Introduction:

LEA: Rocketship Discovery Prep Contact (Name, Title, Email, Phone Number): Principal Eesir Kaur, ekaur@rsed.org 408-217-8951 LCAP Year: 2016-17

Local Control and Accountability Plan and Annual Update Template

The Local Control and Accountability Plan (LCAP) and Annual Update Template shall be used to provide details regarding local educational agencies' (LEAs) actions and expenditures to support pupil outcomes and overall performance pursuant to Education Code sections 52060, 52066, 47605, 47605.5, and 47606.5. The LCAP and Annual Update Template must be completed by all LEAs each year.

For school districts, pursuant to Education Code section 52060, the LCAP must describe, for the school district and each school within the district, goals and specific actions to achieve those goals for all pupils and each subgroup of pupils identified in Education Code section 52052, including pupils with disabilities, for each of the state priorities and any locally identified priorities.

For county offices of education, pursuant to Education Code section 52066, the LCAP must describe, for each county office of education-operated school and program, goals and specific actions to achieve those goals for all pupils and each subgroup of pupils identified in Education Code section 52052, including pupils with disabilities, who are funded through the county office of education Local Control Funding Formula as identified in Education Code section 2574 (pupils attending juvenile court schools, on probation or parole, or mandatorily expelled) for each of the state priorities and any locally identified priorities. School districts and county offices of education may additionally coordinate and describe in their LCAPs services provided to pupils funded by a school district but attending county-operated schools and programs, including special education programs.

Charter schools, pursuant to Education Code sections 47605, 47605.5, and 47606.5, must describe goals and specific actions to achieve those goals for all pupils and each subgroup of pupils identified in Education Code section 52052, including pupils with disabilities, for each of the state priorities as applicable and any locally identified priorities. For charter schools, the inclusion and description of goals for state priorities in the LCAP may be modified to meet the grade levels served and the nature of the programs provided, including modifications to reflect only the statutory requirements explicitly applicable to charter schools in the Education Code.

The LCAP is intended to be a comprehensive planning tool. Accordingly, in developing goals, specific actions, and expenditures, LEAs should carefully consider how to reflect the services and related expenses for their basic instructional program in relationship to the state priorities. LEAs may reference and describe actions and expenditures in other plans and funded by a variety of other fund sources when detailing goals, actions, and expenditures related to the state and local priorities. LCAPs must be consistent with school plans submitted pursuant to Education Code section 64001. The information contained in the LCAP, or annual update, may be supplemented by information contained in other plans (including the LEA plan pursuant to Section 1112 of Subpart 1 of Part A of Title I of Public Law 107-110) that are incorporated or referenced as relevant in this document.

For each section of the template, LEAs shall comply with instructions and should use the guiding questions as prompts (but not limits) for completing the information as required by statute. Guiding questions do not require separate narrative responses. However, the narrative response and goals and actions should demonstrate each guiding question was considered during the development of the plan. Data referenced in the LCAP must be consistent with the school accountability report card where appropriate. LEAs may resize pages or attach additional pages as necessary to facilitate completion of the LCAP.

State Priorities

The state priorities listed in Education Code sections 52060 and 52066 can be categorized as specified below for planning purposes, however, school districts and county offices of education must address each of the state priorities in their LCAP. Charter schools must address the priorities in Education Code section 52060(d) that apply to the grade levels served, or the nature of the program operated, by the charter school.

A. Conditions of Learning:

Basic: degree to which teachers are appropriately assigned pursuant to Education Code section 44258.9, and fully credentialed in the subject areas and for the pupils they are teaching; pupils have access to standards-aligned instructional materials pursuant to Education Code section 60119; and school facilities are maintained in good repair pursuant to Education Code section 17002(d). (Priority 1)

Implementation of State Standards: implementation of academic content and performance standards and English language development standards adopted by the state board for all pupils, including English learners. (Priority 2)

Course access: pupil enrollment in a broad course of study that includes all of the subject areas described in Education Code section 51210 and subdivisions (a) to (i), inclusive, of Section 51220, as applicable. (Priority 7)

Expelled pupils (for county offices of education only): coordination of instruction of expelled pupils pursuant to Education Code section 48926. (Priority 9)

Foster youth (for county offices of education only): coordination of services, including working with the county child welfare agency to share information, responding to the needs of the juvenile court system, and ensuring transfer of health and education records. (Priority 10)

B. Pupil Outcomes:

Pupil achievement: performance on standardized tests, score on Academic Performance Index, share of pupils that are college and career ready, share of English learners that become English proficient, English learner reclassification rate, share of pupils that pass Advanced Placement exams with 3 or higher, share of pupils determined prepared for college by the Early Assessment Program. (Priority 4)

Other pupil outcomes: pupil outcomes in the subject areas described in Education Code section 51210 and subdivisions (a) to (i), inclusive, of Education Code section 51220, as applicable. (Priority 8)

C. Engagement:

Parental involvement: efforts to seek parent input in decision making at the district and each schoolsite, pRDPtion of parent participation in programs for unduplicated pupils and special need subgroups. (Priority 3)

Pupil engagement: school attendance rates, chronic absenteeism rates, middle school dropout rates, high school dropout rates, high school graduations rates. (Priority 5)

School climate: pupil suspension rates, pupil expulsion rates, other local measures including surveys of pupils, parents and teachers on the sense of safety and school connectedness. (Priority 6)

Section 1: Stakeholder Engagement

Meaningful engagement of parents, pupils, and other stakeholders, including those representing the subgroups identified in Education Code section 52052, is critical to the LCAP and budget process. Education Code sections 52060(g), 52062 and 52063 specify the minimum requirements for school districts; Education Code sections 52066(g), 52068 and 52069 specify the minimum requirements for county offices of education, and Education Code section 47606.5 specifies the minimum requirements for charter schools. In addition, Education Code section 48985 specifies the requirements for translation of documents.

Instructions: Describe the process used to consult with parents, pupils, school personnel, local bargaining units as applicable, and the community and how this consultation contributed to development of the LCAP or annual update. Note that the LEA's goals, actions, services and expenditures related to the state priority of parental involvement are to be described separately in Section 2. In the annual update boxes, describe the stakeholder involvement process for the review, and describe its impact on, the development of the annual update to LCAP goals, actions, services, and expenditures.

Guiding Questions:

- How have applicable stakeholders (e.g., parents and pupils, including parents of unduplicated pupils and unduplicated pupils identified in Education Code section 42238.01; community members; local bargaining units; LEA personnel; county child welfare agencies; county office of education foster youth services programs, court-appointed special advocates, and other foster youth stakeholders; community organizations representing English learners; and others as appropriate) been engaged and involved in developing, reviewing, and supporting implementation of the LCAP?
- 2) How have stakeholders been included in the LEA's process in a timely manner to allow for engagement in the development of the LCAP?
- 3) What information (e.g., quantitative and qualitative data/metrics) was made available to stakeholders related to the state priorities and used by the LEA to inform the LCAP goal setting process? How was the information made available?
- 4) What changes, if any, were made in the LCAP prior to adoption as a result of written comments or other feedback received by the LEA through any of the LEA's engagement processes?
- 5) What specific actions were taken to meet statutory requirements for stakeholder engagement pursuant to Education Code sections 52062, 52068, and 47606.5, including engagement with representatives of parents and guardians of pupils identified in Education Code section 42238.01?
- 6) What specific actions were taken to consult with pupils to meet the requirements 5 CCR 15495(a)?
- 7) How has stakeholder involvement been continued and supported? How has the involvement of these stakeholders supported improved outcomes for pupils, including unduplicated pupils, related to the state priorities?

Involvement Process	Impact on LCAP			
Rocketship Discovery Prep' LCAP was developed with input f	Rocketship Discovery Prep provides regular opportunities for			
including Rocketship Discovery Prep' school leadership team	n, staff, families, students, and	parents to give input on the running of their school. These		
Rocketship Education's Network staff and board. The details	of this engagement and the	opportunities include, but are not limited to, monthly coffee		
impact on the LCAP plan are explained to the right.	chats with the principal, community meetings, and 1:1 meetings with the school leadership team.			
The LCAP is grounded in the school's specific context includi	ng its student population,			
instructional program, and community priorities.		In all of these engagement opportunities, RDP encourages parents to comment on the strengths they see in the school and any operational or instructional concerns they may have, which		
Rocketship Discovery Prep opened in August 2011, the fifth	Rocketship campus to open in			
San Jose. The campus serves K-5 students.		in turn influence the school's plans for LCFF investments.		
Rocketship Discovery Prep Fast Facts (as of	April 2016):	In addition to these regular engagement channels, RDP held in-		
Enrollment	person community meeting in early April 26, 2016 to			
FRL Population	understand the components of LCAP (including the state			
EL Population	52.40%	priorities) and to discuss how we could best use the LCFF funds		

Special Education Population	8.20%
Population by Ethnicity (as of April 2016):	
Asian: 10.3	
African-American: 1.6%	
Hispanic: 83.0%	
White: 2.5%	
Other: 2.6%	

Given the majority FRL and EL population, Rocketship Discovery Prep' instructional program is built around ELD principles and recognizes incoming students may be several grade levels behind. As a result, all teachers are trained in Guided Language Acquisition Design, small group instruction and differentiation to meet the needs of all students in their classrooms. As outlined in RDP's charter, the key instructional practices include:

- **Personalization.** Students receive targeted small group instruction through core strategies such as Guided Reading, 1:1 and small group tutoring during their time in the Learning Lab.
- **Blended Learning.** Students benefit from access to adaptive online curriculum that provides them content at or slightly above their skill level, as well as the integration of technology into the classroom for project and writing work.
- Data driven instruction. RDP uses a variety of benchmark, formative and summative assessments to continually ensure that students are making progress towards mastery of the CCSS and receiving instruction that is targeted towards their needs. Teachers gather for quarterly professional development "data days" to analyze the interim assessment data.
- **Response to Intervention (Rtl).** The Rtl framework organizes all of our academic initiatives at RDP. Rtl is an ongoing process of using student data to make universal and individual instructional and intervention decisions. The ultimate goal of Rtl is for all students to perform at a proficient or advanced level because they have received appropriate instruction, accommodations, and modifications throughout the year.
- **Teacher Specialization.** All of our teachers specialize in either Humanities (ELA / Social Studies) or Math/Science. Advantages for elementary schools that follow the team teaching approach include deeper content knowledge, a team structure allowing better collaborative focus, easier transition to middle school, and more flexibility in student grouping.

to serve our students and improve services in alignment with the state priorities. In addition to sharing the state's goals, we shared information about services and resources currently offered by the school that align with those priorities and initial proposals for additional services and resources we could offer. Parent representatives from all student subgroups, including Hispanic and Asian student subgroups and parents of ELs, attended the meeting.

To provide the opportunity for all school stakeholders' voices to be heard, Rocketship shared a survey (which was available in English, Spanish & Vietnamese our student/family population) with all parents. The survey asked parents to indicate their preferences regarding to which services or resources Rocketship Discovery Prep should allocate LCFF funds. The results of the surveys were tallied and then presented to the School Site Council. The SSC, using the results from the LCAP survey, created a formal recommendation to school leaders and Rocketship staff detailing their priorities for increased funding.

In addition to soliciting parental input into the LCAP, we solicited staff feedback via an online survey. Twenty-five teachers responded and their preferences regarding how to allocate LCFF funds and which services Rocketship Discovery Prep should offer to best serve our students. We also consulted our charter petition to ensure our LCFF investments mirrored the priorities and approach detailed in Rocketship Discovery Prep' charter application. We have updated the flow of our LCAP to better align with our charter, making it more transparent for how we will meet and exceed the goals laid out in our charter through our educational program.

Additional groups engaged with during the LCAP process include:

- School Leadership Team
- Rocketship Education governing board
- Rocketship Education network staff and leadership

 Community priorities at RDP include: Core Values: All Rocketship campuses share four core values respect, responsibility, empathy and persistence—and develop a fifth core value as a community. At RDP this fifth core value is creative expression. The RDP community believes that teaching students creative forms of expressing themselves can have a profound impact on students' social, emotional and academic development. As a result, the campus places emphasis on early exposure to visual art, musical foundations, and basic dance movements to help shape children's values, perspectives, and understandings of themselves and the diversity of varied expression in the world around them. Parent Engagement: A core component of Rocketship's theory of action is that parents are essential to the academic success of their student. Through outreach efforts such as conferences, home visits, and community meetings, Rocketship Discovery Prep creates a community and fosters parent engagement as a critical element of a Rocketeer's success. RDP has an active parent leadership team and School Site Council. 	 Students were also consulted in conversations with teachers during regular classroom community meetings. These efforts focused primarily on third through fifth graders. These students were also surveyed to gather data on school safety via a written survey. The ideas and preferences expressed in parent and staff surveys were totaled and used to influence to what services RDP will allocate LCFF funds. The results were reported to the RDP School Site Council, which came up with a formal recommendation for LCFF uses. These services are explained in full in the below sections of the LCAP. RDP's preferred uses for LCFF funds are, in order of priority: Increasing funding for additional support staff hours Maintaining a 28:1 student to teacher ratio in the classroom Increasing funding for targeted professional development for our teachers Increasing funding for general facility maintenance (beautification) As a result of this engagement, we will specifically dedicated additional funding to the support staff budget, Chromebooks budget, professional development budget, filed trip budget and devoting funds to campus beautification.
Annual Update: RDP welcomed back Principal Eesir Kaur this year and looked to maintain strong	Annual Update: RDP gathered input from a wide range of stakeholders in
relationships with families. The results of that engagement are included in the section to the right.	determining investments for next year and the use of LCFF funds in particular. Given the preferences of schools staff and families, Rocketship Discovery Prep will make the following
Last year, Rocketship Discovery Prep also launched a Specialized Inclusion Program (SIP) for our Special Education students who require more intensive support. SIP focuses on providing meaningful inclusion opportunities to students with significant learning and/or behavioral needs through a combination of small caseloads, differentiated curriculum, and targeted professional development for special and general education staff. This program	 investments aligned with the state priorities: investing in additional curricular resources including classroom libraries and online learning programs supporting technology efforts at the school, including an investment in additional student computers and

was successful in its first year, and continues to help our special education students.

2014-15 was the first year of SBAC implementation. This new test set a much higher bar for our Rocketeers that is calibrated better with our school mission and model. However, because of this new assessment, we are unable to compare SBAC results with previous standardized tests and our 2014-15 results serve as a baseline for which we will measure future growth. RDP ended the 2014-15 school year with 44% of 3rd-5th grade students meeting or exceeding standards in mathematics (compared to 23% for socioeconomically disadvantaged students in nearby schools) and 30% of 3rd-5th grade students meeting or exceeding standards in literacy (compared to 28% of their peers). While RDP students are outperforming their socioeconomically disadvantaged and English Learner peers in math, we are not satisfied with these results. In order to have more students meet or exceed standards on state assessments, RDP implemented has continued to modify its academic program, which is detailed below.

technology support

- investing in teacher professional development
- maintaining class size reductions
- investing in school staffing including support staff & enrichment center coordinators
- subsidizing the cost of student field trips to provide all students with access to enriching opportunities

The sections below have been updated to reflect these new priority investments. Some of these, such as class size reduction and support staff, are consistent with 2015-16 investments. Parents and staff believed it was critical to maintain these investments. Others, such as personalized learning and data driven instructions, are initiatives we're dedicating Supplemental funding toward for the first time.

Section 2: Goals, Actions, Expenditures, and Progress Indicators

Instructions:

All LEAs must complete the LCAP and Annual Update Template each year. The LCAP is a three-year plan for the upcoming school year and the two years that follow. In this way, the program and goals contained in the LCAP align with the term of a school district and county office of education budget and multiyear budget projections. The Annual Update section of the template reviews progress made for each stated goal in the school year that is coming to a close, assesses the effectiveness of actions and services provided, and describes the changes made in the LCAP for the next three years that are based on this review and assessment.

Charter schools may adjust the table below to align with the term of the charter school's budget that is submitted to the school's authorizer pursuant to Education Code section 47604.33.

For school districts, Education Code sections 52060 and 52061, for county offices of education, Education Code sections 52066 and 52067, and for charter schools, Education Code section 47606.5 require(s) the LCAP to include a description of the annual goals, for all pupils and each subgroup of pupils, to be achieved for each state priority as defined in 5 CCR 15495(i) and any local priorities; a description of the specific actions an LEA will take to meet the identified goals; a description of the expenditures required to implement the specific actions; and an annual update

to include a review of progress towards the goals and describe any changes to the goals.

To facilitate alignment between the LCAP and school plans, the LCAP shall identify and incorporate school-specific goals related to the state and local priorities from the school plans submitted pursuant to Education Code section 64001. Furthermore, the LCAP should be shared with, and input requested from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, pupil advisory groups, etc.) to facilitate alignment between school-site and district-level goals and actions. An LEA may incorporate or reference actions described in other plans that are being undertaken to meet the goal.

Using the following instructions and guiding questions, complete a goal table (see below) for each of the LEA's goals. Duplicate and expand the fields as necessary.

Goal: Describe the goal:

When completing the goal tables, include goals for all pupils and specific goals for schoolsites and specific subgroups, including pupils with disabilities, both at the LEA level and, where applicable, at the schoolsite level. The LEA may identify which schoolsites and subgroups have the same goals, and group and describe those goals together. The LEA may also indicate those goals that are not applicable to a specific subgroup or schoolsite.

Related State and/or Local Priorities: Identify the state and/or local priorities addressed by the goal by placing a check mark next to the applicable priority or priorities. The LCAP must include goals that address each of the state priorities, as defined in 5 CCR 15495(i), and any additional local priorities; however, one goal may address multiple priorities.

Identified Need: Describe the need(s) identified by the LEA that this goal addresses, including a description of the supporting data used to identify the need(s).

Schools: Identify the schoolsites to which the goal applies. LEAs may indicate "all" for all schools, specify an individual school or a subset of schools, or specify grade spans (e.g., all high schools or grades K-5).

Applicable Pupil Subgroups: Identify the pupil subgroups as defined in Education Code section 52052 to which the goal applies, or indicate "all" for all pupils.

Expected Annual Measurable Outcomes: For each LCAP year, identify and describe specific expected measurable outcomes for all pupils using, at minimum, the applicable required metrics for the related state priorities. Where applicable, include descriptions of specific expected measurable outcomes for schoolsites and specific subgroups, including pupils with disabilities, both at the LEA level and at the schoolsite level.

The metrics used to describe the expected measurable outcomes may be quantitative or qualitative, although the goal tables must address all required metrics for every state priority in each LCAP year. The required metrics are the specified measures and objectives for each state priority as set forth in Education Code sections 52060(d) and 52066(d). For the pupil engagement priority metrics, LEAs must calculate the rates specified in Education Code sections 52060(d)(5)(B), (C), (D) and (E) as described in the Local Control Accountability Plan and Annual Update Template Appendix, sections (a) through (d).

Actions/Services: For each LCAP year, identify all annual actions to be performed and services provided to meet the described goal. Actions may describe a group of services that are implemented to achieve the identified goal.

Scope of Service: Describe the scope of each action/service by identifying the schoolsites covered. LEAs may indicate "all" for all schools, specify an individual school or a subset of schools, or specify grade spans (e.g., all high schools or grades K-5). If supplemental and concentration funds are used to support the action/service, the LEA must identify if the scope of service is districtwide, schoolwide, countywide, or charterwide.

Pupils to be served within identified scope of service: For each action/service, identify the pupils to be served within the identified scope of service. If the action to be performed or the service to be provided is for all pupils, place a check mark next to "ALL."

For each action and/or service to be provided above what is being provided for all pupils, place a check mark next to the applicable unduplicated pupil subgroup(s) and/or other pupil subgroup(s) that will benefit from the additional action, and/or will receive the additional service. Identify, as applicable, additional actions and services for unduplicated pupil subgroup(s) as defined in Education Code section 42238.01, pupils redesignated fluent English proficient, and/or pupils subgroup(s) as defined in Education 52052.

Budgeted Expenditures: For each action/service, list and describe budgeted expenditures for each school year to implement these actions, including where those expenditures can be found in the LEA's budget. The LEA must reference all fund sources for each proposed expenditure. Expenditures must be classified using the California School Accounting Manual as required by Education Code sections 52061, 52067, and 47606.5.

Guiding Questions:

- 1) What are the LEA's goal(s) to address state priorities related to "Conditions of Learning"?
- 2) What are the LEA's goal(s) to address state priorities related to "Pupil Outcomes"?
- 3) What are the LEA's goal(s) to address state priorities related to parent and pupil "Engagement" (e.g., parent involvement, pupil engagement, and school climate)?
- 4) What are the LEA's goal(s) to address any locally-identified priorities?
- 5) How have the unique needs of individual schoolsites been evaluated to inform the development of meaningful district and/or individual schoolsite goals (e.g., input from site level advisory groups, staff, parents, community, pupils; review of school level plans; in-depth school level data analysis, etc.)?
- 6) What are the unique goals for unduplicated pupils as defined in Education Code sections 42238.01 and subgroups as defined in section 52052 that are different from the LEA's goals for all pupils?
- 7) What are the specific expected measurable outcomes associated with each of the goals annually and over the term of the LCAP?
- 8) What information (e.g., quantitative and qualitative data/metrics) was considered/reviewed to develop goals to address each state or local priority?
- 9) What information was considered/reviewed for individual schoolsites?
- 10) What information was considered/reviewed for subgroups identified in Education Code section 52052?
- 11) What actions/services will be provided to all pupils, to subgroups of pupils identified pursuant to Education Code section 52052, to specific schoolsites, to English learners, to low-income pupils, and/or to foster youth to achieve goals identified in the LCAP?
- 12) How do these actions/services link to identified goals and expected measurable outcomes?
- 13) What expenditures support changes to actions/services as a result of the goal identified? Where can these expenditures be found in the LEA's budget?

analytical tasks, receptive tasks and productive language functions into the curriculum to aid language acquisition. Rocketship Discovery Prep utilizes a Balanced Literacy approach for ELA instruction with a significant focus on Guided Reading. Expanding the breadth and depth of our classroom libraries will ensure that all students have access to a wide variety of texts to meet the different genre requirements in Common Core, as well as ensuring that all students have access to books at their appropriate reading level. For EL students, this can be particularly motivating and a useful strategy to engage reluctant or struggling readers. These expanded libraries will also enable us to loan out books for students to take home, so that parents can support reading and language acquisition efforts at home. Personalized Learning A-2. RDP's key instructional practices include personalization, blended learning, data-driven instruction, Response to Intervention and teacher specialization. The specific investments for Rtl include Rtl curriculum and tutors . Our objective every day is to get the right lesson to the right child at the right time. We assume that every child, especially the children in the neighborhoods we serve, will have unique learning needs that must be addressed individually. The Rocketship model combines traditional classroom instruction with blended learning, which enables online learning programs technology, small group instruction students, access and benefit from this instructional model as Rocketship Discovery Prep operates an inclusion model. In particular, our Special Education, special education, Learning Lab Materials and Leveled Libraries important so that each student has the materials to receive instruction at his or her level. In addition, our adaptive Online Learning Programs (OLPs) are able to adapt to each student's level.	School wide	OR: Low Income pupilsEnglish Learners Foster YouthRedesignated fluent English proficient Other Subgroups:(Specify)	Learning Labs OLPs: \$39,100 (4411) LCFF- SUPPLEMENT AL Chromebooks: \$36,900 (4421) LCFF- SUPPLEMENT AL Learning Lab Materials \$3,000 (4390) LCFF-base Leveled Libraries \$3,000 (4115) LCFF-base Rtl Curriculum \$1,800 (4120)
			Rtl Curriculum \$1,800 (4120) Tutors

 appropriately differentiated for our Special Education students. We invest in Chromebooks and invest budget each year to maintaining a 5:2, student to Chromebook ratio. Additionally, we invest in technology consultants to ensure that our Chromebooks and OLPs are working smoothly, Rocketship invests in technology support consultants. Special Education supports A-3. Although RDP runs an inclusion model, we realize that our special education students may require additional supports to achieve academically and in non-cognitive functions. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology. 	School wide	OR: Low Income pupilsEnglish Learners Foster YouthRedesignated fluent English proficient _x_Other Subgroups:(Specify)_special education	\$193,300 (2101) <i>Title I</i> Technology Consultants \$29,700 (5807) <i>LCFF</i> <i>SUPPLEMENT</i> <i>AL</i> \$6,600 (ISE 4360, ISE 4330, ISE 4340, ISE 4340, ISE 4421) <i>State Special</i> <i>Education</i> <i>funding</i> <i>IDEA</i>
Class size reductions A-4. Students receive personalized instruction through targeted small group instruction and effective whole group instruction led by highly qualified teachers. In order to deepen the impact of our teachers and further personalize instruction, we will be maintaining class size reductions originally initiated in the 2014-15 school year. This class size reduction enables teachers to pull even smaller groups for small group instruction. The reduction will also be particularly beneficial for our Special Education and English Learner populations who will have more frequent access small group instruction and will learn in even smaller, more targeted group settings. RDP accomplishes this by not back- filling empty seats in grades 4-5 from natural attrition, forgoing additional per pupil funding.	School wide	_x_ALL OR: Low Income pupilsEnglish Learners Foster YouthRedesignated fluent English proficient Other Subgroups:(Specify)	Class size reductions \$129,800 (1101) <i>LCFF-</i> <i>SUPPLEMENT</i> <i>AL</i>
GLAD Training	School wide	ALL	GLAD Training

A-5. Our goal is to help our EL students make rapid progress out of levels 1 and 2 and into levels 3 and higher on the CELDT Assessment. We believe that the most effective instructional approach for a school with a high EL population is to embed ELD principles in all aspects of the curriculum and to teach explicit ELD during a portion of the day. To embed ELD principles across all subjects, we work with Project GLAD (Guided Language Acquisition Design) to teach our teachers methods to provide additional instructional support to EL students. Our explicit ELD will focus on developing oral language, grammatical constructs and academic vocabulary in English. This period will take place during the Humanities block when EL students may be leveled by English fluency and provided with explicit ELD instruction. In the Rtl tutoring program, ELs who are not making Significant Gains may receive Literacy instruction as well as ELD as appropriate. Special Education students who are also ELs may have a particularly challenging time acquiring English language. In these cases, we provide Tier II and Tier III tutoring in small group or 1:1 settings. Common Core-aligned instruction & materials A-1. The Rocketship Discovery Prep curriculum follows the California adoption of the Common Core State Standards ("CCSS") for the subject areas of: English/Language Arts (includes Writing), and Mathematics, as well as the state standards for Social Studies, Art and Music and the Next Generation Science Standards. Rocketship has established ELA and Math focus standards – the most rigorous CCSS at each grade level – as the most important markers of success in order to prioritize the focus of instruction while also ensuring that all grade-level standards are addressed in every course. Rocketship Discovery Prep operates an inclusion model and therefore this core curriculum will benefit all students including Special Education students. Rocketship teachers will use the ELL framework to embed analytical tasks, receptive tasks and productive language functions into the curriculum to aid language acquisition. Rocketship Discovery Prep utilizes a Balanced Literacy approach for ELA instruction with a significant focus on Guided Reading. Expanding the breadth and depth of our classroom libraries will ensure that all students have access to a wide variety of texts to meet the different genre requirements in Common Core, as well as ensuring that all students have access to books at their appropriate reading	School wide	OR: Low Income pupilsEnglish Learners Foster YouthRedesignated fluent English proficient Other Subgroups:(Specify)	\$24,000 (4100) Core Curriculum <i>LCFF-base</i> \$17,600 (4210) Books <i>LCFF-</i> <i>SUPPLEMENT</i> <i>AL</i>

especially the children in the neighborhoods we serve, will have unique learning needs that must be addressed individually. The Rocketship model combines traditional			\$22,400 (4421) LCFF- SUPPLEMENT

classroom instruction with blended learning, which enables online learning programs technology, small group instruction and tutoring. All students, including our Special Education students, access and benefit from this instructional model as Rocketship Discovery Prep operates an inclusion model. In particular, our Special Education students benefits from our Rtl model in which they receive additional Tier II and Tier III tutoring from the general education, special education, Learning Lab and paraprofessional staff. This personalized instruction occurs in the learning lab, making investments in Learning Lab Materials and Leveled Libraries important so that each student has the materials to receive instruction at his or her level. In addition, our adaptive Online Learning Programs (OLPs) are able to adapt to each student's level, ensuring that all aspects of our instructional program are appropriately differentiated for our Special Education students. We invest in Chromebooks and invest budget each year to maintaining a 5:2, student to Chromebook ratio. Additionally, we invest in technology consultants to ensure that our Chromebooks and OLPs are working smoothly, Rocketship invests in technology support consultants. Special education supports A-3. Although RDP runs an inclusion model, we realize that our special education students may require additional supports to achieve academically and in non-cognitive functions. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology. Class size reductions A-4. Students receive personalized instruction through targeted small group instruction and effective whole group instruction led by highly qualified teachers. In order to	School wide	<u>_x_ALL</u> OR: Low Income pupilsEnglish Learners Foster YouthRedesignated fluent English proficient	Class size reductions

deepen the impact of our teachers and further personalize instruction, we will be maintaining class size reductions originally initiated in the 2014-15 school year. This class size reduction enables teachers to pull even smaller groups for small group instruction. The reduction will also be particularly beneficial for our Special Education and English Learner populations who will have more frequent access small group instruction and will learn in even smaller, more targeted group settings. RDP accomplishes this by not back- filling empty seats in grades 4-5 from natural attrition, forgoing additional per pupil funding. GLAD Training A-5. Our goal is to help our EL students make rapid progress out of levels 1 and 2 and into levels 3 and higher on the CELDT Assessment. We believe that the most effective instructional approach for a school with a high EL population is to embed ELD principles in all aspects of the curriculum and to teach explicit ELD during a portion of the day. To embed ELD principles across all subjects, we work with Project GLAD (Guided Language Acquisition Design) to teach our teachers methods to provide additional instructional support to EL students. Our explicit ELD will focus on developing oral language, grammatical constructs and academic vocabulary in English. This period will take place during the Humanities block when EL students may be leveled by English fluency and provided with explicit ELD instruction. In the Rtl tutoring program, ELs who are not making Significant Gains may receive Literacy instruction as well as ELD as appropriate. Special Education students who are also ELs may have a particularly challenging time acquiring English language. In these cases, we provide Tier II and Tier III tutoring in small group or 1:1 settings. Additionally, we also provide ongoing professional development to our literacy teachers to help them with EL instruction throughout the school year. Complete a copy of this table for each of the LEA's goals. Duplicate and expand the fields as necessary.

Annual Update

Annual Update Instructions: For each goal in the prior year LCAP, review the progress toward the expected annual outcome(s) based on, at a minimum, the required metrics pursuant to Education Code sections 52060 and 52066. The review must include an assessment of the effectiveness of the specific actions. Describe any changes to the actions or goals the LEA will take as a result of the review and assessment. In addition, review the applicability of each goal in the LCAP.

Guiding Questions:

- 1) How have the actions/services addressed the needs of all pupils and did the provisions of those services result in the desired outcomes?
- 2) How have the actions/services addressed the needs of all subgroups of pupils identified pursuant to Education Code section 52052, including, but not limited to, English learners, low-income pupils, and foster youth; and did the provision of those actions/services result in the desired outcomes?
- 3) How have the actions/services addressed the identified needs and goals of specific schoolsites and were these actions/services effective in achieving the desired outcomes?
- 4) What information (e.g., quantitative and qualitative data/metrics) was examined to review progress toward goals in the annual update?
- 5) What progress has been achieved toward the goal and expected measurable outcome(s)? How effective were the actions and services in making progress toward the goal? What changes to goals, actions, services, and expenditures are being made in the LCAP as a result of the review of progress and assessment of the effectiveness of the actions and services?
- 6) What differences are there between budgeted expenditures and estimated actual annual expenditures? What were the reasons for any differences?

Complete a copy of this table for each of the LEA's goals in the prior year LCAP. Duplicate and expand the fields as necessary.

 A-1. The Rocketship Discovery Prep curriculum follows the California adoption of the Common Core State Standards ("CCSS") for the subject areas of: English/Language Arts (includes Writing), and Mathematics, as well as the state standards for Social Studies, Art and Music and the Next Generation Science Standards. Rocketship has established ELA and Math focus standards – the most rigorous CCSS at each grade level – as the most important markers of success in order to prioritize the focus of instruction while also ensuring that all grade-level standards are addressed in every course. Rocketship Discovery Prep operates an inclusion model and therefore this core curriculum will benefit all students including Special Education students. For EL students, Rocketship Discovery Prep will provide additional small group instruction in both math and ELA in order to build language acquisition and to pre-teach or preview content. Budget Allocation: Core Curriculum 	\$24,003 (Other)	Rocketship Discovery Prep continued to implement Common Core- aligned curricula. After implementing new ELA and math curricula last year, RDP used Core Curriculum budget to bolster math curriculum materials, socio-emotional Kimochi materials, and literacy resources. These benefit all students, including EL and special education because of the inclusion model run in our schools. Additionally, we are monitoring the state roll-out of Next Generation Science Standards (NGSS) and have aligned our curriculum accordingly. We encompass the three Disciplinary Core Ideas of the NGSS, physical sciences, life sciences, and earth science. We also administer NGSS-aligned unit assessments. We integrate science instruction throughout various mediums so that skills that can be applied to subject matter at any time (i.e. recording observations, reading maps, using timelines).By teaching these core subjects in various modalities, we're helping all students, including special education and English Learners master the concepts via the method they respond to best. Our spending for core curriculum was under budget because of investment in this area last year.		\$10,636 (Other)

A-2. To ensure that our students are ready for success on the CAASPP, Rocketship Discovery Prep transitioned to computer based, Common Core aligned benchmark assessments. Consistent with our model of		assessments. Our stu	l to prioritize student readiness on state dents took regular computer-based benchmark gauge their progress and allow them to become	\$11,052 (other)

data driven instruction, the results of these benchmarks will be used to adjust instruction to ensure that all students are moving towards mastery of the Common Core standards. All students will use these assessments, with appropriate modifications and accommodations provided to qualifying students. Budget Allocation: Assessment Software & Materials	dents are moving towardsassessments also allowed for teachers and school le gather and analyze student progress, enabling them instructional practices to better suit student needs. UChicago STEP assessments to help gauge student li		d for teachers and school leaders to quickly ent progress, enabling them to modify better suit student needs. We also invested in	
Scope of service: School-wide			School-wide sEnglish Learners edesignated fluent English proficient (Specify)	
 A-3. Rocketship Discovery Prep students will be provided access to a broad array of content areas. Science and Social Studies instruction will be embedded in either Humanities or Math instruction through the use of thematically integrated, standards-based Understanding by Design (UbD) units. These thematic units provide an anchor for EL students, rooting math and ELA skills in common content. This approach has been shown to build vocabulary and schema among EL students. In accordance with the ELL framework and CCSS, these thematic units will also provide research opportunities to students to perform receptive tasks such as reading research, analytical tasks such as synthesizing sources and productive language functions such as presenting their findings. While all students will benefit from these units, EL students will receive additional support, such as previewing vocabulary and extra preparation for oral presentations, as needed. Students will have access to Physical Education and the Arts through an Enrichment block, as well as adaptive online curriculum and tutoring during their time in the Learning Lab. All Rocketship Discovery Prep teachers hold appropriate credentials and will be assigned to teach in either Humanities or Math/Science classrooms. Budget Allocation: Certification Costs 	\$24,060 (Other)	RDP continued to use the instructional programs implemented last year. Students were exposed to science and social studies themes in their Humanities and Math instruction, through which instructional practices were honed using the Understanding by Design framework. Students had the ability to experience "hands on" science through gardening enrichment. As of April 2016, 100% of Rocketship Discovery Prep teachers were highly-qualified. Certification costs were lower than the budgeted amount. This is because more incoming teachers came to RDP with clear credentials. Therefore, RDP did not need to spend the full amount allocated for certification costs.		\$8,034 (Other)

A-4. Increase classroom libraries that align to Common Core Rocketship Discovery Prep utilizes a Balanced Literacy approach for ELA instruction with a significant focus on Guided Reading. Expanding the breadth and depth of our classroom libraries will ensure that all students have access to a wide variety of texts to meet the different genre requirements in Common Core, as well as ensuring that all students have access to books at their appropriate reading level. Additionally, we will invest in culturally relevant literature to ensure our libraries are both accessible and engaging to students of all backgrounds and at all reading levels. For EL students, this can be particularly motivating and a useful strategy to engage reluctant or struggling readers. These expanded libraries will also enable us to loan out books for students to take home, so that parents can support reading and language acquisition efforts at home. Budget Allocation: Classroom Libraries	\$25,890 (LCFF-S)			\$30,866 (LCFF-S)

A-6. Increase technology support In order to better leverage technology to address the Common Core and technical skills required in the writing and speaking & listening portions of the new standards, Rocketship Discovery Prep will be increasing the number of computers in the classroom. In Humanities, this integration will focus heavily on the Common Core writing, research and communication standards. In math/science, this integration will focus on fact fluency, mathematical reasoning and justification and problem-solving. Budget Allocation: Student Computer Equipment		\$55,068 (LCFF-S)	Rocketship Discovery Prep purchased computers to replace broken devices and purchased new Chromebooks for use in the classroom. These Chromebooks are used in a variety of ways including highly- personalized center activities powered by ST Math, iReady, MyON and other programs. They are also used for whole class activities such as publishing writing pieces, conducting research and participating in the Hour of Code campaign. Actual expenses were less than expected because fewer computers needed replacing.		\$16,225 (LCFF-S)

A-8. Professional Development Fund Rocketship Discovery Prep has a number of veteran Rocketship teachers who express a strong desire to continue honing their craft and developing as professionals. RDP will establish a professional development fund to reward high-performing teachers with additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship where their development is made a priority. With eligible topics including Spanish language study, teaching in an inclusion model, and the Teachers College Reading And Writing Institute, students are sure to benefit from this additional training their teachers will have received. Budget Allocation: PD Fund	\$15,000 (other)	Rocketship Discovery Prep offered teachers the opportunity to engage in professional development activities outside the scope of what the school provides. All of our students benefit from this, with our special education population specifically benefiting from inclusion PD. We were significantly under budget for PD Fund. As a result, we will make an extra effort this coming year to help staff find appropriate professional development activities and help them utilize this resource.		\$4,458 (other)

What changes in actions, services, and expenditures will be made as a result of reviewing past progress and/or changes to goals?	With significant changes to state educational practices over the past few years, including Common Core and online Smarter Balanced assessments, RDP school leaders and staff have made major investments to prepare our Rocketeers for success. This has included transitioning to all CCSS-aligned Online Learning Program Suite, purchasing CCSS-aligned instructional materials and adding additional interim assessments. We have added quarterly cumulative assessments aligned to the network scope & sequence map and CCSS to construction, and daily formative assessment resources, and resources for re-assessment after re-teaching to know when our students mastered a subject and when they are still struggling. While our students have made progress and perform well when compared to the peers, we see a lot of room for growth. In order to help our teachers, we have added \$10,000 to the professional development budg learn how to better support the needs of our students. We will achieve this through a continued investment in our Personalized Learning program, which includes use of adaptive online learning program.

B-1. Rocketship Discovery Prep works to establish a safe school environment through the use of a Positive Behavior Interventions and Supports (PBIS) system. The fundamental purpose of PBIS is to create learning environments that are more consistent, predictable, positive, and safe, which helps our students develop their socio-emotional intelligence. RDP has implemented Tier I and Tier II behavioral supports and will expand to Tier III behavioral services to mirror our three tiers of academic supports. While all students benefit from PBIS, students with behavioral needs or those with behavior support plans, particularly benefit from a positive behavior system.		. ,	PBIS framework consi significant progress in worked to increase be data-based decisions incentives, and conse team is now able to ic behaviors. B-2. We ensure that school facilities are in good repair through annual inspections aligned with state Office of Public School Construction Facilities Inspection tool. We invest in necessary repairs and upgrades to ensure the school is a safe and welcoming environment for students, families and staff. Budget Allocation: Building Repairs	\$71,700 (other)	Over the course of the 2015-16 school year, RDP dedicated funds to building maintenance and repair. As a relatively new building, we recognize the importance of budgeting for preventative maintenance. Repairs needed this year included general upkeep in classrooms and installation of Astroturf. In additional, RDP spent \$120,469 on Capital Improvements. These improvements included installed Controlled Access as a result of parent and staff safety concerns. We also installed shade structures outside for Rocketeers to use during lunch and enrichment and painted corridor walls.		\$42,223 (building repairs) (other) \$120,469 (capital improvements) (other)

 B-3. Increase support staff (arrival, dismissal, hourly) In order to continue to strengthen our systems and operations we have decided to invest in additional staff to support daily transition points such as arrival, dismissal, lunch and recess. These transitions represent a significant percentage of behavior issues on campus. By increasing support staff during these transitions, the school will ensure that students are provided with a safe and welcoming environment throughout the day. Students with behavior support needs will benefit from calmer and quieter transitions and additional supervision during this time will enable staff to quickly deescalate any outbursts that occur during this time. Budget Allocation: Support Staff Salaries 	\$146,114 (Supplemental Funds)	Additional support staff have been a critical investment at RDP, providing the necessary staffing for our universal breakfast program, lunch, arrival and dismissal. Support staff are consistently sited by parents and staff as one of the most necessary investments to ensure smooth transitions, especially during lunch, recess, arrival and dismal. Support staff are posted at strategic locations around the campus to ensure no one gains entry to the school without an appropriate pass, that all student walkers are accompanied by an adult, and that all cars obey the arrival and dismissal procedures, thereby ensuring greater safety for our students. They also provide a consistent and friendly presence for students and parents during these key interactions. We were under budget with our support staff expenditures because staff were used more efficiently.		\$128,542 (Supplemental Funds)

C-2. Our goal is to help our EL students make rapid progress out of levels 1 and 2 and into levels 3 and higher on the CELDT Assessment. We believe that the most effective instructional approach for a school with a high EL population is to embed ELD principles in all aspects of the curriculum and to teach explicit ELD during a portion of the day. To embed ELD principles across all subjects, we work with Project GLAD (Guided Language Acquisition Design) to teach our teachers methods to provide additional instructional support to EL students. Our explicit ELD will focus on developing oral language, grammatical constructs and academic vocabulary in English. This period will take place during the Humanities block when EL students may be leveled by English fluency and provided with explicit ELD instruction. In the Rtl tutoring program, ELs who are not making Significant Gains may receive Literacy instruction as well as ELD as appropriate. Special Education students who are also ELs may have a particularly challenging time acquiring English language. In these cases, we provide Tier II and Tier III tutoring in small group or 1:1 settings. Budget Allocation: Staff Training (GLAD)		\$5,000 (Title III)	RDP continues to partner with Project GLAD to ensure all teachers an trained on the GLAD strategies for ELD instruction and are familiar wi the new ELD framework developed by the CDE. These practices are embedded in all parts of instruction so that EL RDP students always engage in appropriate and accessible instruction.		\$5,375 Title III

What changes in actions, services, and expenditures will be made as a result of reviewing past progress and/or changes to goals?Our Personalized Learning model is the cornerstone of Rocketship Discovery Prep's educational program, but as technology and research on effective practices grows, RDP is committed to adapting our programs. Now that the CCSS-transition is complete and teachers are comfortable with the curriculum, we are looking forward to investing more resources in innovating our personalized learning model next year, which includes modifying our OLP suite as necessary. These investments particularly benefit our ELs by being able to offer them material at their level of English proficiency. The interventionist position was able to help our EL and Special Ed students in particular.					

Rocketship continues to see great benefits from our partnership with Project GLAD for ELD training for teachers. Our teachers regularly cite this as highly influential to their daily practices in the classroom and their growth as professionals. We will continue to invest in GLAD training for new staff and invest our time in deepening our understanding of the ELD framework. Since we have seen through CAASPP results that despite performing well against their California peers, our EL students still lag behind their non-EL counterparts. We have budgeted additional funds for ongoing PD targeted at Literacy teachers.
LCFF funding as allowed us to maintain class-size reductions first implemented three years ago. Over this period, the school environment is less congested and staff are better able to address problems with fewer students. Our teachers similarly note that they are better able to reach all students in their classes and have had fewer classroom disruptions since class size reductions took effect. Most grades at RDP are below the 28:1 class-size target. Keeping classes small is a top priority for staff. Our ELs particularly benefit from reduced class sizes because they have more personal attention from both their classroom teachers and during any small-group tutoring they may receive in the Learning Lab.
RDP implemented creative staffing models this year to best use Human Resources and better support students. The literacy teachers at RDP team taught, as well as having a half teacher/half coach position to have a half-time FTE position dedicated to supporting our teachers.

through fundraising and personal means. We hope that the additional funds will take stress off of parents to fundraise.						e.	

Complete a copy of this table for each of the LEA's goals in the prior year LCAP. Duplicate and expand the fields as necessary.

Section 3: Use of Supplemental and Concentration Grant funds and Proportionality

A. In the box below, identify the amount of funds in the LCAP year calculated on the basis of the number and concentration of low income, foster youth, and English learner pupils as determined pursuant to 5 CCR 15496(a)(5).

Describe how the LEA is expending these funds in the LCAP year. Include a description of, and justification for, the use of any funds in a districtwide, schoolwide, countywide, or charterwide manner as specified in 5 CCR 15496.

For school districts with below 55 percent of enrollment of unduplicated pupils in the district or below 40 percent of enrollment of unduplicated pupils at a schoolsite in the LCAP year, when using supplemental and concentration funds in a districtwide or schoolwide manner, the school district must additionally describe how the services provided are the most effective use of funds to meet the district's goals for unduplicated pupils in the state and any local priority areas. (See 5 CCR 15496(b) for guidance.)

Total amount of Supplemental and Concentration grant funds calculated: \$662,603

Rocketship Discovery Prep is located in San Jose Unified School District where the enrollment of unduplicated pupils is under 55% and does not qualify for Concentration funding. RDP is expected to have an unduplicated pupil population of 92.9%. RDP's estimated supplemental grant for 2016-17 is expected to be \$662,603. Rocketship Discovery Prep plans to expend these funds on maintaining personalized learning, maintaining class size reduction, investing in classroom libraries, increased support staff, a business operations manager, facility repairs, professional development, data-driven instruction, enrichment and field trips.

The majority of the school's population is low income, where many of these school-wide initiatives will be a great benefit to these low income students. The use of Supplemental funds, while school-wide initiatives, are particularly beneficial for Rocketship Discovery Prep' unduplicated population as follows:

- **Personalized Learning**. Rocketship Discovery Prep' instructional model is built on the foundation of personalization. Our unduplicated students, in particular, benefit from our investments in the Learning Labs and RtI curriculum because our model ensures each student is receiving daily instruction specific to his or her needs. Through our suite of Online Learning Programs and Leveled Libraries, each student is exposed to material at his or her level each day. Investments in Chromebooks and related materials with our LCFF funds are used to maintain our Learning Labs and creating a positive academic environment for all students, particularly our unduplicated students who are most at-risk of failing.
- Class size reduction. Rocketship Discovery Prep' instructional model is built on the foundation of personalization. We believe that targeted small group instruction and 1:1 tutoring are the most effective ways to ensure that all students are moving towards proficiency. For our unduplicated population, and particularly our EL students and Special Education students, targeted small group instruction ensures that a student is able to receive specific language instruction and they are able to further develop their language proficiency through re-tells, explicit vocabulary lessons, and a small group focus on letters, word patterns, spelling, blends, sounds, etc. In addition,

during small group guided reading time, staff will provide an EL center, which will be focused on specific language activities (picture cards, writing, vocabulary development, etc.) that are targeted to specific categories of students based on level of progress. By reducing class size, we will ensure that our unduplicated population receive even smaller group instruction and increased attention from their highly-qualified teacher.

- Increased support staff. We know that our unduplicated population, and particularly our socio-economically disadvantaged students, can benefit from a high level of engagement with positive adult relationships throughout their school day. This investment in additional support staff will ensure that during critical transition points such as arrival, dismissal, lunch and recess, our unduplicated population is supported by adults who are ensuring they are provided with a safe and welcoming environment throughout the day.
- **Teacher professional development.** All students benefit from highly trained and highly motivated teachers. RDP invests heavily in teacher professional development through over 200 hours during the school year that are devoted to PD through Thursday minimum days. All students, including unduplicated students, benefit from this investment. Further, these professional development opportunities are geared towards content most relevant to our unduplicated population, including Spanish language immersion, teaching in a special education inclusion model, and advanced EL instruction. The costs for this additional PD time is covered by supplemental funds.
- Data-driven instruction. Because of the importance of data to our RtI model, RDP will be a data-driven school. Students are assessed using CAASSP, NWEA MAP, STEP and CELDT. Staff are trained on how to interpret test data, and are engaged in critical analysis of the data quarterly during data days. This helps teachers determine how the school can address any performance deficiencies or negative data trends. The data analysis will be tied to professional development on instruction, so that teachers can enhance their understanding of student performance in light of normative data, and modify their instructional designs accordingly. In this way, staff will continuously be challenged to rethink current pedagogical practices to meet the changing needs of students. Our focus on continual assessment and modification of instructional practices helps our EL and special education students in particular as their needs are addressed quickly and with data-backed reasoning.
- Enrichment coordinators. Enrichment is a critical component of our unduplicated students' education. In addition to aligning with CCSS standards, time spent in the Enrichment Center provides students with fun and engaging activities that increase their focus and commitment during core instruction. The Enrichment Center Coordinators provide students with the opportunity to engage in physical education, art, and various other enrichment activities that our unduplicated students may not otherwise be able to access. The Coordinators play a critical role in strengthening school culture. RDP will bring in outside consultants, such as gardening, to teach

students skills beyond the areas of expertise of the Enrichment Center Coordinators.

- Field trips. Field trips provide an important opportunity to both deepen students' learning and increase engagement. Many of the field trips taken will be science and/or social studies related, enabling teachers to integrate the learning into their thematic units back in the classroom. In addition, parents often attend field trips with their students, thereby increasing parental engagement as well.
 Importantly, field trips provide real-life experiences that our unduplicated students may not otherwise experience, enriching their education and creating engaging learning opportunities. Our fifth grade students will attend a week-long camp near Yosemite National Park, exposing many of our unduplicated students to nature for the first time.
- B. In the box below, identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all pupils in the LCAP year as calculated pursuant to 5 CCR 15496(a).

Consistent with the requirements of 5 CCR 15496, demonstrate how the services provided in the LCAP year for low income pupils, foster youth, and English learners provide for increased or improved services for these pupils in proportion to the increase in funding provided for such pupils in that year as calculated pursuant to 5 CCR 15496(a)(7). An LEA shall describe how the proportionality percentage is met using a quantitative and/or qualitative description of the increased and/or improved services for unduplicated pupils as compared to the services provided to all pupils.

16

%

Discovery Prep' supplemental grant expenditures in 2015-16 is expected to be \$586,993. The estimated Supplemental grant funding for RDP in 2016-17 is estimated to be \$662,603 which is a 12.9% increase from this year or \$75,610 in additional funding for our unduplicated pupils. Services for unduplicated students must increase by 16%.

Maintaining class size reduction and staffing investments are the primary contributors in increased services as a result of increased funding. Since 2013-14, we have enjoyed an average class size of two fewer students as a result of LCFF funding. We intend to maintain this 28:1 ratio as funding allows. RDP's instructional model is built on the foundation of personalization. We believe that targeted small group instruction and 1:1 tutoring are the most effective ways to ensure that all students are moving towards proficiency. For our unduplicated population, and particularly our EL students, targeted small group instruction ensures that a student is able to receive specific language instruction and they are able to further develop their language proficiency through re-tells, explicit vocabulary lessons, and a small group focus on letters, word patterns, spelling, blends, sounds, etc. Our investment in personalized learning, through our Learning Labs, which include adaptive online learning programs, technology and leveled libraries, makes state-of-the-art instructional tools available to our students who need it most. In addition, during small group guided reading time, staff will provide an EL center, which will be focused on specific language activities (picture cards, writing, vocabulary development, etc.) that are targeted to specific categories of students based on level of progress. By reducing class size, we will ensure that our unduplicated population receives even smaller group instruction and increased attention from their highly qualified teacher. The commitment to data-driven instruction at RDP, through continual assessment and teacher data training, ensures that our efforts in the Learning Lab and small group instruction are effective. By collecting and analyzing data, we are able to determine in which areas our students are excelling and in which areas they need additional help. Additionally, RDP will invest in our enrichment center coordinators, support staff, to ensure greater oversight of student activities, leading to a safer and more welcoming environment for all students. In addition, students will have access to greater selection of enrichment offerings. Our investments in classroom libraries, instructional supplies, student computers, and field trips are of particular benefit to our unduplicated students, as they would typically not be able to access such materials or experiences on their own. Many of our unduplicated students do not have access to robust home libraries or home computers so these additional investments provide students with services they would otherwise not access.

LOCAL CONTROL AND ACCOUNTABILITY PLAN AND ANNUAL UPDATE APPENDIX

For the purposes of completing the LCAP in reference to the state priorities under Education Code sections 52060 and 52066, the following shall apply:

- (a) "Chronic absenteeism rate" shall be calculated as follows:
 - (1) The number of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 June 30) who are chronically absent where "chronic absentee" means a pupil who is absent 10 percent or more of the schooldays in the school year when the total number of days a pupil is absent is divided by the total number of days the pupil is enrolled and school was actually taught in the total number of days the pupil is enrolled and school was actually taught in the total number of days and Sundays.
 - (2) The unduplicated count of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 June 30).
 - (3) Divide (1) by (2).
- (b) "Middle School dropout rate" shall be calculated as set forth in California Code of Regulations, title 5, section 1039.1.
- (c) "High school dropout rate" shall be calculated as follows:

- (1) The number of cohort members who dropout by the end of year 4 in the cohort where "cohort" is defined as the number of first-time grade 9 pupils in year 1 (starting cohort) plus pupils who transfer in, minus pupils who transfer out, emigrate, or die during school years 1, 2, 3, and 4.
- (2) The total number of cohort members.
- (3) Divide (1) by (2).
- (d) "High school graduation rate" shall be calculated as follows:
 - (1) The number of cohort members who earned a regular high school diploma [or earned an adult education high school diploma or passed the California High School Proficiency Exam] by the end of year 4 in the cohort where "cohort" is defined as the number of first-time grade 9 pupils in year 1 (starting cohort) plus pupils who transfer in, minus pupils who transfer out, emigrate, or die during school years 1, 2, 3, and 4.
 - (2) The total number of cohort members.
 - (3) Divide (1) by (2).
- (e) "Suspension rate" shall be calculated as follows:
 - (1) The unduplicated count of pupils involved in one or more incidents for which the pupil was suspended during the academic year (July 1 June 30).
 - (2) The unduplicated count of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 June 30).
 - (3) Divide (1) by (2).
- (f) "Expulsion rate" shall be calculated as follows:
 - (1) The unduplicated count of pupils involved in one or more incidents for which the pupil was expelled during the academic year (July 1 June 30).

(2) The unduplicated count of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 – June 30).

(3) Divide (1) by (2).
