
 - (2) The petitioners are demonstrably unlikely to successfully implement the program set forth in the petition.
 - (3) The petition does not contain the number of signatures required by subdivision (a).
 - (4) The petition does not contain an affirmation of each of the conditions described in subdivision (d).
 - (5) The petition does not contain reasonably comprehensive descriptions of all of the charter elements.
 - (6) A declaration of whether or not the charter school shall be deemed the exclusive public school employer of the employees of the charter school for purposes of the Educational Employment Relations Act (Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code).
 - (7) Any other basis that the county board of education finds justifies the denial of the petition.

Charter Renewal

The terms of a charter and charter renewal are covered in Education Code 47607(b)-(c) and (e) and 47607.2. A charter may be initially granted for a period of up to five years, and may be renewed at the end of that term. Each renewal shall be for a period of up to five years and may be renewed at the end of that term. The California legislature has identified specific academic criteria that must be satisfied in order for a charter to be reviewed. These criteria are found in Education Code 47607 and 47607.2.

Selected Text from Charter School Related Education Codes

Education Code 47607

- (b) Renewals and material revisions of charters are governed by the standards and criteria described in Section 47605, and shall include, but not be limited to, a reasonably comprehensive description of any new requirement of charter schools enacted into law after the charter was originally granted or last renewed.
- (c) (1) As an additional criterion for determining whether to grant a charter renewal, the chartering authority shall consider the performance of the charter school on the state and local indicators included in the evaluation rubrics adopted pursuant to Section 52064.5.
- (2) (A) The chartering authority shall not deny renewal for a charter school pursuant to this subdivision if either of the following apply for two consecutive years immediately preceding the renewal decision:
- (i) The charter school has received the two highest performance levels schoolwide on all the state indicators included in the evaluation rubrics adopted pursuant to Section 52064.5 for which it receives performance levels.
 - (ii) For all measurements of academic performance, the charter school has received performance levels schoolwide that are the same or higher than the state average and, for a majority of subgroups performing statewide below the state average in each respective year, received performance levels that are higher than the state average.
 - (iii) Notwithstanding clauses (i) and (ii), a charter school eligible for technical assistance pursuant to Section 47607.3 shall not qualify for renewal under this paragraph.
 - (iv) A charter school that meets the criteria established by this paragraph and subdivision (a) of Section 47607.2 shall not qualify for treatment under this paragraph.
- (B) The chartering authority that granted the charter may renew a charter pursuant to this paragraph for a period of between five and seven years:
- (C) A charter that satisfies the criteria in subparagraph (A) shall only be required to update the petition to include a reasonably comprehensive description of any new requirement of charter schools enacted into law after the charter was originally granted or last renewed and as necessary to reflect the current program offered by the charter.
- (3) For purposes of this section and Section 47607.2, "measurements of academic performance" means indicators included in the evaluation rubrics adopted pursuant to Section 52064.5 that are based on statewide assessments in the California Assessment of Student Performance and Progress system, or any successor system, the English Language Proficiency Assessments for California, or any successor system, and the college and career readiness indicator.
- (4) For purposes of this section and Section 47607.2, "subgroup" means numerically significant pupil subgroups as defined in paragraph (1) of subdivision (a) of Section 52052.
- (5) To qualify for renewal under clause (i) of subparagraph (A) of paragraph (2), subparagraph (A) of paragraph (1) of subdivision (a) of Section 47607.2, or paragraph (2) of subdivision (a) of Section 47607.2, the charter school shall have schoolwide performance levels on at least two measurements of academic performance per year in each of the two consecutive years immediately preceding the renewal decision. To qualify for renewal under clause (ii) of subparagraph (A) of paragraph (2), subparagraph (B) of paragraph (1) of subdivision (a) of Section 47607.2, the charter school shall have performance levels on at least two measurements of academic performance for at least two subgroups. A charter school without sufficient performance levels to meet these criteria shall be considered under subdivision (b) of Section 47607.2.
- (6) For purposes of this section and Section 47607.2, if the dashboard indicators are not yet available for the most recently completed academic year before renewal, the chartering authority shall consider verifiable data provided by the charter school related to the dashboard indicators, such as data from the California Assessment of Student Performance and Progress, or any successor system, for the most recent academic year.
- (e) Notwithstanding subdivision (c) and subdivisions (a) and (b) of Section 47607.2, the chartering authority may deny renewal of a charter school upon finding that the school is demonstrably unlikely to successfully implement the program set forth in the petition due to substantial fiscal or governance factors or is not serving all the pupils who wish to attend as documented pursuant to subdivision (d). The chartering authority may deny renewal of a charter school under this subdivision only after it has provided at least 30 days' notice to the charter school of the alleged violation and provided the charter school with a reasonable opportunity to cure the violation, including a corrective

Selected Text from Charter School Related Education Codes

action plan proposed by the charter school. The chartering authority may deny renewal only by making either of the following findings:

1. The corrective action proposed by the charter school has been unsuccessful.
2. The violations are sufficiently severe and pervasive as to render a corrective action plan unviable.

Education Code 47607.2

- (a) (1) The chartering authority shall not renew a charter if either of the following apply for two consecutive years immediately preceding the renewal decision.
- (A) The charter school has received the two lowest performance levels schoolwide on all the state indicators included in the evaluation rubrics adopted pursuant to Section 52064.5 for which it receives performance levels.
 - (B) For all measurements of academic performance, the charter school has received performance levels schoolwide that are lower than the state average and, for a majority of subgroups performing statewide below the state average and, for a majority of subgroups performing statewide below the state average in each respective year, received performance levels that are lower than the state average.
- (3) The chartering authority shall consider the following factors, and may renew a charter that meets the criteria in paragraph (1) only upon making both of the following written factual findings, specific to the particular petition, setting forth specific facts to support findings:
- (A) The charter school is taking meaningful steps to address the underlying cause or causes of low performance, and those steps are reflected, or will be reflected, in a written plan adopted by the governing body of the charter school.
 - (B) There is clear and convincing evidence showing either of the following:
 - (i) The school achieved measurable increases in academic achievement, as defined by at least one year's progress for each year in school.
 - (ii) Strong postsecondary outcomes, as defined by college enrollment, persistence, and completion rates equal to peers.
- (4) Verified data, as described in subdivision (c), shall be considered by the chartering authority until June 30, 2025, for a charter school pursuant to this subdivision, operating on or before 2020, only for the school's next two subsequent renewals.
- (5) For a charter renewed pursuant to this subdivision, the chartering authority may grant renewal for a period of two years.
- (b) (1) For charters which the paragraph (2) of subdivision (c) of Section 47607 and subdivision (a) of Section 47607.2 do not apply, the chartering authority shall consider the schoolwide performance and performance of all subgroups of pupils served by the charter school on the state indicators included in the evaluation rubrics adopted pursuant to Section 52064.5 and the performance of the charter school on the local indicators included in the evaluation rubrics adopted pursuant to Section 52064.5.
- (2) The chartering authority shall provide greater weight to performance on measurements of academic performance in determining whether to grant a charter renewal.
 - (3) In addition to the state and local indicators, the chartering authority shall consider clear and convincing evidence showing either of the following:
 - (A) The school has achieved measurable increases in academic achievement, as defined by at least one year's progress for each year in school.
 - (B) Strong postsecondary outcomes, as defined by college enrollment, persistence, and completion rates equal to similar peers.
 - (6) The chartering authority may deny a charter renewal pursuant to this subdivision only upon making written findings, that the charter school has failed to meet or make sufficient progress towards meeting standards that provide a benefit to the pupils of the school, that closure of the charter school is in the best interest of pupils and, if applicable pursuant to paragraphs (2) and (3), that its decision provided greater weight to performance on measurements of academic performance.
 - (7) For a charter renewed pursuant to this subdivision, the chartering authority shall grant a renewal for a period of five years.

Acknowledgements

The SCCOE Charter Schools Department is grateful for the contributions from the SCCOE-authorized charter schools, SCCOE employees and the Santa Clara County Board of Education (SCCBOE). Assistance from each of these stakeholders has made the 2021-22 Annual Charter Schools, Data Book possible. We would also like to acknowledge their dedication to all the children of Santa Clara County and to their education.

Special recognition goes to the following:

- Santa Clara County Board of Education
- Dr. Mary Ann Dewan, Superintendent of Schools
- Stephanie Gomez, SCCOE Director of Internal Business Services
- Shanny Yam, SCCOE Director of District Business Services
- SCCOE Business, Facilities & Operations Division
- SCCOE Media & Communications Department
- SCCOE Print Shop
- SCCOE Special Education Department

The Charter Schools Department is grateful to the SCCBOE-authorized charter schools for their assistance in compiling the data and without whom this Book would not have been possible.
