Charter Schools Department

Office of the Superintendent

SCCBOE Charter Schools Snapshot

For the current school year (2025-26), the SCCBOE reviewed two charter petitions and renewed both. The petitions were renewed under the performance category system set in place in 2020 by Assembly Bill 1505. The SCCBOE authorized five-year renewals for one middle-performing charter school and one high-performing charter school. The SCCBOE did not receive petitions for new charter schools in 2025-26.

20 Charter Schools 9,252 Students Enrolled

Authorized Grade Level

1	TK-4
7	TK-5
6	TK-8
1	K-8
2	5-8
1	7-12
2	9-12

3.8%	African American
15.7%	Asian
68.8%	Hispanic
5.8%	White
38.1%	English Learners
63.3%	Socioeconomically Disadvantaged

Total Charter School Revenues \$185,550,964**

Total Charter School Expenditures \$180,308,142**

A Message from the Santa Clara County Board of Education and the County Superintendent of Schools

The County Superintendent of Schools and President of the Santa Clara County Board of Education (SCCBOE) are pleased to present the 2025–26 edition of the Annual Charter School Data Book. This thirteenth edition offers key data and information about the 20 public charter schools authorized by the SCCBOE, which collectively serve more than 9,000 students. These schools represent nearly one-third of all charter school students in Santa Clara County and approximately four percent of the county's total public school enrollment of 227,000 students.

Since the passage of the California Charter Schools Act in 1992, county boards of education have held the authority to approve or deny charter school petitions on appeal, authorize countywide benefit charter schools, and make renewal decisions. In Santa Clara County, the SCCBOE carries out these responsibilities with a strong commitment to accountability, transparency, and collaboration with charter school operators. In 2025–26, the SCCBOE approved two renewals and will have nine renewals in 2026–27.

This Data Book includes data from the California Department of Education (CDE) and directly from the charter schools themselves. It is designed to support informed oversight, continuous improvement, and a shared understanding of student outcomes and school performance.

We value the ongoing partnership between the Santa Clara County Office of Education (SCCOE), the SCCBOE, and our authorized charter schools. Together, we are dedicated to ensuring that every student has access to a high-quality public education that meets their needs and prepares them for future success.

Sincerely,

Dr. David M. Toston, Sr.
County Superintendent of Schools

Victoria Chon
President
County Board of Education

Santa Clara County Enrollment

Approximately 4.2% percent of students in Santa Clara County are enrolled in SCCBOE-authorized charter schools. When charter school enrollment is taken as a whole, SCCBOE-authorized charter schools have the ninth largest enrollment compared to the 31 districts in the county. Santa Clara County district enrollment, listed below, is sorted from greatest to least.

District	Enrollment		
	2023-24	2024-25	2025-26

Student Performance

The Local Control Funding Formula (LCFF) determines how all local education agencies, including charter schools, in the state are funded, how they are measured for results, and the services and supports they receive to allow all students to succeed to their greatest potential. California's accountability system is based on multiple measures that assess how schools meet the needs of their students. Performance on these measures is reported on the California School Dashboard. The table below reflects the year-to-year student performance for Santa Clara County Board of Education (SCCBOE)-authorized charter schools on the Smarter Balanced Assessment Consortium (SBAC) in ELA for the three most recent years of available data. School district information has been also added to allow for comparison between the charter school and the district in which it is located.

2024-25 California School Dashboard - Charters

To help identify strengths and areas for improvement, California reports how charter schools and student groups are performing across state and local measures on the California School Dashboard. Performance on state measures, using comparable statewide data, is represented by one of five colors. The performance level, or color, is not included when there are fewer than 30 students in any group.

State measures include chronic absenteeism, graduation rate, suspension rate, English learner progress, and academic performance which includes English language arts and mathematics. Academic performance is reported as Distance from Standard (DFS). Distance from Standard measures how far, on average, students are from the lowest possible score for Standard Met, whereas other state measures are reported as a percentage of students.

Local measures are reported by charter schools based on data available only at the local level. These measures include clean and safe buildings, school climate, parent and family engagement, and access to a broad course of study.

Special Education: Students with Individualized Education Plans (IEPs) Enrolled in SCCBOE-Authorized Charter Schools 2025-26

As public schools, charter schools are required to enroll and serve students with disabilities in the same manner as traditional public schools. From 2024-26, six charter schools used the SCCOE for Special Education purposes, and the delivery of Special Education services were coordinated and monitored by the SCCOE. Fourteen charter schools are members of the El Dorado Charter Special Education Local Plan Area (SELPA), which is directly responsible for Special Education services and oversight. Two charter schools are members of the Sonoma County Office of Education SELPA from which they receive Special Education services and oversight. Overall, 1,1127 (12.2%) Santa Clara County students with IEPs attended charter schools.

Charter School Suspension and Expulsion Report

This report provides an unduplicated count of students who were involved in one or more incidents during the academic year and were subsequently suspended or expelled from school. Students who were suspended or expelled multiple times are counted only once in the totals.

School	Grades Served	2022-23 Enrollment	2023-24 Enrollment	2024-25 Enrollment	2022-23		2023-24		2024-25

Charter School Teacher Credentials

As public schools, charter schools are required to have appropriately credentialed or permitted staff in the positions for which they are hired (EC 47605(l)). The CDE has developed the Teaching Assignment Monitoring Outcomes Report. This report provides information on the staffing of a school by subject area, school type, school grade span, teacher credential level and teacher experience level. The data below is the most current available and represents the 2024-25 staffing information.

School	Total Teaching FTE	Clear		Out-of-Field		Intern		Ineffective		Incomplete

Clear: An assignment monitoring outcome of "clear" indicates that all relevant attributes or dimensions of the assignment were authorized by a clear or preliminary credential or authorized by a local assignment option (LAO) pursuant to Section 80005(b) of the California Code of Regulations [T5 §80005(b)] for specific state course codes where a credential or permit does not exist to authorize the indicated teaching assignment (e.g., student government or study hall.)

Out-of-field: An assignment monitoring outcome of "out-of-field" indicates that one or more relevant attributes of the assignment were authorized by the following limited permits:

- General Education Limited Assignment Permit (GELAP)
- Special Education Limited Assignment Permit (SELAP)
- Short-Term Waivers
- Emergency English Learner or Bilingual Authorization Permits
- Local Assignment Options (except for those made pursuant to T5 §80005(b))

Intern: An "intern" teacher is defined as someone who has a bachelor's degree and has demonstrated subject matter competency in the subject area(s) or for the student population associated with the assignment, and who holds an intern credential while they complete coursework requirements to obtain a preliminary credential.

Ineffective: An assignment monitoring outcome of "ineffective" indicates that one or more relevant attributes of the assignment had no legal authorization from a permit, credential or waiver, or one or more relevant attributes of the assignment were authorized by the following limited permits:

- Provisional Internship Permits
- Short-Term Staff Permits
- Variable Term Waivers
- Substitute permits or Teaching Permits for Statutory Leave (TSPL) holders serving as the teacher of record

Incomplete: An assignment monitoring outcome of "incomplete" indicates that missing or incorrect information about the assignment was reported to California Longitudinal Pupil Achievement Data System (CALPADS) by the local educational agency (LEA) which prevented a complete and accurate determination of the assignment authorization during the CTC assignment monitoring process. In some cases, the LEA or Monitoring Authority may have indicated that the assignment is appropriate; however, neither the CDE nor the CTC can validate the authorization basis for the assignment.

Total Teaching FTE: The sum of FTE at the selected entity associated with any classroom-based teaching assignment. The FTE for administrator, pupil services, and non-classroom-based assignments are not included in these counts.

Selected Text from Charter School Related *Education Code*

Legislative Intent

The provisions enabling charter schools in California were established by the "Charter Schools Act of 1992." The legislative intent is defined in Education Code 47601. The following includes direct quotes, summaries, and explanations of pertinent sections of the Charter School Act.

Education Code 47601

It is the intent of the Legislature, in enacting this part, to provide opportunities for teachers, parents, pupils, and community members to establish and maintain schools that operate independently from the existing school district structure, as a method to accomplish all of the following:

- (a) Improve pupil learning.
- (b) Increase learning opportunities for all pupils, with special emphasis on expanded learning experiences for pupils who are identified as academically low achieving.
- (c) Encourage the use of different and innovative teaching methods.
- (d) Create new professional opportunities for teachers, including the opportunity to be responsible for the learning program at the school site.
- (e) Provide parents and pupils with expanded choices in the types of educational opportunities that are available within the public school system.
- (f) Hold the schools established under this part accountable for meeting measurable pupil outcomes, and provide the schools with a method to change from rule-based to performance-based accountability systems.
- (g) Provide vigorous competition within the public school system to stimulate continual improvement.

Nonsectarian, non-discriminatory, no tuition

Charter schools are free public schools and are required to be nonsectarian and are prohibited from engaging in discriminatory practices as defined by law and cannot charge tuition. These provisions are found in Education Code 47605(e).

Education Code 47605(e)

In addition to any other requirement imposed under this part, a charter school shall be nonsectarian in its programs, admission policies, employment practices, and all other operations, shall not charge tuition, and shall not discriminate against any pupil on the basis of the characteristics listed in Section 220.

Charter Petition Review and Approval or Denial

The provisions regarding charter petition review and decisions are found in Education Code 47605(c) (1-8). These provisions state the legislative intent that "the establishment of charter schools should be encouraged" and require the finding of one or more factors in order to deny a charter petition. In order to deny a petition, the authorizing board must find one or more of the following facts:

- The charter school presents an unsound educational program for the pupils to be enrolled in the charter school.

Selected Text from Charter School Related *Education Code*

- The petitioners are demonstrably unlikely to successfully implement the program set forth in the petition.
 - The petition does not contain the number of signatures required.
 - The petition does not contain an affirmation of each of the required conditions.
 - The petition does not contain a declaration of whether or not the charter school shall be deemed the exclusive public employer of the employees of the charter school for purposes of EERA (Educational Employee Relations Act) (Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code).
 - The charter school is demonstrably unlikely to serve the interests of the entire community in which the school is proposing to locate. Analysis of this shall include consideration of the fiscal impact of the proposed charter school. A finding under this section requires specific facts and circumstances showing:
 - a. The extent to which the proposed charter school would substantially undermine the existing services, academic offerings, or programmatic offerings of the district.
 - b. Whether the proposed charter school would duplicate an existing program currently offered and the existing program has sufficient capacity to meet the needs of the pupils the charter school was proposing to serve.
 - The school district is not positioned to absorb the fiscal impact of the proposed charter school.
 - The petition does not contain reasonably comprehensive descriptions of the required elements (see A-O).
- (A) (i) The educational program of the charter school, designed, among other things, to identify those whom the school is attempting to educate, what it means to be an “educated person” in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners.
- (ii) The annual goals for the charter school, for all pupils and for each subgroup of pupils identified pursuant to Section 52052, to be achieved in the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, by the charter school, and specific annual actions to achieve those goals. A charter petition may identify additional school priorities, the goals for the school priorities, and the specific annual actions to achieve those goals.
- (iii) If the proposed school will serve high school pupils, the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the “A” to “G” admissions criteria may be considered to meet college entrance requirements.
- (B) The measurable pupil outcomes identified for use by the charter school. “Pupil outcomes,” for purposes of this part, means the extent to which all pupils of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school’s educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all groups of pupils served by the charter school, as that term is defined in

Selected Text from Charter School Related *Education Code*

subdivision (a) of Section 52052. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school.

- (C) The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card.
- (D) The governance structure of the school, including, but not limited to, the process to be followed by the school to ensure parental involvement.
- (E) The qualifications to be met by individuals to be employed by the charter school.
- (F) The procedures that the charter school will follow to ensure the health and safety of pupils and staff. These procedures shall include:
 - (i) the requirement that each employee of the school furnish it with a criminal record summary as described in Section 44237.
 - (ii) the development of a safety plan which shall include the safety topics listed in (A) to (J) in Education Code 32282(a).
 - (iii) The school safety plan be reviewed and updated by March 1 of every year by the charter school.
- (G) The means by which the school will achieve a balance of racial and ethnic pupils, special education pupils, and English Learner pupils, including redesignated fluent English proficient pupils, that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted.
- (H) Admission policies and procedures, consistent with subdivision (e).
- (I) The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority.
- (J) The procedures by which pupils can be suspended or expelled from the charter school for disciplinary reasons or otherwise involuntarily removed from the charter school for any reason. These procedures, at a minimum, shall include an explanation of how the charter school will comply with federal and state constitutional procedural and substantive due process requirements that is consistent with all of the following:
 - (i) For suspensions of fewer than 10 days, provide oral or written notice of the charges against the pupil and, if the pupil denies the charges, an explanation of the evidence that supports the charges and an opportunity for the pupil to present his or her side of the story.
 - (ii) For suspensions of 10 days or more and all other expulsions for disciplinary reasons, both of the following:
 - (I) Provide timely, written notice of the charges against the pupil and an explanation of the pupil's basic rights.

Selected Text from Charter School Related *Education Code*

- (II) Provide a hearing adjudicated by a neutral officer within a reasonable number of days at which the pupil has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the pupil has the right to bring legal counsel or an advocate.
- (iii) Contain a clear statement that no pupil shall be involuntarily removed by the charter school for any reason unless the parent or guardian of the pupil has been provided written notice of intent to remove the pupil no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the pupil or the pupil's parent or guardian or, if the pupil is a foster child or youth or a homeless child or youth, the pupil's educational rights holder, and shall inform him or her of the right to initiate the procedures specified in clause (ii) before the effective date of the action. If the pupil's parent, guardian, or educational rights holder initiates the procedures specified in clause (ii), the pupil shall remain enrolled and shall not be removed until the charter school issues a final decision. For purposes of this clause, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions specified in clauses (i) and (ii).
- (K) The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security.
- (L) The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools.
- (M) The rights of any employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school.
- (N) The procedures to be followed by the charter school and the entity granting the charter to resolve disputes relating to provisions of the charter.
- (O) The procedures to be used if the charter school closes. The procedures shall ensure a final audit of the school to determine the disposition of all assets and liabilities of the charter school, including plans for disposing of any net assets and for the maintenance and transfer of pupil records.

Charter Petition Denial and Appeal

Charter petitions that are denied can be appealed. Petitions denied by a local school board can be submitted on appeal to the County Board of Education and petitions denied by the County Board of Education can be submitted on appeal to the State Board of Education, only if there is an abuse of discretion by the County Board of Education. These provisions are found in Education Code 47605(k).

Education Code 47605(k)

If the governing board of a school district denies a petition, the petitioner may elect to submit the petition for the establishment of a charter school to the County Board of Education within 30 days. At the same time the petition is submitted to the County Board, the petitioner shall also provide a copy of the petition to the school district. The County Board of Education shall review the petition pursuant to subdivisions (b) and (c).

Selected Text from Charter School Related *Education Code*

If the petition submitted on appeal contains new or different material terms, the County Board shall immediately remand the petition back to the governing board of the school district for reconsideration, the petitioner may resubmit to the County Board of Education for establishment of the charter. If the petitioner elects to submit a petition for establishment of a charter school to the County Board of Education and the County Board of Education denies the petition, the petitioner may file a petition for establishment of a charter school with the State Board of Education, and the state board may approve the petition, in accordance with Education Code 47605(b), however, the State Board will not become the charter school's authorizer.

Petitions to the County Board of Education

Charter petitions may be submitted directly to the County Board of Education for charter schools that propose to serve student for whom the county office of education would otherwise be responsible for serving ("county-like") or for a charter school that would offer services that could not be provided by a charter school that operates in only one school district in the county. These provisions are found in Education Code sections 47605.5 and 47605.6

Education Code 47605.5

A petition may be submitted directly to a county board of education in the same manner as set forth in Section 47605 for charter schools that will serve pupils for whom the county office of education would otherwise be responsible for providing direct education and related services. Any denial of a petition shall be subject to the same process for any other county board of education denial of a charter school petition pursuant to this part.

Education Code 47605.6

- (a) (1) In addition to the authority provided by Section 47605.5, a county board of education may also approve a petition for the operation of a charter school that operates at one or more sites within the geographic boundaries of the county and that provides instructional services that are not generally provided by a county office of education. A county board of education may approve a countywide charter only if it finds, in addition to the other requirements of this section, that the educational services to be provided by the charter school will offer services to a pupil population that will benefit from those services and that cannot be served as well by a charter school that operates in only one school district in the county. A petition for the establishment of a countywide charter school pursuant to this subdivision may be circulated throughout the county by any one or more persons seeking to establish the charter school.
- (b) No later than 60 days after receiving a petition, the county board of education shall hold a public hearing on the provisions of the charter, at which time the county board of education shall consider the level of support for the petition by teachers, parents or guardians, and the school districts where the charter school petitioner proposes to place the school facilities. Following review of the petition and the public hearing, the county board of education shall either grant or deny the charter within 90 days of receipt of the petition. However, this date may be extended for an additional 30 days if both parties agree to the extension. A county board of education may impose any additional requirements beyond those required by this section that it considers necessary for the sound operation of a countywide charter school. A county board of education may grant a charter for the operation of a school under this

Selected Text from Charter School Related *Education Code*

part only if the board is satisfied that granting the charter is consistent with sound educational practice and that the charter school has reasonable justification for why it could not be established by petition to a school district pursuant to Education Code Section 47605. The county board of education shall deny a countywide petition for approval if the board finds one or more of the following:

- (1) The charter school presents an unsound educational program for the pupils to be enrolled in the charter school.
- (2) The petitioners are demonstrably unlikely to successfully implement the program set forth in the petition.
- (3) The petition does not contain the number of signatures required by subdivision (a).
- (4) The petition does not contain an affirmation of each of the conditions described in subdivision (d).
- (5) The petition does not contain reasonably comprehensive descriptions of all of the charter elements.
- (6) A declaration of whether or not the charter school shall be deemed the exclusive public school employer of the employees of the charter school for purposes of the Educational Employment Relations Act (Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code).
- (7) Any other basis that the county board of education finds justifies the denial of the petition.

Charter Renewal

The terms of a charter and charter renewal are covered in Education Code 47607(b)-(c) and (e) and 47607.2. A charter may be initially granted for a period of up to five years, and may be renewed at the end of that term. Each renewal shall be for a period of up to five years and may be renewed at the end of that term. The California legislature has identified specific academic criteria that must be satisfied in order for a charter to be reviewed. These criteria are found in Education Code 47607 and 47607.2.

Education Code 47607

- (b) Renewals and material revisions of charters are governed by the standards and criteria described in Section 47605, and shall include, but not be limited to, a reasonably comprehensive description of any new requirement of charter schools enacted into law after the charter was originally granted or last renewed.
- (c)
 - (1) As an additional criterion for determining whether to grant a charter renewal, the chartering authority shall consider the performance of the charter school on the state and local indicators included in the evaluation rubrics adopted pursuant to Section 52064.5.
 - (2) (A) The chartering authority shall not deny renewal for a charter school pursuant to this subdivision if either of the following apply for two consecutive years immediately preceding the renewal decision:
 - (i) The charter school has received the two highest performance levels schoolwide on all the state indicators included in the evaluation rubrics adopted pursuant to Section 52064.5 for which it receives performance levels.

Selected Text from Charter School Related *Education Code*

- (ii) For all measurements of academic performance, the charter school has received performance levels schoolwide that are the same or higher than the state average and, for a majority of subgroups performing statewide below the state average in each respective year, received performance levels that are higher than the state average.
- (iii) Notwithstanding clauses (i) and (ii), a charter school eligible for technical assistance pursuant to Section 47607.3 shall not qualify for renewal under this paragraph.
- (iv) A charter school that meets the criteria established by this paragraph and subdivision (a) of Section 47607.2 shall not qualify for treatment under this paragraph.
- (B) The chartering authority that granted the charter may renew a charter pursuant to this paragraph for a period of between five and seven years:
- (C) A charter that satisfies the criteria in subparagraph (A) shall only be required to update the petition to include a reasonably comprehensive description of any new requirement of charter schools enacted into law after the charter was originally granted or last renewed and as necessary to reflect the current program offered by the charter.
- (3) For purposes of this section and Section 47607.2, "measurements of academic performance" means indicators included in the evaluation rubrics adopted pursuant to Section 52064.5 that are based on statewide assessments in the California Assessment of Student Performance and Progress system, or any successor system, the English Language Proficiency Assessments for California, or any successor system, and the college and career readiness indicator.
- (4) For purposes of this section and Section 47607.2, "subgroup" means numerically significant pupil subgroups as defined in paragraph (1) of subdivision (a) of Section 52052.
- (5) To qualify for renewal under clause (i) of subparagraph (A) of paragraph (2), subparagraph (A) of paragraph (1) of subdivision (a) of Section 47607.2, or paragraph (2) of subdivision (a) of Section 47607.2, the charter school shall have schoolwide performance levels on at least two measurements of academic performance per year in each of the two consecutive years immediately preceding the renewal decision. To qualify for renewal under clause (ii) of subparagraph (A) of paragraph (2), subparagraph (B) of paragraph (1) of subdivision (a) of Section 47607.2, the charter school shall have performance levels on at least two measurements of academic performance for at least two subgroups. A charter school without sufficient performance levels to meet these criteria shall be considered under subdivision (b) of Section 47607.2.
- (6) For purposes of this section and Section 47607.2, if the dashboard indicators are not yet available for the most recently completed academic year before renewal, the chartering authority shall consider verifiable data provided by the charter school related to the dashboard indicators, such as data from the California Assessment of Student Performance and Progress, or any successor system, for the most recent academic year.
- (e) Notwithstanding subdivision (c) and subdivisions (a) and (b) of Section 47607.2, the chartering authority may deny renewal of a charter school upon finding that the school is demonstrably unlikely to successfully implement the program set forth in the petition due to substantial fiscal or governance

Selected Text from Charter School Related *Education Code*

factors or is not serving all the pupils who wish to attend as documented pursuant to subdivision (d). The chartering authority may deny renewal of a charter school under this subdivision only after it has provided at least 30 days' notice to the charter school of the alleged violation and provided the charter school with a reasonable opportunity to cure the violation, including a corrective action plan proposed by the charter school. The chartering authority may deny renewal only by making either of the following findings:

1. The corrective action proposed by the charter school has been unsuccessful.
2. The violations are sufficiently severe and pervasive as to render a corrective action plan unviable.

Education Code 47607.2

- (a) (1) The chartering authority shall not renew a charter if either of the following apply for two consecutive years immediately preceding the renewal decision.
- (A) The charter school has received the two lowest performance levels schoolwide on all the state indicators included in the evaluation rubrics adopted pursuant to Section 52064.5 for which it receives performance levels.
- (B) For all measurements of academic performance, the charter school has received performance levels schoolwide that are lower than the state average and, for a majority of subgroups performing statewide below the state average and, for a majority of subgroups performing statewide below the state average in each respective year, received performance levels that are lower than the state average.
- (3) The chartering authority shall consider the following factors, and may renew a charter that meets the criteria in paragraph (1) only upon making both of the following written factual findings, specific to the particular petition, setting forth specific facts to support findings:
- (A) The charter school is taking meaningful steps to address the underlying cause or causes of low performance, and those steps are reflected, or will be reflected, in a written plan adopted by the governing body of the charter school.
- (B) There is clear and convincing evidence showing either of the following:
- (i) The school achieved measurable increases in academic achievement, as defined by at least one year's progress for each year in school.
- (ii) Strong postsecondary outcomes, as defined by college enrollment, persistence, and completion rates equal to peers.
- (4) Verified data, as described in subdivision (c), shall be considered by the chartering authority until June 30, 2025, for a charter school pursuant to this subdivision, operating on or before 2020, only for the school's next two subsequent renewals.
- (5) For a charter renewed pursuant to this subdivision, the chartering authority may grant renewal for a period of two years.

Selected Text from Charter School Related *Education Code*

- (b) (1) For charters which the paragraph (2) of subdivision (c) of Section 47607 and subdivision (a) of Section 47607.2 do not apply, the chartering authority shall consider the schoolwide performance and performance of all subgroups of pupils served by the charter school on the state indicators included in the evaluation rubrics adopted pursuant to Section 52064.5 and the performance of the charter school on the local indicators included in the evaluation rubrics adopted pursuant to Section 52064.5.
- (2) The chartering authority shall provide greater weight to performance on measurements of academic performance in determining whether to grant a charter renewal.
- (3) In addition to the state and local indicators, the chartering authority shall consider clear and convincing evidence showing either of the following:
 - (A) The school has achieved measurable increases in academic achievement, as defined by at least one year's progress for each year in school.
 - (B) Strong postsecondary outcomes, as defined by college enrollment, persistence, and completion rates equal to similar peers.
- (6) The chartering authority may deny a charter renewal pursuant to this subdivision only upon making written findings, that the charter school has failed to meet or make sufficient progress towards meeting standards that provide a benefit to the pupils of the school, that closure of the charter school is in the best interest of pupils and, if applicable pursuant to paragraphs (2) and (3), that its decision provided greater weight to performance on measurements of academic performance.
- (7) For a charter renewed pursuant to this subdivision, the chartering authority shall grant a renewal for a period of five years.

Acknowledgements

The SCCOE Charter Schools Department is grateful for the contributions from the SCCBOE-authorized charter schools, SCCOE employees, and the Santa Clara County Board of Education (SCCBOE). Assistance from each of these educational partners has made the 2025-26 Annual Charter Schools, Data Book possible. We would also like to acknowledge their dedication to all the children of Santa Clara County and their education.

Special recognition goes to the following:

- Santa Clara County Board of Education
- Dr. David M. Toston Sr, County Superintendent of Schools
- Susan Ady, SCCOE Director of District Business Services
- SCCOE Business, Facilities & Operations Division
- SCCOE Media & Communications Department
- SCCOE Print Shop
- SCCOE Special Education Department

The Charter Schools Department is grateful to the SCCBOE-authorized charter schools for their assistance in compiling the data for this book.
