Re: Introduction to Countywide Charter Petition

Date: August 17, 2012

I’m excited to present to you this charter petition on behalf of Discovery Charter Schools.

As you know, research consistently shows that one of the most significant predictors of a student’s academic achievement is parental support for and involvement in their child’s education. The California Department of Education has found that parent involvement is a more important predictor of student success than family income or the parents’ level of education. Our mission at Discovery is to expand the available options for parents to be significantly involved in their child’s education, and to make sure that every parent in Santa Clara County who wants a parent participation program for their family will have access to a high-quality parent participation school.

For the 2012-13 school year, Discovery Charter School had 648 applications for 82 openings. Clearly the demand for parent participation schools far exceeds the available openings. This is the primary reason that we are seeking to expand our program to a Countywide Charter. Our applicants come from 25 school districts across the County.

At Discovery we have a proven record of success. Our API score has been above 900 for each of the six years that we’ve been in operation, and we have received accolades from County Office administrators who have been assigned to review our program for compliance with state regulations and the MOU with the County. Our ELD program has been used as an example for other charter schools, and our special education program has been called “the most inclusive of all the charters in Santa Clara County” by the County Director of Special Education. We have developed a successful, comprehensive, school-wide program that stands to benefit many children and families in Santa Clara County.

We look forward to working with you in our effort to expand and enhance the educational options available to the families of Santa Clara County.

I. **Charter School Intent and Charter Requirements**

In 1992 the California Legislature enacted the Charter Schools Act of 1992. Section 47601 of the California Education Code states that:

It is the intent of the Legislature, in enacting this part, to provide opportunities for teachers, parents, pupils, and community members to establish and maintain schools that operate independently from the existing school district structure, as a method to accomplish all of the following:

(a) Improve pupil learning.

(b) Increase learning opportunities for all pupils, with special emphasis on expanded learning experiences for pupils who are identified as academically low achieving.

(c) Encourage the use of different and innovative teaching methods.

(d) Create new professional opportunities for teachers, including the opportunity to be responsible for the learning program at the school site.

(e) Provide parents and pupils with expanded choices in the types of educational opportunities that are available within the public school system.

(f) Hold the schools established under this part accountable for meeting measurable pupil outcomes, and provide the schools with a method to change from rule-based to performance-based accountability systems.

(g) Provide vigorous competition within the public school system to stimulate continual improvements in all public schools.

The Charter Schools Act (or “the Act”) (Education Code Sections 47600 et seq.) requires each charter school to have a “charter” that outlines the mandatory items of the Act. The following provisions of this charter coincide with the requirements of a countywide charter petition as required by Section 47605.6 of the Act.
II. AFFIRMATIONS/ASSURANCES

As the authorized lead petitioner, I, Dale Jones, hereby certify that the information submitted in this petition for a California public countywide benefit charter school to be named Discovery Charter School II (“Discovery II,” or the “Charter School”), submitted to the Santa Clara County Board of Education (“SCCBOE”) and the Santa Clara County Office of Education (“SCCOE”) (collectively the “County”) and to be located at several sites throughout Santa Clara County, is true to the best of my knowledge and belief; I also certify that this petition does not constitute the conversion of a private school to the status of a public charter school; and further, I understand that if awarded a charter, the Charter School will follow any and all federal, state, and local laws and regulations that apply to the Charter School, including but not limited to:

- The Charter School shall meet all statewide standards and conduct the student assessments required, pursuant to Education Code Section 60605 and 60851, and any other statewide standards authorized in statute, or student assessments applicable to students in non-charter public schools. [Ref. Education Code Section 47605.6(d)(1)]

III. INTRODUCTION

Term of Charter

The Petitioners request a new county-wide charter pursuant to Education Code Section 47605.6 for a term of five years from July 1, 2013 through June 30, 2018.

Date of Opening and Students to Be Served

On approval of the countywide charter petition, the Petitioners plan to open Discovery II for instruction by no later than September 30, 2013, with authorization to offer instruction for kindergarten through grade eight.

Notification upon approval

Upon approval of the county wide charter petition, the Petitioners will provide a written notice of the approval a copy of this document to the school districts within the county, the Superintendent of Public Instruction and the State Board of Education.

Facilities

Discovery II will be located at several sites within the boundaries of Santa Clara County. Should the charter be granted, the Petitioners acknowledge that any additional sites will require a request for a material revision to the charter, notification of affected districts, and approval by the county board of education at a public meeting.

Founders

The Founders of Discovery Charter School, a charter school authorized by the SCCBOE since 2005, are the same founders of Discovery II. The Founders represent a broad cross-section of parents and professionals. The Founders brought together the combined experience in the areas of education, legal, business, finance, non-profit administration, human resources, and technology. The Founders worked with a strong group of strategic partners in the areas of curriculum development, charter school finance, facilities, corporate and charter law, and charter development and operation. The Founders secured persons with expertise as needed to establish and sustain an excellent school and ensure the effective and responsible use of public funds.

A significant strength of Discovery Charter School is the continuity of leadership that has extended from the founders to the current Board. The current Board includes three founding members, Discovery Charter School’s former Executive Director, and one new Board member. It is this Board that is seeking to replicate and govern the Discovery Charter Schools. See Attachment 2: Discovery Charter School Board and Attachment 3: Strategic Partners.

Leadership Team

The leadership team is comprised of teacher representatives from all grade levels and classified staff. The leadership team has been formed to facilitate shared governance and to serve as an advisory body to the Director, represent staff interests and employee relations, provide input to the school budget, and facilitate the execution of the annual development plan for the school. For more information refer to Attachment 4: Leadership Team.
Notes:

- Throughout the charter, in order to avoid awkward grammatical constructions, the use of grammatically masculine singular words such as “he”, “his”, “him”, and “himself” are used in the generic sense and include both male and female.
- This petition for Discovery II is for a countywide charter school, which intends to replicate the success of the original Discovery Charter School. Throughout this document the countywide charter will be referred to as Discovery Charter School II, the “Charter School”, or simply, Discovery II. We will use the term “Discovery Charter Schools” when referring to all of the Discovery campuses.
IV. COUNTYWIDE BENEFIT

Governing Law: A county board of education may only approve a countywide charter if it finds, in addition to the other requirements of this section, that the educational services to be provided by the charter school will offer services to a pupil population that will benefit from those services and that cannot be served as well by a charter school that operates in only one school district in the county. Education Code Section 47605.6(a)(1)

Governing Law: A county board of education may grant a charter for the operation of a school under this part only if the board is satisfied that granting the charter is consistent with sound educational practice and that the charter school has reasonable justification for why it could not be established by petition to a school district pursuant to Section 47605. Education Code Section 47605.6(b)

The following section is intended to satisfy the requirements of Education Code Section 47605.6 and the Guidelines Regarding Consideration of Countywide Charter Petitions, as adopted by the Santa Clara County Board of Education on October 19, 2011.

A. Discovery II Shall Offer Educational Services to a Student Population That Will Benefit from Those Services. Education Code Section 47605.6(a)(1).

SCCBOE Guidelines: “Petitioners are expected to satisfy EACH of the guidelines set forth below:

A. The needs of English learners, students with special needs, and socioeconomically disadvantaged students attending the school will be met.

B. The services offered are appropriate for the age, grade level of students to be served by the school.”

B. The Discovery II Charter is Consistent with Sound Educational Practice. Education Code Section 47605.6(b).

SCCBOE Guidelines: “Petitioners are expected to satisfy EACH of the guidelines set forth below:

A. Practices are adequately researched.

B. Practices are innovative, but based on sound educational principles.

C. Practices meet at least one of the intentions of the Charter Schools Act as provided in Education Code Section 47601.

D. Practices comply with the non-waived portions of California Education Code and State Board Title 5 Regulations.

E. The charter school need not be designed or intended to meet the educational needs of every student who might possibly seek to enroll in order for the charter to be granted. Cf. 5 C.C.R. § 11967.5.1(a).”
C. The Educational Services Provided by Discovery II Cannot be Provided as Well by Operating in Only One School District in the County; and Discovery II Has Reasonable Justification for Why it Cannot Be Established by a Petition to a School District. Education Code sections 47605.6(a)(1) and 47605.6(b).

SCCBOE Guidelines: “Petitioners are expected to satisfy ONE of the guidelines set forth below:

A. The charter school has demonstrated that an admissions policy giving preference to students from one district over another pursuant to Education Code section 47605(d)(2)(B) will undermine the charter school’s ability to serve the targeted pupil population (e.g., the charter school offers a highly specialized program for which insufficient numbers of targeted students reside within a single district).

B. The charter school has demonstrated that unique factors and circumstances related to the charter school’s educational program can only be accomplished as a countywide charter and not as a district charter. In demonstrating the existence of these unique factors and circumstances, the charter school shall describe the specific benefits the charter school will offer to:

(1) pupils,
(2) the community in which the school will be located,
(3) the county, and
(4) the charter school itself, by virtue of the fact that it will be a countywide rather than a single-district charter school. Cf. 5 C.C.R. § 11967.6(b).

Neither an administrative benefit to a charter operator, nor a desire by a charter operator to provide services in more than one district, shall be considered sufficient to justify approval of a countywide charter. Cf. 5 C.C.R. § 11967.6(b).”

Research consistently shows that one of the most significant predictors of a student’s academic achievement is parental support for and involvement in their child’s education. Educators need the support and involvement of parents to help them address the varied and complex needs of the students in their classrooms. The California Department of Education has found that parent involvement is a more important predictor of student success than family income or the parents’ level of education. Our mission at Discovery is to expand the available options for parents to be significantly involved in their child’s education, and to make sure that every parent in Santa Clara County who wants a parent participation program for their family will have access to a high-quality parent participation school.

A central goal of Discovery Charter Schools is to build a vibrant learning community. We have created and support a culture of parental empowerment and “ownership” of the school, cooperation and regular communication between home and school, and the daily integration of a deep level of parent involvement in our program and the delivery of curricula. We have developed and support a culture of parent involvement with high expectations of our students’ families, just as we want them to hold the school’s professional staff to the highest expectations. We believe this formula of high expectations of all members of the learning community is crucial to the success of each student entrusted to our school, and a model for learning that can improve the quality of education across Santa Clara County.
Parent education is a key to our success. Each parent who is new to our program receives training in Positive Discipline, the most widely used parenting program in the world that was created by Dr. Jane Nelsen. In addition to this training, parents receive ongoing training in classroom strategies for programs like Readers Workshop and Writers Workshop. These programs not only enable the parents to be effective classroom aides, but also aide the parents as they work with their own children at home.

Discovery provides a strong academic program for all students and an early intervention program for students struggling with foundational skills in math and reading. Using an RTI model of identification and remediation, we assess students who score below expected age and grade level norms or who have been identified as struggling by their parents or teachers. Struggling readers are given the Comprehensive Test of Phonological Processing (CTOPP) to assess their phonemic awareness skills. Lack of phonemic awareness is the most common cause of reading difficulties, or dyslexia. Identified students are given intensive 1:1 tutoring with trained parents and community volunteers using the Barton Reading and Spelling System.

In math we provide a similar system of early identification and remediation in small groups and if necessary with 1:1 tutors. Developing number sense and basic computational skills is the focus of our interventions in math, and we use a variety of programs depending on the needs of the students, including Scott-Foresman, Singapore Math, Holt math, Greg Tang and Marcy Cook materials, and teacher-made lessons.

Our program for English Language Learners (ELL) uses the Santillana “Into English” program with parent volunteers who themselves learned English as a second or third language working with small groups of ELL students on a regular basis.

These intervention programs are all successful examples of using trained parent volunteers to help provide intensive, personalized interventions for students under their teacher’s direction. Again, training parents is the key to their success and we provide intensive instruction for parents who wish to provide academic interventions. For example, Barton tutors attend a full day of training before beginning, then receive two or more additional trainings, coaching while tutoring, and additional video tutoring as they proceed with their student. Many parents of struggling students receive the training so that they can tutor their own children at home after school hours, so that their children don’t have to miss any instructional time during the school day. A countywide charter would enable us to provide these parent-assisted interventions to more families from across the county who want to be directly involved in helping their children, and the children of others, who struggle with foundational academic skills.

Our special education program has been very successful and accounts for why many families with special needs students enroll in Discovery. For the 2011-12 school year students with Individualized Education Plans (IEP’s) made up 11.4% of our student population, and we anticipate that this percentage will continue to increase. We utilize a “Learning Center” model that provides integrated services to identified students. Our resource specialist, occupational therapist, speech and language pathologist, psychologist, a counselor, and specialized aides all work together to deliver services that address the total needs of the child. This comprehensive, “whole child” approach is much different than the pull-out, isolated services that most students receive. We would like to be able to provide this model of special education to students from across the County, and we hope to eventually add Special Day Classes in collaboration with the County Office of Education Special Education Department.

Many families in Santa Clara County are looking for a parent participation school, but many are unable to enroll their child due to a lack of space. For the 2012-13 school year, Discovery Charter School had 648 applications for 82 openings. (We enroll 55 Kindergarten students and 27 new 6th grade students each year.)
For the 2011-12 school year we had 646 applications, and for the 2010-11 school year we had 693 applications. Other similar parent participation schools like Washington Open in the Santa Clara School District, McAuliffe in the Cupertino School District, and Indigo School in the Oak Grove School District also have similar waiting lists. Clearly the demand for parent participation schools far exceeds the available openings. This is the primary reason that we are seeking to expand our program to a Countywide Charter.

Our applicants come from 25 school districts across the County. For the past three years we have received more than a hundred applications from students in each school district of Santa Clara, Campbell, Moreland, and San Jose Unified. For the 2011-2012 school year we received 147 applications from Moreland, 134 from San Jose Unified, and 100 from Santa Clara. For the 2012-2013 school year we received 124 applications from Moreland, 114 from San Jose Unified, and 115 from Santa Clara.

At Discovery we have a proven record of success. Our API score has been above 900 for each of the six years that we’ve been in operation, and we have received accolades from County Office administrators who have been assigned to review our program for compliance with state regulations and the MOU with the County. Our ELD program has been used as an example for other charter schools, and our special education program has been called “the most inclusive of all the charters in Santa Clara County” by the County Director of Special Education. We have developed a successful, comprehensive, school-wide program that stands to benefit many children and families in Santa Clara County.

Eliminating the district of residence enrollment priority (Education Code Section 47605(e)), is another primary reason that we are asking the County Board to approve Discovery II as a countywide charter. Discovery hopes to continue to serve students from across the county and not concentrate on students from one district. A countywide charter would allow equal opportunity for admission to all students in the county. (Education Code Section 47605.6(e)(2)(B)). Since our current waiting list has students from 25 different school districts, it’s clear that we have a large number of potential students from across the county and that a charter petition to a single district would unfairly reduce the chances of enrollment for students from outside of that district.

Charter schools authorized by a school district are also subject to the requirements of that particular district. We believe that our effective model for active parent engagement is unique and would be limited if subjected to change by the particular requirements of one school district. A countywide charter will assure that our program, including parent training and education, special education, and teacher development remains consistent across all Discovery Schools.
V. **Educational Philosophy and Program**

“A description of the educational program of the school, designed, among other things, to identify those whom the school is attempting to educate, what it means to be an “educated person” in the 21st century, and how learning best occurs. The goals identified in the program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners.” - California Education Code Section 47605.6(b)(5)(A)(i)

**A. Mission**

Through direct parent participation, community learning, and developmentally based teaching, Discovery II will support the ‘whole’ child and develop lifelong learners prepared to meet the challenges of the future.

Discovery II is committed to:

- Building an educational environment where developing, building, and engaging families and communities will provide a common vision for lifelong learning and student success;
- Respecting the cognitive, emotional, social, and physical development of each child;
- Partnering staff, students, parents, and community to create a unique, challenging, and individualized learning environment with high academic standards and expectations;
- Building programs that foster thinking which is original, critical, collaborative, and reflective; and
- Developing students who are self-motivated, self-disciplined, and socially responsible.

**B. Educational Philosophy and Instructional Design**

Discovery II is a developmental, parent participation school open to all students. The instructional program is designed so that teachers work together to promote a high level of academic and behavioral success for all students. The school’s instructional design is built on the following core elements:

- **Classes** are developmental and standards based.

**There are various instructional models:**

- **Classes** are multi-age, developmental, hands-on, student-centered, and theme-based to accommodate individual learning styles and achievement levels.
- **Classes** use a looping model (students stay with their teacher for two years) to provide an opportunity for teachers and students to develop a strong sense of community.
- **Parent-led, small group instruction** allows teachers to differentiate the curriculum to meet the needs of each student.
Collaboration and partnership of teachers, parents, and students creates a sense of community that is supportive, nurturing, and student-centered.

Curriculum is designed by teachers using state standards, brain-based research, and best practices. Curriculum is constantly evaluated, adapted, and improved by teachers.

We are a community of lifelong learners comprised of teachers, parents, and students. Respect for one another as learners is a key component of our school. Students are encouraged to share their knowledge and expertise with others. Developing student independence is a priority, and students are valued as decision makers.

Assessment is done on a continual basis. Formative and summative on-going assessments are used to inform instruction. Students and teachers work to develop and monitor learning goals and share them with their parents during student-led conferences.

Enrichments and Selectives such as: gardening, art, cooking, drama, foreign language, and dance are strategically integrated to support the curriculum.

Technology is integrated in the curriculum and is used as a tool for teaching and learning. Students regularly utilize technology for research, analysis, communication, skill building, and self-expression.

Field trips extend the classroom experience by providing real-world experiential learning opportunities for each student.

A typical day for a kindergartner and for a sixth-grader at Discovery II are described in Attachment 5: A Day in the Life of a Kindergartner, and Attachment 6: A Day in the Life of a Sixth-Grader

How Learning Best Occurs

Research shows that consistent high levels of student success are more likely to occur with long-term comprehensive parent involvement in schools. The California Department of Education states:

Comprehensive means that parents are involved at all grade levels in a variety of roles. Involving parents in supporting their children’s education at home is not enough. To ensure the quality of schools as institutions serving the community, parents must be involved at all levels in the school.

See Attachment 7: California State Board of Education Policy 89-01 (1994): Parent Involvement in the Education of Their Children, and Attachment 8: California Department of Education – Charter School Division – Legal Opinion on Parent Participation. With this in mind, Discovery II asks families to make a commitment to the community and their child to volunteer in the classroom on a weekly basis.

Research shows that multi-age grouping promotes cognitive and social growth (Trevor Calkins) and the natural development of the child. The wider age spans promote an active learning environment where students are not expected to ‘perform’ at their ‘age level,’ but encouraged to perform to the best of their ability. The students learn from each other, from teachers, and from cross-age tutors.

Research shows that children learn by doing, and the hands-on learning approach will give students an opportunity to take learned skills and apply them to meaningful projects. These projects provide students an
opportunity to develop and demonstrate critical thinking skills, problem solving skills, and cooperative learning which will prepare them for the 21st century.

Research also shows that the brain is pattern-seeking and looks for connections between pieces of information (McBrien/Brandt, 1997). These connections lead to a stronger and more thorough understanding. Whenever possible, curriculum is designed around science, social studies, or literacy themes (Ostrow, 1995). Topics are studied from many different angles and viewpoints, allowing students to explore subjects deeply, employ higher level thinking skills, and make connections among various disciplines of thought (Jensen, 1998).

Children develop and grow at different rates in different skill areas. Teachers’ strong understanding of child development and close working relationship with each child’s parent allows them to design learning experiences so that each child’s needs are met (Bingham, 1995). Curriculum is aligned with each child’s developmental level to allow children to feel successful regardless of academic level.

Children also have different strengths and styles of learning. The teachers develop instructional programs incorporating the theory of multiple intelligences to build on each student’s strengths and address diverse learning styles (Gardner, 1999).

Learning best occurs in a collaborative environment. Students have a higher motivation to learn when they have a real stake in their own learning. The teacher shares control of the classroom and students are allowed to explore, experiment, and discover on their own. The focus in these classrooms is on options, rather than uniformity. Learners are treated as co-creators in the learning process, as individuals with ideas and issues that deserve attention and consideration.

Learning best occurs in a climate where there are measurable goals and accountability. As Schmoker (1996) so simply states: “What gets measured gets done”. Discovery II provides a continuous collection and application of data for students, parents, teachers, and administrators.

**What it Means to be an Educated Person in the 21st Century**

Advances in technology have touched everyone’s lives. Today’s youth are growing up in a world that is more technologically advanced than any other time in history. Through the Internet and television, our children quickly and easily learn about world events, its inhabitants, and its issues. The Internet literally brings a world of information right to our fingertips. The world our children will know as adults will undoubtedly be very different than the world we have today.

In spite of the many changes in our world, many fundamental characteristics of a well-educated person remain. A vital part of being a well-educated person is mastery of fundamental skills, concepts, and knowledge in history, math, science, reading, writing, art, and music and an appreciation for what those who have come before us have learned. For such knowledge to be useful, it must be supported by the ability to think critically, the ability to use reasoning, and coherent argument supported by evidence. The educated person can evaluate, organize, and use information from various sources and disciplines of thought. He is able to make logical and flexible connections with the newly acquired information. He is able to reflect on experiences, revise his understanding, and solve new problems. The educated person is competent using a variety of technology tools for analysis, communication, and presentation - these tools, coupled with knowledge of history, provide the ability to process and evaluate the changes encountered.
To become an educated person, a child needs support and guidance that comes from having positive relationships with parents, teachers, other adults, and children. Growing up in California’s populous and diverse community, a child needs to experience new cultures and learn new languages. He must learn to communicate well and work effectively in groups and teams and to understand the moral responsibility to help others and the value of contributing to his community.

As a contributing citizen of the 21st century, an educated person is self-motivated and competent. Through years of working with teachers and other adults, he has learned how to assess his abilities and how to learn. The educated person has an appreciation for knowledge and views lifelong learning as an activity that is essential to keep pace with the constantly changing world. Discovery II seeks to enable pupils to become self-motivated, competent, and lifelong learners.

C. Students to be Served

Discovery II will serve students in kindergarten through eighth grade. We estimate each new school under this charter to open with approximately 382 students. At full grade K-8th build out, we estimate each school will have approximately 490 students.

Discovery II attracts those who are seeking an alternative to their current educational system, desire an innovative approach, and share the vision of Discovery Charter Schools.

D. Curriculum

Discovery II focuses on the education of the whole child through a core curriculum of English-language arts, mathematics, science, and history-social science including a complementary curriculum of performing arts, physical education, technology, and life skills education. California State Standards are used as the foundation to build curriculum and guide instruction. The Discovery II curriculum addresses the developmental needs of a diverse population. Students are encouraged to be active in the community through various community service projects. See Attachment 10: Sample Curriculum.

The Charter School recognizes that full implementation of the Common Core State Standards must be accomplished by the 2014-15 school year. The Charter School will adhere to the Common Core State Standards and the required implementation timeline. All references in the charter to adherence with the California State Content Standards will become adherence to the Common Core State Standards, in alignment with directives from the California Department of Education regarding implementation.

Language arts is integrated across all curricular areas and offers a rich diversity of activities and resources. The comprehensive curriculum includes daily opportunities for children to practice and improve reading, writing, listening, and speaking skills. A variety of teaching strategies are used to ensure that each student’s needs are being met. Instruction is provided in large group, small group, and individual settings. Periodic classroom and school benchmark literacy assessments help teachers continue to align instruction with the needs of the students.

All students at all grade levels are engaged in challenging, hands-on math activities which involve thinking mathematically and using tools, techniques, and strategies to solve real world problems. Our program develops number sense and problem-solving skills through concrete experiences using manipulatives before moving on to more abstract concepts. Teachers use a variety of resources such as Scott Foresman Math, Holt, TERC Investigations, CPM (College Preparatory Math), Kathy Richardson, Marcy Cook and Greg Tang.
activities, and teacher-created materials. Math activities are integrated throughout the curriculum. Many math activities are multi-leveled and provide students with a variety of skill levels and opportunities for meaningful work. Both skill and problem solving assessments based on state standards are used throughout the year to help teachers continue to plan and implement appropriate and challenging math activities. Parents often lead concept or needs-based math learning centers.

The science program at Discovery II uses resources such as FOSS (Full Option Science System) kits and GEMS, hands-on science curriculum that integrates essential learning in the areas of earth, physical, and life sciences throughout the curriculum. Depth over breadth is emphasized in a thematic-based curriculum that is guided by student interest, as well as the state standards. Science at Discovery Charter School II includes real-life experiences with lab experiences, the scientific method, problem-solving, gardening, and cooking. Students also participate in field experiences off campus to supplement and solidify what they are learning in the classroom.

The social studies curriculum also ties in closely with other curricular areas such as language arts and science. Using resources such as the History Alive curriculum, content is based on the state standards and emphasizes living and working together in our diverse community.

Productive citizens of the 21st century must be able to work cooperatively as part of a team to accomplish a task. Cooperative learning techniques, used throughout the curricular areas, teach students to work collaboratively with others and allow them to develop their social and communication skills. Students learn to share their knowledge and skills, and respect the ideas and skills of others. Students at every grade level participate in service learning projects which are integrated into the curriculum.

In addition to the above core curriculum, students participate in activity-based physical education, health, foreign language, and visual and performing arts. Technology is used as a tool for teaching and learning. Students have access to technology for research, analysis, communication, skill building, and self-expression by using the classroom computers or the Apple mobile carts, which allow students to work independently or in a lab experience.

Through their work as part of the Discovery II community of learners, students develop skills that will enable them to pursue their own path of learning throughout their adult lives and become self-motivated, competent, and lifelong learners. Students learn study skills such as note taking, library research skills, and study strategies. Through self-evaluation and goal-setting, students learn to reflect on and evaluate their own learning and progress toward achieving a goal. During student-led conferences, students share their goals, class work, and activities that demonstrate their goals and reflect on their work with their parents. Project-based learning provides practice in reasoning, decision-making, and problem solving. Students learn to identify and use available resources and to articulate their thought processes to others.

**Learning Environment**

Discovery II provides a productive, safe, enriching learning community in which children, parents, and teachers of different backgrounds, abilities, and needs work and learn together successfully. Discovery II allows and encourages collaborative work between students and teachers and values cooperation and collaboration as important life skills. Learning at Discovery II takes place in many settings during the day.
Our primary grade classrooms are organized around two innovative organizational strategies based on resiliency factor research: the multi-age classroom and the opportunity to stay with one teacher for more than one year. In the multi-age classroom, children have the rare opportunity to learn from regular interactions with students who are older and/or younger than they are. Because the relationships developed with teachers are of key importance to student success, children stay with one teacher for two years, which leads to greater bonding, learning, and connection to the school.

Our upper grade classrooms are organized by grade level to ensure that teachers can meet the more structured curriculum standards. Some of the upper grade teachers use the organizational structure of looping to allow students to stay with one teacher for more than one year. Students work in mixed groups in weekly enrichment workshops to promote positive cross-grade relationships. Periodic groupings within grade levels allow students to benefit from the diverse and unique teaching styles of each teacher. Upper grade teachers use a variety of strategies including cooperative learning, research methods, hands-on experiences, and simulations.

As part of the learning community themselves, teachers must have time to work together, plan, discuss student needs, mentor one another, and observe other classrooms. The school day is structured so that staff members have time during school hours for professional development, grade level collaboration, and decision making. To permit this flexibility, the length of the school year and/or the length of the school day may be extended beyond the state-mandated minutes. Teachers are required to participate in ongoing staff development in order to stay current with research in best teaching practices. Professional development is provided at the site by experts and staff members. Teachers are also encouraged to attend classes or workshops in their area of focus off campus, and to share their learning and experience with the staff when they return to school.

The unique features and structure of the Discovery II curriculum and the instructional strategies outlined here are designed to maximize the learning opportunities of all students across a broad spectrum of abilities. Our parent participation model allows for small group instruction to address the multiple intelligences of all of our students.

E. Plan for Students Who Are Academically Low-Achieving

At Discovery II, low-achieving students are those who fall below the 50th percentile on the adopted standardized test and/or fall below learning behavior, language acquisition, and fine and gross motor skills on a developmental continuum. At Discovery II at-risk students are students who achieve at or below the 40th percentile on adopted state tests who may or may not qualify for special education services, and whose achievement potential is not being realized.

The parent participation component of Discovery II provides the teacher with the ability to offer differentiated instruction. Students have the opportunity to work in small groups or individually with an adult for a large portion of the school day. Under the direction of the teacher, parents work with small groups or one-on-one to ensure that all children get the individual help and attention they need to succeed. Activities are differentiated so that students who are ready can move on without leaving any other student behind. Parents may be trained in certain interventions in order to help at-risk or low-achieving students in the classroom. Parent talents and skills are also used to provide enrichment and extension activities for students.

Early intervention is the key to effective remediation of academic difficulties. At Discovery II we assess students who teachers have identified as struggling with learning to read using the Comprehensive Test of Phonological Processing (CTOPP) and students found to have a cognitive deficit affecting their ability to read (as opposed to a delay in developmental readiness) are given intensive 1:1 tutoring using the Barton Reading
and Spelling Program. In math we also assess struggling students as early as possible and provide leveled math groups, additional small group instruction and 1:1 tutoring under the Response to Intervention (RTI) model. Interventions may include help from our TLC (The Learning Center) team prior to (or without) formal identification as a student with a disability.

Multi-age classrooms give at-risk and low-achieving students continuity with one teacher for two years. Students have time to develop at their own rate and are presented with daily opportunities to learn at their own developmental level in each academic area. Flexible grouping across age groups allows students to work at an instructional level with others possessing the same skills. Teachers may group students in different ways to help build a certain skill set or learning behavior. All students have opportunities to take both leading and following roles in cooperative activities. This allows at-risk or low-achieving students to be successful in their school work each day and builds student confidence.

Hands-on, integrated curriculum provides concrete experiences to scaffold learning for at-risk students. Students have opportunities to follow interests and connect their previous knowledge to new concepts. Through broad themes, students are given an opportunity to broaden their knowledge of big concepts, giving them a strong base for adding and retaining new knowledge. Concrete learning experiences at every grade level give at-risk students opportunities to learn in a variety of modalities, helping them eventually to develop the learning strategies that work best for them.

Parents of at-risk or low-achieving students are included in the development of strategies to meet the specific needs of the student. Further support for such students includes intervention programs beyond the classroom, such as cross-age tutoring and student study teams.

**F. Plan for Students Who Are Academically High-Achieving**

At Discovery II, students achieving above grade level in any academic area, possessing superior intellectual or leadership ability, have opportunities for more challenging work and leadership roles within the classroom and school. In addition, student strengths outside the core academic areas are fostered and celebrated in the classroom. Discovery II strives to provide differentiated educational experiences that maintain the interest and intrinsic motivation of gifted students, to nurture their self-esteem, and to nurture social development.

Multi-age classrooms give high-achieving students continuity with one teacher for two years. Students have opportunities to excel in their areas of strength while continuing to develop at their own pace in other areas. In each area of development, students are presented with daily opportunities to learn and work at an instructional level with others possessing the same skills. Teachers may group students in different ways to help build a certain skill set or learning behavior. High-achieving students are given opportunities to work cooperatively to solve problems and also opportunities to teach or lead a group in order to solidify concepts for themselves. All students have opportunities to be both a leader and a follower in cooperative activities. This allows high achieving students to be both successful and challenged in their school work each day and builds a positive attitude toward school.

Project-based learning provides opportunities for above grade level students to capitalize on their interests and knowledge of a particular subject, but also to practice problem solving and to use higher level thinking skills. These students need opportunities to work collaboratively on a problem and to make decisions about the direction a project will go. Through broad themes students are given an opportunity to broaden their knowledge of big concepts, and to choose and follow a focus area in which they wish to learn more. Activities designed with the multiple intelligences in mind provide opportunities for students to use their strengths and
continue to develop other learning modalities, all in a risk-free environment. Gifted program services will be available in conjunction with other differentiation strategies such as flexible grouping, tiered lessons/activities and a high level of questioning strategies that are currently practiced at Discovery II.

The parent participation component of Discovery II provides the teacher with the ability to have students working in small groups or individually with an adult for a large portion of the school day. Under the direction of the teacher, parents work with small groups or one-on-one to ensure that all children get the individual attention they need.—The school forms the core of students’ daily social and academic experiences. These everyday experiences, in turn, play a critical role in the students’ social and emotional adjustment. At Discovery II under the direction of the teachers, parents interact with all the students, including the gifted, on a daily basis as aides in the classroom. Parents are trained to facilitate, rather than lead, cooperative learning groups so that students can take on the roles themselves. Parent talents and skills are also used to provide enrichment and extension activities for students. In order to ensure a positive environment, the Discovery gifted program with the help of the gifted parent support group, will provide workshops to help parents understand the social and emotional aspects of gifted children. See Attachment 11: Plan for Students Who Are Academically High Achieving.

G. Plan for English Learners

Discovery II shall meet all legal requirements for English Learners (ELs) relative to annual notification to parents, student identification, placement, program options, English Learner and core content instruction, teacher qualifications and training, reclassification to Fluent English Proficient (FEP) status, monitoring and evaluation of program effectiveness, and standardized testing requirements. Discovery II shall implement policies to effectuate proper placement, evaluation, and communication regarding ELs and the rights of parents and pupils.

Home Language Survey

The Home Language Survey (HLS) is administered upon a student’s initial enrollment into a California public school. If Discovery II is not a student’s first California public school, then Discovery II receives a copy of the student’s HLS from the prior school(s) of attendance. Nonetheless, all parents are required to complete the Home Language Survey.

Annual Assessments

Discovery II shall follow all California English Language Development Test (CELDT) testing timelines to ensure students who have indicated that English is not the primary language spoken at the home are assessed as to English fluency annually until redesignated as FEP to ensure these students receive proper instruction based upon current English proficiency levels. Discovery II shall comply with the applicable requirements of the No Child Left Behind Act with regard to English Learner students.

English Learners and Core Instruction

Discovery II will offer Mainstream English instruction for all English Learners, as well as regular small group, intensive support in vocabulary and language development. That instruction is designed to ensure that students acquire English language proficiency and recoup any academic deficits that may have developed in other areas of the core curriculum. Mainstream English instruction contains the following components:
Well-articulated, standards-based, differentiated English Language Development (ELD) instruction, specifically designed for English Learners, using the Santillana Intensive English program and Rigby PM Guided Readers.

Well-articulated, standards-based, differentiated instruction in the core curriculum, with primary language support and/or Specially Designed Academic Instruction in English (SDAIE).

Structured activities designed to develop multicultural proficiency and positive self esteem.

Each EL is expected to make progress in English and in grade level academics.

**Reclassification and Monitoring**

English learners are reclassified as “fluent” when they have sufficient English skills to learn in a regular classroom without extra assistance and perform in academic subjects at approximately “grade level.”

An English Learner in grades 2 - 8 must meet all of the following criteria to be reclassified from English Learner to FEP status:

- A minimum score of Basic (324) on the STAR/CAT6 in the areas of Total Reading, and Total Language
- Overall proficiency levels of Early Advanced or Advanced on CELDT with proficiency levels of intermediate or above in all three test components (listening/speaking, reading, and writing)
- Adequate performance on school progress report cards
- Teacher recommendation and evidence of successful performance in reading and writing in the classroom

Student progress is monitored annually. School level assessments, English Proficiency Reassessments using the CELDT, and classroom data and observation are used to determine English language proficiency, and evaluate students’ language growth and academic performance. Formative assessments to monitor students’ ELD progress are given by teachers throughout the school year in listening/speaking, reading and writing.

Reclassified students will be monitored each semester to ensure that they are making adequate academic progress through the following means: teacher/Director/student interview, a discussion of affective attitude toward learning, a review work samples and grades, and intervention if needed.

See Attachment 12: Plan for English Learners Table of Contents.

**H. Plan for Special Education**

**Overview**

Discovery II shall adhere to all laws affecting individuals with exceptional needs, including all provisions of the Individuals with Disabilities in Education Improvement Act of 2004 (“IDEA”), its amendments, Section 504 of the Rehabilitation Act, and the Americans with Disabilities Act (“ADA”). All students are given equal access to the school, regardless of disabilities, and the school does not discriminate against any student based on his disabilities. We do not require the modification of an IEP or 504 plan as a condition of acceptance at the Charter School.
Discovery recognizes the importance of providing education opportunities to all students regardless of physical challenges or special needs. To that end, Discovery II pledges to ensure that enrolled students are served in accordance with applicable federal and state law.

Our program is based on the “Learning Center” model of service delivery, which is an integrated approach to meeting the needs of students with learning, behavioral, and social-emotional challenges. In the Learning Center model students receive “push-in” or “pull-out” support from our resource specialists, speech and language pathologist, occupational therapist, counselor, school psychologist, and trained aides, working together to address the unique needs of their students.

**IDEA**
Discovery II shall be a public school of the Santa Clara County Board/Office of Education (“County”) for purposes of special education pursuant to Education Code Section 47641(b).

Discovery II and the County shall develop and execute an agreement regarding special education which specifies in detail the responsibilities for provision of special education services by the Charter School and the manner in which special education funding will flow through the County to the students of the Charter School.

The details of this arrangement, or a reasonable alternative to this arrangement, will be discussed and codified in a memorandum of understanding between the County and the Charter School. Discovery II seeks to extend a substantially similar agreement as already executed between Discovery Charter School I and the County to Discovery Charter School II’s operations. Nothing in this Section, however, shall be deemed to prevent the Charter School from seeking LEA status pursuant to Education Code Section 47641(a) or from contracting with a third-party to provide special education services.

**Section 504/ADA**
Discovery II shall be solely responsible for its compliance with Section 504 and the ADA. All facilities of the school are accessible for all students with disabilities in accordance with the ADA.

Further, the Discovery Board has adopted and implemented a policy, which outlines the requirements for identifying and serving students with a 504 accommodation plan. Discovery II recognizes its legal responsibility to ensure that no qualified person with a disability shall, on the basis of disability, be excluded from participation, be denied the benefits of, or otherwise be subjected to discrimination under any program of the school. Any student, who has an objectively identified disability which substantially limits a major life activity such as learning, is eligible for accommodation by the School and shall be accommodated. See Attachment 13: Board Policy on 504 Compliance.
VI. **Measurable Pupil Outcomes and Methods of Pupil Assessment**

“The measurable pupil outcomes identified for use by the charter school. “Pupil outcomes,” for purposes of this part, means the extent to which all pupils of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school’s educational program.” - California Education Code Section 47605.6(b)(5)(B)

**A. Core Academic Skills**

Discovery II has developed Student Outcomes that are based on California State content and performance standards. In the areas of reading, writing, and mathematics we have identified the most essential standards. In subsequent years our focus will be on developing the most essential standards in history/social studies and science. In addition to state standards, Discovery II helps students develop skills as listed below:

**English/Language Arts**

Strong reading, writing, listening, speaking, and presentation skills, in multiple forms of expression which may include poetry, biographies, stories, non-fiction, and plays, which will enable them to comprehend and interpret multiple forms of expression, including literature from various time periods and cultures.

**Science**

The understanding and application of the major concepts underlying the various branches of science, which may include physics, biology, chemistry, ecology, astronomy, and earth sciences aligning with State Standards. This knowledge will enable students to make informed decisions in an increasingly technological world.

**History/Social Sciences**

An understanding of civics, history, geography, cultures, and languages so they can apply their knowledge and be responsible citizens of the 21st century.

**Mathematics**

The ability to reason logically and to understand and apply mathematical processes and concepts to solve problems requiring basic mathematics, algebra, geometry, statistics, and other math disciplines. These problem-solving skills will be integrated into other disciplines.
B. Lifelong Learning Skills

Discovery II helps students develop skills that will enable them to pursue their own path of learning throughout their adult lives in becoming self-motivated, competent, and lifelong learners, including the following:

Study Skills

Proficient study skills and habits including note taking, library research skills, and studying strategies.

The ability to reflect on and evaluate one’s own and other’s learning.

The ability to plan, initiate, and complete a project, including goal setting and self-assessment.

Cognitive Processing Abilities

Cognitive processing abilities using complex and critical thinking skills.

The ability to identify, access, integrate, and use available resources and information.

The ability to reason, make sound decisions, problem solve, and analyze in a variety of contexts.

The ability to articulate their thought processes.

Foreign Language Skills

A foundation in a language other than English.

A knowledge and understanding of other cultures.

An ability to function with people from other cultures or to participate in multilingual communities.

Technology

Skills from a variety of technological sources for the purpose of research, analysis, communication, organization, and self-expression.

Ability to utilize computers and commonly used software applications.

Visual and Performing Arts Skills

Knowledge of skills to express ideas and emotions through participation in various forms of the visual and performing arts which may include music, theatre, dance, two- and three-dimensional arts, puppetry, and applied arts.

Health Science/Physical Fitness

Knowledge of pertinent issues of health, safety, and the development of behaviors that are a foundation of lifelong healthy living.
Social/Interpersonal Skills

The ability to make responsible decisions, build confidence in one’s ability to learn, and be a productive member of an increasingly diverse and technological society.

The ability to communicate clearly through oral, written, visual, and other forms of expression.

The ability to engage in responsible, compassionate peer relationships.

The ability to collaborate and work effectively with others in cooperative groups.

C. Academic Performance

Discovery II has developed grade level benchmark assessments in reading, writing, and math. These assessments will be used to inform instruction and to measure student growth at the end of the year. Discovery II shall examine and refine student outcomes and performance goals over time to reflect the School’s mission, curriculum, assessments, and any changes to state standards.

Discovery II shall strive to:

- Increase the number of students performing proficient and advanced on mandated standardized tests by 1% in each of the subject areas in each year of this charter;
- 75% of the students in grades K-8 will receive a score of proficient or above on the progress report at the end of the academic year;
- Meet the annual API growth target and Adequate Yearly Progress (AYP) criteria each year; and
- Achieve a student attendance rate of at least 96.5%.

D. Methods of Assessment

“The method by which pupil progress in meeting those pupil outcomes is to be measured.” - California Education Code Section 47605.6(b)(5)(C)

To measure the progress of the students at Discovery II and ensure that the goals of the charter are being met, Discovery II will adhere to statewide standards with mandated standardized tests and conduct additional performance-based assessments. Student performance on these measures will help the School community make informed decisions about instruction and program modifications.

The following assessment approaches may be included in the School’s measurement of outcomes:

**Standardized Tests:** The School shall administer nationally norm-referenced tests required by law in the state of California. The School may also administer supplemental standardized tests as appropriate.

**MARS (Math Assessment Resource System)** Discovery II will annually participate with the Math Assessment Collaborative of Santa Clara County and administer the MARS test to all students in
the second through eighth grades. This performance-based assessment allows teachers to see where there are gaps in students’ understanding of the application of math skills and problem solving.

**Benchmark Assessments:** Benchmark assessments in reading, writing, and math are given in the fall and spring of each year. They are used as formative and summative assessments, which inform instruction and demonstrate growth over the year.

**Evidence Folder:** A systematic collection of student work collected over their school career that exhibits a student’s work and progress. Evidence folders are used to measure student progress toward and mastery of school-wide benchmarks. Evidence folders follow the student as they move from grade to grade at Discovery II.

**Portfolios:** These are maintained in the classroom to be used at student-led conferences to demonstrate growth and understanding of subject content matter. Students use the portfolios to select evidence to demonstrate their growth and areas of improvement. Portfolios will help students develop critical thinking skills by providing the opportunity for them to assess their own learning, to reflect critically and thoughtfully about their own work, to set goals for improvement, and to be aware of their accomplishments. This will provide the staff and parents with an authentic picture of the student’s progress over time, while simultaneously giving information for future instruction and student needs.

**Developmental Reading Assessment (DRA):** Authentic assessment of children’s reading skills in context will be completed by teachers. Students read books to determine their instructional reading level. The students then receive a reading level designation based on their degree of fluency, accuracy, comprehension, and critical thinking.

**Journals:** Student journals are used to reflect the student’s own performance in academic areas and their use of the critical thinking skills.

**Projects:** Elementary and middle-school students complete projects that represent a cumulative show of the student’s learning. These may be written and oral and may include the use of various media. Eighth grade students will work with advisors to complete their exit projects. Rubrics indicate students’ mastery of skills.

**Teacher observations and documentation:** Teachers document student work and work habits in the classroom, noting skills that are mastered and those requiring continued instruction. Included in these observations are the student’s attitudes and social behaviors.

**Teacher-designed assessments:** Teachers design appropriate tasks that measure understanding and mastery of grade level concepts on an ongoing basis. Data from these assessments will also be used by teachers to continue to design instruction and refine teaching strategies.

Student progress towards skill mastery is documented twice yearly using standards-based progress reports. Parent-teacher conferences are held twice a year and more often as needed. At Discovery II we believe student-led conferences are educationally meaningful for students and an extremely informative format for parents to learn about their child’s goals and progress. Therefore the teacher and family meet together to give the student an opportunity to discuss their progress with their parents.

- Students direct the conference
- Students share evidence which best represents his/her growth to date
• Sharing of work is part of the learning process for the student
• Students, parents, and teachers set goals

The majority of the conference is spent reviewing and discussing the student’s work samples, celebrating accomplishments, and setting goals. These goals are designed so that everyone is involved in the student’s learning. Additionally, each teacher has an opportunity to provide the family with information about their student’s progress.

### E. Use and Reporting of Data

The assessments are designed to align to the mission, exit outcomes, and the curriculum. See Attachment 10: Sample Curriculum for sample assessments. Discovery II collects annual data from the assessments listed above and utilizes the data to identify areas for improvement in the educational program. The School develops an annual performance report based upon the data compiled. The report shall also include:

• Summary data showing student progress toward the goals and outcomes from assessment instruments and techniques as described in this section and an analysis of whether student performance is meeting the outcomes specified by this section. This data will be displayed on both a Charter school-wide basis and disaggregated by major racial and ethnic categories to the extent feasible without compromising student confidentiality;

• A summary of major decisions and policies established by the Discovery Board of Directors during the year, data on the level of parent involvement in the School’s governance (and other aspects of the school, if applicable), and summary data from an annual parent and student satisfaction survey;

• Data regarding the number of staff working at the School and their qualifications;
• A copy of the School’s health and safety policies and/or a summary of any major changes to those policies during the year;

• Information demonstrating whether the School implemented the means listed in the Charter to achieve a racially and ethnically balanced student population;

• An overview of the School’s admissions practices during the year and data regarding the number of students enrolled, the number on waiting lists, and the number of students expelled and/or suspended;

• Analyses of the effectiveness of the School’s internal and external dispute mechanisms and data on the number and resolution of disputes and complaints; and

• Other information regarding the educational program and the administrative, legal, and governance operations of the School relative to compliance with the terms of the Charter.

The School uses the information compiled in the annual performance report to evaluate and improve upon its educational programming as necessary.

Discovery Charter Schools and the Santa Clara County Office of Education have jointly developed an annual site visitation process and protocol to enable the Office of Education to gather information needed to confirm the school’s performance and compliance with the terms of this charter. Discovery II looks forward to implementing a similar arrangement for the County’s site visits to schools operated under this charter.

Discovery II anticipates that the County Office of Education will agree to receive and review the annual programmatic report of Discovery II and within two months of receipt of the annual review, the County Office of Education will notify the Discovery Charter School Board as to whether it considers the school to be making satisfactory progress relative to the goals specified in this charter. This annual notification will include the specific reasons for the County Office of Education’s conclusions regarding its assessment of the annual programmatic report of Discovery II.

Mediation shall occur before a mutually agreeable mediator who is skilled in the interest-based approach to mediating disputes in the public school setting. The format of the mediation session shall be developed jointly by the County representative and the Superintendent/Executive Director, and shall incorporate informal rules of evidence and procedure unless both parties agree otherwise. Each party shall bear its own costs and expenses related to the mediation. The mediator’s fees and the administrative fees of the mediation shall be shared equally among the parties. Any recommendations of the mediator shall be non-binding, unless the Board of Discovery Charter School and the County jointly agree to bind themselves.

If mediation is not successful, then the parties agree to settle the controversy, claim, or dispute by arbitration conducted by a single arbitrator in accordance with the rules or guidelines of the American Arbitration Association. The arbitrator must be an active member of the California State Bar or a retired judge of the state or federal judiciary of California. Each party shall bear its own costs and expenses. However, any party who fails or refuses to submit to mediation shall bear all costs and expenses incurred by such other party in connection with arbitration of any controversy, claim, or dispute.

Employees of the County who resign from employment to work at Discovery II and later wish to return to the County will have no automatic rights of return to the County after employment by Discovery II unless specifically granted by the County through a leave of absence or other agreement. Discovery II employees shall have any right upon leaving the County to work in Discovery II that the County may specify, any rights of return to employment in the County after employment in the school that the County may specify, and any other rights upon leaving employment to work in Discovery II that the County determines to be reasonable and not in conflict with any law.

In addition, on December 15, a copy of the Charter School’s annual, independent financial audit report for the preceding fiscal year shall be delivered to the State Controller, State Department of Education, and the Santa Clara County Office of Education.

3. By March 15, a second interim financial report for the current fiscal year reflecting changes through January 31.

Coverage amounts will be based on recommendations provided by the LEA in which the school is housed and the Charter School’s insurer. The Charter School shall work diligently to assist the County in meeting any and all oversight obligations under the law, including monthly meetings, reporting, or other County-requested protocol to ensure the County shall not be liable for the operation of the Charter School.

ATTACHMENT 5:  A DAY IN THE LIFE OF A KINDERGARTENER

Sami is eager to get to school this morning. He wants to get to school early so that he has time to tell his teacher about the book on sharks that he checked out from the library. As he runs to the door he is happy to see that it is already open. He signs in and chats with his teacher about the book. Sami has become very interested in ocean life over the past few months because the classroom has been immersed in the study of the ocean. Much of the learning that is occurring in the classroom is centered on the ocean theme. Yesterday, the class participated in their weekly thematic centers, which integrate all the curricular areas around the ocean. The thematic centers were designed by the teacher to cover content standards and were facilitated by the teacher and parent volunteers. Sami worked in a center where he created a book about sharks, while other students built food chains, looked online to check the temperature of different oceans, and wrote math stories using ocean animals. Sami took his shark book home to read to his parents and then went to the library to get more information.

Sami’s teacher blows a train whistle and Sami puts away their projects and joins his fellow students on the rug for the morning meeting. Together they sing and sign their favorite morning song. The students sit down and the teacher announces the schedule for the day and leads them in a chant about the days of the week. As the students listen, the student of the day passes out white boards so that they can write equations for the number of the day. The teacher has students come up to share their equations and they search together for patterns in the calendar. The teacher reads a book to the class, *Swimmy*, which is part of their current author study of Leo Lionni. Sami enjoys the story, but is waiting patiently for what he knows comes next... Writer’s Workshop!

Sami is eager to write about what he has learned about sharks. The teacher gives the students a mini-lesson and the students are dismissed to write. Some of the students work on books they have already started about sea creatures, others start new ones. Some students work in their journals. Each table has a parent stationed at it to help students develop their ideas and move through the writing process. These parents have been specially trained to facilitate student writing without taking away student independence so students get exactly the right amount of support. The students in this K/1 class love to write and share their writing in the Author’s Chair with their classmates!

After Writer’s Workshop, the students move into Reading Centers. Sami is in kindergarten, but is reading above a first grade level already. He joins his reading group made up of Kindergarten and First Grade students who all read at the same instructional level. Each reading group is working with a parent or the teacher. Some groups are reading and responding to literature and one group is playing a spelling game. The room has a quiet buzz as children enjoy learning to read.

At recess, Sami hurries out to eat snack with his classmates. Sami’s family has taken their monthly turn to bring snack for the class. Sami’s mother is out at the table with the classroom snack helpers setting up the snack. Students eat community style, passing food and pouring water independently. Sami enjoys his healthy snack because his mother has brought his favorite, yogurt and fruit. As he finishes and throws his trash away, he sees his Fifth Grade reading buddy sitting nearby. He walks over and chats with his buddy, sharing a little about the sharks he read about in his book, since they were just like the ones he and his buddy were reading about together the week before. He says goodbye and runs off to find some of his classmates.

It’s Friday, and Sami runs to line up at the room next door. Sami is excited because it’s Friday Enrichment Clubs instead of the thematic literacy centers that students usually enjoy at that time. Each week the K/1
students mix and rotate through a variety of enrichment activities. Sami runs to meet his new friends from two other classes and tells them what he has been learning about sharks. Last week, Sami’s group was in the Performing Arts Enrichment Club. They learned about different kinds of music and enjoyed acting out stories about fish and did a wiggly interpretive dance. Sami always looks forward to Performing Arts, but today is his group’s day to cook! The teacher reads a book about food in Asia then goes over the giant recipe printed on the whiteboard. They are making sushi today! Groups of five students work with a parent to read the recipe, measure ingredients, mix, stir and pour. When they are done, the students clean up and then write in their cooking journals about the experience. They eat the sushi together and the teacher passes out a recipe to take home. Next door, Sami can hear the familiar music he remembers from a creative movement activity in the Performing Arts Enrichment Club. Next week, Sami’s group will visit the Art Enrichment Club facilitated by a parent trained especially in the Spectra Art program. The group has been working on a multi-media art piece inspired by the children’s artist and author, Eric Carle. Sami is trying to decide whether to display a weaving he created in the Industrial Arts Enrichment Club or his multi-media art piece inspired by Eric Carle for the upcoming art show. Either way, he can’t wait to see his work on display!

While the kindergartners at most schools go home before lunch, Sami and his kindergarten friends have a longer school day. His teacher says that is because there is so much to learn, but Sami doesn’t want to go home anyway. After lunch, the students come in to read from their own “just right” book collection, specially designed to meet each child’s reading needs. Sami’s teacher conferences with individual students and listens while they read their “just right” books. The teacher and student talk quietly then select new books to put in their book bins. It’s Sami’s turn and he has his library book about sharks. His teacher asks him to read from it and talks a little with Sami about what he has learned. She suggests that Sami might want to choose the great white shark as a topic for the animal projects students will begin later in the month. Sami thinks it might be hard to choose which shark is the most interesting!

The kindergarten bell rings and it is time to go home. Sami can’t wait until he is a first grader and gets to stay an hour longer. He hears all about what the first graders do after the kindergartners leave – writing, reading, more math – and it all sounds like fun. Sometimes they share their work with the class the next morning and it always gives Sami good ideas. Sami says good-bye. His family has plans to visit the Aquarium this weekend. Sami can’t wait to get back to school on Monday and tell everyone about what he learns there!
ATTACHMENT 6: A DAY IN THE LIFE OF A SIXTH-GRADER

Angela arrives early today for school so she has some time to chat with her friends about the dance this Friday and the sixth grade field trip they took yesterday to participate in a Ropes Course. Angela’s day begins in her homeroom. Her class is discussing Democracy, with a focus on the upcoming election. After the class learns about the process for placing a Proposition on the ballot in California, they break into small groups to draft Propositions for a future election, including pros and cons of such law, and the economic impact of each Proposition.

During math, the class breaks into small groups. Angela’s math group will be going outside today with a parent volunteer to draw a number line on the blacktop including positive and negative numbers. Angela and her friends enjoy plotting ordered pairs on the number line. Then her group moves on to another math activity supervised by a parent, in which students use a cookie recipe to create a ratio table of the ingredients if the recipe is increased or decreased, while Angela’s teacher supervises a separate group of students in another math activity.

After break, Angela’s class divides into small groups for Language Arts. Working with a parent volunteer, Angela’s group writes a review of the book, Sea of Trolls, by Nancy Farmer for the school newsletter. Another group of students is assisted by a parent in playing a card game involving idioms. Then students finish editing their essays describing the activities they liked most from yesterday’s “Cave Day”.

At first, Angela was a little surprised when she came to school and found her classroom completely dark for “Cave Day”. Soon, however, she was excited to crawl underneath the tables that were covered over with blankets to simulate caves. Angela’s favorite activity was painting pictographs on the walls of the caves. Her class also participated in different activities, from the scientific vocabulary and different formations of caves, the location of caves around the world, the importance of caves in the ecosystem, and the inhabitants of caves throughout history and in current times. As students explored these topics, they completed an assignment in their History Alive Interactive Notebooks.

Tomorrow, Angela and the other students will continue to rehearse for their presentation of the play “Who Was the Piltdown Man?” They will also map the migration of early hominids, and attempt to put fossils together to form a skeleton.

Angela is dismissed early today for lunch because it is her turn to help at the recycling station. After lunch and recycling, Angela hurries out to play soccer with her friends on the field.

After lunch, Angela and her friends are off to Selective classes. It was difficult for her to decide which Selective classes to take, but Angela chose two Selective classes: Service Learning, where the students are conducting a food drive, and Art, where they just completed a study of M.C. Escher and created tessellations.

Every other day, Angela takes P.E. and Spanish during the Selective periods. Next term, she will choose from a wide variety of Selective classes – Dance, Technology, Math Tutorial, Drama, Junior Achievement, Fitness, Native Art and Culture, or Communication.
Since Math is her favorite subject, Angela is enrolled in Math Club after school. Next semester, she might choose a different After School Enrichment – possibly acting, art, music, or chess. For now, Angela is focused on finishing her class projects and homework so she can go to the movies with her friends this week-end.

Parent Involvement* in the Education of
Their Children

REFERENCES

HISTORICAL NOTES

A critical dimension of effective schooling is parent involvement. Research has shown conclusively that parent involvement at home in their children’s education improves student achievement. Furthermore, when parents are involved at school, their children go farther in school, and they go to better schools.

From research studies to date, we have learned the following important facts:

1. Families provide the primary educational environment.
2. Parent involvement in their children’s education improves student achievement.
3. Parent involvement is most effective when it is comprehensive, supportive, long-lasting, and well-planned.
4. The benefits of parent involvement are not limited to early childhood or the elementary level; there are continuing positive effects through high school.
5. Involving parents in supporting their children’s education at home is not enough. To ensure the quality of schools as institutions serving the community, parents must be involved at all levels in the schools.
6. Children from low-income and culturally and racially diverse families have the most to gain when schools involve parents. The extent of parent involvement in a child’s education is more important to student success than family income or education.
7. We cannot look at the school and the home in isolation from one another; families and schools need to collaborate to help children adjust to the world of school. This is particularly critical for children from families with different cultural and language backgrounds.

Schools that undertake and support strong comprehensive parent involvement efforts are more likely to produce students who perform better than identical schools that do not involve parents. Schools that have strong linkages with and respond to the needs of the communities they serve have students who perform better than schools that don’t. Children who have parents who help

* “Parent involvement” refers to the efforts of any caregiver who assumes responsibility for nurturing and caring for children, including parents, grandparents, aunts, uncles, foster parents, stepparents, etc. Many schools are now using the alternative term “family involvement.”

them at home and stay in touch with the school do better academically than children of similar
skill and family background whose parents are not involved. The inescapable fact is that
consistent high levels of student success are more likely to occur with long-term comprehensive
parent involvement in schools.¹

The California State Board of Education recognizes that a child's education is a responsibility
shared by school and family during the entire period the child spends in school. Although
parents come to the schools with diverse cultural backgrounds, primary languages, and needs,
they overwhelmingly want their children to be successful in school. School districts and schools,
in collaboration with parents, teachers, students, and administrators, must establish and develop
efforts that enhance parent involvement and reflect the needs of students and families in the
communities which they serve.

To support the mission of California schools to educate all students effectively, schools and
parents must work together as knowledgeable partners. All of the grade level reforms, Here
They Come, Ready or Not!, It's Elementary, Caught in the Middle, Second To None, and other
major initiatives such as Healthy Start (SB 620) and School Restructuring (SB 1274), emphasize
parent and community involvement in school restructuring. The reform efforts support school
based shared decisionmaking at the school site that includes all stakeholders, including teachers,
administrators, students, parents, and other community members.

The State Board of Education will continue to support, through the California Department of
Education, assistance to school districts and schools in developing strong comprehensive parent
involvement. Comprehensive means that parents are involved at all grade levels in a variety of
roles. The efforts should be designed to:

1. Help parents develop parenting skills to meet the basic obligations of family life and
   foster conditions at home which emphasize the importance of education and learning.
2. Promote two way (school-to-home and home-to-school) communication about school
   programs and students’ progress.
3. Involve parents, with appropriate training, in instructional and support roles at the school
   and in other locations that help the school and students reach stated goals, objectives, and
   standards.
4. Provide parents with strategies and techniques for assisting their children with learning
   activities at home that support and extend the school's instructional program.
5. Prepare parents to actively participate in school decisionmaking and develop their
   leadership skills in governance and advocacy.
6. Provide parents with skills to access community and support services that strengthen
   school programs, family practices, and student learning and development.

¹ Henderson, Anne T. and Nancy Berla, A New Generation of Evidence: The Family is Critical to Student
These six types of parent involvement roles require a coordinated schoolwide effort that has the support of parents, teachers, students, and administrators at each school site. Furthermore, research indicates that home-school collaboration is most likely to happen if schools take the initiative to encourage, guide, and genuinely welcome parents into the partnership. Professional development for teachers and administrators on how to build such a partnership is essential.

The issue of parent involvement in the education of their children is much larger than improving student achievement. It is central to our democracy that parents and citizens participate in the governing of public institutions. Parent involvement is fundamental to a healthy system of public education.
Memorandum

To: Marta Reyes
Charter Schools Division

From: Michael Hersher
Deputy General Counsel

Date: February 9, 2006

Subject: Parent participation as charter school admission requirement

You have requested a legal opinion whether a charter school may require a parent to sign an agreement to perform certain hours of work for the benefit of the charter school, as a condition of admitting a student to the school. In my opinion, such a requirement is within the discretion of a charter school and does not prevent an authorizing entity from approving the charter.

With regard to who may enroll in a charter school, the Charter School Act has several provisions that refer to “admission requirements” and others that refer to “admission preferences.” The distinction appears to be that a “requirement” applies to an individual student’s eligibility to apply at all, while a “preference” allows certain categories of students to compete with each other when there are more applicants than spaces in the school. After applying the allowable preferences, if there are still more applicants than spaces, charter schools are authorized to conduct lotteries to select students for enrollment.

Education Code section 47605(b)(5)(H) states a charter petition must include a reasonably comprehensive description of the “admission requirements, if any.” This provision implies that a charter school may set reasonable limitations on which students may apply for admission. Section 47605(d)(2)(A), however, says “a charter school shall admit all pupils who wish to attend the school.” That provision seems to conflict with the previously quoted section in suggesting that all pupils are eligible to be admitted without limitation. It also conflicts with, or is limited by, the various preferences that charter schools may allow that limit the duty to “admit all pupils who wish to attend.” In order to harmonize these provisions of the overall statutory scheme, it seems reasonable to interpret Section 47605(d)(2)(A) as requiring that charter schools admit all students, regardless of residence, who meet the lawful criteria for admission and/or preference stated in the petition.

In terms of the criteria that are not lawful, Section 47605(d)(1) states a charter school’s admission policies must be nonsectarian, may not require tuition, may not discriminate on the basis of ethnicity, national origin, gender, or disability, and may not be based on the residence of the parents or guardians. However, specific preferences are allowed for pupils currently attending a converted charter school, pupils who reside within the attendance area of the former attendance area of that converted school, and pupils who reside in the school district of the converted school. In addition, a
charter school that is not a conversion school may also give preference to pupils from the school attendance area in which the charter school is located, if the public school in that area has more than 50 percent pupils eligible for free and reduced price lunches based on family income. (Educ. Code sec. 47605.3.)

In conclusion, the Charter School Act does not expressly address the issue of parent participation requirements for admission to a charter school. Parent participation is not one of the expressly prohibited criteria for admission or preference and is a factor that is relevant, if not integral, to the educational goals and philosophy of a charter school. Given the flexibility that was intended by the Charter School Act and the number of statutory limitations on admission that are already permitted, it is my opinion that a charter petition may lawfully include reasonable admission criteria, including a requirement that parents agree to do work for the charter school.

Beliefs about Writing

At Discovery Charter School, we believe:

★ class time is spent writing original pieces:
  • for real purposes and audiences
  • with instruction and support for all stages of writing: prewriting (organizing thoughts through graphic organizers), drafting, revising, editing, conferencing and publishing

★ student ownership and responsibility for writing are taught by:
  • helping students choose their own topics and goals for improvement
  • using brief conferences with teacher, parent, or peer
  • teaching students to examine their own craft and conventions

★ teachers model and share writing as a fellow author through drafting, revising, and sharing

★ students learn grammar and mechanics in the context of mentor texts and original writing

★ young writers are encouraged to use inventive spelling throughout the writing process

★ older students are encouraged to use inventive spelling in the early stages of the writing process (prewriting, drafting and revision)

★ teachers create a supportive classroom setting by:
  • valuing students’ ideas
  • using collaborative small-group work
  • using conferences and peer critiquing

★ students write across the curriculum, when appropriate

★ students write in different genres:
  • narrative
    - personal/memoir
    - descriptive
  • expository
    - informational (all about . . ., report, biography, etc.)
    - functional (letters, emails, lists, how to’s, etc.)
    - persuasive
    - response to literature
  • poetry

★ evaluation is constructive and involves:
  • brief, informal, oral responses as students work
  • encouragement of risk taking and honest expression
  • focus on a few errors at a time
  • assessment of on-demand writing
  • thorough grading of just a few polished papers
  • cumulative review of growth and self-evaluation
Beliefs about Mathematics

At Discovery Charter School we believe

- math curriculum follows a clear scope and sequence within each grade level
- mathematics is comprised of conceptual, skill based, and abstract elements; there is a developmental progression that moves from concrete (hands-on) to abstract thinking and problem solving
- instruction is differentiated according to ability and learning style; the individual needs of students are met with tiered instruction and extra support
- assessment should be formative, on-going and embedded into learning and instruction
- math learning and instruction should be guided by purposeful content and goals that:
  - make meaningful connections to real life
  - are integrated with other content areas
  - are relevant and applied
  - develop critical thinking.
- students need to be able to articulate how they approach solving problems; they may use words (written or oral), pictures and/or numbers to demonstrate understanding
- it is crucial to give students time to develop and understand how numbers work together, but once that understanding develops, students must strive for fluency with math facts in order to become proficient in higher order mathematical computation
- students discover mathematical rules
- students need many opportunities for individual practice
- students should use manipulatives at all levels to solve problems
- students need to develop their math vocabulary
- students demonstrate their knowledge through daily practice, projects, activities and a variety of assessments
- parents working with groups of students are an integral part of math learning and instruction
- meaningful resource materials for parents are important for a positive home and school connection

ATTACHMENT 11: PLAN FOR STUDENTS WHO ARE ACADEMICALLY HIGH ACHIEVING

Gifted Categories

The Discovery Gifted Program addresses categories that include:

1. **General intellectual ability**: Students possessing superior intellectual ability who need and can profit from specially planned educational services beyond those normally provided by the standard school program.
2. **Specific academic aptitude**: Students who have superior ability in a specific academic area to the extent that they need and can profit from specially planned educational services beyond those normally provided by the standard school program.
3. **Leadership ability**: Students possessing leadership ability who not only assume leadership roles, but also are accepted by others as a leader, to the extent that they need and can profit from specially planned educational services beyond those normally provided by the standard school program.

Identification process

The identification process for the Discovery Gifted Program relies on multiple criteria, including cognitive abilities, academic achievement, learning characteristics, and behaviors. Additionally, it looks for inputs from multiple sources, which may include the present and past classroom teachers, special subject teachers, counselors, parents, peers, or the students themselves.

The following describes the identification process for the Discovery Gifted Program:

1. **Automatic Pathways**
   a. To ensure equitable access to the Discovery Gifted Program, formal assessment will be given to all students who are recommended by their teacher or parents in the 1st grade.
   b. Students in 3rd grade who have CST scores greater than 450 in math or language arts and are not yet in the Discovery Gifted Program will be given the formal assessment.
   c. The formal assessment will also be given to students who join Discovery in subsequent grade levels provided they have CST scores greater than 450 in math, language arts, or science.

**Individualized GATE Plan (IGP)**

A GATE Study Team meeting will be held with appropriate staff and parent(s) or guardian(s) in attendance, and the identified GATE student. The team will assess the student’s needs, recommend gifted service options, and develop the IGP.

The IGP is a written plan that contains specific and detailed program modifications that will be needed to continue the gifted student’s academic progress and talent development, while meeting their social and emotional needs. The goals of the IGP are to achieve the following:

1. To promote academic progress
2. To remediate academic weaknesses
3. To enhance psychological adjustment
4. To provide socialization opportunities

To achieve the above goals, the following information will be included in the IGP:
1. Identification of strong subject areas, and subject areas chosen to provide advanced study.
2. Identification of the student’s learning strengths, learning preferences, personality characteristics, and in-school and outside interests.
3. Activities detailing instructional management and delivery, curriculum differentiation (see “Guidelines on Differentiation”), and acceleration (see “Guidelines on Acceleration”), including the persons responsible for implementing and monitoring the progress.
4. Actions needed to remediate any weaknesses or issues that the student may have, including academic, social, emotional, or motivational.
5. Provisions for psychological and social adjustment for meeting social and emotional needs of the gifted students. This may include enrichment, pull-out programs during school time, and/or after-school enrichment activities that allow group interaction with other gifted students.

The student’s progress will be reviewed annually to determine if the service is still an appropriate match, or if other modifications need to be provided.

**DISCOVERY GIFTED PROGRAM SERVICES**

The following Gifted Program Services will be available in conjunction with other differentiation strategies such as flexible grouping, tiered lessons/activities and a high level of questioning strategies that are currently practiced at Discovery.

1. Acceleration
   Acceleration is a curricular option that allows a student to progress through school at a faster than usual rate/or younger than typical age. It allows curriculum matching to the student’s ability.

Several forms of acceleration may be considered for an individual student, including:

**Content-based Acceleration**
- *Subject acceleration*, where a student is promoted to a higher level or grade for one or more subjects in which they excel.
- *Curriculum compacting*, a differentiation strategy that allows students who have already mastered parts of the curriculum to move on, work on alternate activities, and learn new things.
- *Dual enrollment*, where a student is allowed to enroll in higher level coursework when proficiency at grade level has been mastered. Dual enrollment may be available through a local public high school or approved online courses.

**Grade-based Acceleration**
- *Whole-grade acceleration/grade skipping*, where a student is promoted to a higher level for all subjects.
- *Grade Telescoping*, where a student is accelerated through more than one year’s curriculum within one year in all academic areas.
- *Radical acceleration*, where highly or profoundly gifted students skip several grades, or experience several forms of acceleration during their school years.

2. **Clustering in Heterogeneous Classrooms**
Cluster grouping of gifted students places a group of five or more gifted learners at a grade level with a Discovery classroom teacher who has been trained to work with the gifted, while the remainder of the teacher’s load includes a normal distribution of abilities. This model of grouping is one of the most effective ways to meet both the academic and social-emotional needs of the gifted on a daily basis. Clustering allows the teacher to spend a proportionate amount of instructional effort and curriculum
development time on the gifted cluster, which may not be possible when the classroom contains only one or two gifted students, and allows gifted students to learn from and be enriched by each other.

3. **Content and Curriculum Modification**
   Identified GATE students will be provided appropriate curriculum in subjects of strength throughout the school day. Such curriculum includes advanced curriculum and multidisciplinary learning.

4. **Enrichment Pull-out Program**
   An appropriate enrichment pull-out program will be developed by the Curriculum Specialist in collaboration with classroom teachers as a supplementary program and extension of the differentiated curriculum in the regular classroom. In Middle School, the enrichment pull-out group will be available as special Selective classes.

5. **Other Programs: Independent Study/Project, Mentoring, National Creativity Programs, and Talent Exhibition/Competition**
   The student may initiate an independent study or project in subject(s) of strength. The classroom teacher, with the help of the Curriculum Specialist, may set up mentorship if needed.

6. **Advisory**
   The Curriculum Specialist and Discovery Gifted Parent Support group will provide information and advise students on talent searches, scholarship, and academic competition, as well as advanced courses that are available through academic summer programs for the gifted.

---

**Training and Staff Development**

The first step to meeting the needs of gifted students is to build awareness and understanding among teachers, staff, and parents. The Discovery Gifted Program will seek opportunities for staff development, which may include workshops, seminars, webinars, and gifted conferences.

Discovery teachers will be encouraged to obtain certification in teaching the gifted.

**Social-Emotional Curriculum**

As a Positive Discipline school, Discovery Charter School since its inception has always been dedicated to educating and nurturing the whole child. However, due to the unique characteristics of the gifted students and the potential social and emotional issues that may arise from their giftedness, the Discovery Gifted Program will integrate the social-emotional learning that applies specifically to the gifted students into the daily curriculum. Additionally, there may be a separate Social Emotional Learning (SEL) instruction for the gifted students.

The goals of Social-Emotional Curriculum are as follows:

1. To help the gifted students learn and accept their over excitabilities and to help them develop strategies in modulating the expressions of their over excitabilities.
2. To promote positive achievement attitude and to promote growth mindset.
3. To build resiliency in gifted students.

The school forms the core of students’ daily social and academic experiences. These every day experiences, in turn, play a critical role in the students’ social and emotional adjustment. At Discovery under the direction of the teachers, parents interact with all the students, including the gifted, on a daily basis as aides in the classroom. In order to ensure a positive environment, the Discovery Gifted Program with the help of the
Gifted Parent Support group, will provide workshops to help parents understand the social and emotional aspects of the gifted children.

Discovery Charter School
San Jose, California

Students
Board Policy

IDENTIFICATION, EVALUATION AND EDUCATION UNDER SECTION 504

The Governing Board of the Discovery Charter Schools (“Discovery”) recognizes the need to identify and evaluate students with disabilities in order to provide them with a free, appropriate public education and its legal responsibility to ensure that “no qualified person with a disability shall, solely by reason of her or his disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.” This policy and the related administrative regulation has been developed to ensure the implementation of Section 504 of the Rehabilitation Act of 1973 (“Section 504”), and its implementing regulations as amended, which pertains to public schools. The intent is to ensure that all students with disabilities, who are eligible under section 504, are identified and evaluated and have access to a free, appropriate public education (“FAPE”).

Under Section 504, individuals with physical or mental impairments that substantially limit one or more major life activities, including learning, are entitled to receive regular or special education and/or related aids and services designed to meet their individual needs as adequately as the needs of nondisabled students are met. Students may be disabled and entitled to services under section 504 even though they are not eligible for services pursuant to the Individuals with Disabilities in Education Act Improvement Act of 2004 (“IDEIA”). The identification, evaluation and education of students eligible for services under the IDEA are addressed under the policies and procedures of the Santa Clara County Office of Education.

The Superintendent/Executive Director shall ensure that this policy and set of procedures is implanted and followed. Whenever there is reason to believe that, because of a disability, a student needs regular or special education and/or related aids and services (and the student has not been found eligible under IDEA) that student will be evaluated under this policy’s administrative regulation.

A Section 504 Team will be convened to determine the student’s need for regular or special education and/or related aids and services. The 504 Team will include persons knowledgeable about the Section 504 standards, the student’s individual needs and school history, the meaning of evaluation data, and placement options. The student’s parent/guardian shall be invited to participate in this 504 Team and shall receive notice of procedural safeguards guaranteed by law. If Discovery does not assess a student after a parent has requested an assessment, Discovery shall provide notice of the parent’s/guardian’s procedural safeguards.

If the student, due to disability, is found to require regular or special education and/or related aids and services under Section 504, the Section 504 Team shall develop a 504 plan for the provision of such services to the student. The student shall be educated with nondisabled students to the maximum extent appropriate to the student’s individual needs. The student’s parent/guardian shall be provided a copy of the 504 plan and shall receive notice of procedural safeguards guaranteed by law. Discovery shall periodically review the student’s progress and placement.

Discovery will implement this policy through its corresponding Procedure.
A. Definitions

1. **Academic Setting** – the regular, educational environment operated by the Discovery Charter School (“Discovery”).

2. **Individual with a Disability under Section 504** – An individual who:
   a. has a physical or mental impairment that substantially limits one or more major life activities;
   b. has a record of such an impairment; or
   c. is regarded as having such an impairment.

3. **Evaluation** – procedures used to determine whether a student has a disability as defined within, and the nature and extent of the services that the student needs. The term means procedures used selectively with an individual student and does not include basic tests administered to, or procedures used with, all students in a school, grade or class.

4. **504 Plan** – is a plan developed to identify and document the student’s needs for regular or special education and related aids and services for participation in educational programs, activities, and school-sponsored events.

5. **Free Appropriate Public Education (“FAPE”)** – the provision of regular or special education and related aids and services that are designed to meet the individual needs of persons with disabilities as adequately as the needs of persons without disabilities are met.

6. **Major Life Activities** - Functions such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning and working.

7. **Physical or Mental Impairment** –
   a. Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory; including speech organs; cardiovascular; reproductive; digestive; genitor-urinary; hemic and lymphatic; skin; and endocrine; or
   b. Any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities.

8. **504 Coordinator** – Each Director, shall serve as his/her site’s Section 504 coordinator. The parents or guardians may request a Section 504 due process hearing from, or direct any questions or concerns to the 504 Coordinator at 408-243-9800.

B. Referral, Assessment and Evaluation Procedures

1. Discovery will evaluate any student who, because of disability, needs or is believed to need regular or special education and/or related aids and services.

2. A student may be referred by anyone, including a parent/guardian, teacher, other school employee or community agency, for consideration as to whether the student qualifies as a student with disabilities under Section 504. Requests for evaluation shall be made in writing, and a copy of said request will remain in the student’s file regardless of the final determination.
This referral should be made to the Section 504 Coordinator who will convene a 504 Team. Any requests made to another Discovery employee will be forwarded to the Section 504 Coordinator.

3. Discovery has the responsibility to ensure that students with disabilities are evaluated. Therefore, it is important that students who are or may be disabled are referred to the Section 504 Coordinator so that the assessment process is initiated.

4. The 504 Team convened by the Section 504 Coordinator will be composed of the student’s parents/guardians and other persons knowledgeable about the student (such as the student’s regular education teachers), the student’s school history, the student’s individual needs (such as a person knowledgeable about the student’s disabling condition), the meaning of evaluation data, the options for placement and services, and the legal requirements for least restrictive environment and comparable facilities.

5. The 504 Team shall promptly consider the referral and determine what assessments are needed in all suspected areas of disability to evaluate whether the student is a student with a disability under Section 504 and what special needs the student may have. The decision regarding what assessments shall be undertaken shall be based on a review of the student’s school records (including academic, social and behavioral records), any relevant medical records, and the student’s needs. Students requiring assessment shall be provided appropriate assessments administered by qualified assessment specialists.

6. The 504 Team will consider the following information in its evaluation of the student:
   a. Tests and other evaluation materials that have been validated for the specific purpose for which they are used and are administered by trained personnel;
   b. Tests and other evaluation materials including those tailored to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient; and
   c. Tests are selected and administered so as to best ensure that, when a test is administered to a student with impaired sensory, manual, or speaking skills, the test results accurately reflect the student’s aptitude or achievement level or whatever factor the test purports to measure, rather than reflecting the student’s impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure.)

7. The evaluation of the student must be sufficient for the 504 Team to accurately and completely describe: (a) the nature and extent of the disabilities; (b) the student’s special needs; (c) the impact upon the student’s education; and (d) what regular or special education and/or related aids and services are appropriate to ensure that the student receives a free appropriate public education. All significant factors relating to the learning process for that student, including adaptive behavior and cultural and language background, must be considered. The evaluation may include, but is not limited to, classroom and playground observation, performance-based testing, academic assessment information, and data offered by the student’s teachers and parent/guardian.
8. The parents/guardians shall be given an opportunity in advance of 504 Team meetings to examine assessment results and all other relevant records.

9. If a request for evaluation is denied, the 504 Team shall inform the parents/guardians in writing of this decision and of their procedural rights as described below.

C. 504 Plan

1. When a student is identified as disabled within the meaning of Section 504, the 504 Team shall determine what, if any, services are needed to ensure that the student receives a free, appropriate public education (“FAPE”).

2. The 504 Team responsible for making the placement decision shall include the parents/guardians and other persons knowledgeable about the child, the meaning of the evaluation data, and the placement options.

3. For each identified disabled student, the 504 Team will develop a 504 Plan describing the student’s disability and the regular or special education and/or related aids and services needed. The Plan will specify how the special education and/or related aids and services will be provided to the disabled student and by whom. The 504 Plan will also identify the person responsible for ensuring that all the components of the Plan are implemented.

4. The student’s teacher and any other staff who are to provide services to the student or who are to make modifications in the classroom for the student shall be informed of the services or modifications necessary for the student and, if appropriate, provided a copy of the 504 Plan. A copy of this plan shall be kept in the student’s cumulative file in a manner that limits access to those persons involved in the 504 process and/or the provision of services and modifications.

5. The disabled student shall be placed in the regular education environment unless it is demonstrated that the student’s needs cannot be met in the regular education environment with supplementary aids and services. The disabled student shall be educated with students who are not disabled to the maximum extent appropriate to his/her individual needs.

6. The referral, assessment, evaluation and placement process will be completed within a reasonable time. It is generally not reasonable to exceed 50 school days in completing this process.

7. ATTACHMENT 24:  EMPLOYEE DEVELOPMENT PLAN

PLAN FOR THE DEVELOPMENT OF FACULTY AND STAFF

We believe that schools are only as strong and effective as their teaching faculty. One of our core goals at Discovery Charter Schools is to establish a culture of continuous learning not only for our students and parents, but for our staff as well. Teachers will collaborate to create curriculum and assessments and will be guided by professional development plans created jointly with administrators. In order to achieve this goal, teachers must be granted autonomy, while being supported and coached by administrators whose primary focus is student achievement. A leadership team, which includes grade level representatives, will meet monthly with the Director to plan grade level and staff meetings and address issues involving many aspects of school planning. Shared decision-making and consensus building are valued and inherent parts of our culture.

Discovery will implement a Professional Development Day before each school year begins. During the Professional Development Day teachers will work together to refine curriculum, create assessments, and define focus areas for the school year based upon the past year’s student achievement data and parent survey results. In addition, teachers will have opportunities to attend workshops and conferences that are aligned with the school’s goals and their professional development growth goals.

The school schedule and budget will support teacher learning by providing:

- A budget for each teacher to use on their own professional development during the school year;
- Weekly grade level and cross grade level meetings where staff will collaborate on curriculum, assessments, and teaching methods;
- Monthly staff meetings designed to discuss the latest research-based educational strategies and maintain a professional learning community among all Discovery staff; and
- A professional resource library and membership in a variety of professional organizations.

**How Does Professional Development Enhance our Mission?**

**Meeting the Needs of the Whole Child**

Each teacher will be provided the time and resources to adapt and develop their instruction to meet the needs of their diverse student population.

**Teacher Observations**

The Director, using both formal and informal observations, will observe all faculty on an ongoing basis. Informal observations can occur during any instructional time and will include a post-observation conference. Formal observations will include a pre-observation conference as well as a post-observation conference. The pre-observation conference may be conducted in person or through written communication. We further recognize and agree that such participation is an integral component of Discovery’s educational philosophy and program and is necessary for the successful functioning of Discovery’s educational program.

1. To ensure that the developmentally-based small group learning environment of the Discovery program can be effectively implemented, we agree that we will participate in a regularly scheduled shift of up to two (2) hours per week per child (with a maximum of 6 hours per family). In the event of family needs such as pregnancy, family emergency, or illness, an accommodation may be negotiated with the Director.

2. To ensure that we will be effective partners as classroom aides and on yard duty we will attend the mandatory Positive Discipline class held at Discovery. This requirement is a one time only training and is required for all new families.

3. To ensure that we will be effective partners in our child’s education at Discovery we understand that we are required to, and will, attend all Parent Academy sessions, including all classroom parent meetings (PA101, PA102).

ATTACHMENT 27: PUBLIC RANDOM DRAWING POLICY

DISCOVERY CHARTER SCHOOL

Board Policy: BP120711.1
Approved: 11 July 2012
Title: Admissions Drawing to Determine School Placement

Applicability

This policy applies to all qualified applicants, as defined in the application packet, to Discovery Charter School (Discovery) during the Open Enrollment Period.

Policy Statements

1. If the number of students applying for any grade exceeds the expected capacity for that grade, an admissions drawing shall be conducted for the Open Enrollment Period applicants for the oversubscribed grades by an independent outside party to determine school placement. The date and location of the public random drawing will be posted on the Discovery website and in the school office.

2. The expected number of classes and class size for each grade will be specified by the Board and announced in advance.

3. Each family will be assigned a family number and each child in the family will be assigned a student number to create a child ID number. For example, the ID’s for the children of Family 001 would be 001.1, 001.2, 001.3, and so on.

4. An “Applicant List” shall be prepared. Each applicant on the list will be assigned a Drawing ID in the following format:

Preference Group – Grade – Family# . Student# – Last name . First name

For example:  A – K – 001.1 – Smith.John
            B – 2 – 003.1 – Jones.Michael
            C – 4 – 007.1 – Chavez.Emilio
            C – 6 – 007.2 – Chavez.Maria

Detailed explanation of each Drawing ID element:

Preference Group

Enrollment preferences shall be given in the following order:

Year 1:

E. Founding Families
F. Children of paid Discovery staff
G. Residents of County/District  
H. All other California residents

Year 2:

F. Founding Families  
G. Siblings of currently enrolled students  
H. Children of paid Discovery staff  
I. Residents of County/District  
J. All other California residents

**Grade**

The grade this student is applying for. Options are: K, 1, 2, 3, 4, 5, and 6 in year one; K through 7 beginning in year two; K through 8 beginning in year three.

**Family Number & Student Number**

Family Number is a sequential number of the enrollment application, e.g. 001, 002, 003, etc. Student Number is a sequential number of the student on that enrollment application, e.g. 1, 2, 3, etc. For a family with three students applying the construct would therefore be:

001.1, 001.2, and 001.3

Family is defined as children and parent(s)/guardian(s) living at the same address.

**Last Name & First Name**

Student’s last and first name, e.g. Smith John.

5. The “Applicant List” will be certified by signatures of two Discovery Charter School Board Members. The original will be kept in the office and 5 copies will be separately mailed via US Mail to Discovery Charter School prior to the date of the public random drawing. The envelopes will remain sealed until such time as a dispute arises between a family included in the public random drawing and Discovery Charter School, or the school year ends.

6. A single drawing ticket will be created for each family. The ticket will include the Abbreviated Drawing ID for all students from that family in the following format:

Preference Group – Grade – Family# . Student#

Definitions of the Abbreviated Drawing ID elements are equivalent to the definitions of the Drawing ID elements and are listed in bullet 4.

7. Families will be informed of their Drawing ID(s) prior to the admissions drawing by email via the email address provided on the enrollment application. Families that do not have email access will be notified by US Mail.
8. Prior to commencement of the admission drawing, two Discovery Charter School Board Members shall verify that the Abbreviated Drawing ID(s) on the drawing tickets match the information on the certified “Applicant List”, and that there is a 1 to 1 correlation.

9. The tickets shall be sorted by admissions preference category.

10. The Board shall choose an independent outside party to draw the tickets.

11. The admissions drawing will be structured by preference category in the order specified in bullet 4 under the Preference Group heading.

12. For each admissions preference category, tickets shall be drawn randomly to determine placement on the relevant grade list. A number showing the order in which the ticket was drawn shall be written on the ticket.

13. As each ticket is drawn, the Abbreviated Drawing ID(s) of all children on the ticket shall be announced and sequentially added to the relevant grade list.

14. After the admissions drawing is complete, Discovery shall post the public random drawing results on the Discovery website and in the Discovery school office.

15. The public random drawing result list will be used to fill available grade level spaces. The remaining applicants on the public random drawing list will form the wait lists for each grade.

16. Families who receive offers of acceptance for available spaces in a given grade level will receive registration forms via U.S. Mail. If the completed registration forms are not returned to Discovery by the date required in the offer letter, the admission slot will be forfeited and offered to the top wait-listed student in that grade.

17. It is the parent/guardian’s responsibility to update their contact information with Discovery. Discovery shall not be responsible for failure to contact the parent/guardian of either accepted or wait-listed applicants due to expired contact information.

18. A student placed on a wait list will remain on the wait list until either:

   ▪ The student is accepted into Discovery Charter School, or
   ▪ The parent/guardian requests in writing that the student be removed from the wait list, or
   ▪ The school year ends at which time wait-listed students are transferred into an appropriate preference category pursuant to the charter.

19. In the event a situation arises that is not covered by this policy, no more than three Discovery Charter School Board Members present at the public random drawing will determine the fairest method for resolution of the issue.
ATTACHMENT 28:  ENROLLMENT AND ADMISSION PROCEDURES

Enrollment and Admission Procedures
There will be one common admission application for all Discovery Charter School sites. The Application for Enrollment document will be available from the Discovery main office and downloadable from the website. Paper copies are available at each office site, and in selected foreign languages. Each Application for Enrollment document will list every Discovery school site, requiring the family to mark the appropriate school check box to indicate the school in which the family desires to enroll their child/children.

A family may apply to more than one Discovery Charter School site. The Application for Enrollment and accompanying documentation are to be mailed or delivered to the Discovery main office. The main office will review and distribute qualified applications to the individual school site’s administration to organize and hold individual school site lotteries. A qualified application is one in which the Application for Enrollment, accompanying documentation, and qualifying meeting and tour, if required, have been completed. The Application for Enrollment packets that are received during Discovery’s Open Enrollment Period will qualify for the public random drawing. Public random drawings will be held separately for each Discovery school site, and each drawing will be run according to the Public Random Drawing Policy set by the Discovery School Board.

No transfers in any Discovery School’s initial year

In the initial year of a new Discovery II opening there will be no transfer offered to any family between sites. Should a family currently attending a Discovery Charter School wish to attend a new school in it’s first year of operation, then that family will be required to submit an Application for Enrollment as required for all new families.

Discovery Charter School will develop and adopt a transfer policy prior to the opening of the first Discovery II.
Discovery Charter School is based on developmentally appropriate teaching methods that successfully integrate the whole child with respect to individual learning styles, developmental readiness, and rates of achievement. Multi-age classrooms, small class sizes, team teaching, a high level of parent participation, and community involvement greatly contribute to developing Discovery Charter School into a world class learning community.

This school has built an educational environment where developing student achievement, building innovative programs, and engaging families and communities provide a common vision for lifelong learning and student success.

Discovery’s innovative programs are designed to accommodate the diverse needs of all students, including those who are historically underachieving or academically disadvantaged, to challenge and engage students to master state academic content, and to meet or exceed state achievement standards.

Discovery Charter School services grades K-8, and already has a proven program with an API ranking of 900+ in the first two years of operation. The school succeeds for various reasons. Many parents feel that there are not enough choices in education. There is a strong feeling in the surrounding community that an alternative a public school offering, (independent of neighborhood designation and responsive to family needs) is just what is needed. (Reference: Seven Characteristics Present in Most Good Schools) Discovery offers an alternative to the cookie-cutter approach of the traditional public school system. With the current shape of the State’s economy many parents have indicated that, why they do not like the public school offerings, they cannot afford private school; therefore, Discovery Charter School is a strong choice. Discovery offers the price of public school with a private school type education: the combination of the best of two worlds. (Reference: School Of Choice Benchmarks)

In our research we have also found that while many parents are often comfortable enrolling their younger children in their neighborhood elementary school, they become nervous about their local middle school and start researching alternatives. We believe, and research supports, that early adolescence represents a critical transition in children’s lives, and these young people ages 11-14, need a learning environment specially designed to meet the challenges and potential of the middle years. Adolescence is one of the exciting periods of intellectual, physical, social, and emotional development in the human life span. We feel traditional middle school models do not adequately address these challenges.

The State of California revenues provide for bare bones necessities at the public schools, therefore enrichment programs are either cut or scaled back. While parents wish to have their children do well academically, they also wish for their children to be exposed to a variety of enrichments that these days most public schools just don’t have. The parent participation model and pledge drive support from the Discovery families enables the
program to offer a wide range of enrichments that are integrated for a maximum learning experience. So while parents may first be interested in Discovery for the API scores, many parents are then interested in the variety of enrichments and other offerings for their children. *(Reference: What Parents want in a School - Characteristics)*

Finally some families are looking for more than just a school. They are searching for a community of teachers, students, and parents that can support each individual child or a family in need. They wish to have input into policies and programs, to be part of something of value – to be heard.

Discovery is a Santa Clara County Charter school located within the boundaries of the Moreland School District. Discovery concentrates their marketing efforts within an 8-10 mile radius. However, word of mouth concerning the program gets around. Currently Discovery families come from as far south as Morgan Hill, and as far north as Los Altos and Milpitas. The school’s history shows that if the program is right for the child and right for the family – they will come.

**Marketing Discovery as a School of Choice**

It is extremely important to market Discovery. If public education is to survive and continue, it is necessary to have the support of the public, and Discovery is no exception. It is essential to communicate with the surrounding community. Communication leads to understanding. The questions one should ask concerning Discovery are:

1. If choice became a reality would Discovery be my school of choice?
2. Would I send my child, grandchild, niece/nephew to Discovery?
3. Is Discovery’s teaching team equal to or better than the competition?
4. Are Discovery’s “customers” satisfied?

If we at any time answer “no” then we need to make sure to take a look at the issue and make it better. Those individuals marketing for Discovery need to understand that the effort is not a one-time event. Commitment must be made in terms of people and finances. Everyone must understand that planning and marketing is an evolutionary process (but something visible needs to happen). Our organization must be flexible to adapt to changing environmental conditions, and Discovery must be customer-oriented.

To market we must:

1. Continue to stay focused on continuous improvement.

Community Outreach Plan

OBJECTIVE

Discovery is committed to recruiting and maintaining a diverse student population. Such diversity will afford our students a richer educational experience while promoting our core values of respect and community. A broad spectrum of backgrounds, cultures, and perspectives is essential to creating a school where creative thinking is valued and nurtured. It is our intention to establish a racial and ethnic balance amongst our students which is reflective of the student populations within the various School Districts of Santa Clara County.

COUNTY STATISTICS AND EXPECTED ENROLMENT

Discovery plans to open with grades K-6 in fall 2013. Expected enrollment is 382 students, based on 22 students per class K-3, and 27 students per class 4-6. For 2014-2015, two classes of 7th grade will be added, raising total enrollment to 436; for 2015-2016 two classes of 8th grade will be added bringing enrollment to 490. Discovery will strive to achieve a student population statistically similar to the enrolled student population in Santa Clara County as established below. All students will be considered for admission in accordance with California Education code 47605(d) and without regard to ethnicity, national origin, gender, or disability.

Data obtained from the California Department of Education indicates the following student enrollment demographics for Santa Clara County:

GENERAL PLAN

The Discovery Founders have established relationships with various community groups such as PACT, AACI, and Project Cornerstone, representing the Hispanic/Latino, Asian, communities and youth advocacy. We will identify opportunities to present information to parents of prospective students who might benefit from attending Discovery. These opportunities might include meetings, events, or special presentations. By aligning ourselves with community organizations, we can reach out continuously and pro-actively as we open additional schools. As our enrollment demographics become evident, we can focus outreach as needed by utilizing those established relationships.

The Discovery founders are also actively seeking opportunities to present information in various languages to libraries, community centers, businesses, and churches. Information meeting events will be conducted prior to enrollment in spring 2013. Translated materials and language support will be available to all attendees. Additional outreach measures will include, but are not limited to:

- Distribution of promotional flyers in various languages
- Attendance and participation in local cultural events, with information tables and promotional materials staffed by speakers of various languages
- Advertising and/or press releases in local and community newspapers, both in English and other languages
- Visits to pre schools, community centers, religious organizations, community organizing groups, neighborhood association meetings, and social groups to promote Discovery

Pupil Suspension and Expulsion Policy and Procedure

Board Policy #BP081512.1

Governing Law: The procedures by which pupils can be suspended or expelled—California Education Code Section 47605 (b)(5)(J) and Education Code Section 47605.6(b)(5)(J).

This Pupil Suspension and Expulsion Policy has been established in order to promote learning and protect the safety and well being of all students at Discovery Charter Schools (“School” or “Charter School”). In creating this policy, the Charter School has reviewed Education Code Section 48900 et seq. which describes the noncharter schools’ list of offenses and procedures to establish its list of offenses and procedures for suspensions and expulsions. The language that follows closely mirrors the language of Education Code Section 48900 et seq. The Charter School is committed to annual review of policies and procedures surrounding suspensions and expulsions and, as necessary, modification of the lists of offenses for which students are subject to suspension or expulsion.

When the Policy is violated, it may be necessary to suspend or expel a student from regular classroom instruction. This policy shall serve as the Charter School’s policy and procedures for student suspension and expulsion and it may be amended from time to time without the need to amend the charter so long as the amendments comport with legal requirements.

School staff shall enforce disciplinary rules and procedures fairly and consistently among all students. This Policy and its Procedures will be printed and distributed as part of the Student Handbook and will clearly describe discipline expectations.

Discipline includes but is not limited to advising and counseling students, conferring with parents/guardians, detention during and after school hours, use of alternative educational environments, suspension and expulsion.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of the Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

The Charter School administration shall ensure that students and their parents/guardians are notified in writing upon enrollment of all discipline policies and procedures. The notice shall state that these Policy and Administrative Procedures are available on request at the Superintendent/Executive Director’s office.

Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

A student identified as an individual with disabilities or for whom the School has a basis of knowledge of a suspected disability pursuant to the Individuals with Disabilities in Education Act (“IDEIA”) or who is qualified for services under Section 504 of the Rehabilitation Act of 1973 (“Section 504”) is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to regular education students except when federal and state law mandates additional or different procedures. The
School will follow Section 504, the IDEIA, and all applicable federal and state laws including but not limited to the California Education Code, when imposing any form of discipline on a student identified as an individual with disabilities or for whom the School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according due process to such students. The Charter School shall notify the District of the suspension of any student identified under the IDEIA (or for whom there may be a basis of knowledge of the same) or as a student with a disability under Section 504 and work with the District to ensure that all applicable laws related to discipline for students with be provided with the procedural protections as outlined below in this policy.

C. Suspension Procedure

Suspensions shall be initiated according to the following procedures:

1. Conference

Suspension shall be preceded, if possible, by a conference conducted by the Director or designee with the student and his or her parent and, whenever practical, the teacher, supervisor or school employee who referred the student to the Director. The conference may be omitted if the Director or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference.

At the conference, the pupil shall be informed of the reason for the disciplinary action and the evidence against him or her and shall be given the opportunity to present his or her version and evidence in his or her defense.

This conference shall be held within two school days, unless the pupil waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization.

No penalties may be imposed on a pupil for failure of the pupil's parent or guardian to attend a conference with school officials. Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil's parent or guardian at the conference.

2. Notice to Parents/Guardians

At the time of the suspension, the Director or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense committed by the student. In addition, the notice may also state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.

3. Suspension Time Limits/Recommendation for Placement/Expulsion
Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension.

Upon a recommendation of Placement/Expulsion by the Superintendent/Executive Director or designee, the pupil and the pupil's guardian or representative will be invited to a conference to determine if the suspension for the pupil should be extended pending an expulsion hearing. This determination will be made by the Superintendent/Executive Director or designee upon either of the following determinations: 1) the pupil's presence will be disruptive to the education process; or 2) the pupil poses a threat or danger to others. Upon either determination, the pupil's suspension will be extended pending the results of an expulsion hearing.

D. Authority to Expel

A student may be expelled either by the Board following a hearing before it or by the Board upon the recommendation of an Administrative Panel to be assigned by the Board as needed. The Administrative Panel should consist of at least three members who are certificated and neither a teacher of the pupil or a Board member of the School’s governing board. The Administrative Panel may recommend expulsion of any student found to have committed an expellable offense.

E. Expulsion Procedures

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the Superintendent/Executive Director or designee determines that the Pupil has committed an expellable offense.

In the event an administrative panel hears the case, it will make a recommendation to the Board for a final decision whether to expel. The hearing shall be held in closed session unless the pupil makes a written request for a public hearing three (3) days prior to the hearing.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the pupil. The notice shall include:

1. The date and place of the expulsion hearing;
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based;
3. A copy of the School's disciplinary rules which relate to the alleged violation;
4. Notification of the student's or parent/guardian's obligation to provide information about the student's status at the school to any other school district or school to which the student seeks enrollment;
5. The opportunity for the student or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor;

6. The right to inspect and obtain copies of all documents to be used at the hearing;

7. The opportunity to confront and question all witnesses who testify at the hearing;

8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

F. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses

The School may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations which shall be examined only by the School or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the pupil.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five days notice of his/her scheduled testimony, (b) have up to two (2) adult support persons of his/her choosing present in the hearing at the time he/she testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.

2. The School must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.

3. At the discretion of the person or panel conducting the hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.

4. The person conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.

5. The person conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.

6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the person presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The person conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.

7. If one or both of the support persons is also a witness, the School must present evidence that the witness' presence is both desired by the witness and will be helpful to the School. The person presiding over the hearing shall permit the witness to stay unless it is established that
there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.

8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the courtroom during that testimony.

9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in the public at the request of the pupil being expelled, the complaining witness shall have the right to have his/her testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.

10. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

G. Record of Hearing

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

H. Presentation of Evidence

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense.

Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay and sworn declarations may be admitted as testimony from witnesses of whom the Board, Panel or designee determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled pupil, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in
Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board who will make a final determination regarding the expulsion. The final decision by the Board shall be made within ten (10) school days following the conclusion of the hearing. The Decision of the Board is final.

If the expulsion hearing panel decides not to recommend expulsion, the pupil shall immediately be returned to his/her educational program.

I. Written Notice to Expel

The Superintendent/Executive Director or designee following a decision of the Board to expel shall send written notice of the decision to expel, including the Board's adopted findings of fact, to the student or parent/guardian. This notice shall also include the following:

1. Notice of the specific offense committed by the student;

2. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the School.

The Superintendent/Executive Director or designee shall send a copy of the written notice of the decision to expel to the District.

This notice shall include the following:

a) The student's name

b) The specific expellable offense committed by the student

Additionally, in accordance with Education Code Section 47605(d)(3), upon expulsion of any student, the Charter School shall notify the superintendent of the school district of the pupil’s last known address within 30 days, and shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including a transcript of grades or report card and health information.

J. Disciplinary Records

The School shall maintain records of all student suspensions and expulsions at the School. Such records shall be made available to the District upon request.

K. No Right to Appeal

The pupil shall have no right of appeal from expulsion from the Charter School as the Charter School Board’s decision to expel shall be final.

L. Expelled Pupils/Alternative Education
Pupils who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence.

M. Rehabilitation Plans

Students who are expelled from the School shall be given a rehabilitation plan upon expulsion as developed by the Board at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one year from the date of expulsion when the pupil may reapply to the School for readmission.

N. Readmission

The decision to readmit a pupil or to admit a previously expelled pupil from another school district or charter school shall be in the sole discretion of the Board following a meeting with the Superintendent/Executive Director and the pupil and guardian or representative to determine whether the pupil has successfully completed the rehabilitation plan and to determine whether the pupil poses a threat to others or will be disruptive to the school environment. The Superintendent/Executive Director shall make a recommendation to the Board following the meeting regarding his or her determination. The pupil's readmission is also contingent upon the School's capacity at the time the student seeks readmission.

O. Special Procedures for the Consideration of Suspension and Expulsion of Students with Disabilities

1. Notification of District

The Charter School shall immediately notify the District and coordinate the procedures in this policy with the District for the discipline of any student with a disability or student who the Charter School or SELPA would be deemed to have knowledge that the student had a disability who is suspended for more than ten (10) school days during a school year.

2. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment or functional analysis, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

3. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student
conduct, the Charter School, the parent, and relevant members of the IEP Team shall review all relevant information in the student's file, including the child's IEP, any teacher observations, and any relevant information provided by the parents to determine:

a) If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or

b) If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/504 Plan.

If the Charter School, the parent, and relevant members of the IEP/504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If the Charter School, the parent, and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the child's disability, the IEP/504 Team shall:

a) Conduct a functional behavioral assessment or a functional analysis assessment, and implement a behavioral intervention plan for such child, provided that the Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;

b) If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and

c) Return the child to the placement from which the child was removed, unless the parent and the Charter School agree to a change of placement as part of the modification of the behavioral intervention plan.

If the Charter School, the parent, and relevant members of the IEP/504 Team determine that the behavior was not a manifestation of the student’s disability and that the conduct in question was not a result of the failure to implement the IEP/504 Plan, then the Charter School may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

4. Due Process Appeals

The parent of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination, or the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent or the Charter school, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the forty-five (45) day time period provided for in an interim
alternative educational setting, whichever occurs first, unless the parent and the Charter School agree otherwise.

5. Special Circumstances

Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The Superintendent/Executive Director or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) days without regard to whether the behavior is determined to be a manifestation of the student’s disability in cases where a student:

a) Carries or possesses a weapon, as defined in 18 USC 930, to or at school, on school premises, or to or at a school function;

b) Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or

c) Has inflicted serious bodily injury, as defined by 20 USC 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

6. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's IEP/504 Team.

7. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to IDEIA and who has violated the School’s disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if the Charter School had knowledge that the student was disabled before the behavior occurred.

The Charter School shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

a) The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to Charter School supervisory or administrative personnel, or to one of the child’s teachers, that the student is in need of special education or related services.

b) The parent has requested an evaluation of the child.

c) The child’s teacher, or other Charter School personnel, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the director of special education or to other Charter School supervisory personnel.

If the Charter School knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the
protections available to IDEIA-eligible children with disabilities, including the right to stay-put.
If the Charter School had no basis for knowledge of the student’s disability, it shall proceed with the proposed discipline. The Charter School shall conduct an expedited evaluation if requested by the parents; however the student shall remain in the education placement determined by the Charter School pending the results of the evaluation.
The Charter School shall not be deemed to have knowledge of that the student had a disability if the parent has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

July 26, 2012

Dear Dr. De La Torre,

Discovery Charter School has operated in Santa Clara County for the past six years. We are a K-8, parent participation school with a developmental, whole child philosophy. We have an extensive waiting list, high API scores, and strong reviews from the County. This letter is to introduce you to Discovery and to inform you that recently our board voted to pursue a countywide charter that we hope to open in August of 2013. We have reviewed the guidelines for countywide charters that were approved last October by the County Board of Education and feel that we have met these criteria.

As you know, research consistently shows that one of the most significant predictors of a student’s academic achievement is parental support for and involvement in their child’s education. The California Department of Education has found that parent involvement is a more important predictor of student success than family income or the parents’ level of education. Our mission at Discovery is to expand the available options for parents to be significantly involved in their child’s education, and to make sure that every parent in Santa Clara County who wants a parent participation program for their family will have access to a high-quality parent participation school.

A central goal of Discovery Charter Schools is to build a vibrant learning community. We have created and support a culture of parental empowerment and “ownership” of the school, cooperation and regular communication between home and school, and the daily integration of a deep level of parent involvement in our program and the delivery of curricula.

Parent education is a key to our success. Each parent who is new to our program receives training in Positive Discipline, the most widely used parenting program in the world that was created by Dr. Jane Nelsen. In addition to this training, parents receive ongoing training in classroom strategies for programs like Readers Workshop and Writers Workshop. These programs not only enable the parents to be effective classroom aides, but also aide the parents as they work with their own children at home.

Our academic intervention programs are an example of using trained parent volunteers to help provide intensive, personalized interventions for students under their teacher’s direction. Training parents is the key to their success and we provide intensive instruction for parents who wish to provide academic interventions. For example, Barton Reading and Spelling Program tutors attend a full day of training before beginning, then receive two or more additional trainings, coaching while tutoring, and additional video tutoring as they proceed with their student. Many parents of struggling students receive the training so that they can tutor their own children at home after school hours, so that their children don’t have to miss any instructional time during the school day. A countywide charter would enable us to provide these parent-assisted interventions to more families from across the county who want to be directly involved in helping their children, and the children of others, who struggle with foundational academic skills.

Many families in Santa Clara County are looking for a parent participation school, but many are unable to enroll their child due to a lack of space. For the 2012-13 school year, Discovery Charter School had 648
applications for 82 openings. (We enroll 55 Kindergarten students and 27 new 6th grade students each year.) For the 2011-12 school year we had 646 applications, and for the 2010-11 school year we had 693 applications. Other similar parent participation schools like Washington Open in the Santa Clara School District, McAuliffe in the Cupertino School District, and Indigo School in the Oak Grove District also have waiting lists. Clearly the demand for parent participation schools far exceeds the available openings. This is the primary reason that we are seeking to expand our program to a Countywide Charter.

Our applicants come from 25 school districts across the County. For the past three years we have received more than a hundred applications from students in each school district of Santa Clara, Campbell, Moreland, and San Jose Unified. For the 2011-2012 school year we received 147 applications from Moreland, 134 from San Jose Unified, and 100 from Santa Clara. For the 2012-2013 school year we received 124 applications from Moreland, 114 from San Jose Unified, and 115 from Santa Clara.

At Discovery we have a proven record of success. Our API score has been above 900 for each of the six years that we’ve been in operation, and we have received accolades from County Office administrators who have been assigned to review our program for compliance with state regulations and the MOU with the County. Our ELD program has been used as an example for other charter schools, and our special education program has been called “the most inclusive of all the charters in Santa Clara County” by the County Director of Special Education. We have developed a successful, comprehensive, school-wide program that stands to benefit many children and families in Santa Clara County.

Eliminating the district of residence enrollment priority (Education Code Section 47605(e)), is another primary reason that we are asking the County Board to approve Discovery II as a Countywide Charter. Discovery hopes to continue to serve students from across the county and not concentrate on students from one district. A countywide charter would allow equal opportunity for admission to all students in the county. (Education Code Section 47605.6(e)(2)(B)). Since our current waiting list has students from 25 different school districts, it’s clear that we have a large number of potential students from across the county and that a charter petition to a single district would unfairly reduce the chances of enrollment for students from outside of that district.

Charter schools authorized by a school district are also subject to the requirements of that particular district. We believe that our effective model for active parent engagement is unique and would be limited if subjected to change by the particular requirements of one school district. A countywide charter will assure that our program, including parent training and education, special education, and teacher development remains consistent across all Discovery Schools.

We are excited about the possibility of serving students and families from across Santa Clara County and the opportunity to provide a high quality, parent participation program to every family in the county who desires our model of learning for their child. We look forward to pursuing this effort with you and the County Office of Education staff.

If I can answer any questions please don’t hesitate to ask.

Sincerely,

Dale Jones

ATTACHMENT 35: KINDERGARTEN READINESS ACT OF 2010

Kindergarten Readiness Act of 2010 (Transitional Kindergarten)

BOARD POLICY #BP081512.2

Background: In 2010 the California Legislature passed the Kindergarten Readiness Act, which has become commonly known as “Transitional Kindergarten” or “TK.” Over a three-year period from the 2011-12 school year to the 2013-14 school year the cut-off birth date for Kindergarten eligibility is being moved from December 1 to September 1, but students with birth dates between September 1 and December 1 will be eligible for voluntary enrollment in Transitional Kindergarten classes to prepare them for Kindergarten the following year.

The California Department of Education has not yet determined whether or not charter schools are required to provide the Transitional Kindergarten.

Policy:
For the 2012-13 school year students enrolled in Discovery who have a birth date between November 2 and December 2, 2007 will be eligible for Transitional Kindergarten or “TK”, which will be held in one of our Kindergarten / 1st grade classrooms. TK students will receive an individualized curriculum with goals specific to their developmental level, but in every other way will be part of the K1 class, participating as a regular Kindergarten student. Parents and the child’s teacher will decide together whether or not the child should move to Kindergarten or 1st grade for the following school year. This decision will be made prior to the lottery date for the following year (usually around the first week in April). If there is a disagreement between the parents and the teacher regarding the following year’s grade level placement, the teacher will have the right to make the final decision.

Contingent upon the approval and opening of the second Discovery school, starting with the 2013-14 school year, Discovery will offer one Transitional Kindergarten class for students with birth dates between October 2 and December 2, 2008. This class will be housed at the new Discovery campus, or “Discovery Two.” A separate lottery will be held for these students.

Minimum enrollment for the Transitional Kindergarten class will be 11 students. Maximum enrollment will be 22 students. If enrollment falls between 22 and 33 students, then the Executive Director may create an “AM/PM” program with split enrollment and a short amount of combined time with all students so that each students receives a minimum of 200 instructional minutes per day.

If there are fewer than 11 applicants for Transitional Kindergarten in any year of the program, the students will be included in the regular Kindergarten lottery for that year and enrolled students will be placed in one of our regular Kindergarten or K/1 classrooms.

Students enrolled in a TK class will be automatically enrolled in Kindergarten for the following year at the Discovery campus selected by the parents, with the Executive Director’s approval. The Executive Director shall have the right to determine which Discovery campus the child attends, but will try to accommodate the parents’ request. If parents disagree with a school placement decision they may appeal to the Discovery Board of Directors.

Approved: August 15, 2012
