San Jose, CA 95131

Dear Superintendent Dewan,

Discovery Charter School II is requesting to renew its charter, first approved by the Santa Clara County Board of Education in July of 2013 following denial by the San Jose Unified School District.

Our student population has grown considerably since we opened with a little more than 300 students four years ago. We now have over 550 students in grades TK through eighth, and this year we received 625 applications across all grades, with 280 applications for Kindergarten. Parent demand for our program continues to grow.

Our program has also grown. Two years ago, we added a unique blended homeschool program in which students attend school two days each week and are homeschooled for the rest of the week. We also continue to develop the Reggio Emilia approach to teaching across all grades, including a focus on formative assessments and the "emergent curriculum."

We look forward to working with you, your staff, and the Santa Clara County Board of Education in implementing this charter renewal.

Sincerely,

I. Charter School Intent and Charter Requirements

In 1992 the California Legislature enacted the Charter Schools Act of 1992. Section 47601 of the California Education Code states that:

It is the intent of the Legislature, in enacting this part, to provide opportunities for teachers, parents, pupils, and community members to establish and maintain schools that operate independently from the existing school district structure, as a method to accomplish all of the following:

(a) Improve pupil learning.

(b) Increase learning opportunities for all pupils, with special emphasis on expanded learning experiences for pupils who are identified as academically low achieving.

(c) Encourage the use of different and innovative teaching methods.

(d) Create new professional opportunities for teachers, including the opportunity to be responsible for the learning program at the school site.

(e) Provide parents and pupils with expanded choices in the types of educational opportunities that are available within the public school system.

(f) Hold the schools established under this part accountable for meeting measurable pupil outcomes, and provide the schools with a method to change from rule-based to performance-based accountability systems.

(g) Provide vigorous competition within the public school system to stimulate continual improvements in all public schools.

The Charter Schools Act (or “the Act”) (Education Code Section 47600, et seq.) requires each charter school to have a “charter” that outlines the mandatory items of the Act. The following provisions of this charter coincide with the requirements of a charter petition as required by Section 47605 of the Act.
II. Affirmations/Assurances

As the authorized lead petitioner, I, Debby Perry, hereby certify that the information submitted in this petition for renewal of a California public charter school named Discovery Charter School II (“Discovery II,” or the “Charter School”), located within the boundaries of the San Jose Unified School District (“SJUSD” or the “District”), and authorized by the Santa Clara County Office of Education (“SCCOE” or “County”) is true to the best of my knowledge and belief; I also certify that this petition does not constitute the conversion of a private school to the status of a public charter school; and further, I understand that if the charter is renewed, the Charter School will follow any and all federal, state, and local laws and regulations that apply to the Charter School, including but not limited to:

- The Charter School shall meet all statewide standards and conduct the student assessments required, pursuant to Education Code Section 60605, and any other statewide standards authorized in statute, or student assessments applicable to students in non-charter public schools. [Ref. Education Code Section 47605(c)(1)]

- Discovery Charter School declares that it shall be deemed the exclusive public school employer of the employees of the Charter School for purposes of the Educational Employment Relations Act, Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code. [Ref. Education Code Section 47605(b)(6)]

- The Charter School shall be non-sectarian in its programs, admissions policies, employment practices, and all other operations. [Ref. Education Code Section 47605(d)(1)]

Except as required by Education Code Section 47605(d)(2), admission to the Charter School shall not be determined according to the place of residence of the student or his or her parents within the State. Preference in the public random drawing shall be given as required by Education Code Section 47605(d)(2)(B). In the event of a drawing, the chartering authority shall make reasonable efforts to accommodate the growth of the Charter School in accordance with Education Code Section 47605(d)(2)(C). [Ref. Education Code Section 47605(d)(2)(A)-(C)]

- The Charter School shall not discriminate on the basis of the characteristics listed in Education Code Section 220 (actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Section 422.55 of the Penal Code including immigration status or association with an individual who has any of the aforementioned characteristics). [Ref. Education Code Section 47605(d)(1)]

If the pupil is subsequently expelled or leaves the school district without graduating or completing the school year for any reason, the school district shall provide this information to the Charter School within 30 days if the Charter School demonstrates that the pupil had been enrolled in the Charter School. [Ref. California Education Code Section 47605(d)(3)]

III. Introduction

School Founding

The first Discovery Charter School was founded in 2005. Family demand for the Discovery program has been substantial, with well over 700 students each year hoping to gain enrollment in the program. In response to community interest, the Discovery Board of Directors moved to replicate the original program and open a second Discovery campus. Discovery Charter School II was approved by the Santa Clara County Board of Education in July 2013. Discovery II opened with over 300 students and continues to attract hundreds of interested families.

Term of Charter Renewal

The Petitioners request to renew the charter for Discovery II pursuant to Education Code Section 47607 for a term of five years from July 1, 2018 through June 30, 2023.

Students to Be Served

On approval of the charter petition, the Petitioners plan to continue to offer instruction for Transitional Kindergarten (TK) through grade eight.

Notification upon approval

Upon approval of the charter petition, the Petitioners will provide a written notice of the approval and a copy of this document to the Superintendent of Public Instruction and the State Board of Education.

Facilities

Discovery II will continue to be located at one site within the boundaries of SJUSD. The Petitioners acknowledge that any additional sites will require a request for a material revision to the charter, notification of affected districts, if applicable, and approval by the County Board at a public meeting.

Leadership Team

The leadership team is comprised of teacher representatives from all grade levels and classified staff. The leadership team has been formed to facilitate shared governance and to serve as an advisory body to the Director, to represent staff interests and employee relations, to provide input to the school budget, and to facilitate the execution of the Local Control Accountability Plan (LCAP) for the school. For more information refer to Attachment 4: Leadership Team.

*Notes:

- Throughout the charter, in order to avoid awkward grammatical constructions, the use of grammatically masculine singular words such as “he”, “his”, “him”, and “himself” are used in the generic sense and include both male and female.
- Throughout this document, the charter school will be referred to as Discovery Charter School II, the “Charter School”, or simply Discovery II. We will use the terms “Discovery” or “Discovery Charter Schools” when referring to all of the Discovery campuses.
IV. Background

Research consistently shows that one of the most significant predictors of a student’s academic achievement is parental support for and involvement in their child’s education. The California Department of Education has found that parent involvement is a more important predictor of student success than family income or the parents’ level of education.

A central goal of Discovery Charter Schools is to build a vibrant learning community. We have created and we support a culture of parental empowerment and “ownership” of the school, of cooperation and regular communication between home and school, and of daily integration of a deep level of parent involvement in our program and the delivery of curricula. Parent education is a key to our success. Each parent who is new to our program receives training in Positive Discipline, the most widely used parenting program in the world that was created by Dr. Jane Nelsen. In addition to this training, parents receive ongoing training in classroom strategies for programs like Readers Workshop and Writers Workshop, training which helps focus on consistent offerings through all classrooms. These programs not only enable the parents to be effective classroom aides but also aid the parents as they work with their own children at home.

Our academic program involves frequent use of Project and Problem Based Learning, student choice regarding what and how they learn, and teachers who have the flexibility to adapt curricula to the interests and needs of individual students, groups, or their entire class. We are developmental and have also incorporated Reggio Emilia into the school curriculum. Our teaching methodology is adapted for students through the 8th grade. We are the only public school in the country using Reggio Emilia with older students, and we have worked with Opal School in Portland and the Harvard Graduate School of Education to train all of our teachers in the Reggio approach.

Our program views a child as capable of driving his own learning with teachers who are trained to recognize and implement the “emergent curriculum” that grows from strong personal connections with each student and close attention to that student’s ideas and many ways of expressing questions about the world. Careful assessment and documentation is critical to the success of this program. One of the tools our teachers use to accomplish this is the “Seesaw” electronic assessment and portfolio system.

Discovery provides a strong academic program for all students and an early intervention program for students struggling with foundational skills in math and reading. Using an RTI model of identification and remediation, we assess students who score below expected age and grade level norms or who have been identified as struggling by their parents or teachers. Struggling readers are given the Comprehensive Test of Phonological Processing (CTOPP) to assess their phonemic awareness skills. Lack of phonemic awareness is the most common cause of reading difficulties or dyslexia. Identified students are given intensive 1:1 tutoring with trained parents and community volunteers using the Barton Reading and Spelling System.

In math we provide a similar system of early identification and remediation in small groups and if necessary with 1:1 tutors using the Right Start Math program. We also have an online tutoring program that supports students in the upper grades who are struggling with foundational math concepts. Developing number sense and basic computational skills is the focus of our interventions in math, and we use a variety of programs depending on the needs of the students, including TERC Investigations, Singapore Math, Holt Math, Greg Tang Math, Marcy Cook materials, and teacher-made lessons.
Our program for English Learners (EL) involves immersion in language based classrooms and individual and small group sessions with trained parent tutors. The instructional strategies that we use require the use of language as opposed to workbooks and worksheets.

These intervention programs are all successful examples of using trained parent volunteers to help provide intensive, personalized interventions for students under their teacher’s direction. Again, training parents is the key to their success, and we provide intensive instruction for parents who wish to provide academic interventions. For example, Barton tutors attend a full day of training before beginning and then receive two or more additional trainings, coaching while tutoring, and additional video tutoring as they proceed with their student. Many parents of struggling students receive the training so that they can tutor their own children at home after school hours, so that their children don’t have to miss any instructional time during the school day.

Our special education program has been very successful and accounts for why many families with special needs students enroll in Discovery. For the 2016-17 school year, students with Individualized Education Plans (IEP’s) made up 17% of our student population, and we anticipate that this percentage will continue to increase. We utilize a “Learning Center” model that provides integrated services to identified students. Our resource specialist, occupational therapist, speech and language pathologist, psychologist, a counselor, and specialized aides all work together to deliver services that address the total needs of the child. This comprehensive “whole child” approach is much different than the pull out, isolated services that most students receive. We are moving to a full inclusion model of services, gradually transitioning almost all services to a push-in model and providing supports in the regular classroom for all students to be successful. We believe our program can be a model for other districts and charters across the County.

Many families in San Jose and Santa Clara County are looking for a parent participation school, but many are unable to enroll their children due to a lack of space. For the 2017-18 school year, Discovery Charter School II had 481 applications for 72 openings. In 2017-2018, we enrolled 66 Kindergarten students in our regular program and 7 new Kindergarten students in our homeschool program. Other similar parent participation schools like Washington Open in the Santa Clara Unified School District, McAuliffe in the Cupertino Union School District, and Indigo School in the Oak Grove School District have similar waiting lists. Clearly the demand for parent participation schools far exceeds the available openings.

In order to address the ethnic disparity between Discovery II and San Jose Unified, in particular our low percentage of Hispanic and low-SES students, we sought a material revision to our charter last year, which was approved by the SCCOE Board. This revision created a lottery enrollment preference for low SES students, and for the 2017-18 school year we have accepted 18 families in this group. (See Attachment 33: Demographics) We also established a Diversity Task Force to address systemic issues that may be adversely affecting enrollment opportunities, and one of their tasks was to call and welcome each of these new families, when necessary in their native language.

At Discovery, we have a proven record of success. Our CDE “Dashboard” scores are all in the green or blue range, and we have received accolades from County Office administrators who have been assigned to review our program for compliance with state regulations and the MOU with the County. Our special education program has been called “the most inclusive of all the charters in Santa Clara County” by the previous County Director of Special Education. We have developed a successful, comprehensive, school-wide program that stands to benefit many children and families in Santa Clara County.
V. Charter Renewal

- We opened in 2013 with a little more than 300 students. We’ve grown to over 550 students.
- We implemented a blended homeschool model in which the students attend school for two days each week and are homeschooled the rest of the week.
- We occupy the entire Randol School site in San Jose Unified and have a positive relationship with the district.
- We practice a shared leadership model with our staff being part of the decision making process for all instructional decisions.
- The staff developed a school-wide assessment system using First Steps Continuums and See Saw, and electronic portfolio.
- Our parents are actively engaged in our instructional program each day and also provide parent education to the entire school community, including the Positive Discipline parenting program.
- We implemented our own before and after school care program, including an extensive offering of after school classes.
- We have a large population (almost 20%) of special education students and are implementing a full inclusion program.
- Discovery’s Board of Directors consists of individuals with association to one or both school campuses,
- Teaching and administrative staff collaboration has increased between schools.
- A diversity task force was established to pursue ways to increase diversity and community inclusion.
- We implemented our own affordable before and after-school care program.
- We offer extensive after-school classes and activities.

FUTURE PLANS FOR NEXT CHARTER TERM

- Fine-tune middle school program for progression opportunities.
- Conduct Discovery Experience study on site.
- Continue diversity and inclusion development.
- Explore outreach of parenting and educational lectures for surrounding community (in both English and Spanish), collaborating with county and non-profit partners.
- Evaluate facility improvements and updates as needed.

CHARTER RENEWAL CRITERIA

Evidence of Meeting Charter Renewal Standards Pursuant to Education Code Section 47607(b) and the California Code of Regulations, Title 5, Section 11966.5(b)(1)

Education Code Section 47607(b) requires that a charter school must meet at least one of the following renewal criteria prior to receiving a charter renewal:

(1) Attained its Academic Performance Index (API) growth target in the prior year or in two of the last three years, both school wide and for all groups of pupils served by the charter school.
(2) Ranked in deciles 4 to 10, inclusive, on the API in the prior year or in two of the last three years.
(3) Ranked in deciles 4 to 10 inclusive, in the API for a demographically comparable school in the prior year or in two of the last three years.

(4) The entity that granted the charter determines that the academic performance of the charter school is at least equal to the academic performance of the public schools that the charter school pupils would otherwise have been required to attend, as well as the academic performance of the schools in the school district in which the charter school is located, taking into account the composition of the pupil population that is served at the charter school.

(5) Has qualified for an alternative accountability system pursuant to subdivision (h) of Education Code Section 52052.

The following shall serve as documentation confirming that the Charter School meets the statutory criteria required for renewal as set forth in Education Code Section 47607(b)(4).

Additional Justification for Charter Renewal

Analysis of Charter Renewal Criteria – Student Subgroups

*Education Code Section 47607(a)(3) states:*

*The authority that granted the charter shall consider increases in pupil academic achievement for all groups of pupils served by the charter school (defined as “a numerically significant pupil subgroup, as defined by paragraph (3) of subdivision (a) of Section 52052.” EC §47607(a)(3)(B)) as the most important factor in determining whether to grant a charter renewal.*

Discovery Charter School II utilizes Fountas and Pinnell to assess and monitor student progress in the area of reading. The graphs below show that most students have achieved significant growth over the course of the last academic year, with more than 75 students achieving five levels of growth.
Summary of Writing Data
Discovery Charter School - Falcon Campus utilizes First Steps Developmental Writing Continuum to assess and monitor student progress in the area of writing. The continuum consists of six different phases, each with between 15-18 writing indicators describing writing behaviors as well as elements of the writing process. In order to progress to a new phase on the continuum, student writing samples must demonstrate all writing indicators within a phase before progressing to the next phase.

Unable to find demographically similar schools, we compared ourselves to districts, including San Jose Unified, the district in which we are located, and neighboring districts such as Oak Grove, as well as the County and State.
VI. Educational Philosophy and Program

“The educational program of the charter school, designed, among other things, to identify those whom the charter school is attempting to educate, what it means to be an “educated person” in the 21st century, and how learning best occurs. The goals identified in the program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners.” – California Education Code Section 47605(b)(5)(A)(i)

“The annual goals for the charter school for all pupils and for each subgroup of pupils identified pursuant to Section 52052, to be achieved in the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school, and specific annual actions to achieve those goals. A charter petition may identify additional school priorities, the goals for the school priorities, and the specific annual actions to achieve those goals.” – California Education Code Section 47605(b)(5)(A)(ii)

(A) Mission

Discovery Charter Schools are dedicated to creating lifelong learners that are prepared to meet the challenges of the future by educating the whole child through family involvement, project-based learning, and respect for individual learning styles and developmental readiness.

Discovery II is committed to:

Building an educational environment where developing, building, and engaging families and communities will provide a common vision for lifelong learning and student success;

Respecting the cognitive, emotional, social, and physical development of each child;

Partnering with staff, students, parents, and community to create a unique, challenging, and individualized learning environment with high academic standards and expectations;

Building programs that foster thinking which is original, critical, collaborative, and reflective; and

Developing students who are self-motivated, self-disciplined, and socially responsible.

(B) Educational Philosophy and Instructional Design

The instructional program is designed so that teachers work together to promote a high level of academic and behavioral success for all students. The school’s instructional design is built on the following core elements:

**Classes** are developmental and standards based

**Classes** are developmental, hands-on, student-centered, and theme-based to accommodate individual learning styles and achievement levels.

**Classes** use a looping model (students stay with their teacher for two years) to provide an opportunity for teachers and students to develop a strong sense of community.
**Small group instruction** allows teachers to differentiate the curriculum to meet the needs of each student.

**Collaboration and partnership of teachers, parents, and students** creates a sense of community that is supportive, nurturing, and student-centered.

**Curriculum** is designed by teachers using state standards, brain-based research, students’ ideas, and best practices. Curriculum is constantly evaluated, adapted, and improved by teachers.

**We are a community of lifelong learners comprised of teachers, parents, and students.** Respect for one another as learners is a key component of our school. Students are encouraged to share their knowledge and expertise with others. Developing student independence is a priority, and students are valued as decision makers.

**Assessment** is done on a continual basis. Formative on-going assessments are used to inform instruction. Students and teachers work to develop and monitor learning goals and share them with their parents during student-led conferences.

**Enrichments and Selectives** such as gardening, art, cooking, drama, foreign language, and dance are strategically integrated to support the curriculum.

**Technology is integrated in the curriculum** and is used as a tool for teaching and learning. Students regularly utilize technology for research, analysis, communication, skill building, and self-expression.

**Field trips** extend the classroom experience by providing real-world experiential learning opportunities for each student.

A typical day for a kindergartener and for a sixth-grader at Discovery II are described in Attachment 5: A Day in the Life of a Kindergartener, and Attachment 6: A Day in the Life of a Sixth-Grader.

**How Learning Best Occurs**

Research indicates that children learn by doing, and the hands-on learning approach will give students an opportunity to take learned skills and apply them to meaningful projects. These projects provide students an opportunity to develop and demonstrate critical thinking skills, problem solving skills, and cooperative learning which will prepare them for the 21st century.

Research also indicates that the brain is pattern-seeking and looks for connections between pieces of information (McBrien/Brandt, 1997). These connections lead to a stronger and more thorough understanding. Whenever possible, curriculum is designed around science, social studies, or literacy themes (Ostrow, 1995). Topics are studied from many different angles and viewpoints, allowing students to explore subjects deeply, employ higher level thinking skills, and make connections among various disciplines of thought (Jensen, 1998).

Children develop and grow at different rates in different skill areas. Teachers’ strong understanding of child development and close working relationship with each child’s parents allows them to design learning experiences so that each child’s needs are met (Bingham, 1995). Curriculum is aligned with each child’s developmental level to allow children to feel successful regardless of academic level.
Children also have different strengths and styles of learning. The teachers develop instructional programs incorporating the theory of multiple intelligences to build on each student’s strengths and to address diverse learning styles (Gardner, 1999).

Learning best occurs in a collaborative environment. Students have a higher motivation to learn when they have a real stake in their own learning. The teacher shares control of the classroom and students are allowed to explore, experiment, and discover on their own. The focus in these classrooms is on options rather than uniformity. Learners are treated as co-creators in the learning process, as individuals with ideas and issues that deserve attention and consideration.

Learning best occurs in a climate where there are measurable goals and accountability. As Schmoker (1996) so simply states: “What gets measured gets done”. Discovery II provides a continuous collection and application of data for students, parents, teachers, and administrators.

**What it Means to be an Educated Person in the 21st Century**

Advances in technology have touched everyone’s lives. Today’s youth are growing up in a world that is more technologically advanced than any other time in history. Through the Internet and television, our children quickly and easily learn about world events, its inhabitants, and its issues. The Internet literally brings a world of information right to our fingertips. The world our children will know as adults will undoubtedly be very different than the world we have today.

In spite of the many changes in our world, many fundamental characteristics of a well-educated person remain. A vital part of being a well-educated person is mastery of fundamental skills, concepts, and knowledge in history, math, science, reading, writing, art, and music and an appreciation for what those who have come before us have learned. For such knowledge to be useful, it must be supported by the ability to think critically, the ability to use reasoning, and the ability to make coherent arguments supported by evidence. The educated person can evaluate, organize, and use information from various sources and disciplines of thought. He is able to make logical and flexible connections with the newly acquired information. He is able to reflect on experiences, revise his understanding, and solve new problems. The educated person is competent using a variety of technology tools for analysis, communication, and presentation. These tools, coupled with knowledge of history, provide the ability to process and evaluate the changes encountered.

To become an educated person, a child needs support and guidance that come from having positive relationships with parents, teachers, other adults, and other children. Growing up in California’s populous and diverse community, a child needs to experience new cultures and learn new languages. He must learn to communicate well and work effectively in groups and teams and to understand the moral responsibility of helping others and the value of contributing to his community.

As a contributing citizen of the 21st century, an educated person is self-motivated and competent. Through years of working with teachers and other adults, he has learned how to assess his abilities and how to learn. The educated person has an appreciation for knowledge and views lifelong learning as an activity that is essential to keep pace with the constantly changing world. Discovery II seeks to enable pupils to become self-motivated, competent, and lifelong learners.
(C) **Students Served**

Discovery II serves students in Transitional kindergarten (TK)\(^1\) through eighth grade. We currently have 573 students enrolled for the 2017-18 school year.

Discovery II attracts those who are seeking an alternative to their current educational system, desire an innovative approach, and share the vision of Discovery Charter Schools.

(D) **Curriculum**

Discovery II focuses on the education of the whole child through a core curriculum of English-language arts, mathematics, science, and history-social science including a complementary curriculum of performing arts, physical education, technology, and life skills education. State Standards are used as the foundation to build curriculum and guide instruction. The Discovery II curriculum addresses the developmental needs of a diverse population. Students are encouraged to be active in the community through various community service projects. See Attachment 8: Sample Curriculum.

Language arts is integrated across all curricular areas and offers a rich diversity of activities and resources. The comprehensive curriculum includes daily opportunities for children to practice and improve reading, writing, listening, and speaking skills. A variety of teaching strategies are used to ensure that each student’s needs are being met. Instruction is provided in large group, small group, and individual settings. Periodic classroom and school benchmark literacy and math assessments help teachers continue to align instruction with the needs of the students.

All students at all grade levels are engaged in challenging, hands-on math activities which involve thinking mathematically and using tools, techniques, and strategies to solve real world problems. Our program develops number sense and problem-solving skills through concrete experiences using manipulatives before moving on to more abstract concepts. Teachers use a variety of resources such as Holt, TERC Investigations, CPM (College Preparatory Math), Kathy Richardson, Marcy Cook and Greg Tang activities, and teacher-created materials. Math activities are integrated throughout the curriculum. Many math activities are multi-leveled and provide students with a variety of skill levels and opportunities for meaningful work. Parents volunteers may be invited to lead concept or needs-based math learning centers.

The science program at Discovery II uses resources such as FOSS (Full Option Science System) kits and GEMS, hands-on science curriculum that integrates essential learning in the areas of earth, physical, and life sciences throughout the curriculum. Depth over breadth is emphasized in a thematic-based curriculum that is guided by student interests as well as the Next Generation Science Standards. Science at Discovery Charter School II includes real-life experiences with lab experiences, the scientific method, problem-solving, gardening, and cooking. Students also participate in field experiences off campus to supplement and solidify what they are learning in the classroom.

The social studies curriculum also ties in closely with other curricular areas such as language arts and science. Using resources such as the Teachers Curriculum Institute’s “History Alive” program, content is based on the state standards and emphasizes living and working together in our diverse community.

---

\(^1\) If the Charter School receives apportionment for students in a transitional kindergarten program, it shall offer transitional kindergarten, the first year of a two-year kindergarten program that uses a modified kindergarten curriculum that is age and developmentally appropriate.
Productive citizens of the 21st century must be able to work cooperatively as part of a team to accomplish a task. Cooperative learning techniques, used throughout the curricular areas, teach students to work collaboratively with others and allow them to develop their social and communication skills. Students learn to share their knowledge and skills and to respect the ideas and skills of others. Service learning projects are integrated into the curriculum where applicable.

In addition to the above core curriculum, students participate in activity-based physical education, health, Spanish, and visual and performing arts. Technology is used as a tool for teaching and learning. Students have access to technology for research, analysis, communication, skill building, and self-expression by using the classroom computers, and Chromebooks, which allow students to work independently or in a lab experience.

Through their work as part of the Discovery II community of learners, students develop skills that enable them to pursue their own path of learning throughout their adult lives and become self-motivated, competent, and lifelong learners. Students learn study skills such as note taking, library research skills, and study strategies. Through self-evaluation and goal setting, students learn to reflect on and evaluate their own learning and progress toward achieving a goal. During student-led conferences, students share their goals, class work, and activities that demonstrate their goals and reflect on their work with their parents. Project-based learning provides practice in reasoning, decision-making, and problem solving. Students learn to identify and use available resources and to articulate their thought processes to others.

**Learning Environment**

Discovery II provides a productive, safe, enriching learning community in which children, parents, and teachers of different backgrounds, abilities, and needs work and learn together successfully. Discovery II allows and encourages collaborative work between students and teachers and values cooperation and collaboration as important life skills. Learning at Discovery II takes place in many settings during the day.

Our classrooms are organized by grade level to ensure that teachers can meet the more structured curriculum standards. All of our teachers use the organizational structure of looping to allow students to stay with their teacher for more than one year. This structure leads to greater bonding between students and teachers, improved learning, and deeper connections to the school.

Students work in mixed groups in weekly enrichment workshops to promote positive cross-grade relationships. Periodic groupings within grade levels allow students to benefit from the diverse and unique teaching styles of each teacher. Upper grade teachers use a variety of strategies including cooperative learning, research methods, hands-on experiences, and simulations.

As part of the learning community themselves, teachers must have time to work together, plan, discuss student needs, mentor one another, and observe other classrooms. The school day is structured so that staff members have time during school hours for professional development, grade level collaboration, and decision making. To permit this flexibility, the length of the school year and/or the length of the school day may be extended beyond the state-mandated minutes. Teachers are required to participate in ongoing staff development in order to stay current with research in best teaching practices. Professional development is provided at the site by experts and staff members. Teachers are also encouraged to attend classes or workshops in their area of focus off campus and to share their learning and experience with the staff when they return to school.
The unique features and structure of the Discovery II curriculum and the instructional strategies outlined here are designed to maximize the learning opportunities of all students across a broad spectrum of abilities and allows for small group instruction to address the multiple intelligences of all of our students.

(E) Plan for Students Who Are Academically Low-Achieving

At Discovery II, low-achieving students are those who fall below the 50th percentile on the adopted standardized test and/or fall below learning behavior, language acquisition, and fine and gross motor skills on a developmental continuum. At Discovery II at-risk students are students who achieve at or below the 40th percentile on adopted state tests who may or may not qualify for special education services, and whose achievement potential is not being realized.

When parents volunteer to help in the classroom their help provides teachers with the ability to offer differentiated instruction. Students have the opportunity to work in small groups or individually with an adult for a large portion of the school day. Under the direction of the teacher, parent volunteers can work with small groups or 1:1 to ensure that all children get the individual help and attention they need to succeed. Activities are differentiated so that students who are ready can move on without leaving any other student behind. Parents who can and want to help in the classrooms may be trained in certain interventions in order to help at-risk or low-achieving students in the classroom. Parent talents and skills are also used to provide enrichment and extension activities for students.

Early intervention is the key to effective remediation of academic difficulties. At Discovery II we assess students whom teachers have identified as struggling with learning to read using the Comprehensive Test of Phonological Processing (CTOPP). Students found to have a cognitive deficit affecting their ability to read (as opposed to a delay in developmental readiness) are given intensive 1:1 tutoring using the Barton Reading and Spelling Program. In math we also assess struggling students as early as possible and provide leveled math groups, additional small group instruction and 1:1 tutoring under the Response to Intervention (RTI) model and the Right Start intervention program. Interventions may also include help from our TLC (The Learning Center) team prior to (or without) formal identification as a student with a disability.

Looping classrooms give at-risk and low-achieving students continuity with one teacher for two years. Students have time to develop at their own rate and are presented with daily opportunities to learn at their own developmental level in each academic area. Flexible grouping across age groups allows students to work at an instructional level with others possessing the same skills. Teachers may group students in different ways to help build a certain skill set or learning behavior. All students have opportunities to take both leading and following roles in cooperative activities. This allows at-risk or low-achieving students to be successful in their school work each day and builds student confidence.

Hands-on, integrated curriculum provides concrete experiences to scaffold learning for at-risk students. Students have opportunities to follow interests and connect their previous knowledge to new concepts. Through broad themes, students are given an opportunity to broaden their knowledge of big concepts, giving them a strong base for adding and retaining new knowledge. Concrete learning experiences at every grade level give at-risk students opportunities to learn in a variety of modalities, helping them to eventually develop the learning strategies that work best for them.

Parents of at-risk or low-achieving students are included in the development of strategies to meet the specific needs of the student. Further support for such students includes intervention programs beyond the classroom, such as cross-age tutoring and student study teams.
(F) Plan for Students Who Are Academically High-Achieving

At Discovery II, students achieving above grade level in any academic area and/or possessing superior intellectual or leadership ability have opportunities for more challenging work and leadership roles within the classroom and school. In addition, student strengths outside the core academic areas are fostered and celebrated in the classroom. Discovery II strives to provide differentiated educational experiences that maintain the interest and intrinsic motivation of gifted students in order to nurture their self-esteem and social development.

All students are assessed for giftedness during the first grade (We also test students new to the school at any grade) using the Cognitive Abilities Test (CogAT). Information from this test helps provide a learning profile for all students and identify giftedness and specific ability strengths. Students are then “clustered” in subsequent years with other gifted students, when possible with other students who are gifted in the same cognitive area, i.e. logical / mathematical intelligence. Clustering allows the teacher to group these students together for certain activities, enhancing peer interaction and increasing the level of challenge.

Looping classrooms give high-achieving students continuity with one teacher for two years. Students have opportunities to excel in their areas of strength while continuing to develop at their own pace in other areas. In each area of development, students are presented with daily opportunities to learn and work at an instructional level with others possessing the same skills. Teachers may group students in different ways to help build a certain skill set or learning behavior. High-achieving students are given opportunities to work cooperatively to solve problems and also opportunities to teach or lead a group in order to solidify concepts for themselves. All students have opportunities to be both a leader and a follower in cooperative activities. These opportunities allow high achieving students to be both successful and challenged in their schoolwork each day and build a positive attitude toward school.

Project-based learning provides opportunities for above grade level students to capitalize on their interests and knowledge of a particular subject, to practice problem solving, and to use higher level thinking skills. These students need opportunities to work collaboratively on a problem and to make decisions about the direction a project will go. Through broad themes, students are given an opportunity to expand their knowledge of big concepts and to choose and follow a focus area about which they wish to learn more. Activities designed with the multiple intelligences in mind provide opportunities for students to use their strengths and continue to develop other learning modalities, all in a risk-free environment. Gifted program services shall be available in conjunction with other differentiation strategies, such as flexible grouping, tiered lessons/activities, and the high level of questioning strategies that are currently practiced at Discovery II.

The teacher can organize students working in small groups with the help of volunteers. The teacher can organize the students into small groups and with the help of volunteers. The school forms the core of students’ daily social and academic experiences, which in turn play a critical role in the students’ social and emotional adjustment. With the help of trained volunteers cooperative learning groups can have students that can take on the roles themselves. In order to ensure a positive environment, the Discovery gifted program, with the help of the gifted parent support group, shall provide workshops to help parents understand the social and emotional aspects of gifted children. See Attachment 9: Plan for Students Who Are Academically High Achieving.
Plan for English Learners

Discovery II shall meet all legal requirements for English Learners (ELs) relative to annual notification to parents, student identification, placement, program options, English Learner and core content instruction, teacher qualifications and training, reclassification to Fluent English Proficient (FEP) status, monitoring and evaluation of program effectiveness, and standardized testing requirements. Discovery II shall implement policies to effectuate proper placement, evaluation, and communication regarding ELs and the rights of parents and pupils.

Home Language Survey

The Home Language Survey (HLS) is administered upon a student’s initial enrollment into a California public school. If Discovery II is not a student’s first California public school, then Discovery II receives a copy of the student’s HLS from the prior school(s) of attendance. Nonetheless, all parents are required to complete the Home Language Survey.

Annual Assessments

Discovery II shall follow all English Language Proficiency Assessments for California (ELPAC) testing timelines to ensure students who have indicated that English is not the primary language spoken at the home are assessed as to English fluency annually until re-designated as FEP to ensure these students receive proper instruction based upon current English proficiency levels.

English Learners and Core Instruction

Discovery II shall offer Mainstream English instruction for all English Learners, as well as regular small group, intensive support in vocabulary and language development. That instruction is designed to ensure that students acquire English language proficiency and recoup any academic deficits that may have developed in other areas of the core curriculum. Mainstream English instruction contains the following components:

- Well-articulated, standards-based, differentiated English Language Development (ELD) instruction specifically designed for English Learners;
- Well-articulated, standards-based, differentiated instruction in the core curriculum, with primary language support and/or Specially Designed Academic Instruction in English (SDAIE);
- Structured activities designed to develop multicultural proficiency and positive self-esteem.

Each EL is expected to make progress in English and in grade level academics. Our program for English Learners (EL) involves immersion in language based classrooms and individual and small group lessons. The instructional strategies that we use require the use of language as opposed to workbooks and worksheets.

Reclassification and Monitoring

English Learners are reclassified as “fluent” when they have sufficient English skills to learn in a regular classroom without extra assistance and perform in academic subjects at approximately “grade level.”
An English Learner in grades 2 - 8 must meet all of the following criteria to be reclassified from English Learner to FEP status:

- Overall proficiency levels of Early Advanced or Advanced on ELPAC with proficiency levels of intermediate or above in all three test components (listening/speaking, reading, and writing)
- Adequate performance on school progress report cards
- Teacher recommendation and evidence of successful performance in reading and writing in the classroom

Student progress is monitored annually. School level assessments, English Proficiency Reassessments using the ELPAC, and classroom data and observation are used to determine English language proficiency, and evaluate students’ language growth and academic performance. Formative assessments to monitor students’ ELD progress are given by teachers throughout the school year in listening/speaking, reading and writing.

Reclassified students shall be monitored each semester to ensure that they are making adequate academic progress through the following means: teacher/Director/student interview, a discussion of affective attitude toward learning, a review work samples and grades, and intervention if needed.

See Attachment 10: CELDT & Plan for English Learners Table of Contents.

(H) Plan for Special Education

Overview

Discovery II shall adhere to all laws affecting individuals with exceptional needs, including all provisions of the Individuals with Disabilities Education Improvement Act of 2004 (“IDEA”), its amendments, Section 504 of the Rehabilitation Act, and the Americans with Disabilities Act (“ADA”). All students are given equal access to the school, regardless of disabilities, and the school does not discriminate against any student based on his disabilities. We do not require the modification of an IEP or 504 plan as a condition of acceptance at the Charter School.

Discovery recognizes the importance of providing education opportunities to all students regardless of physical challenges or special needs. To that end, Discovery II pledges to ensure that enrolled students are served in accordance with applicable federal and state law.

Our program is based on the “Learning Center” model of service delivery, which is an integrated approach to meeting the needs of students with learning, behavioral, and social-emotional challenges. In the Learning Center model students receive “push-in” or “pull-out” support from our resource specialists, speech and language pathologist, occupational therapist, counselor, school psychologist, and trained aides, working together to address the unique needs of their students. Discovery II is moving towards a full inclusion model of special education, attempting to serve all students with special needs in the regular classroom as much as possible.

IDEA

Discovery II shall be a public school of the Santa Clara County Board/Office of Education (“County”) for purposes of special education pursuant to Education Code Section 47641(b).
Discovery II and the County maintain an agreement regarding special education which specifies in detail the responsibilities for provision of special education services by the Charter School and the manner in which special education funding will flow through the County to the students of the Charter School.

The details of this arrangement are discussed and codified in a memorandum of understanding between the County and the Charter School. Discovery II seeks to extend this agreement, with changes that will be developed this year in meetings between charter leaders and SCCOE staff. Nothing in this Section, however, shall be deemed to prevent the Charter School from seeking LEA status pursuant to Education Code Section 47641(a) or from contracting with a third-party to provide special education services.

The Charter School intends to provide special education instruction and related services in accordance with the IDEA, Education Code requirements, and applicable policies and practices of the Special Education Local Plan Area (“SELPA”). The Charter School reserves the right to make written verifiable assurances that the Charter School shall become an independent LEA and join a SELPA pursuant to Education Code Section 47641(a) either on its own or with a grouping of charter school LEAs as a consortium. The Charter School provides its own staffing and runs its own special education program under the guidance and supervision of the County Office of Education.

The Charter School shall follow County policies and procedures, and shall utilize County forms in seeking out and identifying and serving students who may qualify for special education programs and services and for responding to record requests and parent complaints, and maintaining the confidentiality of pupil records. The Charter School shall comply with County protocol as to the delineation of duties between the County and the local school site in providing special education instruction and related services to identified pupils.

The Charter School is designated as the Local Educational Agency (“LEA”) serving Charter School students.

**Staffing**

All special education services at the Charter School shall be delivered by individuals or agencies qualified to provide special education services as required by California’s Education Code and the IDEA. It is the Charter School’s understanding that the Charter School shall be responsible for the hiring, training, and employment of site staff necessary to provide special education services to its students, including and without limitation to, special education teachers, paraprofessionals, and resource specialists. The Charter School shall ensure that all special education staff hired by the Charter School are qualified pursuant to County and SELPA policies, as well as meet all legal requirements. The Charter School shall be responsible for the hiring, training, and employment of itinerant staff necessary to provide special education services to Charter School students, including and without limitation to, speech therapists, occupational therapists, behavioral therapists, and psychologists.

**Notification and Coordination**

The Charter School shall follow County policies as they apply to all schools for notifying school personnel regarding the discipline of special education students. The Charter School shall assist in the coordination of any communications and immediately act according to County policies and education code relating to disciplining special education students.
Identification and Referral

The Charter School shall have the responsibility to identify, refer, and work cooperatively in locating Charter School students who have or may have exceptional needs that qualify them to receive special education services. The Charter School shall implement County policies and procedures and federal law to ensure timely identification and referral of students who have, or may have, such exceptional needs. A pupil shall be referred for special education only after the resources of the regular education program have been considered, and where appropriate, utilized.

In the event that the Charter School receives a parent written request for assessment, it will work collaboratively with the parent to address the request. Unless otherwise appropriate pursuant to applicable State and Federal law, the Charter School and the County shall provide the parent with a written assessment plan within fifteen days of receipt of the written request and shall hold an IEP within sixty days of parent’s consent to the assessment plan to consider the results of any assessment.

The Charter School shall follow County child-find procedures to identify all students who may require assessment to consider special education eligibility and special education and related services in the case that general education interventions do not provide a free appropriate public education (FAPE) to the student in question.

Assessments

The term “assessments” shall have the same meaning as the term “evaluation” in the IDEA, as provided in Section 1414, Title 20 of the United States Code. The County shall determine what assessments, if any, are necessary and arrange for such assessments for referred or eligible students in accordance with general practice and procedure and applicable law. The Charter School shall work to obtain parent/guardian consent to assess Charter School students. The Charter School shall not conduct assessments without prior written approval of the County.

IEP Meetings

The Charter School shall arrange and provide notice of the necessary IEP meetings. IEP team membership shall be in compliance with state and federal law. The Charter School shall be responsible for having the following individuals in attendance at the IEP meetings or as otherwise agreed upon by the County and Charter School: the Principal and/or the Charter School designated representative with appropriate administrative authority as required by the IDEA; the student’s special education teacher; the student’s general education teacher if the student is or may be in a regular education classroom; the student, if appropriate; and other Charter School representatives who are knowledgeable about the regular education program at the Charter School and/or about the student. The Charter School shall arrange for the attendance or participation of all other necessary staff that may include, but are not limited to, an appropriate administrator to comply with the requirements of the IDEA, a speech therapist, psychologist, resource specialist, and behavior specialist; and shall document the IEP meeting and provide of notice of parental rights.

IEP Development

The Charter School understands that the decisions regarding eligibility, goals/objectives, program, services, placement, and exit from special education shall be the decision of the IEP team. Programs, services and placements shall be provided to all eligible Charter School students in accordance with the policies, procedures and requirements of the County and State and Federal law.
**IEP Implementation**

The Charter School shall be responsible for all school site implementation of the IEP. The Charter School holds ultimate authority over implementation and supervision of services. As part of this responsibility, the Charter School shall provide the parents with timely reports on the student’s progress as provided in the student’s IEP, at least three times a year. The Charter School shall also provide all home-school coordination and information exchange. The Charter School shall also be responsible for providing all curriculum, classroom materials, classroom modifications, and assistive technology.

**Interim and Initial Placements of New Charter School Students**

The Charter School shall comply with Education Code Section 56325 with regard to students transferring into the Charter School within the academic school year. In accordance with Education Code Section 56325(a)(1), for students who enroll in the Charter School from another school district within the State, but outside of the SELPA with a current IEP within the same academic year, the County and the Charter School shall provide the pupil with a free appropriate public education, including services comparable to those described in the previously approved IEP, in consultation with the parent, for a period not to exceed thirty (30) days, by which time the Charter School shall adopt the previously approved IEP or shall develop, adopt, and implement a new IEP that is consistent with federal and state law. In accordance with Education Code Section 56325(a)(2), in the case of an individual with exceptional needs who has an IEP and transfers into the Charter School from a district operating programs under the same special education local plan area of the Charter School within the same academic year, the County and the Charter School shall continue, without delay, to provide services comparable to those described in the existing approved IEP, unless the parent and the Charter School agree to develop, adopt, and implement a new IEP that is consistent with federal and state law. For students transferring to the Charter School with an IEP from outside of California during the same academic year, the Charter School shall provide the pupil with a free appropriate public education, including services comparable to those described in the previously approved IEP in consultation with the parents, until the County conducts and assessment pursuant to paragraph (1) of subsection (a) of Section 1414 of Title 20 of the United States Code, if determined to be necessary by the Charter School, and develops a new IEP, if appropriate, that is consistent with federal and state law.

**Non-Public Placements/Non-Public Agencies**

The Charter School shall be solely responsible for selecting, contracting with, and overseeing all non-public schools and non-public agencies used to serve special education students.

**Non-discrimination**

It is understood and agreed that all children will have access to the Charter School and no student shall be denied admission nor counseled out of the Charter School due to the nature, extent, or severity of his/her disability or due to the student’s request for, or actual need for, special education services.

**Parent/Guardian Concerns and Complaints**

The Charter School shall follow County, State, and Federal policies as they apply to all schools for responding to parental concerns or complaints related to special education services. The Charter School shall instruct parents/guardians to raise concerns regarding special education services, related services and rights to the Charter School.
The Charter School’s designated representative shall investigate as necessary, respond to, and address the parent/guardian concern or complaint.

The Charter School and the County shall cooperate in responding to any complaint to or investigation by the California Department of Education, the United States Department of Education, or any other agency, and shall provide timely notice to the other upon receipt of such a complaint or request for investigation.

**Due Process Hearings**

The Charter School shall have sole discretion to settle any matter in mediation or due process. The Charter School shall also have sole discretion to file an appeal from a due process hearing or take other legal action involving any Charter School student necessary to protect its rights.

**SELPA Representation**

It is the Charter School’s understanding that the Santa Clara County Office of Education shall represent the Charter School at all SELPA meetings and report to the Charter School of SELPA activities in the same manner as is reported to all schools within the County Office’s administration.

**Funding**

The Charter School shall receive funding through the County Office of Education allocated for Charter School students through the SELPA. The Charter School shall be responsible for all costs incurred in the provision of special education services in excess of special education funding allocated for Charter School students through the SELPA. Pursuant to Education Code Section 47646(c), the Charter School shall contribute an equitable share of resources for SELPA-wide special education expenditures. Additional details regarding the funding arrangements between the Charter School and County are set forth in the MOU.

The Charter School acknowledges that it may be required to pay for or provide Charter School students with placements at locations other than at the Charter School’s school site in order to provide them with a free appropriate public education. Such placements could include, without limitation, programs or services in other public school districts within the SELPA, in a County Office of Education program, in a non-public school, at home, at a hospital, or in a residential program.

**Section 504/ADA**

Discovery II shall be solely responsible for its compliance with Section 504 and the ADA. All facilities of the school are accessible for all students with disabilities in accordance with the ADA. Further, the Discovery Board has adopted and implemented a policy which outlines the requirements for identifying and serving students with a 504 accommodation plan. Discovery II recognizes its legal responsibility to ensure that no qualified person with a disability shall, on the basis of disability, be excluded from participation, be denied the benefits of, or otherwise be subjected to discrimination under any program of the school. A student who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment, is eligible for protections under Section 504.
See Attachment 11: Board Policy on 504 Compliance.

(I) Annual Goals and Actions to be Achieved in the State Priorities

Please see Attachment 31: Local Control and Accountability Plan.

(J) Independent Study / Home School Support

Discovery Charter School II offers independent study / home school support to meet the educational needs of pupils enrolled in the charter school. Independent study is an alternative education designed to teach the knowledge and skills of the core curriculum. Current and prospective families encouraged us to start this program, and we feel this option furthers our mission and provides a unique alternative to parents. In 2015, a home school program was established at the Discovery II campus. Discovery Charter School shall provide appropriate existing services and resources to enable pupils to complete their independent study successfully.

Discovery shall continue to provide a “blended” independent study/home school support program (Home School Class), with students attending class on the Discovery II campus for two days each week and on independent study or “home schooling” for the remainder of the week. The students in this program meet together on the same days, with a teacher assigned to teach these students. The Home School Class also attends field trips, school assemblies and enrichment classes together, including after school enrichment classes.

All of the programs and services offered by Discovery Charter School shall be available to students in the Home School Class, including GATE, special education, “RTI” interventions, and ELL interventions.

Program Outline

- Discovery shall support up to 100 home-schooled students in the “Home School Program”. This shall be a “blended program” with a mix of on-site instruction and home-based instruction at Discovery II.

- Parents in the program at Discovery II shall be invited to aide in the classroom for one to two hours each week on the days when the students are at school.

- A teacher at Discovery II shall provide direct services to these students and their parents.

- As written above, students enrolled in this program at Discovery II shall attend school two days each week and complete their school week with independent educational experiences off campus.

- On the days when they’re not attending class onsite, students enrolled in this program shall continue to have access to site-based programs and events, including elective and enrichment classes, assemblies, field trips, after school classes, GATE activities, social events, middle school dances, and after school sports.
• Parents in this program shall be invited to all parent education and trainings, including Positive Discipline classes. Parents shall also have access to the teachers’ professional library.

• Parents shall also be invited to attend professional development for teachers, including training in Thinking Maps, Reggio Emilia, Readers and Writers Workshop, Positive Discipline in the Classroom, and any other relevant trainings.

• The teacher overseeing this program shall work with parents to provide the Discovery philosophy in a home school environment, including Project Based Learning, integrating field trips with instruction, Whole Child approaches, and thematic instruction.

• This program shall be available to students in grades Kindergarten through 8th.

• The teachers and site directors (principals) shall ensure that all contracts and program requirements are met.

• Students and families in the home school program shall be afforded all of the services and supports (i.e. ELL and Special Education) given to all of our students.

**Program Implementation**

The following describes how the Home School/Independent Study Program is implemented at the Charter School:

1. Students who wish to enroll in this program shall apply through the regular lotteries at each school, with the space allocated as if it were a separate grade level. Parents would apply specifically for the home school program and be granted admission on a space available basis, following the same admission priority criteria as we use for all other students (i.e. preference for San Jose Unified residents). If more students apply than there are spaces available, one lottery for all students in grades Kindergarten through eighth will be held to determine enrollment.

2. For pupils in all grade levels offered by the School, the maximum length of time that may elapse between the time an assignment is made and the date by which the pupils must complete the assigned work shall be 30 school days.

3. When any pupil fails to complete five or more assignments during any period of 60 school days, the Director or his or her designee, along with the Home School Class teacher, shall conduct an evaluation to determine whether it is in the best interests of the pupil to remain in independent study. A written record of the findings of any evaluation conducted pursuant to this policy shall be treated as a mandatory interim pupil record. This record shall be maintained for a period of three years from the date of the evaluation and if the pupil transfers to another California public school, the record shall be forwarded to that school. See Attachment 32: Forms for Homeschool Program.

4. A current written agreement shall be maintained and on file for each independent study pupil (see Addendum 32: Homeschool Program Forms), including but not limited to, all of the following:
The manner, time, frequency, and place for submitting a pupil's assignments and for reporting his or her progress.

The objectives and methods of study for the pupil's work and the methods utilized to evaluate that work.

The specific resources, including materials and personnel, which shall be made available to the pupil.

A statement of the policies adopted herein regarding the maximum length of time allowed between the assignment and the completion of a pupil's assigned work and the number of missed assignments allowed prior to an evaluation of whether or not the pupil should be allowed to continue in independent study.

The duration of the independent study agreement, including beginning and ending dates for the pupil's participation in independent study under the agreement. No independent study agreement shall be valid for any period longer than one school year.

Measures of academic accomplishment appropriate to the agreement to be earned by the pupil upon completion.

The inclusion of a statement in each independent study agreement that independent study is an optional educational alternative in which no pupil may be required to participate. In the case of a pupil who is referred or assigned to any school, class or program pursuant to Education Code Section 48915 or 48917, the agreement also shall include the statement that instruction may be provided to the pupil through independent study only if the pupil is offered the alternative of classroom instruction.

Prior to the commencement of independent study, each written agreement shall be signed by the pupil, the pupil's parent, legal guardian or caregiver if the pupil is less than 18 years of age, the certificated employee who has been designated as having responsibility for the general supervision of independent study, and all persons who have direct responsibility for providing assistance to the pupil. For the purposes of this paragraph, "caregiver" means a person who has met the requirements of Part 1.5 (commencing with Section 6550) of the Family Code.

5. Discovery Charter Schools shall comply with the Education Code Sections 51745 through 51749.6 and the provisions of the Charter Schools Act and the State Board of Education regulations adopted thereunder.

6. The Executive Director shall establish regulations to implement these policies in accordance with the law.

**Narrative Description of Home School / Independent Study Program**
Traditionally, homeschool programs use district textbooks and hire a dedicated homeschool teacher to meet monthly with participating families at which time work is checked, questions are answered and learning targets are made for the month to come. In some larger districts when students reach middle school, they are given the option of signing up for elective classes at one of the schools in the district. If there is space, they are also invited to take classes that parents don’t feel equipped to teach or that require lab materials. In smaller schools, parents often hire teachers to work with their students. In these situations, classes are small and students have an opportunity to both get help and interact with other homeschool students. Our program is designed to blend the benefits of the unique environment of home study with the opportunity for students to participate in a group learning experience as well as take advantage of the school’s extracurricular activities. This shall provide a strong educational program in line with our unique educational philosophy.

The Discovery philosophy relies heavily on the idea that students should have an active role in determining the curriculum through which they will learn the skills needed to be both critical thinkers and develop into lifelong learners. We encourage them to remain creative in their thinking and curious about the world around them. We provide them with multiple opportunities to express their learning both orally and in writing, with the goal of them growing into active members of a democratic society. In keeping with our philosophy, students participating in our homeschool program shall also determine the content of their learning. Some topics will be decided on an individual basis and some as a homeschool learning community. We shall likewise present them with opportunities to share their learning with others. Parents shall be trained in strategies for providing the skills needed for their children to be successful.

Materials

As with traditional programs, each participating family shall be required to meet with the homeschool teacher on a monthly basis at which time they shall together outline the coming month’s assignments. This time shall also be used for parents, and where appropriate children, to have an opportunity to talk about any concerns that came up during the month, any questions they might have, any exciting discoveries they would like to share, and to reflect on the month’s activities. The teacher shall provide parents with curriculum materials and teaching strategies needed for them to help students successfully complete their agreed upon assignments. This can be in the form of textbooks, websites, trade books, and manipulatives. We use TERC Investigations and CPM (College Preparatory Math) for math, History Alive for social studies, literature study books for language arts, and Gems science books. Although our teachers have access to content-specific materials, it is our goal to have the majority of student learning be both integrated and project-based.

Assessment

Assessment, in addition to the state test that students shall take at school, shall be by portfolio. Portfolios shall contain benchmark assessments used by our school in reading, writing, and math (provided by textbook companies or teacher created) as well as projects selected by the students that they feel represent their best efforts. The projects shall involve the integration of multiple subject areas and shall be collected over the course of the year. Four times a year students shall review their portfolios, reflect on their growth, and set goals for themselves.

Time At School

In addition to the homeschool component, children shall spend two days each week at school working together on projects of their choice in multi-grade level classes. During this time, students will participate in a regular school day including a PE period, and recess and lunch breaks with the other students. Specific curriculum will be determined by the students in conjunction with the homeschool teacher and will focus on giving students an opportunity to work in groups on projects of interest to them as well as having an opportunity to share what they are learning at home.

Parent Involvement

There are three particularly exciting aspects of our plan: involving parents, involving children and having a consistent teacher who works as a “co-teacher” with parents and students. For parents, one of the most difficult aspects of teaching at home is having a collection of strategies and materials that will work most effectively to meet their child’s intended goals. The program we are providing offers parents help with this in multiple ways. First, it provides parents with an opportunity to directly meet on a monthly basis for an extended period of time with a teacher who is familiar with their child. Secondly, as a parent participation school, parents will be given the opportunity to work a shift during the day(s) their children are in school, providing them with an opportunity to observe a variety of teaching techniques they might use at home. Additionally, they will be invited to attend parent meetings where there will be instruction in teaching strategies reflective of our philosophy, as well as an opportunity to meet and work with other families in the program. Lastly, parents are allowed to attend professional development for the Discovery staff and Discovery’s parent education opportunities, including the Positive Discipline parenting trainings. In line with our philosophy, parents are key in selecting the areas where they would most appreciate guidance.

Opportunities For Students

A second area involves the opportunities for involvement available to homeschooled students. In addition to the activities they plan at their weekly meetings, they are invited to participate in Discovery II afterschool classes and to attend field trips, including overnights, planned at their grade level. When the school has guest performers or special programs, they likewise are invited to participate. These include all parent-planned events for families as well as all school events, such as author events, “Box City,” “Laps for Learning,” and the Harvest Festival.

Opportunities For Teachers

A blended homeschool program presents a unique opportunity for teachers. In most homeschool programs the teacher experiences the child only through the eyes of the parents. Our blended homeschool idea offers the teacher an opportunity to work closely with each family as well as being able to develop relationships with their students. Working directly with our homeschoolers allows us to become a more knowledgeable and potentially helpful participant in their education.
VII. Measurable Pupil Outcomes and Methods of Pupil Assessment

“The measurable pupil outcomes identified for use by the charter school. “Pupil outcomes,” for purposes of this part, means the extent to which all pupils of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school’s educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all groups of pupils served by the charter school, as that term is defined in subparagraph (B) of paragraph (3) of subdivision (a) of Section 47607. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school.” - California Education Code Section 47605(b)(5)(B)

(A) Charter School Goals, Actions and Measurable Outcomes Aligned with the Eight State Priorities

Pursuant to Education Code Sections 47605(b)(5)(A)(ii) and 47605(b)(5)(B), Discovery II’s annual goals, actions and measurable outcomes, both schoolwide and for each subgroup of pupils, which address and align with the Eight State Priorities as described in Education Code Section 52060(d), can be found in Discovery II’s Local Control Accountability Plan (“LCAP”). Each of these goals addresses the unique needs of all students attending the Charter School, including our numerically significant student subgroups. The metrics associated with these goals help Discovery II to ensure that these specific subgroups are making satisfactory progress, and are provided with necessary additional supports made possible by additional funds from the Local Control Funding Formula.

The current LCAP is on file with the County and is also available in Attachment 34: Local Control Accountability Plan. Discovery II shall annually update and develop the LCAP in accordance with Education Code Section 47606.5 and shall use the LCAP template adopted by the State Board of Education. Discovery II reserves the right to establish additional and/or amend school-specific goals and corresponding assessments throughout the duration of the charter through the annual LCAP update. Discovery II shall submit the LCAP to the County Superintendent of Schools annually on or before July 1, as required by Education Code Section 47604.33.

(B) Core Academic Skills

Discovery II has developed Student Outcomes that are based on the Common Core State Standards and all other state standards. In the areas of reading, writing, and mathematics we have identified the most essential standards. In addition to the standards, Discovery II helps students develop skills as listed below:

**English/Language Arts**

Strong reading, writing, listening, speaking, and presentation skills, in multiple forms of expression which may include poetry, biographies, stories, non-fiction and plays, all of which enable them to comprehend and interpret multiple forms of expression, including literature from various time periods and cultures.

This knowledge will enable students to make informed decisions in an increasingly technological world.

**History/Social Sciences**

Acquiring an understanding of civics, history, geography, cultures, and languages so students can apply their knowledge and be responsible citizens of the 21st century.

**Mathematics**

Reasoning logically and understanding and applying mathematical processes and concepts to solve problems requiring basic mathematics, algebra, geometry, statistics, and other math disciplines. These problem-solving skills will be integrated into other disciplines.

**(C) Lifelong Learning Skills**

Discovery II helps students develop skills that will enable them to pursue their own path of learning throughout their adult lives in becoming self-motivated, competent, and lifelong learners, including the following:

**Study Skills**

- Proficient study skills and habits that include note taking, library research skills, and studying strategies.
- The ability to reflect on and evaluate one’s own and other’s learning.
- The ability to plan, initiate, and complete a project, including goal setting and self-assessment.

**Cognitive Processing Abilities**

- Cognitive processing abilities using complex and critical thinking skills.
- The ability to identify, access, integrate, and use available resources and information.
- The ability to reason, make sound decisions, problem solve, and analyze in a variety of contexts.
- The ability to articulate thought processes.

**Foreign Language Skills**

- A foundation in a language other than English.
- A knowledge and understanding of other cultures.
- An ability to function with people from other cultures and to participate in multilingual communities.
**Technology**

Skills from a variety of technological sources for the purpose of research, analysis, communication, organization, and self-expression.

Ability to utilize computers and commonly used software applications.

**Visual and Performing Arts Skills**

Knowledge of skills to express ideas and emotions through participation in various forms of the visual and performing arts, which may include music, theatre, dance, two- and three-dimensional arts, puppetry, and applied arts.

**Health Science/Physical Fitness**

Knowledge of pertinent issues of health, safety, and the development of behaviors that are a foundation of lifelong healthy living.

**Social/Interpersonal Skills**

The ability to make responsible decisions, build confidence in one’s ability to learn, and be a productive member of an increasingly diverse and technological society.

The ability to communicate clearly through oral, written, visual, and other forms of expression.

The ability to engage in responsible and compassionate peer relationships.

The ability to collaborate and work effectively with others in cooperative groups.

**(D) Academic Performance**

Please find documentation of the alignment of Discovery II’s pupil outcomes to the State Priorities in Attachment 34: Local Control Accountability Plan.

Discovery II has developed grade level benchmark assessments in reading, writing, and math. These assessments are used to inform instruction and to measure student growth at the end of the year. Discovery II shall examine and refine student outcomes and performance goals over time to reflect the Charter School’s mission, curriculum, assessments, and any changes to state standards.

Discovery II shall strive to:

Increase the number of students performing proficient and advanced on mandated standardized tests by 1% in each of the subject areas in each year of this charter;

Ensure 75% of the students in grades K-8 will receive a score of proficient or above on the progress report at the end of the academic year; and

Achieve a student attendance rate of at least 96.5%.
(E) Methods of Assessment

“The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card.” - California Education Code Section 47605(b)(5)(C)

To measure the progress of the students at Discovery II and ensure that the goals of the charter are being met, Discovery II shall adhere to the state standards with mandated standardized tests and conduct additional performance-based assessments. Student performance on these measures shall help the Charter School community make informed decisions about instruction and program modifications.

The following assessment approaches are included in the School’s measurement of outcomes:

**Standardized Tests:** The Charter School shall administer nationally norm-referenced tests required by law in the state of California, including the California Assessment of Student Performance and Progress (CAASPP) assessment system. The Charter School may also administer supplemental standardized tests as appropriate.

**Benchmark Assessments:** Benchmark assessments in reading, writing, and math are given in the fall and spring of each year. They are used as formative and summative assessments, which inform instruction and demonstrate growth over the year.

**Evidence Folder:** A systematic collection of student work collected over a student’s school career that exhibits a student’s work and progress. Evidence folders, or electronic portfolios are used to measure student progress toward and mastery of school-wide benchmarks. Evidence folders follow the student as they move from grade to grade at Discovery II.

**Portfolios:** These are maintained in the classroom to be used at student-led conferences to demonstrate growth and understanding of subject content matter. Students use the portfolios to select evidence to demonstrate their growth and areas of improvement. Portfolios shall help students develop critical thinking skills by providing the opportunity for them to assess their own learning, to reflect critically and thoughtfully about their own work, to set goals for improvement, and to be aware of their accomplishments. Portfolios shall provide the staff and parents with an authentic picture of the student’s progress over time, while simultaneously giving information for future instruction and student needs.

**Developmental Reading Assessment (DRA):** Authentic assessment of children’s reading skills in context shall be completed by teachers. Students read books to determine their instructional reading level. The students then receive a reading level designation based on their degree of fluency, accuracy, comprehension, and critical thinking.

**Journals:** Student journals are used to reflect the student’s own performance in academic areas and in their use of critical thinking skills.

**Projects:** Elementary and middle-school students complete projects that represent a cumulative show of the student’s learning. These may be written and oral and may include the use of various media. Eighth grade students shall work with advisors to complete their exit projects. Rubrics or Continuums indicate students’ mastery of skills.
**Teacher observations and documentation:** Teachers document student work and work habits in the classroom, noting skills that are mastered and those requiring continued instruction. Included in these observations are the student’s attitudes and social behaviors.

**Teacher-designed assessments:** Teachers design appropriate tasks that measure understanding and mastery of grade level concepts on an ongoing basis. Data from these assessments shall also be used by teachers to continue to design instruction and refine teaching strategies.

Student progress towards skill mastery is documented twice yearly using standards-based progress reports. Parent-teacher conferences are held twice a year and more often as needed. At Discovery II we believe student-led conferences are educationally meaningful for students and an extremely informative format for parents to learn about their child’s goals and progress. Therefore, the teacher and family meet together to give the student an opportunity to discuss their progress with his/her parents.

- Students direct the conference
- Students share evidence which best represents his/her growth to date
- Sharing of work is part of the learning process for the student
- Students, parents, and teachers set goals

The majority of the conference is spent reviewing and discussing the student’s work samples, celebrating accomplishments, and setting goals. These goals are designed so that everyone is involved in the student’s learning. Additionally, each teacher has an opportunity to provide the family with information about their student’s progress.

Discovery II affirms that its methods for measuring pupil outcomes for the state priorities, as described in this charter, shall be consistent with the way information is reported on a School Accountability Report Card as required by Education Code Section 47605(b)(5)(C).

**Use and Reporting of Data**

Discovery II collects annual data from the assessments listed above and utilizes the data to identify areas for improvement in the educational program. Discovery II submits an annual LCAP report to the Santa Clara County Office of Education and receives feedback on goal setting and performance. School staff reviews student outcomes at classroom, grade level and school wide continuously during the year.

Discovery Charter Schools and the Santa Clara County Office of Education shall jointly develop an annual site visitation process and protocol to enable the Santa Clara County Office of Education to gather information needed to confirm the Charter School’s performance and compliance with the terms of this charter.
VIII. Governance

“The governance structure of the charter school including, but not limited to, the process to be followed by the charter school to ensure parental involvement.” - California Education Code Section 47605(b)(5)(D)

(A) Legal Status

Discovery II is operated by Discovery Charter School, a California non-profit public benefit corporation, pursuant to California law and is recognized by the Internal Revenue Service as a 501(c)(3) tax-exempt organization. Discovery II shall be governed pursuant to the Discovery Charter School Bylaws as adopted, as subsequently amended from time to time, which shall be consistent with this charter. See Attachment 14: Discovery Charter School Bylaws.

Pursuant to the Education Code Section 47604(c), the Santa Clara County Office of Education shall not be liable for the debts or obligations of the School, operated as or by a California non-profit benefit corporation or for claims arising from the performance of acts, errors, or omissions by the Charter School as long as the Santa Clara County Office of Education has complied with all oversight responsibilities required by law.

In the case of a conflict between the requirements of this Charter and provisions of the Discovery Charter School Articles of Incorporation and/or Bylaws, action taken in accordance with such Articles or Bylaws which conflicts with or is inconsistent with the requirements of the Charter shall be deemed a violation of this Charter and the Bylaws shall provide that in the case of such a conflict the Discovery Charter School Board of Directors shall take prompt action to revise the Articles or Bylaws to make them consistent with the requirements of this Charter or seek a material revision to the Charter to make the Articles, Bylaws and Charter consistent. Should the provisions of this Charter conflict with the terms of any collective bargaining agreement or other agreement of Discovery II/Discovery Charter School or its policies or practices, the provisions of this Charter shall prevail. In the case of such inconsistency, any inconsistent terms or practices shall promptly be revised to be made consistent with the Charter unless and until a material revision to the Charter has been obtained to address the inconsistency.

Disputes arising from within Discovery II, including all disputes between students, staff, parents, volunteers, advisors, partner organizations, and governing board members shall be resolved pursuant to the policies and processes developed by the Charter School. Discovery II shall also maintain a Uniform Complaint Policy and Procedures as required by state law.

The Santa Clara County Office of Education shall not intervene in any such internal disputes without the consent of the Board of Discovery and shall refer any complaints or reports regarding such disputes to the Board or the Superintendent/Executive Director of Discovery Charter Schools for resolution pursuant to the school’s policies. The Santa Clara County Office of Education agrees not to intervene or become involved in an internal dispute unless the dispute has given the Santa Clara County Office of Education reasonable cause to believe that a violation of this charter or laws or issues of student health or safety have occurred, or unless the Board of the School has requested the Santa Clara County Office of Education to intervene in the dispute.

Disputes Between the Charter School and the County

In the event of a dispute between Discovery and the County, the Board of the School and the County agree to first frame the issue in writing and refer the issue to a County representative and the Superintendent/Executive Director of Discovery. The written notification must identify the nature of the dispute and any supporting facts and the proposed resolution. In the event that the County believes that the dispute relates to an issue that could lead to the revocation of the charter under California Education Code Section 47607, Discovery requests that this shall be specifically noted in the written dispute statement, although it recognizes it cannot legally bind the District to do so. However, participation in the dispute resolution procedures outlined in this section shall not be interpreted to impede or act as a pre-requisite to the County’s ability to proceed with revocation in accordance with Education Code Section 47607 and its implementing regulations.
The Superintendent/Executive Director and the County representative shall informally meet and confer in a timely fashion to attempt to resolve the dispute. In the event that this informal meeting fails to resolve the dispute, both parties shall identify two members from their respective Boards who shall jointly meet with the County representative and the Superintendent/Executive Director of Discovery Charter Schools. If this joint meeting fails to resolve the dispute, the County representative and the Superintendent/Executive Director shall meet to jointly identify a neutral, third party mediator. Mediation shall occur before a mutually agreeable mediator who is skilled in the interest-based approach to mediating disputes in the public school setting. The format of the mediation session shall be developed jointly by the County representative and the Superintendent/Executive Director, and shall incorporate informal rules of evidence and procedure unless both parties agree otherwise. Each party shall bear its own costs and expenses related to the mediation. The mediator’s fees and the administrative fees of the mediation shall be shared equally among the parties. Any recommendations of the mediator shall be non-binding, unless the Board of Discovery Charter School and the County jointly agree to bind themselves.

If mediation does not resolve the dispute either party may pursue any other remedy available under the law. All timelines and procedures in this section may be revised upon mutual written agreement of the County and the Charter School.
XIX. Closure Protocol

“The procedures to be used if the charter school closes. The procedures shall ensure a final audit of the charter school to determine the disposition of all assets and liabilities of the charter school, including plans for disposing of any net assets and for the maintenance and transfer of pupil records.” – California Education Code Section 47605(b)(5)(O)

The following procedures shall apply in the event the charter school closes. The following procedures apply regardless of the reason for closure.

Closure of the Charter School shall be documented by official action of the Discovery Board. The action shall identify the reason for closure and shall delegate to the Superintendent/Executive Director the responsibility to manage the closure-related activities and dissolution process.

Should Discovery II close, the following procedures will be followed to ensure an orderly closing of the school:

1) Notification of the closure of the Charter School within 10 days to parents/guardians of students, students, the SCCOE, the Charter School’s SELPA, the State Teachers Retirement System, the Public Employees Retirement System, or any other qualified retirement system in which the school’s employees participate, and the California Department of Education, providing at least the following:

   (a) The effective date of the closure;
   (b) The name(s) of and contact information for the person(s) to whom reasonable inquiries may be made regarding the closure;

3) As applicable, the Charter School will provide parents, students and the County with copies of all appropriate student records and will otherwise assist students in transferring to their next school. The Charter School shall provide for transfer and maintenance of all student records, all state assessment results, and any special education records to the custody of responsible entity, except for records and/or assessment results that the charter may require to be transferred to a different entity. Parents will be notified of placement options for their student(s). Employees will be notified of their rights for reemployment.

4) All transfers of student records shall be made in compliance with the Family Educational Rights and Privacy Act (“FERPA”), 20 U.S.C. §1232g. All state assessment results, special education records, and personnel records will be transferred to and maintained by the entity responsible for closure-related activities in accordance with applicable law. The Charter School will ask the County to
store original records of Charter School students. All student records of the Charter School shall be transferred to the County upon the Charter School’s closure. If the County will not or cannot store the records, the Charter School shall work with the County to determine a suitable alternative location for storage.

5) Completion of an independent final audit within six months after the closure of the school that may function as the annual audit. Discovery II will pay for the final audit. The audit shall be prepared by a State-Controller-approved firm and qualified Certified Public Accountant selected by the Discovery Charter School Board and shall be provided to the County promptly upon completion. It shall include at least the following:

   (a) An accounting of all financial assets, including cash and accounts receivable, and an inventory of property, equipment, and other items of material value.

   (b) An accounting of the liabilities, including accounts payable and any reduction in apportionments as a result of audit findings or other investigations, loans, and unpaid staff compensation.

   (c) An assessment of the disposition of any restricted funds received by or due to the Charter School.

6) Disposal of any net assets remaining after all liabilities of the Charter School have been paid or otherwise addressed, including but not limited to, the following:

   (c) The return of any donated materials and property in accordance with any conditions established when the donation of such materials or property was accepted.

7) Completion and filing of any annual reports required pursuant to Education Code section 47604.33.

8) Identification of funding for the activities identified in sections 1 through 8 above.

On closure of the Charter School, all assets of the Charter School, including, but not limited to, all leaseholds, tangible and intangible personal property, and all ADA apportionments and other revenues generated by students attending the school, remain the sole property of the Discovery Charter School nonprofit public benefit corporation and, upon dissolution of Discovery Charter School, shall be distributed in accordance with the articles of incorporation and applicable law. Upon closure, Discovery Charter School shall remain solely responsible for satisfaction of all liabilities arising from the operation of the Charter School.

As the Charter School is operated by a nonprofit public benefit corporation under California law, the Board shall follow the provisions set forth in the California Corporations Code for the dissolution of a nonprofit
public benefit corporation, and shall file all necessary filings with the appropriate state and federal agencies.

Additional policies and procedures will be determined as needed by the Discovery Board based on the needs of the school and the County.

ATTACHMENT 5. **A DAY IN THE LIFE OF A KINDERGARTENER**

Sami is eager to get to school this morning. He wants to get to school early so that he has time to tell his teacher about the book on sharks that he checked out from the library. As he runs to the door he is happy to see that it is already open. He signs in and chats with his teacher about the book. Sami has become very interested in ocean life over the past few months because the classroom has been immersed in the study of the ocean. Much of the learning that is occurring in the classroom is centered on the ocean theme. Yesterday, the class participated in their weekly thematic centers, which integrate all the curricular areas around the ocean. The thematic centers were designed by the teacher to cover content standards. Sami worked in a center where he created a book about sharks, while other students built food chains, looked online to check the temperature of different oceans, and wrote math stories using ocean animals. Sami took his shark book home to read to his parents and then went to the library to get more information.

Sami’s teacher blows a train whistle and Sami puts away their projects and joins his fellow students on the rug for the morning meeting. Together they sing and sign their favorite morning song. The students sit down and the teacher announces the schedule for the day and leads them in a chant about the days of the week. As the students listen, the student of the day passes out white boards so that they can write equations for the number of the day. The teacher has students come up to share their equations and they search together for patterns in the calendar. The teacher reads a book to the class, *Swimmy*, which is part of their current author study of Leo Lionni. Sami enjoys the story, but is waiting patiently for what he knows comes next... Writer’s Workshop!

Sami is eager to write about what he has learned about sharks. The teacher gives the students a mini-lesson and the students are dismissed to write. Some of the students work on books they have already started about sea creatures, others start new ones. Some students work in their journals. Students develop their ideas and move through the writing process. The students in this K/1 class love to write and share their writing in the Author’s Chair with their classmates!

After Writer’s Workshop, the students move into Reading Centers. Sami is in kindergarten, but is reading above a first grade level already. He joins his reading group made up of Kindergarten and First Grade students who all read at the same instructional level. Each reading group works at their own level. Some groups are reading and responding to literature and one group is playing a spelling game. The room has a quiet buzz as children enjoy learning to read.

At recess, Sami hurries out to eat snack with his classmates. Students eat community style, passing food and pouring water independently. Sami enjoys his healthy snack because his mother has brought his favorite, yogurt and fruit. As he finishes and throws his trash away, he sees his Fifth Grade reading buddy sitting nearby. He walks over and chats with his buddy, sharing a little about the sharks he read about in his book, since they were just like the ones he and his buddy were reading about together the week before. He says goodbye and runs off to find some of his classmates.

It’s Friday, and Sami runs to line up at the room next door. Sami is excited because it’s Friday Enrichment Clubs instead of the thematic literacy centers that students usually enjoy at that time. Each week the K/1 students mix and rotate through a variety of enrichment activities. Sami runs to meet his new friends from two other classes and tells them what he has been learning about sharks. Last week, Sami’s group was in the Performing Arts Enrichment Club. They learned about different kinds of music and enjoyed acting out stories about fish and did a wiggly interpretive dance. Sami always looks forward to Performing Arts, but today is his group’s day to cook! The teacher reads a book about food in Asia then goes over the giant recipe printed on the whiteboard. They are
making sushi today! Groups of five students work together to read the recipe, measure ingredients, mix, stir and pour. When they are done, the students clean up and then write in their cooking journals about the experience. They eat the sushi together and the teacher passes out a recipe to take home. Next door, Sami can hear the familiar music he remembers from a creative movement activity in the Performing Arts Enrichment Club. Next week, Sami’s group will visit the Art Enrichment Club. The group has been working on a multi-media art piece inspired by the children’s artist and author, Eric Carle. Sami is trying to decide whether to display a weaving he created in the Industrial Arts Enrichment Club or his multi-media art piece inspired by Eric Carle for the upcoming art show. Either way, he can’t wait to see his work on display!

While the kindergartners at most schools go home before lunch, Sami and his kindergarten friends have a longer school day. His teacher says that is because there is so much to learn, but Sami doesn’t want to go home anyway. After lunch, the students come in to read from their own “just right” book collection, specially designed to meet each child’s reading needs. Sami’s teacher conferences with individual students and listens while they read their “just right” books. The teacher and student talk quietly then select new books to put in their book bins. It’s Sami’s turn and he has his library book about sharks. His teacher asks him to read from it and talks a little with Sami about what he has learned. She suggests that Sami might want to choose the great white shark as a topic for the animal projects students will begin later in the month. Sami thinks it might be hard to choose which shark is the most interesting!

The kindergarten bell rings and it is time to go home. Sami can’t wait until he is a first grader and gets to stay an hour longer. He hears all about what the first graders do after the kindergartners leave—writing, reading, more math—and it all sounds like fun. Sometimes they share their work with the class the next morning and it always gives Sami good ideas. Sami says good-bye. His family has plans to visit the Aquarium this weekend. Sami can’t wait to get back to school on Monday and tell everyone about what he learns there!
ATTACHMENT 6. **A DAY IN THE LIFE OF A SIXTH-GRADER**

Angela arrives early today for school so she has some time to chat with her friends about the dance this Friday and the sixth grade field trip they took yesterday to participate in a Ropes Course. Angela’s day begins in her homeroom. Her class is discussing Democracy, with a focus on the upcoming election. After the class learns about the process for placing a Proposition on the ballot in California, they break into small groups to draft Propositions for a future election, including pros and cons of such law, and the economic impact of each Proposition.

During math, the class breaks into small groups. Angela’s math group will be going outside today to draw a number line on the blacktop including positive and negative numbers. Angela and her friends enjoy plotting ordered pairs on the number line. Then her group moves on to another math activity, in which students use a cookie recipe to create a ratio table of the ingredients if the recipe is increased or decreased, while Angela’s teacher supervises a separate group of students in another math activity.

After break, Angela’s class divides into small groups for Language Arts. Angela’s group writes a review of the book, Sea of Trolls, by Nancy Farmer for the school newsletter. Another group of students is assisted by a parent in playing a card game involving idioms. Then students finish editing their essays describing the activities they liked most from yesterday’s “Cave Day”.

At first, Angela was a little surprised when she came to school and found her classroom completely dark for “Cave Day”. Soon, however, she was excited to crawl underneath the tables that were covered over with blankets to simulate caves. Angela’s favorite activity was painting pictographs on the walls of the caves. Her class also participated in different activities, from the scientific vocabulary and different formations of caves, the location of caves around the world, the importance of caves in the ecosystem, and the inhabitants of caves throughout history and in current times. As students explored these topics, they completed an assignment in their History Alive Interactive Notebooks.

Tomorrow, Angela and the other students will continue to rehearse for their presentation of the play “Who Was the Piltdown Man?” They will also map the migration of early hominids, and attempt to put fossils together to form a skeleton.

Angela is dismissed early today for lunch because it is her turn to help at the recycling station. After lunch and recycling, Angela hurries out to play soccer with her friends on the field.

After lunch, Angela and her friends are off to Selective classes. It was difficult for her to decide which Selective classes to take, but Angela chose two Selective classes: Service Learning, where the students are conducting a food drive, and Art, where they just completed a study of M.C. Escher and created tessellations.

Every other day, Angela takes P.E. and Spanish during the Selective periods. Next term, she will choose from a wide variety of Selective classes – Dance, Technology, Math Tutorial, Drama, Junior Achievement, Fitness, Native Art and Culture, or Communication.

Since Math is her favorite subject, Angela is enrolled in Math Club after school. Next semester, she might choose a different After School Enrichment – possibly acting, art, music, or chess. For now, Angela is focused on finishing her class projects and homework so she can go to the movies with her friends this week-end.
ATTACHMENT 7. **CITED CURRICULUM REFERENCES**

ATTACHMENT 8. **SAMPLE CURRICULUM**

At Discovery Charter School the curriculum, instruction, and assessment are based on the California State Frameworks and Academic Content Standards of California Public Schools.

**Beliefs about Reading**

At Discovery Charter School we believe:

★ teachers read rich literature aloud to students

★ students read independently every day

★ students have a choice of independent reading materials

★ students are exposed to a wide and rich range of literature

★ students study authors’ writing style and craft

★ teachers model and discuss his/her own reading processes

★ instruction emphasizes comprehension, with an emphasis on phonics and phonemic awareness as students are learning to read

★ reading is taught as a process:
  • students use strategies that activate prior knowledge
  • students make and test predictions
  • students receive help during reading
  • teachers provide after-reading applications

★ time is made for social, collaborative activities with much discussion and interaction

★ grouping is flexible and done by reading level, interest, and/or book choices

★ instruction takes place in the context of whole and meaningful literature

★ reading is done extensively in the content areas

★ evaluation is focused on holistic, higher-order thinking processes

★ success of the reading program is measured by students’ reading habits, attitudes and comprehension
Beliefs about Writing

At Discovery Charter School, we believe:

★ class time is spent writing original pieces:
  • for real purposes and audiences
  • with instruction and support for all stages of writing: prewriting (organizing thoughts through
    graphic organizers), drafting, revising, editing, conferencing and publishing

★ student ownership and responsibility for writing are taught by:
  • helping students choose their own topics and goals for improvement
  • using brief conferences with teacher, parent, or peer
  • teaching students to examine their own craft and conventions

★ teachers model and share writing as a fellow author through drafting, revising, and sharing

★ students learn grammar and mechanics in the context of mentor texts and original writing

★ young writers are encouraged to use inventive spelling throughout the writing process

★ older students are encouraged to use inventive spelling in the early stages of the writing process
  (prewriting, drafting and revision)

★ teachers create a supportive classroom setting by:
  • valuing students’ ideas
  • using collaborative small-group work
  • using conferences and peer critiquing

★ students write across the curriculum, when appropriate

★ students write in different genres:
  • narrative
    -personal/memoir
    -descriptive
  • expository
    -informational (all about . . ., report, biography, etc.)
    -functional (letters, emails, lists, how to’s, etc.)
    -persuasive
    -response to literature
  • poetry

★ evaluation is constructive and involves:
  • brief, informal, oral responses as students work
  • encouragement of risk taking and honest expression
• focus on a few errors at a time
• assessment of on-demand writing
• thorough grading of just a few polished papers
• cumulative review of growth and self-evaluation
Beliefs about Mathematics

At Discovery Charter School we believe

➢ math curriculum follows a clear scope and sequence within each grade level

➢ mathematics is comprised of conceptual, skill based, and abstract elements; there is a developmental progression that moves from concrete (hands-on) to abstract thinking and problem solving

➢ instruction is differentiated according to ability and learning style; the individual needs of students are met with tiered instruction and extra support

➢ assessment should be formative, on-going, and embedded into learning and instruction

➢ math learning and instruction should be guided by purposeful content and goals that:
  □ make meaningful connections to real life
  □ are integrated with other content areas
  □ are relevant and applied
  □ develop critical thinking.

➢ students need to be able to articulate how they approach solving problems; they may use words (written or oral), pictures and/or numbers to demonstrate understanding

➢ it is crucial to give students time to develop and understand how numbers work together, but once that understanding develops, students must strive for fluency with math facts in order to become proficient in higher order mathematical computation

➢ students discover mathematical rules

➢ students need many opportunities for individual practice

➢ students should use manipulatives at all levels to solve problems

➢ students need to develop their math vocabulary

➢ students demonstrate their knowledge through daily practice, projects, activities and a variety of assessments

➢ meaningful resource materials for parents are important for a positive home and school connection

ATTACHMENT 9. **PLAN FOR STUDENTS WHO ARE ACADEMICALLY HIGH ACHIEVING**

**Gifted Categories**

The Discovery Gifted Program addresses categories that include:

1. **General intellectual ability**: Students possessing superior intellectual ability who need and can profit from specially planned educational services beyond those normally provided by the standard school program.

2. **Specific academic aptitude**: Students who have superior ability in a specific academic area to the extent that they need and can profit from specially planned educational services beyond those normally provided by the standard school program.

3. **Leadership ability**: Students possessing leadership ability who not only assume leadership roles but also are accepted by others as a leader to the extent that they need and can profit from specially planned educational services beyond those normally provided by the standard school program.

**Identification process**

The identification process for the Discovery Gifted Program relies on multiple criteria, including cognitive abilities, academic achievement, learning characteristics, and behaviors. Additionally, it looks for inputs from multiple sources, which may include the present and past classroom teachers, special subject teachers, counselors, parents, peers, or the students themselves.

The following describes the identification process for the Discovery Gifted Program:

1. **Automatic Pathways**
   a. To ensure equitable access to the Discovery Gifted Program, formal assessment will be given to all students in the 1st grade.
   b. Students in 3rd grade who have CAASPP/SBAC scores greater than 450 in math or language arts and are not yet in the Discovery Gifted Program will be given the formal assessment.
   c. The formal assessment will also be given to students who join Discovery in subsequent grade levels provided they have CAASPP/SBAC scores greater than 450 in math, language arts, or science.

2. **Individualized GATE Plan (IGP)**

A GATE Study Team meeting will be held with appropriate staff and parent(s) or guardian(s) in attendance and the identified GATE student. The team will assess the student’s needs, recommend gifted service options, and develop the IGP.

The IGP is a written plan that contains specific and detailed program modifications that will be needed to continue the gifted student’s academic progress and talent development, while meeting their social and emotional needs. The goals of the IGP are to achieve the following:

1. To promote academic progress
2. To remediate academic weaknesses
3. To enhance psychological adjustment
4. To provide socialization opportunities

To achieve the above goals, the following information will be included in the IGP:

1. Identification of strong subject areas and subject areas chosen to provide advanced study.
2. Identification of the student’s learning strengths, learning preferences, personality characteristics, and in-school and outside interests.
3. Activities detailing instructional management and delivery, curriculum differentiation (see “Guidelines on Differentiation”), and acceleration (see “Guidelines on Acceleration”), including the persons responsible for implementing and monitoring the progress.
4. Actions needed to remediate any weaknesses or issues that the student may have, including academic, social, emotional, or motivational.
5. Provisions for psychological and social adjustment for meeting social and emotional needs of the gifted student. This may include enrichment, pull-out programs during school time, and/or after-school enrichment activities that allow group interaction with other gifted students.

The student’s progress will be reviewed annually to determine if the service is still an appropriate match or if other modifications need to be provided.

**Discovery Gifted Program Services**

The following Gifted Program Services will be available in conjunction with other differentiation strategies such as flexible grouping, tiered lessons/activities and a high level of questioning strategies that are currently practiced at Discovery.

1. **Acceleration**

   Acceleration is a curricular option that allows a student to progress through school at a faster than usual rate/or younger than typical age. It allows curriculum matching to the student’s ability.

   Several forms of acceleration may be considered for an individual student, including:

   **Content-based Acceleration**

   - *Subject acceleration*, where a student is promoted to a higher level or grade for one or more subjects in which they excel.
   - *Curriculum compacting*, a differentiation strategy that allows students who have already mastered parts of the curriculum to move on, work on alternate activities, and learn new things.
• **Dual enrollment**, where a student is allowed to enroll in higher level coursework when proficiency at grade level has been mastered. Dual enrollment may be available through a local public high school or approved online courses.

**Grade-based Acceleration**

- **Whole-grade acceleration/grade skipping**, where a student is promoted to a higher level for all subjects.
- **Grade Telescoping**, where a student is accelerated through more than one year’s curriculum within one year in all academic areas.
- **Radical acceleration**, where highly or profoundly gifted students skip several grades, or experience several forms of acceleration during their school years.

2. **Clustering in Heterogeneous Classrooms**

Cluster grouping of gifted students places a group of five or more gifted learners at a grade level with a Discovery classroom teacher who has been trained to work with the gifted, while the remainder of the teacher’s load includes a normal distribution of abilities. This model of grouping is one of the most effective ways to meet both the academic and social-emotional needs of the gifted on a daily basis. Clustering allows the teacher to spend a proportionate amount of instructional effort and curriculum development time on the gifted cluster, which may not be possible when the classroom contains only one or two gifted students, and allows gifted students to learn from and be enriched by each other.

3. **Content and Curriculum Modification**

Identified GATE students will be provided appropriate curriculum in subjects of strength throughout the school day. Such curriculum includes advanced curriculum and multidisciplinary learning.

4. **Other Programs: Independent Study/Project, Mentoring, National Creativity Programs, and Talent Exhibition/Competition**

The student may initiate an independent study or project in subject(s) of strength. The classroom teacher, with the help of the Curriculum Specialist, may set up mentorship if needed.

5. **Advisory**

The Curriculum Specialist and Discovery Gifted Parent Support group will provide information and advise students on talent searches, scholarship, and academic competition, as well as advanced courses that are available through academic summer programs for the gifted.

**Training and Staff Development**

The first step to meeting the needs of gifted students is to build awareness and understanding among teachers, staff, and parents. The Discovery Gifted Program will seek opportunities for staff development, which may in-
clude workshops, seminars, webinars, and gifted conferences. Discovery teachers will be encouraged to obtain certification in teaching the gifted.

**Social-Emotional Curriculum**

As a Positive Discipline school, Discovery Charter School since its inception has always been dedicated to educating and nurturing the whole child. However, due to the unique characteristics of the gifted students and the potential social and emotional issues that may arise from their giftedness, the Discovery Gifted Program will integrate the social-emotional learning that applies specifically to the gifted students into the daily curriculum. Additionally, there may be a separate Social Emotional Learning (SEL) instruction for the gifted students.

The goals of Social-Emotional Curriculum are as follows:

1. To help the gifted students learn and accept their over excitabilities and to help them develop strategies in modulating the expressions of their over excitabilities.

2. To promote positive achievement attitude and to promote growth mindset.

3. To build resiliency in gifted students.

The school forms the core of students’ daily social and academic experiences. These everyday experiences, in turn, play a critical role in the students’ social and emotional adjustment. At Discovery, under the direction of the teachers, parents interact with all the students, including the gifted, on a daily basis as aides in the classroom. In order to ensure a positive environment, the Discovery Gifted Program, with the help of the Gifted Parent Support group, will provide workshops to help parents understand the social and emotional aspects of the gifted children.

ATTACHMENT 11. **BOARD POLICY ON 504 COMPLIANCE**

Discovery Charter School  
San Jose, California

Students: Board Policy

**IDENTIFICATION, EVALUATION AND EDUCATION UNDER SECTION 504**

The Governing Board of the Discovery Charter Schools (“Discovery”) recognizes the need to identify and evaluate students with disabilities in order to provide them with a free, appropriate public education and its legal responsibility to ensure that “no qualified person with a disability shall, solely by reason of her or his disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.” This policy and the related administrative regulation has been developed to ensure the implementation of Section 504 of the Rehabilitation Act of 1973 (“Section 504”), and its implementing regulations as amended, which pertains to public schools. The intent is to ensure that all students with disabilities, who are eligible under section 504, are identified and evaluated and have access to a free, appropriate public education (“FAPE”).

Under Section 504, individuals with physical or mental impairments that substantially limit one or more major life activities, including learning, are entitled to receive regular or special education and/or related aids and services designed to meet their individual needs as adequately as the needs of nondisabled students are met. Students may be disabled and entitled to services under section 504 even though they are not eligible for services pursuant to the Individuals with Disabilities in Education Act Improvement Act of 2004 (“IDEA”). The identification, evaluation and education of students eligible for services under the IDEA are addressed under the policies and procedures of the Santa Clara County Office of Education.

The Superintendent/Executive Director shall ensure that this policy and set of procedures is implanted and followed. Whenever there is reason to believe that, because of a disability, a student needs regular or special education and/or related aids and services (and the student has not been found eligible under IDEA) that student will be evaluated under this policy’s administrative regulation.

A Section 504 Team will be convened to determine the student’s need for regular or special education and/or related aids and services. The 504 Team will include persons knowledgeable about the Section 504 standards, the student’s individual needs and school history, the meaning of evaluation data, and placement options. The student’s parent/guardian shall be invited to participate in this 504 Team and shall receive notice of procedural safeguards guaranteed by law. If Discovery does not assess a student after a parent has requested an assessment, Discovery shall provide notice of the parent’s/guardian’s procedural safeguards.

If the student, due to disability, is found to require regular or special education and/or related aids and services under Section 504, the Section 504 Team shall develop a 504 plan for the provision of such services to the student. The student shall be educated with nondisabled students to the maximum extent appropriate to the student’s individual needs. The student’s parent/guardian shall be provided a copy of the 504 plan and shall receive notice of procedural safeguards guaranteed by law. Discovery shall periodically review the student’s progress and placement.

Discovery will implement this policy through its corresponding Procedure.
A. Definitions

1. **Academic Setting** – the regular, educational environment operated by the Discovery Charter School (“Discovery”).

2. **Individual with a Disability under Section 504** – An individual who:
   a. has a physical or mental impairment that substantially limits one or more major life activities;
   b. has a record of such an impairment; or
   c. is regarded as having such an impairment.

2. **Evaluation** – procedures used to determine whether a student has a disability as defined within, and the nature and extent of the services that the student needs. The term means procedures used selectively with an individual student and does not include basic tests administered to, or procedures used with, all students in a school, grade or class.

3. **504 Plan** – is a plan developed to identify and document the student’s needs for regular or special education and related aids and services for participation in educational programs, activities, and school –sponsored events.

4. **Free Appropriate Public Education (“FAPE”)** – the provision of regular or special education and related aids and services that are designed to meet the individual needs of persons with disabilities as adequately as the needs of persons without disabilities are met.

5. **Major Life Activities** - Functions such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning and working.

6. **Physical or Mental Impairment** –
   a. Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory; including speech organs; cardiovascular; reproductive; digestive; genitor-urinary; hemic and lymphatic; skin; and endocrine; or
   b. Any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities.

8. **504 Coordinator** – Each Director shall serve as his/her site’s Section 504 coordinator. The parents or guardians may request a Section 504 due process hearing from, or direct any questions or concerns to the 504 Coordinator at 408-243-9800.

B. Referral, Assessment, and Evaluation Procedures

1. Discovery will evaluate any student who, because of disability, needs or is believed to need regular or special education and/or related aids and services.

2. A student may be referred by anyone, including a parent/guardian, teacher, other school employee or community agency, for consideration as to whether the student qualifies as a student with disabilities under Section 504. Requests for evaluation shall be made in writing, and a copy of said request will remain in the student’s file regardless of the final determination. This referral...
should be made to the Section 504 Coordinator who will convene a 504 Team. Any requests made to another Discovery employee will be forwarded to the Section 504 Coordinator.

3. Discovery has the responsibility to ensure that students with disabilities are evaluated. Therefore, it is important that students who are or may be disabled are referred to the Section 504 Coordinator so that the assessment process is initiated.

4. The 504 Team convened by the Section 504 Coordinator will be composed of the student’s parents/guardians and other persons knowledgeable about the student (such as the student’s regular education teachers), the student’s school history, the student’s individual needs (such as a person knowledgeable about the student’s disabling condition), the meaning of evaluation data, the options for placement and services, and the legal requirements for least restrictive environment and comparable facilities.

5. The 504 Team shall promptly consider the referral and determine what assessments are needed in all suspected areas of disability to evaluate whether the student is a student with a disability under Section 504 and what special needs the student may have. The decision regarding what assessments shall be undertaken shall be based on a review of the student’s school records (including academic, social and behavioral records), any relevant medical records, and the student’s needs. Students requiring assessment shall be provided appropriate assessments administered by qualified assessment specialists.

6. The 504 Team will consider the following information in its evaluation of the student:

   a. Tests and other evaluation materials that have been validated for the specific purpose for which they are used and are administered by trained personnel;
   b. Tests and other evaluation materials including those tailored to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient; and
   c. Tests are selected and administered so as to best ensure that, when a test is administered to a student with impaired sensory, manual, or speaking skills, the test results accurately reflect the student’s aptitude or achievement level or whatever factor the test purports to measure, rather than reflecting the student’s impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure.)

7. The evaluation of the student must be sufficient for the 504 Team to accurately and completely describe: (a) the nature and extent of the disabilities; (b) the student’s special needs; (c) the impact upon the student’s education; and (d) what regular or special education and/or related aids and services are appropriate to ensure that the student receives a free appropriate public education. All significant factors relating to the learning process for that student, including adaptive behavior and cultural and language background, must be considered. The evaluation may include, but is not limited to, classroom and playground observation, performance-based testing, academic assessment information, and data offered by the student’s teachers and parent/guardian.

8. The parents/guardians shall be given an opportunity in advance of 504 Team meetings to examine assessment results and all other relevant records.
9. If a request for evaluation is denied, the 504 Team shall inform the parents/guardians in writing of this decision and of their procedural rights as described below.

C. 504 Plan
1. When a student is identified as disabled within the meaning of Section 504, the 504 Team shall determine what, if any, services are needed to ensure that the student receives a free, appropriate public education (“FAPE”).

2. The 504 Team responsible for making the placement decision shall include the parents/guardians and other persons knowledgeable about the child, the meaning of the evaluation data, and the placement options.

3. For each identified disabled student, the 504 Team will develop a 504 Plan describing the student’s disability and the regular or special education and/or related aids and services needed. The Plan will specify how the special education and/or related aids and services will be provided to the disabled student and by whom. The 504 Plan will also identify the person responsible for ensuring that all the components of the Plan are implemented.

4. The student’s teacher and any other staff who are to provide services to the student or who are to make modifications in the classroom for the student shall be informed of the services or modifications necessary for the student and, if appropriate, provided a copy of the 504 Plan. A copy of this plan shall be kept in the student’s cumulative file in a manner that limits access to those persons involved in the 504 process and/or the provision of services and modifications.

5. The disabled student shall be placed in the regular education environment unless it is demonstrated that the student’s needs cannot be met in the regular education environment with supplementary aids and services. The disabled student shall be educated with students who are not disabled to the maximum extent appropriate to his/her individual needs.

6. The referral, assessment, evaluation and placement process will be completed within a reasonable time. It is generally not reasonable to exceed 50 school days in completing this process.

7. The parents/guardians shall be notified in writing of the final decision concerning the student’s identification as a person with disabilities, the educational program and services to be provided, if any, and of the Section 504 procedural safeguards, as described below, including the right to an impartial hearing to challenge the decision.

8. If the 504 Team determines that the student is disabled but that no special services are necessary for the student, the 504 Plan shall reflect the identification of the student as a disabled person under Section 504 and shall state the basis for the decision that no special services are presently needed.

9. The 504 Plan shall include a schedule for annual review of the student’s needs, and indicate that this review may occur more frequently at the request of the parent/guardian or school staff.

D. Review of the Student’s Progress
1. The 504 Team shall monitor the progress of the disabled student and the effectiveness of the student’s 504 Plan. According to the review schedule set out in the student’s 504 Plan, the 504 Team shall annually determine whether the services and modifications are appropriate.

2. A reevaluation of the student’s needs shall be conducted before any subsequent significant change in placement.

E. Procedural Safeguards

1. Parents/guardians shall be notified in writing of all decisions regarding the identification, evaluation or educational placement of students with disabilities or suspected disabilities. Notifications shall include a statement of their rights to:
   - Examine relevant records
   - Have an impartial hearing with an opportunity for participation by the parents/guardians and their counsel
   - Have the right to file a Uniform Complaint pursuant to school policy
   - Seek review in federal court if the parents/guardians disagree with the hearing decision.

2. Notifications shall also set forth the procedures for requesting an impartial hearing. Requests shall be made to Superintendent/Executive Director, 504 Coordinator c/o Discovery Charter School, 4021 Teale Ave, San Jose, CA 95117. Notifications shall advise that reimbursement for attorney’s fees is available only as authorized by law.

3. The Superintendent/Executive Director shall maintain a list of impartial hearing officers who are qualified and willing to conduct Section 504 hearings. To ensure impartiality, such officers shall not be employed by or under contract with any district within the Santa Clara County Office of Education’s SELPA or the County Office of Education in any capacity other than that of hearing officer and shall not have any professional or personal involvement that would affect their impartiality or objectivity in the matter.

4. If a parent/guardian disagrees with the identification, evaluation or educational placement of a student with disabilities under Section 504, he/she may request a hearing to initiate due process procedures. The parent/guardian shall set forth in writing his/her request for a hearing. A request for hearing should include:
   - The specific decision or action with which the parent/guardian disagrees.
   - The changes to the 504 Plan the parent/guardian seeks.
   - Any other information the parent/guardian believes is pertinent.

5. Within 5 calendar days of receiving the parent/guardian’s request for a hearing, Discovery may offer the parent/guardian an optional alternative dispute resolution process. However, the timeline for the hearing shall remain in effect unless it is extended by mutual written
agreement of the parent/guardian and Discovery. Alternative dispute resolution options include:

- Mediation by a neutral third party.
- Review of the 504 Plan by the Superintendent/Executive Director or designee.

6. Within 10 calendar days of receiving the parent/guardian’s request, the Superintendent/Executive Director or designee shall select an impartial hearing officer. These 10 days may be extended for good cause or by mutual agreement of the parent/guardian and Superintendent/Executive Director.

7. Within 35 calendar days of the selection of the hearing officer, the due process hearing shall be conducted. These 35 days may be extended for good cause or by mutual agreement of the parent/guardian and Superintendent/Executive Director.

8. The parent/guardian and Discovery shall be afforded the rights to:

- Be accompanied and advised by counsel and by individuals with special knowledge or training related to the individual needs of students who are qualified as disabled under Section 504.
- Present written and oral evidence.
- Question and cross-examine witnesses.
- Receive written findings by the hearing officer.

9. The hearing officer shall issue a written decision within 10 calendar days of the hearing.

10. If desired, either party may seek a review of the hearing officer’s decision by a federal court. The decision shall be implemented unless the decision is stayed, modified or overturned by a court.

DISASTER PLAN JOB DESCRIPTIONS

Incident Commander of Emergency Operations Center (EOC)
The Emergency Operations Center (EOC) is the focal point for all site emergency operations. It should be highly visible and in a pre-designated area. The director or person-in-charge will operate from there. All emergency team leaders will check in at Command Center [the site emergency operations center (EOC)] before assuming their duties.

♦ The director or person in charge will implement and coordinate the disaster operations and assign responsibilities to staff and auxiliary personnel.
♦ Account for all students, staff, and visitors on campus.
♦ Control internal and external communications.
♦ Prepare reports for Discovery EOC.
♦ Approve all public information that will be released.

Sweep Team
This team is responsible for the immediate sweep of campus to determine existing and potential hazards. Sweep should be completed as expeditiously as possible. For safety reasons, this initial sweep is completed before search and rescue or damage assessment is attempted.

Personnel:  Two people, one preferably the custodian or other staff member familiar with utility shut-offs. Size of campus and severity of incident may dictate fewer or greater number of team members assigned.

Search and Rescue Team
The primary goal of this team is to locate and rescue any missing or trapped people. A systematic search of all buildings on the premises will be conducted at the direction of the Emergency Operations Center (EOC). This would occur after an initial sweep determines no precarious conditions exist.

An important principle of search and rescue is “do not become a victim.”

Therefore, do not enter or allow others to enter an unsafe area and do not exceed your training or comfort level. Move on to other areas where you can provide assistance. Leave the more dangerous situations for the professionals. You may inadvertently cause greater harm to yourself or the victims.

Personnel:  Minimum two people per team. Number of teams depends on size of campus and severity of incident. Individuals should be physically capable of performing light rescue, have first aid / triage knowledge, and be familiar with use of fire extinguishers.

Shelter, Water, Food, and Sanitation Team
This is the support team that assists other team leaders with necessary set up and services. Depending on the size of campus, separate teams could be established for each component. The first priority is to help retrieve supplies and set up first aid station, Emergency Opera-
tions Center (EOC), sanitation area, student release gate, and whatever else is determined to be of primary importance. Secondary concerns will be distribution of water and food as needed.

**Personnel:** At least four initially. Once shelters, stations, and sanitation have been established, fewer people would be needed.

**Security & Traffic Assessment Team**
The first goal of this team is to secure the campus as best possible so as to prevent parents and passers-by from entering and co-mingling with students and staff. It may not be safe to enter. The director must be able to account for all students, staff, and visitors who were on campus when the event occurred. The secondary goal is to determine by inspection the amount and degree of structural and nonstructural damage.

**Personnel:** Two to four people, depending on size of campus and severity of event.

**Communications Team**
The Communications team is an integral part of the command center (EOC), and is located adjacent to the command center. The responsibilities of this team are to assist the director or person-in-charge, in establishing and maintaining communication within the site, with the District, and with the appropriate emergency agency. Also monitor commercial radio and television stations for update conditions.

**First Aid Team**
This team shall triage injuries, administer first aid, request outside assistance for serious injuries, record information on extent of injuries and treatment given, and direct the set-up of a morgue if needed.

The Shelter team should assist in setting up the first aid station in a pre-designated area away from hazards and people traffic. If possible, first aid station would not be in direct line-of-sight of either the student assembly area or public view. The Shelter team will also assist in retrieving first aid supplies from storage area.

**Student Release Team**
The purpose of this team is to facilitate the orderly release of students to persons authorized on their disaster card. To expedite the release process, there should be two separated areas: one for parent/adult check-in verification and the other for student reunification. The student release check-in area should not be within line of sight of the student assembly area to minimize anxiety. It is unlikely that parents will come all at once. Road conditions and distance from school will result in varying arrival times.

**Personnel:** At least four people shall serve on this team.

**Student Care Team**
This team has the responsibility of supervising the student body until they are released. The period of supervision and control begins after students have been evacuated to the assembly area, the individual teachers have taken roll, and those teachers with specified duties elsewhere have turned over their students to the Student Care Team. Ultimately, some of the teachers will return to the assembly area after they have completed their emergency response jobs.
**Personnel:** As many as possible. Minimum would be one per grade level at the elementary schools. Other adults on campus can assist these team members.

**PLAN FOR THE DEVELOPMENT OF FACULTY AND STAFF**

We believe that schools are only as strong and effective as their teaching faculty. One of our core goals at Discovery Charter Schools is to establish a culture of continuous learning not only for our students and parents, but for our staff as well. Teachers will collaborate to create curriculum and assessments and will be guided by professional development plans created jointly with administrators. In order to achieve this goal, teachers must be granted autonomy, while being supported and coached by administrators whose primary focus is student achievement. A leadership team, which includes grade level representatives, will meet monthly with the Director to plan grade level and staff meetings and address issues involving many aspects of school planning. Shared decision-making and consensus building are valued and inherent parts of our culture.

Discovery will implement a Professional Development Day before each school year begins. During the Professional Development Day teachers will work together to refine curriculum, create assessments, and define focus areas for the school year based upon the past year’s student achievement data and parent survey results. In addition, teachers will have opportunities to attend workshops and conferences that are aligned with the school’s goals and their professional development growth goals.

The school schedule and budget will support teacher learning by providing:

- A budget for each teacher to use on their own professional development during the school year;
- Weekly grade level and cross grade level meetings where staff will collaborate on curriculum, assessments, and teaching methods;
- Monthly staff meetings designed to discuss the latest research-based educational strategies and maintain a professional learning community among all Discovery staff; and
- A professional resource library and membership in a variety of professional organizations.

*How Does Professional Development Enhance our Mission?*

**Meeting the Needs of the Whole Child**

ATTACHMENT 24. PUBLIC RANDOM DRAWING POLICY

DISCOVERY CHARTER SCHOOL II

Board Policy: 160224.2
Approved: February 24, 2016
Title: Admissions Drawing to Determine School Placement Applicability

This policy applies to all qualified applicants, as defined in the application packet, to Discovery Charter School (Discovery) during the Open Enrollment Period.

Policy Statements

1. If the number of students applying for any grade exceeds the expected capacity for that grade, an admissions drawing shall be conducted for the Open Enrollment Period applicants for the oversubscribed grades by an independent outside party to determine school placement. The date and location of the public random drawing will be posted on the Discovery website and in the school office.

2. The expected number of classes and class size for each grade will be specified by the Board and announced in advance.

3. Each family will be assigned a family number and each child in the family will be assigned a student number to create a child ID number. For example, the ID’s for the children of Family 001 would be 001.1, 001.2, 001.3, and so on.

4. An “Applicant List” shall be prepared. Each applicant on the list will be assigned a Drawing ID in the following format:

   Preference Group – Grade – Family# . Student# – Last name . First name

   For example: A – K – 001.1 – Smith.John
   B – 2 – 003.1 – Jones.Michael
   C – 4 – 007.1 – Chavez.Emilio
   D – 6 – 007.2 – Chavez.Maria

Detailed explanation of each Drawing ID element:

Preference Group

Enrollment preferences shall be given in the following order:

A. Siblings of currently enrolled students at Discovery Charter School II, including siblings of students from the Home School classes.
B. Children of Discovery Employees
C. Home School families who desire to move back to Discovery II, providing their most recent previous enrollment was at Discovery II.

E. Students located outside the San Jose Unified School District who are eligible to receive free or reduced price meals as determined by federal guidelines*

F. Residents of San Jose Unified School District.

G. All other California residents

*Following admission, Discovery will conduct an audit of the records of students who utilize this preference. Any student who utilizes this preference but is not eligible to receive free or reduced price meals will forfeit admission and be placed at the end of the waitlist.

A waiting list of applicants at each grade level shall be maintained to fill vacancies that occur during the school year. Applicants who were waitlisted in the previous year will be given preference within their numbered priority group in the subsequent year’s lottery.

Where a Discovery Employee is defined as:

1. Any person working for Discovery more than 20 hours per week and who receives their paycheck directly from Discovery, or
2. Any person working for Discovery more than 20 hours per week and who receives their paycheck from a company contracted by Discovery, AND who has worked for Discovery through this contractor for at least one full school year at more than 20 hours per week.

Applicants from the prior year’s wait lists will remain on the waitlist in the same order, and in their respective new grades, provided that they submit a new complete application for the current school year during open enrollment period. Their Lottery ID’s will not be drawn at the public lottery, rather they will move onto the current year’s waitlist in their respective order with regards to their position on the prior year’s waitlist, and the above preference categories.

Upon accepting an offer at either campus, the student will be removed from any waitlists for other schools.

**Grade**

The grade this student is applying for. Options are: TK, K, 1, 2, 3, 4, 5, 6, 7, and 8

**Family Number & Student Number**

Family Number is a sequential number of the enrollment application, e.g. 001, 002, 003, etc. Student Number is a sequential number of the student on that enrollment application, e.g. 1, 2, 3, etc. For a family with three students applying the construct would therefore be:

001.1, 001.2, and 001.3

Family is defined as children and parent(s)/guardian(s) living at the same address.

**Last Name & First Name**

Student’s last and first name, e.g. Smith.John.

5. The “Applicant List” will be certified by signatures of two Discovery Charter School Board Mem-
bers. The original and two copies will be kept in the Discovery II office in sealed envelopes. The envelopes will remain sealed until such time as a dispute arises between a family included in the lottery and Discovery Charter School, or the school year ends.

6. A single lottery ticket will be created for each family. The ticket will include the Abbreviated Lottery ID for all students from that family in the following format:

Preference Group – Grade – Family# . Student#

Definitions of the Abbreviated Lottery ID elements are equivalent to the definitions of the Lottery ID elements and are listed in bullet 4.

7. Families will be informed of their Lottery ID(s) prior to the admissions lottery by email via the email address provided on the enrollment application. Families that do not have email access will be notified by US Mail.

8. Prior to commencement of the admission lottery, two Discovery Charter School Board Members shall verify that the Abbreviated Lottery ID(s) on the lottery tickets match the information on the certified “Applicant List”, and that there is a 1 to 1 correlation.

9. The tickets shall be sorted by admissions preference category.

10. A Discovery Director shall choose an unbiased party to draw the lottery tickets.

11. The admissions lottery will be structured by preference category in the order specified in bullet 4 under the Preference Group heading.

12. For each admissions preference category, tickets shall be drawn randomly to determine placement on the relevant grade list. A number showing the order in which the ticket was drawn shall be written on the ticket.

13. As each ticket is drawn, the Abbreviated Lottery ID(s) of all children on the ticket shall be announced and sequentially added to the relevant grade list.

14. Tickets for applicants from the prior year’s wait lists, categories D and F above, will not be drawn at the public lottery, rather they will move onto the current year’s grade list in their respective order with regards to their position on the prior year’s waitlist, and the above preference categories.

15. After the admissions lottery is complete, Discovery shall post the lottery results on the Discovery website and in the Discovery II school office.

16. The lottery result list will be used to fill available grade level spaces. The remaining applicants on the lottery list will form the wait lists for each grade.

17. Families who receive offers of acceptance for available spaces in a given grade level will receive registration forms via U.S. Mail. If the completed registration forms are not returned to Discovery by the date required in the offer letter, the admission slot will be forfeited and offered to the top wait-listed student in that grade.

18. It is the parent/guardian’s responsibility to update their contact information with Discovery. Discovery shall not be responsible for failure to contact the parent/guardian of either accepted or wait-listed applicants due to expired contact information.

19. A student placed on a wait list will remain on the wait list until either:
• The student is accepted into a Discovery Charter School, or
• The parent/guardian declines an offer of acceptance for their student, or
• The parent/guardian requests in writing that the student be removed from the wait list, or
• The school year ends at which time wait-listed students are transferred into an appropriate preference category pursuant to the charter. Prior year waitlisted students must submit a new application during each open enrollment period in order to be considered for enrollment.

20. In the event a situation arises that is not covered by this policy, no more than three Discovery Charter School Board Members present at the lottery will determine the fairest method for resolution of the issue.
Marketing Overview

Introduction

Discovery Charter Schools are based on developmentally appropriate teaching methods that successfully integrate the whole child with respect to individual learning styles, developmental readiness, and rates of achievement. Multi-age classrooms, small class sizes, team teaching and highly engaged parents greatly contribute to developing Discovery Charter School into a world class learning community. The schools have an educational environment where developing student achievement, building innovative programs, and engaging families and communities provide a common vision for lifelong learning and student success. Discovery’s innovative programs are designed to accommodate the diverse needs of all students, including those who are historically underachieving or academically disadvantaged, to challenge and engage students to master state academic content, and to meet or exceed state achievement standards.

Executive Summary

The Discovery Charter Schools’ organization has two schools that each service grades K-8. The initial school, Discovery I (Phoenix campus), already had a proven program with an API ranking of 900+ when the second school, Discovery II (Falcon campus), was opened. The schools succeed for various reasons. Many parents feel that there are not enough choices in education. There is a strong feeling in the surrounding communities that an alternative public school offering (independent of neighborhood designation and responsive to family needs) is just what is needed. (Reference: Seven Characteristics Present in Most Good Schools) Discovery Charter Schools offer an alternative to the cookie-cutter approach of the traditional public school system. With the current shape of the state’s economy, many parents have indicated that although they do not like the public school offerings, they cannot afford private school; therefore, Discovery Charter Schools is a strong choice. Discovery offers the price of public school with a private school type education: the combination of the best of two worlds. (Reference: School Of Choice Benchmarks)

In our research, we have also found that while many parents are often comfortable enrolling their younger children in their neighborhood elementary school, they become nervous about their local middle school and start researching alternatives. We believe, and research supports, that early adolescence represents a critical transition in children’s lives, and these young people ages 11-14 need a learning environment specially designed to meet the challenges and potential of the middle years. Adolescence is one of the exciting periods of intellectual, physical, social, and emotional development in the human life span. We feel traditional middle school models do not adequately address these challenges.

The State of California revenues provide for bare bones necessities at the public schools; therefore, enrichment programs are either cut or scaled back. While parents wish to have their children do well academically, they also wish for their children to be exposed to a variety of enrichments that these days most public schools just don’t have. The opportunity for parents to be engaged by volunteering - helps the school to offer a wide range of enrichments that are integrated for a maximum learning experience at each school site. So while parents may first be interested in a Discovery school for scores, many parents are then interested in the variety of enrichments and other offerings for their children. (Reference: What Parents want in a School - Characteristics)
Finally, some families are looking for more than just a school. They are searching for a community of teachers, students, and parents that can support each individual child or a family in need. They wish to have input into policies and programs, to be part of something of value – to be heard.

Discovery I (Phoenix Campus) is a located within the Moreland School District boundaries, and Discovery II (Falcon Campus) is located within the San Jose Unified School District boundaries. Both schools are proud to be Santa Clara County Charter schools.

For Discovery II, the marketing efforts are concentrated in the south Bay Area and within an 8-10 mile radius of each school. Word of mouth concerning the program is also effective. Currently, families attending both schools, come from as far south as Morgan Hill, and as far north as Los Altos and Fremont. The school’s history shows that if the program and school community is a good fit for the child and the family—they will come.

**Marketing Discovery Schools as Schools of Choice**

It is extremely important to market Discovery. If public education is to survive and continue, it is necessary to have the support of the public and Discovery is no exception. It is essential to communicate with the surrounding community. Communication leads to understanding. The questions one should ask concerning Discovery are:

1. If choice became a reality, would a Discovery school be my school of choice?
2. Would I send my child, grandchild, niece/nephew to a Discovery school?
3. Is Discovery’s teaching team (at each school) equal to or better than the competition?
4. Are Discovery’s “customers” satisfied?

If at any time the answer is “no,” then we need to make sure to take a look at the issue and make it better. Those individuals marketing for Discovery need to understand that the effort is not a one-time event. Commitment must be made in terms of people and finances. Everyone must understand that planning and marketing is an evolutionary process (but something visible needs to happen). Our organization must be flexible to adapt to changing environmental conditions, and the Discovery organization must be customer-oriented.

To market, we must:

1. Continue to stay focused on continuous improvement.
2. Be proactive to events, misinformation, and unfair attacks.
3. Share our successes as well as our challenges openly and honestly.
4. Work hard to create understanding.
5. Build support for Discovery and its schools and programs.

Enrollment and Admission Procedures

There is one common admission application for all Discovery Charter School sites.

The Application for Enrollment document is available from the Discovery office and downloadable from the website.

Spanish language versions of the application are available.

Each Application for Enrollment document lists both Discovery school sites, requiring the family to mark the appropriate school check box to indicate the school in which the family desires to enroll their child/children.

A family may apply to more than one Discovery Charter School site.

The Application for Enrollment and accompanying documentation are to be mailed or delivered to the Discovery main office.

The main office will review and distribute qualified applications to the individual school site’s administration to organize and hold individual school site lotteries.

A qualified application is one in which the Application for Enrollment, accompanying documentation, and qualifying meeting and tour, if required, have been completed.

The Application for Enrollment packets that are received during Discovery’s Open Enrollment Period will qualify for the public random drawing.

Public random drawings will be held separately for each Discovery school site, and each drawing will be run according to the Public Random Drawing Policy set by the Discovery School Board.
ATTACHMENT 27. PUPIL SUSPENSION AND EXPULSION PROCEDURES

Board Policy: 180213.1 (replaces BP160627.1 and BP171213.1)
Approved: February 13, 2018
Title: Pupil Suspension and Expulsion Policy and Procedure

This Pupil Suspension and Expulsion Policy has been established in order to promote learning and protect the safety and well being of all students at Discovery Charter Schools (“School” or “Charter School”). In creating this policy, the Charter School has reviewed Education Code Section 48900 et seq., which describe the non-charter schools’ list of offenses and procedures, to establish its own list of offenses and procedures for suspensions and expulsions. The language that follows closely mirrors the language of Education Code Section 48900 et seq. The Charter School is committed to annual review of policies and procedures surrounding suspensions and expulsions and, as necessary, modification of the lists of offenses for which students are subject to suspension or expulsion.

When the Policy is violated, it may be necessary to suspend or expel a student from regular classroom instruction. This policy shall serve as the Charter School’s policy and procedures for student suspension and expulsion, and it may be amended from time to time without the need to amend the charter so long as the amendments comport with legal requirements.

School staff shall enforce disciplinary rules and procedures fairly and consistently among all students. This policy and its procedures will be printed and distributed as part of the Student Handbook and will clearly describe discipline expectations.

Discipline includes but is not limited to advising and counseling students, conferring with parents/guardians, detention during and after school hours, use of alternative educational environments, suspension and expulsion.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of the policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff, or other persons or to prevent damage to school property.

The Charter School administration shall ensure that students and their parents/guardians are notified in writing of all discipline policies and procedures upon their student[s]’ enrollment. The notice shall state that this policy and administrative procedures are available on request at the Director’s office.

C. Suspension Procedure

Suspensions shall be initiated according to the following procedures:

1. Conference

   Suspension shall be preceded, if possible, by a conference conducted by the Director or designee with the student and his or her parent and, whenever practical, the teacher, supervisor, or school employee who referred the student to the Director. The conference may be omitted if the Director or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety, or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference.

   At the conference, the pupil shall be informed of the reason for the disciplinary action and the evidence against him or her and shall be given the opportunity to present his or her version and evidence in his or her defense, in accordance with Education Code Section 47605(b)(5)(J)(i).
This conference shall be held within two (2) school days, unless the pupil waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization.

No penalties may be imposed on a pupil for failure of the pupil's parent or guardian to attend a conference with school officials. Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil's parent or guardian at the conference.

2. Notice to Parents/Guardians

At the time of the suspension, the Director or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense committed by the student. In addition, the notice may also state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.

3. Suspension Time Limits/Recommendation for Placement/Expulsion

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension.

Upon a recommendation of expulsion by the Superintendent/Executive Director or designee, the pupil and the pupil's guardian or representative will be invited to a conference to determine if the suspension for the pupil should be extended pending an expulsion hearing. In such instances when the Charter School has determined a suspension period shall be extended, such extension shall be made only after a conference is held with the pupil or the pupil’s parents, unless the pupil and the pupil’s parents fail to attend the conference. This determination will be made by the Superintendent/Executive Director or designee upon either of the following determinations: 1) the pupil's presence will be disruptive to the education process; or 2) the pupil poses a threat or danger to others. Upon either determination, the pupil's suspension will be extended pending the results of an expulsion hearing.

D. Authority to Expel

As required by Education Code Section 47605(b)(5)(J)(ii), students recommended for expulsion are entitled to a hearing adjudicated by a neutral officer to determine whether the student should be expelled. The procedures herein provide for such a hearing and the notice of said hearing, as required by law.

A student may be expelled either by the Board, being neutral and impartial, following a hearing before it or by the Board upon the recommendation of a neutral and impartial Administrative Panel to be assigned by the Board as needed. The Administrative Panel shall consist of at least three members who are certificated and neither a teacher of the pupil nor a member of the Board. Each entity shall be presided over by a designated neutral hearing chairperson. The Administrative Panel may recommend expulsion of any student found to have committed an expellable offense, and the Board shall make the final determination.
E. Expulsion Procedures

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the Superintendent/Executive Director or designee determines that the pupil has committed an expellable offense.

In the event an Administrative Panel hears the case, it will make a recommendation to the Board for a final decision whether to expel. The hearing shall be held in closed session unless the pupil makes a written request for a public hearing in open session three (3) days prior to the date of the scheduled hearing.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the pupil. The notice shall include:

1. The date and place of the expulsion hearing;
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based;
   1. A copy of the School's disciplinary rules which relate to the alleged violation;
   2. Notification of the student's or parent/guardian's obligation to provide information about the student's status at the school to any other school district or school to which the student seeks enrollment;
   3. The opportunity for the student and/or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor;
   4. The right to inspect and obtain copies of all documents to be used at the hearing;
   5. The opportunity to confront and question all witnesses who testify at the hearing;
   5. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

F. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses

The Charter School may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations which shall be examined only by the Charter School or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the pupil.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five days notice of his/her scheduled testimony, (b) have up to two (2) adult support persons of his/her choosing present in the hearing at the time he/she testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.
2. The School must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.

3. At the discretion of the entity conducting the hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.

4. The entity conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.

5. The entity conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.

6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the person presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The entity conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.

7. If one or both of the support persons is also a witness, the Charter School must present evidence that the witness' presence is both desired by the witness and will be helpful to the Charter School. The person presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.

8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the courtroom during that testimony.

9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in the public at the request of the pupil being expelled, the complaining witness shall have the right to have his/her testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.

10. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other
support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

G. Record of Hearing

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

H. Presentation of Evidence

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense.

Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay and sworn declarations may be admitted as testimony from witnesses of whom the Board or Administrative Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled pupil, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board who will make a final determination regarding the expulsion. The final decision by the Board shall be made within ten (10) school days following the conclusion of the hearing. The decision of the Board is final.

If the Administrative Panel decides not to recommend expulsion, the pupil shall immediately be returned to his/her educational program.

I. Written Notice to Expel

The Superintendent/Executive Director or designee following a decision of the Board to expel shall send written notice of the decision to expel, including the Board's adopted findings of fact, to the student or parent/guardian. This notice shall also include the following:

1. Notice of the specific offense committed by the student; and

2. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the Charter School.

The Superintendent/Executive Director or designee shall send a copy of the written notice of the decision to expel to the authorizer. This notice shall include the following:
1. The student's name; and

2. The specific expellable offense committed by the student.

Additionally, in accordance with Education Code Section 47605(d)(3), upon expulsion of any student, the Charter School shall notify the superintendent of the school district of the pupil's last known address within 30 days, and shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including a transcript of grades or report card and health information.

J. Disciplinary Records

The Charter School shall maintain records of all student suspensions and expulsions at the Charter School. Such records shall be made available to the authorizer upon request.

K. No Right to Appeal

The pupil shall have no right of appeal from expulsion from the Charter School as the Charter School Board’s decision to expel shall be final.

L. Expelled Pupils/Alternative Education

Parents/guardians of pupils who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence. The Charter School shall work cooperatively with parents/guardians as requested by parents/guardians or by the school district of residence to assist with locating alternative placements during expulsion.

M. Rehabilitation Plans

Students who are expelled from the Charter School shall be given a rehabilitation plan upon expulsion as developed by the Board at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one year from the date of expulsion when the pupil may reapply to the Charter School for readmission.

N. Readmission

The decision to readmit a pupil or to admit a previously expelled pupil from another school district or charter school shall be in the sole discretion of the Board following a meeting with the Superintendent/Executive Director and the pupil and parent/guardian or representative to determine whether the pupil has successfully completed the rehabilitation plan and to determine whether the pupil poses a threat to others or will be disruptive to the school environment. The Superintendent/Executive Director shall make a recommendation to the Board following the meeting regarding his or her determination. The Board shall then make a final decision regarding readmission during the closed session of a public meeting, reporting out any action taken during closed session consistent with the requirements of the Brown Act. The pupil's readmission is also contingent upon the Charter School's capacity at the time the student seeks readmission.
O. Special Procedures for the Consideration of Suspension and Expulsion of Students with Disabilities

2. Notification of County

The Charter School shall immediately notify the County and coordinate the procedures in this policy with the County for the discipline of any student with a disability or student who the Charter School or County/SELPA would be deemed to have knowledge that the student had a disability who is suspended for more than ten (10) school days during a school year.

3. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting (which could constitute a change of placement and the student’s IEP would reflect this change), and to progress toward meeting the goals set out in the child's IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

4. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the Charter School, the parent, and relevant members of the IEP/504 Team shall review all relevant information in the student's file, including the child's IEP/504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

   a) If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or

   b) If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/504 Plan.

If the Charter School, the parent, and relevant members of the IEP/504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If the Charter School, the parent, and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the child's disability, the IEP/504 Team shall:

   a) Conduct a functional behavioral assessment and implement a behavioral intervention plan for such child, provided that the Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;

   b) If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and

   c) Return the child to the placement from which the child was removed, unless the parent and the Charter School agree to a change of placement as part of the modification of the behavioral intervention plan.
If the Charter School, the parent, and relevant members of the IEP/504 Team determine that the behavior was not a manifestation of the student’s disability and that the conduct in question was not a direct result of the failure to implement the IEP/504 Plan, then the Charter School may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

4. Due Process Appeals

The parent of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination, or the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent or the Charter School, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer in accordance with state and federal law, including 20 USC Section 1415(k), or until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, unless the parent and the Charter School agree otherwise.

In accordance with 20 U.S.C. Section 1415(k)(3), if a parent/guardian disagrees with any decision regarding placement, or the manifestation determination, or if the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, the parent/guardian or Charter School may request a hearing.

In such an appeal, a hearing officer may: (1) return a child with a disability to the placement from which the child was removed; or (2) order a change in placement of a child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of such child is substantially likely to result in injury to the child or to others.

5. Special Circumstances

Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The Superintendent/Executive Director or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student’s disability in cases where a student:

a) Carries or possesses a weapon, as defined in 18 USC 930, to or at school, on school premises, or to or at a school function;

b) Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or

c) Has inflicted serious bodily injury, as defined by 20 USC 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.
6. Interim Alternative Educational Setting
   The student's interim alternative educational setting shall be determined by the student's IEP/504 Team.

7. Procedures for Students Not Yet Eligible for Special Education Services
   A student who has not been identified as an individual with disabilities pursuant to IDEA and who has violated the School’s disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if the Charter School had knowledge that the student was disabled before the behavior occurred.

   The Charter School shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

   a) The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to Charter School supervisory or administrative personnel, or to one of the child’s teachers, that the student is in need of special education or related services.

   b) The parent has requested an evaluation of the child.

   c) The child’s teacher, or other Charter School personnel, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the director of special education or to other Charter School supervisory personnel.

   If the Charter School knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEA-eligible children with disabilities, including the right to stay-put.

   If the Charter School had no basis for knowledge of the student’s disability, it shall proceed with the proposed discipline. The Charter School shall conduct an expedited evaluation if requested by the parents; however the student shall remain in the education placement determined by the Charter School pending the results of the evaluation.

   The Charter School shall not be deemed to have knowledge of that the student had a disability if the parent has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.
Discovery II has had some difficulty becoming financially solvent on their own. This is primarily due to the high cost of rent and construction needed to bring the facility up to date. Discovery II has spent significant funds adding classrooms, repairing bathrooms and paying rent on an older campus located on a significant amount of land.

In the current 5-year forecast, Discovery II has made conscientious and strategic cost reductions to support stronger financial health. The most significant reductions are in the following categories: textbooks, computers, fundraising expenses, and foreign language consultants.

In order to add additional revenue, we look to the future years of the afterschool Program. The expectation is that it will continue to grow with the growth of the school, generating more financial support for the general education program.

In terms of reserves, Discovery II will begin to build a reserve in FY19, and have a positive ending fund balance in FY20, leading to long-term sustainability. For the short-term, any unexpected expenses will need to be managed, whenever possible, by making trade-offs with other budgeted expenses. If necessary, as a last resort, Discovery II will lean on their positive net income (“bottom line”) if they have a necessary, unplanned expense.

Discovery II does not have any loans from other entities, so there is no need for factoring. Currently, D II is using a cash transfer of $1,002,686 from DI to support operating expenses primarily consisting of leasehold improvements including adding portables and updating restrooms. These Leasehold improvements are depreciated over our short lease of 5 years but we expect those improvements to help contribute to financial strength for as long as we occupy the campus.

Discovery II will need continued support from Discovery I through FY20, and Discovery II will begin transferring this cash back to Discovery I in FY21.

The only loan that Discovery II currently has is the loan from the California School Finance Authority Revolving Loan Fund. This is being paid back on the attached repayment schedule. The cash support from Discovery I is not a formal loan (given that these two schools are operated by the same organization with the same governing board), there is no specific payment structure, although Discovery II will be transferring this cash back to the Discovery I balance sheet as soon as possible (see above, FY21)

ATTACHMENT 29. KINDERGARTEN READINESS ACT OF 2010

Kindergarten Readiness Act of 2010 (Transitional Kindergarten)
BOARD POLICY #BP081512.2

Background: In 2010 the California Legislature passed the Kindergarten Readiness Act, which has become commonly known as “Transitional Kindergarten” or “TK.”
Over a three-year period from the 2011-12 school year to the 2013-14 school year the cut-off birth date for Kindergarten eligibility is being moved from December 1 to September 1, but students with birth dates between September 1 and December 1 will be eligible for voluntary enrollment in Transitional Kindergarten classes to prepare them for Kindergarten the following year.

Policy:
For the 2012-13 school year students enrolled in Discovery who have a birth date between November 2 and December 2, 2007 will be eligible for Transitional Kindergarten or “TK”, which will be held in one of our Kindergarten / 1st grade classrooms. TK students will receive an individualized curriculum with goals specific to their developmental level, but in every other way will be part of the K1 class, participating as a regular Kindergarten student. Parents and the child’s teacher will decide together whether or not the child should move to Kindergarten or 1st grade for the following school year. This decision will be made prior to the lottery date for the following year (usually around the first week in April). If there is a disagreement between the parents and the teacher regarding the following year’s grade level placement, the teacher will have the right to make the final decision.

Contingent upon the approval and opening of the second Discovery school, starting with the 2013-14 school year, Discovery will offer one Transitional Kindergarten class for students with birth dates between September 2 and December 2, 2008. This class will be housed at the new Discovery campus, or “Discovery Two.” A separate lottery will be held for these students.

Minimum enrollment for the Transitional Kindergarten class will be 11 students. Maximum enrollment will be 22 students. If enrollment falls between 22 and 33 students, then the Executive Director may create an “AM/PM” program with split enrollment and a short amount of combined time with all students so that each students receives a minimum of 200 instructional minutes per day.

If there are fewer than 11 applicants for Transitional Kindergarten in any year of the program, the students will be included in the regular Kindergarten lottery for that year and enrolled students will be placed in one of our regular Kindergarten or K/1 classrooms.

Students enrolled in a TK class will be automatically enrolled in Kindergarten for the following year at the Discovery campus selected by the parents, with the Executive Director’s approval. The Executive Director shall have the right to determine which Discovery campus the child attends, but will try to accommodate the parents’ request. If parents disagree with a school placement decision they may appeal to the Discovery Board of Directors.
The Board of Directors of Discovery Charter School (“Discovery”) recognizes that suicide is a major cause of death among youth and should be taken seriously. To attempt to reduce suicidal behavior and its impact on students and families, the Board of Directors has developed prevention strategies and intervention procedures.

In compliance with Education Code section 215, this policy has been developed in consultation with Discovery and community stakeholders, Discovery school-employed mental health professionals (e.g., school counselors, psychologists, social workers, nurses), administrators, other school staff members, parents/guardians/caregivers, students, local health agencies and professionals, law enforcement, and community organizations in planning, implementing, and evaluating Discovery’s strategies for suicide prevention and intervention. Discovery must work in conjunction with local government agencies, community-based organizations, and other community supports to identify additional resources.

To ensure the policies regarding suicide prevention are properly adopted, implemented, and updated, Discovery shall appoint an individual (or team) to serve as the suicide prevention point of contact for Discovery. This policy shall be reviewed and revised as indicated, at least annually in conjunction with the previously mentioned community stakeholders.

A. Staff Development

Training shall be provided for all school staff members. It may also be provided, when appropriate, for other adults on campus (such as substitutes and intermittent staff, volunteers, interns, tutors, coaches, and afterschool staff).

Training:

- All suicide prevention trainings shall be offered under the direction of mental health professionals (e.g., school counselors, school psychologists, other public entity professionals, such as psychologists or social workers) who have received advanced training specific to suicide. Staff training may be adjusted year-to-year based on previous professional development activities and emerging best practices.
- At least annually, all staff shall receive training on the risk factors and warning signs of suicide, suicide prevention, intervention, referral, and postvention.
- At a minimum, all staff shall participate in training on the core components of suicide prevention (identification of suicide risk factors and warning signs, prevention, intervention, referral, and postvention) at the beginning of their employment or annually. Core components of the general suicide prevention training shall include:
  - Suicide risk factors, warning signs, and protective factors;
  - How to talk with a student about thoughts of suicide;
  - How to respond appropriately to the youth who has suicidal thoughts. Such responses shall include constant supervision of any student judged to be at risk for suicide and an immediate referral for a suicide risk assessment;
Emphasis on immediately referring (same day) any student who is identified to be at risk of suicide for assessment while staying under constant monitoring by staff member;

Emphasis on reducing stigma associated with mental illness and that early prevention and intervention can drastically reduce the risk of suicide;

Reviewing the data annually to look for any patterns or trends of the prevalence or occurrence of suicide ideation, attempts, or death. Data from the California School Climate, Health, and Learning Survey (Cal-SCHLS) should also be analyzed to identify school climate deficits and drive program development. See the Cal-SCHLS Web site at http://cal-schls.wested.org/.

Information regarding groups of students judged by the school, and available research, to be at elevated risk for suicide. These groups include, but are not limited to, the following:

- Youth affected by suicide;
- Youth with a history of suicide ideation or attempts;
- Youth with disabilities, mental illness, or substance abuse disorders;
- Youth with serious medical conditions;
- Lesbian, gay, bisexual, transgender, or questioning youth;
- Youth experiencing homelessness or in out-of-home settings, such as foster care;
- Youth who have suffered traumatic experiences;
- Students whose immigration status is undocumented or whose parents’ immigration status is undocumented.

In addition to initial orientations to the core components of suicide prevention, ongoing annual staff professional development for all staff may include the following components:

- The impact of traumatic stress on emotional and mental health;
- Common misconceptions about suicide;
- School and community suicide prevention resources;
- Appropriate messaging about suicide (correct terminology, safe messaging guidelines);
- The factors associated with suicide (risk factors, warning signs, protective factors);
- How to identify youth who may be at risk of suicide;
- Appropriate ways to interact with a youth who is demonstrating emotional distress or is suicidal. Specifically, how to talk with a student about their thoughts of suicide and (based on Discovery guidelines) how to respond to such thinking; how to talk with a student about thoughts of suicide and appropriately respond and provide support based on Discovery guidelines;
- Discovery-approved procedures for responding to suicide risk (including multi-tiered systems of support and referrals). Such procedures should emphasize that the suicidal student should be constantly supervised until a suicide risk assessment is completed;
- Discovery-approved procedures for responding to the aftermath of suicidal behavior (suicidal behavior postvention);
- Responding after a suicide occurs (suicide postvention);
- Resources regarding youth suicide prevention;
- Emphasis on stigma reduction and the fact that early prevention and intervention can drastically reduce the risk of suicide;
- Emphasis that any student who is identified to be at risk of suicide is to be immediately referred (same day) for assessment while being constantly monitored by a staff member.

B. Employee Qualifications and Scope of Services
Employees of Discovery must act only within the authorization and scope of their credential or license. While it is expected that school professionals are able to identify suicide risk factors and warning signs, and to prevent the immediate risk of a suicidal behavior, treatment of suicidal ideation is typically beyond the scope of services offered in the school setting. In addition, treatment of the mental health challenges often associated with suicidal thinking typically requires mental health resources beyond what schools are able to provide.

C. Parents, Guardians, and Caregivers Participation and Education

- Parents/guardians/caregivers may be included in suicide prevention efforts. At a minimum, schools shall share this Policy with parents/guardians/caregivers by notifying them where a complete copy of the policy is available.
- Parents/guardians/caregivers should be invited to provide input on the development and implementation of this policy.
- All parents/guardians/caregivers may have access to suicide prevention training that addresses the following:
  - Suicide risk factors, warning signs, and protective factors;
  - How to talk with a student about thoughts of suicide;
  - How to respond appropriately to the student who has suicidal thoughts. Such responses shall include constant supervision of any student judged to be at risk for suicide and referral for an immediate suicide risk assessment.

D. Student Participation and Education

Messaging about suicide has an effect on suicidal thinking and behaviors. Consequently, Discovery along with its partners has carefully reviewed and will continue to review all materials and resources used in awareness efforts to ensure they align with best practices for safe messaging about suicide. Suicide prevention strategies may include, but not be limited to, efforts to promote a positive school climate that enhances students’ feelings of connectedness with Discovery and is characterized by caring staff and harmonious interrelationships among students.

Discovery’s instructional and student support program shall promote the healthy mental, emotional, and social development of students including, but not limited to, the development of problem-solving skills, coping skills, and resilience.

Discovery’s instructional curriculum may include information about suicide prevention, as appropriate or needed, taking into consideration the grade level and age of the students. Under the supervision of an appropriately trained individual acting within the scope of her/his credential or license, students shall:
  - Receive developmentally appropriate, student-centered education about the warning signs of mental health challenges and emotional distress;
  - Receive developmentally appropriate guidance regarding Discovery’s suicide prevention, intervention, and referral procedures.

The content of the education may include:
  - Coping strategies for dealing with stress and trauma;
  - How to recognize behaviors (warning signs) and life issues (risk factors) associated with suicide and mental health issues in oneself and others;
• Help-seeking strategies for oneself and others, including how to engage school-based and community resources and refer peers for help;
• Emphasis on reducing the stigma associated with mental illness and the fact that early prevention and intervention can drastically reduce the risk of suicide.

Student-focused suicide prevention education can be incorporated into classroom curricula (e.g., health classes, freshman orientation classes, science, and physical education).

Discovery will support the creation and implementation of programs and/or activities on campus that raise awareness about mental wellness and suicide prevention (e.g., Mental Health Awareness Week, Peer Counseling, Freshman Success, and National Alliance on Mental Illness on Campus High School Clubs).

E. Intervention and Emergency Procedures

Discovery designates the following staff members to act as the primary and secondary suicide prevention liaisons:
• School Counselor
• Director

Whenever a staff member suspects or has knowledge of a student’s suicidal intentions, they shall promptly notify the school counselor and the school’s director. If this primary suicide prevention liaison is unavailable, the staff shall promptly notify the secondary suicide prevention liaison.

The suicide prevention liaison shall immediately notify the Director or designee, who shall then notify the student’s parent/guardian as soon as possible if appropriate and in the best interest of the student. Determination of notification to parents/guardians/caregivers should follow a formal initial assessment to ensure that the student is not endangered by parental notification.

Intervention for a student with suicidal ideation, or who has attempted suicide, shall include the following steps:

1. Assessment by the School Counselor. An interview with the student as well as their teacher and others who may have knowledge of the immediate situation.

2. The Counselor and/or Director will notify the student’s parents.

3. If deemed necessary, a referral shall be made to Eastfield Ming Quong’s (EMQ) Crisis Intervention Team.

4. If EMQ is unavailable, the Counselor and/or Director will ask the student’s parents to transport them to the Emergency Room for an emergency psychiatric evaluation.

5. If EMQ and parents are both unavailable and/or unwilling to transport the student, then 911 shall be called.

The suicide prevention liaison shall also refer the student to mental health resources at Discovery or in the community.
When a student is in imminent danger (has access to a gun, is on a rooftop, or in other unsafe conditions), a call shall be made to 911.

When a suicide attempt or threat is reported on campus or at a school-related activity, the suicide prevention liaison shall, at a minimum:

1. Ensure the student’s physical safety by one of the following, as appropriate:
   - Securing immediate medical treatment if a suicide attempt has occurred;
   - Securing law enforcement and/or other emergency assistance if a suicidal act is being actively threatened;
   - Keeping the student under continuous adult supervision until the parent/guardian and/or appropriate support agent or agency can be contacted and has the opportunity to intervene.
   - Remaining calm, keeping in mind the student is overwhelmed, confused, and emotionally distressed;
   - Moving all other students out of the immediate area;
   - Not sending the student away or leaving him/her alone, even to go to the restroom;
   - Providing comfort to the student, listening and allowing the student to talk and being comfortable with moments of silence;
   - Promising privacy and help, but not promising confidentiality.
2. Document the incident in writing as soon as feasible.
3. Create a Safety Plan with the student that details steps that the student should take, including contacts with phone numbers of school personnel who they can call, if they are feeling unsafe.
4. Follow up with the parent/guardian and student in a timely manner to provide referrals to appropriate services as needed.
5. After a referral is made, Discovery shall verify with the parent/guardian that the follow up treatment has been accessed. Parents/guardians will be required to provide documentation of care for the student. If parents/guardians refuse or neglect to access treatment for a student who has been identified to be at risk for suicide or in emotional distress, the suicide prevention liaisons shall meet with the parent to identify barriers to treatment (e.g., cultural stigma, financial issues) and work to rectify the situation and build understanding of care. If follow up care is still not provided, Discovery may contact Child Protective Services.
6. Provide access to counselors or other appropriate personnel to listen to and support students and staff who are directly or indirectly involved with the incident at Discovery.
7. Provide an opportunity for all who respond to the incident to debrief, evaluate the effectiveness of the strategies used, and make recommendations for future actions.

In the event a suicide occurs or is attempted on the Discovery campus, the suicide prevention liaison shall follow the crisis intervention procedures contained in Discovery’s safety plan. After consultation with the Director or designee and the student’s parent/guardian about facts that may be divulged in accordance with the laws governing confidentiality of student record information, the Director or designee may provide students, parents/guardians, and staff with information, counseling, and/or referrals to community agencies as needed. Discovery staff may receive assistance from Discovery counselors or other mental health professionals in determining how best to discuss the suicide or attempted suicide with students.

In the event a suicide occurs or is attempted off the Discovery campus and unrelated to school activities, the Director or designee shall take the following steps to support the student:

1. Contact the parent/guardian and offer support to the family.
2. Discuss with the family how they would like Discovery to respond to the attempt while minimizing widespread rumors among teachers, staff, and students.
3. Obtain permission from the parent/guardian to share information to ensure the facts regarding the crisis are correct.
4. The suicide prevention liaisons shall handle any media requests.
5. Provide care and determine appropriate support to affected students.
6. Offer to the student and parent/guardian steps for re-integration to School. Re-integration may include obtaining a written release from the parent/guardian to speak with any health care providers; conferring with the student and parent/guardian about any specific requests on how to handle the situation; informing the student’s teachers about possible days of absences; allowing accommodations for make up work (being understanding that missed assignments may add stress to the student); appropriate staff maintaining ongoing contact with the student to monitor the student’s actions and mood; and working with the parent/guardian to involve the student in an aftercare plan.

F. Supporting Students during or after a Mental Health Crisis

Students shall be encouraged through the education program and in Discovery activities to notify a teacher, the Director, another Discovery administrator, psychologist, Discovery counselor, suicide prevention liaisons, or other adult when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student’s suicidal intentions. Discovery staff should treat each report seriously, calmly, and with active listening and support. Staff should be non-judgmental to students and discuss with the student, and parent/guardian, about additional resources to support the student.

G. Responding After a Suicide Death (Postvention)

A death by suicide in the school community (whether by a student or staff member) can have devastating consequences on the school community, including students and staff. Discovery shall follow the below action plan for responding to a suicide death, which incorporates both immediate and long-term steps and objectives:

The suicide prevention liaison shall:
- Coordinate with the Director to:
  - Confirm death and cause;
  - Identify a staff member to contact deceased’s family (within 24 hours);
  - Enact the Suicide Postvention Response;
  - Notify all staff members (ideally in-person or via phone, not via e-mail or mass notification).
- Coordinate an all-staff meeting, to include:
  - Notification (if not already conducted) to staff about suicide death;
  - Emotional support and resources available to staff;
  - Notification to students about suicide death and the availability of support services (if this is the protocol that is decided by administration);
  - Share information that is relevant and that which you have permission to disclose.
- Prepare staff to respond to needs of students regarding the following:
  - Review of protocols for referring students for support/assessment;
  - Talking points for staff to notify students;
  - Resources available to students (on and off campus).
• Identify students significantly affected by suicide death and other students at risk of imitative behavior;
• Identify students affected by suicide death but not at risk of imitative behavior;
• Communicate with the larger school community about the suicide death;
• Consider funeral arrangements for family and school community;
• Respond to memorial requests in respectful and non-harmful manner; responses should be handed in a thoughtful way and their impact on other students should be considered;
• Identify media spokesperson if needed.
• Include long-term suicide postvention responses:
  o Consider important dates (i.e., anniversary of death, deceased birthday, graduation, or other significant event) and how these will be addressed
  o Support siblings, close friends, teachers, and/or students of deceased
  o Consider long-term memorials and how they may impact students who are emotionally vulnerable and at risk of suicide

2017-20 Plan Summary

THE STORY
Briefly describe the students and community and how the LEA serves them.

Through strong family involvement, community learning, and developmentally based teaching, Discovery Charter Schools will support the whole child and develop lifelong learners prepared to meet the challenges of the future.
We are committed to:

- Building an educational environment where developing, building, and engaging families and communities will provide a common vision for lifelong learning and student success;
- Respecting the cognitive, emotional, social, and physical development of each child;
- Partnering staff, students, parents, and community to create a unique, challenging, and individualized learning environment with high academic standards and expectations;
- Building programs that foster thinking which is original, critical, collaborative, and reflective;
- Developing students who are self-motivated, self-disciplined, and socially responsible; and
Continuous improvement of teaching and learning techniques based on supporting research.

Our students come from diverse backgrounds with the breakdown of student enrollment below:

Approximately 7.7% of our students are socioeconomically disadvantaged, 6.3% are English Learners and 13.5% receive Special Education services.

**LCAP HIGHLIGHTS**

Identify and briefly summarize the key features of this year’s LCAP.

Working closely with all the stakeholders throughout our school, we have identified the following five goals for focus in the next three years to improve the outcomes of all students.

- **Goal 1**: Of the students identified as English Learners (EL’s) 50% or more will be reclassified on the California English Language Development (CELDT) test as fluent / English proficient.
- **Goal 2**: All students, including gifted, low-SES, EL learners, and students with disabilities, demonstrate growth in ELA, science, and math.
- **Goal 3**: Increase the number of students with disabilities who are fully included in the regular classrooms.
- **Goal 4**: Implement Reggio-based assessment system across the school.
- **Goal 5**: Increase support structure for parent education.

**REVIEW OF PERFORMANCE**
Based on a review of performance on the state indicators and local performance indicators included in the LCFF Evaluation Rubrics, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

**GREATEST PROGRESS**

- The increase in Barton and Right Start tutoring and the number of students who learned to read and develop number sense
- The creation of a school-wide assessment system based on the Reggio Emilia philosophy
- Positive Discipline and Reggio Emilia training for all teachers
- Groundwork on “Capacity Model” or full inclusion program for special education

Referring to the LCFF Evaluation Rubrics, identify any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these performance gaps?

**PERFORMANCE GAPS**

Based on the CAASP results and other performance measures (benchmark tests and formative assessments), the economically-disadvantaged students and students with disabilities were performing below the “all students” groups. Only 34% of our economically-disadvantaged students met or exceeded standards in ELA CAASP and only 38% met or exceeded standards in Math CAASP compared to 73% of students who are not economically disadvantaged in ELA and 75% in math. Students with disabilities are the other sub-group with the greatest performance gaps. Only 33% of students with disabilities met or exceeded standards in ELA CAASP and only 40% in math, compared to 76% of students without disabilities who met and exceeded standards in ELA and 76% in math.

Referring to the LCFF Evaluation Rubrics, identify any state indicator or local performance indicator for which overall performance was in the “Red” or “Orange” performance category or where the LEA received a “Not Met” or “Not Met for Two or More Years” rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

**GREATEST NEEDS**

According to the California School Dashboard, there were no orange indicators for Discovery Charter School II. Our greatest needs are to implement an effective assessment system that reflects our philosophy and provides a formative assessment to guide instruction and assists teachers and students in creating the “emergent curriculum.” Choosing a science curriculum, or refurbishing the FOSS kits is another need for the 2017-18 school year.

Instead of using the older California School Dashboard data, we prefer to identify our greatest needs based on the performance gaps data. See below for details.
INCREASED OR IMPROVED SERVICES
If not previously addressed, identify the two to three most significant ways that the LEA will increase or improve services for low-income students, English learners, and foster youth.

- Teach vocabulary with a particular emphasis on EL.
- Provide Barton tutoring for students who need reading intervention program
- Increase use of non-fiction materials.
- Provide books at wide range of reading levels
- Provide intervention program in math for students who need the extra support

All students in grades K-8 receive weekly instruction in Spanish. We have two paid Spanish teachers, who are assisted by parent volunteers who are native Spanish speakers. Some of our teachers also are Spanish fluent or have enough proficiency with the language to include it during other instructional times.

Dissatisfaction with our Spanish program was evident in our parent and student surveys. Improving the program is something that we’ll be working on with our teachers. Talking with the students about the issues and possible solutions will be the first step in addressing this concern.

INVOLVEMENT PROCESS FOR LCAP AND ANNUAL UPDATE

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

The Discovery program is language-based, with an emphasis on developing all students’ oral language, reasoning, and vocabulary. These skills are taught across all subjects. Class meetings Problem-Based Learning, cooperative groups, and other strategies also improve the skills of our English Learners (EL’s)

A community meeting was held on May 3, 2017 to discuss the results of the parent, staff, and student survey and the school’s plans for 2017-18. A draft overview of the LCAP was shared at this meeting. The surveys were done online and open for several weeks in March and April. 300 parents completed a survey, 26 staff members completed a separate survey, and 331 students completed surveys. There were separate surveys for students in K-3 and 4th-8th.

IMPACT ON LCAP AND ANNUAL UPDATE

How did these consultations impact the LCAP for the upcoming year?
Survey results from parents indicate that our Spanish program is an area of concern. Specifically, parents do not feel that their child is making progress in Spanish, and many parents report that their children dislike our Spanish program. The frequency of instruction (one or two sessions per week for most classrooms) is certainly a factor, but we need to explore other issues that may be adversely impacting our Spanish program.

Survey results in general express widespread satisfaction with our program, and this was confirmed in the community meeting, staff meetings, and in informal conversations with parents, students, and staff. Still, there is always room for improvement.

Master Agreement for Independent Study

Student Name: ___________________________ Grade: _____ Age: _____ D.O.B.: ________________
Street: _________________________________ City: __________________ Zip: __________________
Parent(s) Name: __________________________ Email Address: __________________________
Phone: ___________________ Quarter: _______ Entry Date: _________ Exit Date: _________

Objective: This agreement is to enable the student to successfully reach the objectives and complete the assignments identified on the Assignment Form that will be a part of this Agreement. The student will complete assignments as they are assigned by the Discovery Charter School teacher.

Methods of Study: will be hands-on activities, projects, textbooks, online resources, field trips, manipulatives or others listed on the Assignment form that are developmentally appropriate to the student’s understanding. The student will also be provided with teacher support, supplemental curriculum, computer programs or other resources appropriate for successful completion of the assignments. Non-consumables will be returned to the school at the end of the year. Home school students may choose to participate in electives and other Discovery community activities.

Assignments and reporting: Parents and students must participate in regular meetings with the teacher in person, at least once every 20 school days, at the time and place indicated on the Assignment form or as otherwise arranged. This meeting is in addition to the student’s attendance at school, but may be arranged before or after school on days the student attends class at Discovery II. Assignments will be presented at each meeting. Assignments must be completed unless changes are arranged with the teacher. Passing is based on mastery of learning as determined by evaluating the completed assignments.

Other policies and procedures: The Discovery Charter Home School program is a team effort between parent, student, and teacher working together toward a successful learning process. Each has a distinct role:

- The parent serves as the instructor, teaching, overseeing and documenting daily progress.
- The parent must be available for helping the student to achieve the learning objectives.
- The student is responsible to do the work and to communicate with the team.
- The teacher serves to support, guide, keep records, and assure the integrity of the work.

School equipment and materials must be properly cared for and returned when requested.

The parent is responsible for Daily Attendance Records for the days the student is home schooled, including review of student work and initialing the day’s activities on the Attendance Record. Only list days indicated on the Academic Calendar (reverse side of attendance record), and circle each subject in which work was completed for each day. Work turned in must match the subjects and dates indicated. Assignment Forms will be completed at the meetings.
Honesty and a sense of trust are essential between all members of the team. The teacher will assume that all work is a student’s own, not that of a parent, other person, or resource. If such sources are used, written acknowledgement must be given.

**Causes of dismissal/probation:** Evaluation regarding continued enrollment will be made by the Discovery Director or Executive Director if any of the following are found:

- Two missed meetings or failure to reschedule appointments within the 20 day period.
- Student fails to complete 95% of assignments for two (2) months.
- Failing to abide by the terms of this Agreement.

**Voluntary Statement:** Participating in the Discovery Charter Home School program is a continuously voluntary educational alternative. In the case of a pupil who is referred or assigned pursuant to Education Code 48915 or 48917, an alternative classroom has been offered and is available at all times.

**Signatures:** Parent/guardian signature confers permission for independent study as specified in this agreement.

I have read both pages of this agreement and hereby agree to the conditions set forth within.
