Aloha Patricia,

Per the MOU for EPCTC and EPAFLC, the district has the right to request meetings with individual staff members as part of annual oversight responsibilities. I appreciate your questions, and can restate that we would like to meet with the identified staff for a one-on-one meeting during our visit on November 18, 2025. EP Leadership was informed on October 31, 2025, that the district would be submitting a formal request identifying the individual staff we would like to meet with.

The purpose of these brief one-on-one meetings is to gather insight from staff regarding the implementation of the school's educational program and daily operations. This is another option for authorizes to use at any time for the monitoring of charter schools. EP employees are not required to participate; however, you can inform them that the meeting is considered confidential.

Below is the excerpt from the MOU regarding the District's ability to meet with staff upon request. If you have any additional questions or concerns before your visit on Tuesday, please don't hesitate to let us know.

Section 2: District-School Relationship

2.13 Site Visits may include any activities reasonably required to fulfill the District's supervisory oversight responsibilities, including, but not limited to, review of the Charter School's facility; review of records maintained by the School; interviews with the Principal, Board of Directors, staff, school families, and community members; and/or observation of classroom instruction.

January 15, 2026

Dear Superintendent Vander Zee and Board Members:

Overview of Process to Date:

It was with deep sadness that Escuela Popular learned, in a meeting with you on Monday, January 12, 2026, that the East Side Union High School District ("District") was not satisfied with Escuela Popular's November 17, 2025 response regarding credentialing compliance and that District staff intends to instruct the District's Board of Trustees on January 15, 2026 to issue Notices of Intent to Revoke the charters of both Escuela Popular Accelerated Family Learning Center ("EPAFLC") and Escuela Popular Center for Training and Careers ("EPCTC").

For over two months now, Escuela Popular has repeatedly made requests of the District to meet with us so we could immediately address any remaining concerns about credentialing compliance. The District has refused to allow such a meeting and has not communicated any concerns regarding Escuela Popola's response to the NOV; making the following statement in the Board Report for item 6.02 for tonight **100% inaccurate**: "Since [Escuela's response to the NOV], District staff have had continuing communications with EPCTC regarding the status of compliance."

Before taking the drastic measure of issuing a Notice of Intent to Revoke the charters of two beloved schools that have served the San Jose community for decades, Escuela Popular once again respectfully requests that the District first explain which specific teaching assignments at each school it believes are not legally compliant and why the District disagrees with the legal interpretation that Escuela Popular has provided. **If there are any concerns that Escuela Popular cannot address to the District's satisfaction, Escuela Popular is willing to phase in changes to adopt the District's position**. But without knowing which positions we disagree on, Escuela Popular has no recourse.

On November 17, 2025, Escuela Popular provided a detailed written response to the Notice of Violation ("Response") that the District's Board approved at its October 16, 2025 meeting. The Response included a teacher-by-teacher, assignment-by-assignment breakdown of Escuela Popular's course offerings, along with an explanation of which credentials, certificates, permits, or other documents each teacher had and why those documents made the assignment legally compliant. The Response also provided copies of the credentials, certificates, permits, or other documents for each credentialed staff member across both schools. Now, after approximately **two months** of refusing to notify Escuela Popular of a continued credentialing dispute, District

staff seek to close both schools. Attached as Exhibit A is a teacher-by-teacher, assignment-by-assignment breakdown of Escuela Popular's current course offerings as of January 12, 2026, along with an explanation of which credentials, certificates, permits, or other documents each teacher has to teach these courses. We are providing this because we have improved our numbers and decreased our vacancies, not because we feel the school's original response was out of compliance. Further, the continued demonstration of compliance runs counter to the District's claim that Escuela Popular has failed to refute or cure claimed deficiencies.

To date, the District has not informed Escuela Popular which teaching assignments at EPCTC the District still believes are noncompliant with Education Code section 47605(*l*). The District has not explained why it believes Escuela Popular's November 17, 2025 response, which contained 23 pages of analysis regarding credentialing at EPCTC and approximately 283 pages of exhibits, was insufficient. This leaves Escuela Popular still guessing at what the District's credentialing dispute regarding EPCTC actually is. In an effort to gain clarity on any remaining credentialling concerns, on November 5, 2025, Escuela Popular formally requested that the District engage in the **alternative dispute resolution processes** outlined in both schools' charters (see EPCTC Dispute statement attached as Exhibit B.) The District rejected the dispute resolution requests.

Update on Credentialing Status of Escuela Popular Teachers:

While Escuela Popular firmly believes that it demonstrated complete compliance with the State's credentialing laws in its November 17th response, it recognizes that at that time Escuela Popular needed to improve on the number of fully credentialed teachers in the classroom (e.g., preliminary or clear credentials preferred, increase hiring to reduce reliance on substitutes, etc.). In order to further demonstrate Escuela Popular's commitment to that goal it is providing the following **updated** information on the credentialing status of its teachers.

As of now, EPCTC has five (5) vacancies, meaning courses where the previous teacher of record has departed and the school is attempting to hire a permanent replacement. Escuela Popular is using teachers with Emergency 30-Day Substitute Teaching Permits to cover these vacancies, with no substitute serving for more than the allowed 30 school days. This is authorized under the parameters of 5 CCR Section 80024. Further, the Commission on Teacher Credentialing (CTC) itself has acknowledged this reality in a December 2025 public meeting (see Exhibit C), stating:

> "California continues to experience shortages of fully credentialed teachers, with the extent of these shortages varying by region and credential area. These shortages have increased reliance on substitute educators to maintain classroom coverage during extended absences and vacancies, while a fully credentialed teacher can be

> recruited. Temporary statutory and executive flexibilities allowed substitute teachers to serve for up to sixty days during the pandemic, but these flexibilities expired on July 1, 2024, returning local education agencies to the statutory limits of thirty days in general education and twenty days in special education."

As the CTC correctly stated, Escuela Popular has no option during vacancies besides using substitute teachers within the statutory limits of 30 days while attempting to recruit a long-term credentialed teacher, when no teacher whose credentials match the assignment is immediately available. The use of substitute teachers is not ideal, but it is the reality given an ongoing teacher shortage. To the extent that the District disagrees with Escuela Popular's use of substitute teachers to cover vacancies, the District is incorrect in contending that use of substitute teachers violates California credentialing law. To the extent that the District disagrees with Escuela Popular's use of substitute teachers to cover vacancies as a matter of policy, Escuela Popular agrees that it would rather have permanent teachers and is doing everything in its power to recruit long-term educators to fill its vacancies. It is important to emphasize that, if this is a matter of policy or preference, that is not what the October 2025 Notice of Violation for EPCTC stated, nor is that a legal basis to revoke a charter (see Ed. Code, § 47607(f)).

Due Process and Procedural Concerns:

Further, in moving forward with the Notice of Intent to Revoke, the District has failed to comply with both the spirit and the letter of the requirements of MOU Exhibit 6, which set forth specific intervention steps that must be completed before proceeding with the revocation process (see Exhibit D.) Indeed, the District's own slideshow at its January 8, 2026 Board Meeting (relevant slide enclosed as Exhibit E) outlined these steps as follows:

II. Process for Charter School Intervention

- Statement of Concern(s) (Letter #1)
- Notice of Deficiency/Violation (Letter #2)
- Charter Probation (Letter #3)
- Charter Review (Letter #4)
- Charter Revocation

The process outlined in the MOU, which applies to both schools' charters, clearly contemplates no fewer than **four (4) letters** about a given violation **before** charter revocation. Here, the District never issued Escuela Popular the "Charter Review" letter before skipping ahead to the Notice of Intent to Revoke stage. Doing so violated the agreement between the District and

Escuela Popular. Moreover, the process outlined in the MOU is clearly intended to prevent the "gotcha" approach to revoking a charter school; the spirit of which is being violated by the District's failure to clarify and work with Escuela Popular to identify areas of continued concern and disagreement.

Additionally, 5 CCR 11968.5 .2 which details the steps and process for charter school revocation expressly provides that "… The chartering authority [the District Board] shall evaluate the response of the charter school's governing body" before seeking revocation. District staff has not given the Board of Trustees sufficient information to be able to evaluate Escuela Popular's November 17, 2025 response, nor make a determination that it has "substantial evidence that the charter school has failed to refute" "or remedy" the NOV violations—which is required in order to legally justify a Notice of Intent to Revoke. Secondly, the relevant legal standard for the Board is whether the charter school has failed to refute the claimed violation "to the chartering authority's satisfaction" or failed to "remedy" the claimed violation, period. There is no obligation to "remedy" the violation "to the chartering authority's satisfaction"– there is no subjective assessment by District staff about the remedy (the District Board Report for item 6.02 inaccurately states this standard.) The District may not rely on its subjective disapproval of Escuela Popular's remedy for the claimed violations in order to justify revoking the schools' charters.

To the extent that the District intends to rely on the credentialing data for EPCTC its staff presented to the Board of Trustees at the January 8, 2026, meeting, this would be improper. The relevant slide from District staff's January 8, 2026 presentation, enclosed as Exhibit F, confirms that it is based on EPCTC credentialing data from November 13, 2025. This is before the conclusion of the cure/response period that the District set forth as a deadline of November 17, 2025 in the Notice of Violation. The District may not legally give the charter school a deadline to refute or remedy and then proceed with revocation for failure to refute or remedy before that deadline passed.

Ultimately, Escuela Popular has reviewed every single EPCTC teaching assignment, the teacher involved, and that person's current certificate, permit, or other document(s) and confirmed that each assignment is compliant under Education Code section 47605(*l*), which is the legal standard for credentialing under both California law and EPCTC's charter. Escuela Popular staff re-checked these assignments on January 12, 2026 and came to the same conclusion (see detailed breakdown of teaching assignments, teachers, and their credentials enclosed as Exhibit A.) If the District disagrees with this analysis, then Escuela Popular insists that the District identify which specific teaching assignments it still believes are noncompliant and why; if we are unable to come to agreement, **Escuela Popular will phase in changes to meet the District's interpretation.**

Dear Superintendent Vander Zee,

This letter serves to initiate the dispute resolution process pursuant to Required Element N: Dispute Resolution of the current (2018-2023) Charter for Escuela Popular Center for Training and Careers (EPCTC). The Escuela Popular Board of Directors hereby requests that the East Side Union High School District ("District") begin the dispute resolution process outlined in the school's charter, including the mediation and arbitration provisions as needed in order to resolve the dispute.

Nature of the Dispute

Under previous California law, charter schools had greater flexibility in terms of the credentialing for their teachers, compared to conventional public school districts. The law then changed, resulting in new credentialing requirements for charter schools that would render many charter school teachers misassigned. Because of this, a grace period was enacted to give charter schools time to adjust to this change. The grace period ended July 1, 2025.

The District and Escuela Popular had different opinions about how to address this shift. Escuela Popular has always taken pride in its practice of employing its own "homegrown" teachers who started out as students at the school. This practice enables students to be taught by teachers who share their background and are invested in their community. For both schools, Escuela Popular wanted to prioritize lifting up its current, homegrown teaching staff through the use of emergency permits and other temporary credentials while supporting them in the process of completing additional credentialing processes. The District indicated a belief that use of these emergency permits somehow put the school out of compliance with the Education Code, even though California law authorizes the use of documents like emergency permits, temporary county certificates, variable term waivers, and other short-term credentials. For EPCTC in particular, Escuela Popular made the decision to shift the school's ELD program to a primarily Career and Technical Education (CTE) program with English-learning components. To that end, some EPCTC teachers earned CTE credentials so that they could teach those courses.

On July 16, 2025, the District sent Escuela Popular a "Letter of Deficiency" regarding EPCTC teaching staff credentialing. This letter was based on staffing at the school during the 2024-2025 school year—**a time when the grace period was still in effect** before charter schools had to adopt new credentialing practices. The letter also indicated the District's disapproval of the use of CTE teachers to teach any courses at EPCTC, on the grounds that "CTE Pathways" were not included in the school's charter and Escuela Popular needed to complete the material revision process before having CTE classes. The District expressed disapproval of the use of CTE teachers at EPAFLC on the same grounds. Escuela Popular disagreed on this point, both because a material revision of the charter is not ordinarily required before adding a CTE class, and because career development is a central part of the charter for both schools. For example, EPCTC's charter states, "Our school prepares students to attend college or enter the workforce directly into a skilled job," and "College & Career Readiness Standards" are listed in the charter as part of the English Language Development curriculum.

On July 22, 2025, the District issued Escuela Popular a "Notice of Concern" regarding the District's concerns with Escuela Popular's decisions to apply for emergency permits and other temporary

credentials for certain teachers. The letter stated, "It is the District's expectation that for the 2025-26 school year, all EPAFLC and EPCTC teachers will be appropriately credentialed in accordance with Education Code section 47605(l) and their respective Charters." It gave a response deadline for Escuela Popular of August 4, 2025 to provide no fewer than seven different responsive documents, each to include detailed information and explanations about staffing.

On August 1, 2025, Escuela Popular's Executive Director, Patricia Reguerin, e-mailed the District's Coordinator of Charter School Oversight, Phillip Gedeon, stating, "Since receiving the Notice of Concern on July 22, 2025, we have been working diligently to gather and prepare all requested information. We respectfully request an extension until Friday, August 8, 2025, to submit the materials." On August 6, 2025 (after the August 4, 2025 deadline), Mr. Gedeon e-mailed Ms. Reguerin and denied her request for an extension to respond. Escuela Popular then provided some information on August 8, 2025 and additional information on August 11, 2025.

On August 29, 2025, the District issued a "Notice of Probationary Charter Status" to both of Escuela Popular's schools. This letter required Escuela Popular to submit a response by September 15, 2025 (approximately two weeks later) which would be accompanied by a detailed Corrective Action Plan "identifying the immediate steps" the school will implement "to have all of its teachers hold an appropriate and valid teaching credential(s) and/or EL Authorization required for their certificated assignment for the 2025-26 school year in compliance with Education Code section 47605(l) and its Charter." The response was also required to be accompanied by extensive documentation regarding staff credentialing and assignments. The District's letter did **not** say that the September 15, 2025 response needed to first be approved at an Escuela Popular Board meeting.

During the approximately two weeks after the August 29, 2025 charter probation letters, Escuela Popular Staff worked with District staff feedback to craft a detailed Corrective Action Plan. Escuela Popular submitted this to the District on September 15, 2025, along with a letter and documentation attempting to address every item requested in the District's August 29, 2025 letters. The Corrective Action Plan indicated a date of September 29, 2025 by which time Escuela Popular would implement the corrections. For EPCTC, the corrective actions included pivoting mid-school year from the CTE-focused ELD program to an ELD-only program, removing all of the CTE-credentialed teachers from lead teacher assignments at the school. This left a significant number of vacancies because the many ELD courses that EPCTC offers had to be re-staffed. Escuela Popular took this step of pivoting away from the use of CTE teachers **at the direction of the District**. However, taking this step required the use of some Emergency 30-Day Substitute Teachers to cover the ELD courses while the school searched for long-term teachers who could fill those assignments.

On September 17, 2025, the District's Director of Assessment and Accountability for Charter School Oversight, Bjorn Berg, sent Escuela Popular a response to its September 15, 2025 response. This response expressed disapproval of the fact that the documents provided on September 15, 2025 had not been approved at an Escuela Popular Board meeting before September 15, 2025. The response acknowledged that items related to the credentialing concerns were agendized for Board approval at Escuela Popular's September 18, 2025 Board meeting but indicated, without explanation, that "the Credential Compliance Plan the Escuela Popular Board has agendized for approval at its 9/18/15, does not remedy the violations identified by the District and fails to demonstrate substantial progress toward compliance." The District

took this position on September 17, 2025, despite the fact that the Board policies agendized for approval at the September 18, 2025 meeting had not yet been made public on September 17th. Essentially, the District was expressing disapproval of Escuela Popular Board policies that it had not yet seen.

Escuela Popular's attorney then reached out to the District's attorney requesting feedback on the proposed Board policies for the September 18, 2025 meeting in an effort to recommend any changes needed to make sure the policies were satisfactory to the District. The District's attorney, William Schuetz, refused to provide feedback, stating "The District will need to review the policies before providing any substantive feedback but if the policy re credentialing compliance is a reiteration of the plan identified in the responses provided on 9/15, then the District's position is that it is not sufficient." Unsure why the District disapproved of the proposed Board policies regarding credentialing compliance—policies which were consistent with the requirements of Education Code section 47605(l)—Escuela Popular's Board adopted the policies at its September 18, 2025 meeting.

On October 2, 2025, the District issued Escuela Popular a "Notice of Deficient Corrective Action Plan" again claiming that Escuela Popular was out of compliance with Education Code section 47605(l), that Escuela Popular's September 15, 2025 Corrective Action Plan was insufficient, and that the District had checked PowerSchool on September 18, 2025 and determined that the schools had credentialing deficiencies. The October 2, 2025 letter indicated disapproval of Escuela Popular's use of Emergency 30-Day Substitute Teachers to fill vacancies while attempting to re-staff courses that the District had identified as misassigned. This is despite the fact that an individual with an Emergency 30-Day Substitute Teaching Permit may legally teach in **any** classroom under California law, as long as the assignment does not last beyond 30 days.

Escuela Popular was at a loss as to how it could re-staff its classes without using substitute teachers to cover the temporary vacancies in the meantime. The schools pressed forward with recruitment, interviews of candidates, and substitute teachers lawfully covering the classes on a temporary basis. Some teachers had valid temporary credentials, such as temporary county certificates, allowing them to legally use credentials for which they had applications pending with the Commission on Teacher Credentialing. Those teachers also remained in their classrooms, as they were lawfully allowed to do, while the courses were being re-staffed.

On October 13, 2025, the District sent Escuela Popular its proposed "Notice of Violation" alleging failure to comply with the credentialing requirements of Education Code 47605(l) and the schools' charters. This Notice of Violation was agendized for the District's October 16, 2025 Board meeting. On October 15, 2025, Escuela Popular Executive Director Patricia Reguerin met with District staff in attempt to update them on the current schedule and credentialing information for both schools. District staff were not interested in learning that new information and elected to present their own data, based on a September 18, 2025 search of PowerSchool, at the October 16, 2025 District Board meeting. District staff has not explained why it chose September 18, 2025—a date **before** the September 29, 2025 rollover date identified in the Corrective Action Plan—as the point in time for its credentialing assessment.

At the October 16, 2025 District Board meeting, the Board of Trustees approved an October 17, 2025 Notice of Violation for both schools. It was clear to the Escuela Popular Board members present that the Board of Trustees did not take the decision to issue the Notice of Violation lightly. It was also clear that

the Board expected District staff, Escuela Popular staff, and their respective attorneys, to work together to resolve this dispute before it comes before the Board again.

Unfortunately, despite Escuela Popular's requests to meet with District staff and both parties' attorneys prior to the deadline for Escuela Popular's official written response, the District has refused. Since the October 16, 2025 Board meeting, Escuela Popular has sent multiple e-mails requesting such a meeting. In response, in an e-mail sent October 22, 2025, Associate Superintendent of Educational Services Teresa Marquez stated:

> If you and the Board have questions regarding the content of the Notices of Violation, please send that to us in writing so that the District may respond. At all times, however, the obligation to prepare and submit any response and/or refutation to the Notices rests with EP and must be approved by the EP Board. In short, any response by EP to the Notices must be prepared by EP and authorized by the EP Board.
>
> Once the District receives the EP Board-approved response, District staff will notify you if there are any questions or points for discussion or any other basis for a meeting as to the Notices of Violation, the implementation of your charter petition, and/or next steps. Again, the law and regulations provide that the response is to be done by EP with the express authorization of its Board, and not by the District or through a meeting(s) between the District and EP with counsel present.

We have attached the entirety of Associate Superintendent Marquez's e-mail for reference. Associate Superintendent Marquez's e-mail raises concerns that District staff do not intend to meet with Escuela Popular and both parties' counsel in an effort to resolve this dispute.

For these reasons, an active dispute remains between Escuela Popular and the District. Specifically, the District and Escuela Popular remain in conflict about:

1) The requirements of Education Code section 47605(l) and whether or not credentials such as temporary county certificates, emergency permits, and other temporary documents are allowed, and

2) To the extent the District wants Escuela Popular to implement credentialing requirements above and beyond the legal requirements of Education Code section 47605(l), what exactly would those requirements be, and what is a method of achieving them that would be both agreeable to the District and actually possible for Escuela Popular to implement on the timelines requested by the District?

Next Steps

According to Required Element N of the school's charter: "the district shall give the school a reasonable opportunity to cure" violations claimed by the District and "[n]ormally the opportunity to cure shall be 30 days after service of the Notice, which may be extended my mutual agreement." Required Element N also provides that "within 30 days of service of the Notice, the parties shall schedule mediation to resolve the matter with a mutually acceptable mediator. The parties shall mediate in good faith."

Should mediation fail to resolve the dispute, the school's charter provides that "within 60 days of the Notice and in the event that mediation is unsuccessful the dispute shall be referred to a mutually acceptable arbitrator who shall issue a written decision."

Issuance of this letter was approved by Escuela Popular's Board of Directors at its November 4, 2025 Special Meeting. Escuela Popular's Board is hopeful that this process will result in a productive dialogue that will resolve the District's concerns without needing to escalate further into the charter revocation process.

The parties need to come together to discuss and agree on appropriate solutions for this problem—not because this is what all authorizers need to do, but because it is the right thing to do. Escuela Popular remains eager to resolve the issues outlined in the Notice of Violation to the satisfaction of the District but does need clarity about whether the District expects something more than legal compliance and, if so, what that expectation is, and a reasonable time for implementation.

Dear Ms. Reguerin,

We have received your October 21, 2025, e-mail.

To clarify, at the October 16 Board meeting the Board took actions to approve the proposed Notices of Violation. The Board's actions did not direct District staff or the District's legal counsel to work with Escuela Popular staff and its attorneys to address and resolve the issues outlined in the notices. At your request, District staff did meet with Escuela Popular (EP) staff on October 15, in advance of the Board meeting and per your request, to discuss EP's questions related to the proposed Notices of Violation. At that time District staff clarified the District's role and obligations as an authorizer and to oversee compliance with the charter petition submitted by EP and approved by the Board. This was reiterated by Superintendent Vander Zee at the October 16 Board meeting, noting that the District's role in this process is as authorizer, that the decisions made by EP and the path towards compliance are to be made by EP as authorized by EP's Governing Board, and that the District's responsibility as authorizer is to review and assess any refutation and/or response for compliance with the law and the approved charter petition.

Per the Education Code and the Code of Regulations, EP's Board, if it chooses to respond, must submit to the District a detailed, written response addressing each identified violation which shall include the refutation, remedial action taken, or proposed remedial action by the charter school specific to each alleged violation, with supporting evidence. If you and the Board have questions regarding the content of the Notices of Violation, please send that to us in writing so that the District may respond. At all times, however, the obligation to prepare and submit any response and/or refutation to the Notices rests with EP and must be approved by the EP Board. In short, any response by EP to the Notices must be prepared by EP and authorized by the EP Board.

Once the District receives the EP Board-approved response, District staff will notify you if there are any questions or points for discussion or any other basis for a meeting as to the Notices of Violation, the implementation of your charter petition, and/or next steps. Again, the law and regulations provide that the response is to be done by EP with the express authorization of its Board, and not by the District or through a meeting(s) between the District and EP with counsel present.

Finally, thank you for clarifying that the materials presented during the October 16, 2025, Board meeting were not intended to serve as EP's official response to the Notices of Violation. That is contrary to the statement of your attorney in open session at the October 16 Board meeting when he stated: "This is the official charter school response, to be clear." (Board Meeting starting at 1:14:36) Moreover, EP provided binders to each of the Board members and the Superintendent at the October 16 meeting stating:

"We have brought binders with us tonite. We have a copy for each one of you Board members. We have a copy for your staff. It is broken out by individual teacher and you will find each teacher's name and credential, certificate or permit that entitles them to teach in the state of California."

(Board meeting starting at 1:18:58). As noted in previous communication, not all binders provided at the October 16 meeting included identical content.

We look forward to receiving the EP Board-approved response, refutation, etc. and supporting evidence.

Thank you,
Teresa Marquez

While my initial request received a response, my subsequent requests have gone unanswered. This email serves as my third formal request—and second since the October 16 Board meeting—to schedule a meeting as soon as possible with counsel present.

Additionally, I want to express concern regarding the suggestion at the October 16 Board meeting that collaboration might wait until the District's site visit scheduled for Monday, October 27. Waiting until that date would significantly shorten the time available for both the District and the School to work together toward resolution before the remedy deadline of November 17, 2025, as established in the Board's adopted resolution. To ensure a meaningful and good-faith effort to address the identified issues, it is essential that collaboration begin immediately.

Our goal remains to work constructively and in partnership with the District and its counsel to resolve these matters promptly and responsibly. Please provide your earliest availability for a meeting this week.

Improving Short-Term Staffing Options to Uphold Instructional Continuity for All Students During Credentialed Teacher Recruitment

Introduction

This agenda item responds to the Governor's veto of AB 1224 by reviewing California's short-term staffing structure, examining the gaps that arise when substitute assignments exceed current day limits, and presenting preparation-aligned options to support instructional continuity during credentialed teacher recruitment. It summarizes the temporary flexibilities used during and after the COVID-19 emergency, outlines the risks associated with extended assignments without adequate preparation and support, and identifies potential mid-range authorizations that maintain stability for students while preserving the state's commitment to fully credentialed teachers.

Background

During the COVID-19 emergency, the state temporarily expanded substitute-teaching flexibilities to address widespread staffing disruptions during a global public health crisis. The 2021 Education Omnibus Budget Trailer Bill (AB 167, 2021) authorized credentialed and permitted substitute teachers to serve for up to sixty cumulative instructional days in both general education and special education assignments through June 30, 2022, to address the crisis. In early 2022, Executive Order N-3-22 extended substitute service in general education classrooms to 120 days through March 31, 2022. As staffing challenges continued, subsequent legislation further extended the temporary sixty-day authorization. AB 181 (2022) continued the authorization through July 1, 2023, and SB 141 (2023) extended it again through July 1, 2024. These measures were limited to the COVID period and the immediate years that followed and were explicitly temporary. Additionally, statewide data indicate that California's academic recovery from pandemic-related disruptions remains fragile, with persistent gaps for high-need student groups and continued sensitivity to staffing instability. With the conclusion of the pandemic and the return to full in-person learning, the Legislature and Governor discontinued all emergency substitute extensions indefinitely and return to pre-pandemic substitute service limits.

With the expiration of the extensions of COVID period flexibilities, AB 1224, authored by Assemblymember Valencia, was introduced in 2025 to again authorize up to sixty cumulative instructional days of substitute service for individuals holding a Commission-issued substitute permit or credential authorizing day-to-day substitute teaching in both general and special education classrooms. The bill sought to provide temporary flexibility following the expiration of the COVID-era extensions.

In its findings and declarations, AB 1224 stated that the long-term solution to staffing shortages must be a sustained commitment to fully credentialed, appropriately assigned teachers in every

classroom. The bill acknowledged that local education agencies (LEAs) continue to experience vacancies and extended leaves that disrupt instructional continuity and proposed a time-limited extension of the sixty-day authorization during this period.

The section also expressed the author and sponsors' intent that any temporary policy be accompanied by a focused review of the Commission's short-term staffing options. Specifically, the bill encouraged the Commission to examine whether existing options, such as the Teaching Permit for Statutory Leave (TPSL) and the Emergency Career Substitute Permit, could be made more flexible, accessible, or responsive to local education agency needs while maintaining safeguards for instructional quality and equity.

AB 1224 was returned without the Governor's signature and accompanied by the following veto message.

> *OCT 06 2025*
>
> *To the Members of the California State Assembly:*
>
> *I am returning Assembly Bill 1224 without my signature.*
>
> *Through January 1, 2029, this bill increases the time substitute teachers can serve in general education or special education classrooms to up to 60 days, doubling or tripling current caps.*
>
> *Research demonstrates that substitute teachers tend to serve classrooms with a disproportionate number of students with disabilities, English learners, and students from low-income families. While this bill requires local educational agencies to offer mentorship, training, and support to substitute teachers, it does not mandate their participation in these programs. As such, this bill would allow individuals to serve our highest-need students for as much as a third of a school year without minimally required training or mentorship.*
>
> *I recognize the author's goal of providing more continuity in challenging staffing situations. As such, I encourage the Commission on Teacher Credentialing to utilize its existing authority to engage stakeholders and expeditiously reexamine and amend its short-term staffing pathways to support continuity of instruction, and to address the minimum levels of preparation and support required.*
>
> *Alternatively, the author could introduce legislation that addresses the lack of required training and support for long-term substitute teachers.*
>
> *For these reasons, I cannot sign this bill.*
>
> *Sincerely,*

> *Gavin Newsom*

The Governor's veto message expresses concern around extended substitute assignments for all classrooms, with specific reference to students with special needs. Past legislative efforts offer additional context for why extending substitute day limits in special education raises

questions beyond staffing flexibility. In 2016, AB 2336 (Olsen) proposed increasing the special education substitute cap from twenty to forty days. The Senate Education Committee analysis observed that Education Code section 56061 sets specific limitations on the use of substitute teachers in special education settings and noted that extending substitute service beyond those limits could raise concerns about alignment with federal expectations regarding the delivery of required services to students with disabilities. During the hearing, California Department of Education staff offered similar caution in oral testimony. AB 2336 did not advance, and the statutory limits for special education assignments remain unchanged. Because section 56061 is set in statute, adjustments to special-education substitute day limits fall outside the Commission's regulatory authority. The Commission's work to meet the Governor's veto message must therefore focus on options that operate within existing statutory boundaries.

This agenda item responds to both the Legislature's intent and the Governor's direction. It examines the existing short-term staffing structure, identifies the gaps that arise when an assignment extends beyond the current thirty-day and twenty-day limits, and describes the instructional, relational, and service-related elements of continuity that must be preserved during extended assignments. It then outlines considerations and potential options for strengthening the state's short-term staffing pathways in alignment with expectations in both AB 1224 and the Governor's veto message. Early engagement by Commission staff included representatives of employer organizations, employee groups, and student-focused civil rights advocates. These initial conversations were limited in scope but provided important insight into shared concerns and priorities. Ensuring that students receive high-quality instruction and reliable access to required supports was a value shared across all groups. Broader consultation has begun and will continue into the new year, with additional opportunities for public engagement and Commission discussion planned for February.

Problem Statement

California continues to experience shortages of fully credentialed teachers, with the extent of these shortages varying by region and credential area. These shortages have increased reliance on substitute educators to maintain classroom coverage during extended absences and vacancies, while a fully credentialed teacher can be recruited. Temporary statutory and executive flexibilities allowed substitute teachers to serve for up to sixty days during the pandemic, but these flexibilities expired on July 1, 2024, returning local education agencies to the statutory limits of thirty days in general education and twenty days in special education.

Initial conversations with human resources leaders, educator organizations, and a student-focused civil rights representative revealed several consistent themes. These discussions were expeditious and limited in scope, but they provide early insights into how extended absences and vacancies affect school operations, instructional continuity, and student learning.

Human resources leaders described substantial operational strain. Many LEAs, especially those in rural or hard-to-staff areas, continue to face persistent vacancies, small applicant pools, and difficulty attracting credentialed teachers even after extended recruitment efforts. Maintaining basic classroom functioning often requires reshuffling of staff, reassigning site personnel, or

having administrators provide coverage. These pressures affect school operations every day and can even create turnover pressure for certificated site staff who must support unprepared substitutes.

Employers emphasized that the expiration of the temporary sixty-day flexibility has intensified these challenges. When an absence or vacancy extends beyond the current limits, LEAs must rotate multiple individuals through the same classroom. Employers described this rotation as disruptive and difficult for students, who must repeatedly adjust to unfamiliar adults. They indicated that rotation is not an approach they would choose absent necessity. From their perspective, maintaining a single individual for a longer period helped mitigate some of the instability associated with the broader teacher shortage.

Educator representatives echoed the operational pressures and focused on a different aspect of the larger problem. They emphasized that continuity of the same adult does not guarantee continuity of instruction or student support. Extended assignments require an individual to sustain classroom routines, carry forward instructional plans, implement accommodations and required supports, communicate with families, monitor student progress, and maintain the learning environment. These responsibilities involve fundamental elements of teaching practice that typically develop through extensive structured preparation and guided practice. Education partners noted that these expectations are especially significant in special education settings, where federal and state laws require the consistent provision of services under IDEA and Section 504.

Educator representatives also raised concerns about over-reliance on extended substitute placements. When an individual can remain in a classroom for several weeks with minimal preparation requirements, recruitment for a credentialed teacher may slow as administrators attend to other urgent operational needs. This concern reflects the practical demands of shortage conditions rather than assumptions about employer intent. Educator representatives noted that the use of substitutes in extended assignments creates cost savings because substitutes are paid at a lower daily rate than a fully credentialed teacher with salary and benefits. They emphasized that, in these situations, funding generated by student attendance, including supplemental and concentration allocations, must continue to be used to support instructional stability and advance student learning in the impacted classroom. These dynamics underscore the importance of transparency and accountability during extended temporary placements.

Student-focused civil rights advocates affirmed these concerns, noting that the use of extended temporary placements can affect how funds intended to support equitable learning conditions are used and monitored. The advocates emphasized that schools serving students with disabilities, English learners, and students from low-income backgrounds are the most likely to experience staffing disruptions, and that any expansion of short-term staffing flexibility must therefore be paired with clear requirements for preparation, support, transparency, and documentation. The advocates further emphasized that when extended substitute assignments become necessary, the preferred option should remain placing a fully credentialed teacher,

such as a retired educator or a currently credentialed teacher serving in a substitute capacity whenever available, since these individuals have the preparation and supervised clinical experience needed to maintain continuity and uphold required services during mid-range coverage while a permanent credentialed teacher is identified.

Across all groups, there was broad agreement that supporting student learning and meeting the needs of students most affected by staffing disruptions should remain central in any policy discussion. Although education partners approached the issue from different operational perspectives, they shared a common priority: ensuring that any individual serving beyond short-term limits has sufficient preparation and support to sustain instructional continuity and uphold required services. These conversations also highlighted that small and rural LEAs face unique challenges, because staff often serve multiple roles, which affects how preparation and support can be delivered.

Taken together, these themes point to a central challenge. The current statutory limits require rotation practices that undermine stability, while extended assignments require levels of preparation and support that the existing short-term structure does not provide. Local education agencies need a way to maintain continuity when an assignment extends beyond short-duration limits. Students and families need assurance that individuals placed in these roles are equipped to uphold instructional routines and required supports. The absence of pathways that meet both needs creates the policy gap the Commission must now address.

Current Short-Term Staffing Structure

Table 1: Current Short-Term Staffing Structure

License Type	*General Education*	*Special Education*	*Purpose*
Substitute-Prospective Teachers	30 days	20 days	Day-to-day substitute
Substitute Teacher	30 days	20 days	Day-to-day substitute
Credential Holder Substitute	30 days	20 days	Day-to-day substitute
Career Substitute Teacher	60 days	20 days	Mid-range substitute

Limited Teaching Permits	*General Education*	*Special Education*	*Purpose*
Teaching Permit for Statutory Leave	Up to 1yr	Up to 1yr	Interim teacher of record
Short Term Staffing Permit	Up to 1yr	Up to 1yr	Interim teacher of record
Provisional Internship Permit	Up to 1yr	Up to 1yr	Interim teacher of record

California's short-term staffing system is built around a set of substitute and temporary teaching permits that were created at different times to address specific operational needs.

Each authorization has its own purpose, day limits, preparation expectations, and renewal rules. Together they provide options for day-to-day substitute coverage and full-year emergency service, but they do not create a coherent pathway for vacancies or temporary leave assignments that extend beyond 30 days in general education or 20 days in special education.

Fully credentialed general education, special education, and services credential holders may substitute for up to 30 cumulative days in general education and 20 days in special education. General Education credential holders have additional flexibility through a Local Assignment Option that can authorize service for up to one year in some general education classroom settings. These flexibilities apply only to individuals who already hold full credentials.

Within the substitute category, the Emergency Substitute Teaching Permit for Prospective Teachers (5 CCR 80025.2) is designed for college students preparing for a teaching career. It authorizes service in preschool through adult settings for up to 30 days for any one general education teacher and up to 20 days in special education, with a maximum of 90 total workdays per year. Applicants must have completed 90 semester units, be enrolled in a four-year institution, and meet the basic skills requirement. The permit is valid for one year and may be renewed once with completion of an additional 15 semester units.

The Emergency 30-Day Substitute Teaching Permit (5 CCR 80025) is the ubiquitous substitute authorization for individuals holding a bachelor's degree. It permits 30 cumulative days in general education and 20 days in special education for any one teacher of record and requires an annual Statement of Need filed by the LEA. The permit is valid for one year and may be renewed each year as long as the Statement of Need is submitted.

For experienced substitutes, the Emergency Career Substitute Teaching Permit (5 CCR 80025.1) allows up to 60 days in general education within a single LEA while maintaining the 20 day limit for special education. Applicants must verify three consecutive years of at least 90 days of substitute service, hold a bachelor's degree, and receive a district endorsement. The permit is valid for one year and may be renewed annually with continued district endorsement.

Beyond substitute permits, several short-term authorizations allow individuals to serve as the teacher of record. The Teaching Permit for Statutory Leave (TPSL) (5 CCR 80022) authorizes service during statutory leaves with full general education or special education authorization aligned to the assignment. It requires a bachelor's degree, subject-matter competence, 45 hours of preparation aligned with section 80022 (Appendix A), and weekly support from appropriately credentialed personnel. The TPSL is valid for one year and may be renewed, with early renewals requiring additional preparation consistent with section 80022.

Two other short-term permits address acute staffing vacancies. The Short-Term Staff Permit (STSP) (5 CCR 80021) may be issued when an LEA encounters an immediate unforeseen staffing need and cannot secure a credentialed teacher or intern eligible candidate. It authorizes service for one school year and requires a bachelor's degree, subject-matter coursework or special

education experience, documentation of a diligent search, local orientation, and ongoing support. The STSP is valid for one year and may only be issued once to any individual.

The Provisional Internship Permit (PIP) (5 CCR 80021.1) is available when an LEA cannot find a credentialed or intern eligible candidate after a diligent search. Applicants must hold a bachelor's degree and meet subject-matter requirements through coursework or special education experience. LEAs must publicly announce the hiring intent, provide orientation and support, and help the individual move toward intern program enrollment. The PIP is valid for one year and is nonrenewable.

Taken together, these authorizations provide coverage for short absences and for full-year emergency appointments. What they do not provide is a structured, preparation-aligned pathway for assignments that last longer than the short-term limits but do not warrant a full-year authorization. This gap becomes especially visible in prolonged recruiting efforts for a fully credentialed teacher or in multi-week absences, particularly in classrooms serving students with disabilities, English learners, and students from low-income backgrounds.

Gap Analysis

Although California's short-term staffing structure provides several options for day-to-day coverage and full-year emergency assignments, it does not include a coherent pathway for extended substitute service that both maintains continuity and ensures adequate preparation and support. The system functions effectively at the two ends of the staffing spectrum. It offers straightforward authorizations for brief absences, and it provides full-year emergency permits when a district cannot find a credentialed teacher. The Emergency Career Substitute Permit offers a viable option for extended service in general education, but it is intentionally limited to experienced local substitutes and does not address the broader range of extended assignments that arise statewide.

The gap emerges most clearly in assignments that extend beyond thirty days in general education or twenty days in special education but do not warrant a full-year appointment. When these situations occur, LEAs must rotate multiple substitutes, shift staff internally, or move directly to full-year authorizations designed for long-duration service rather than short-range vacancy coverage. This mismatch between available options and staffing realities underscores the need for a mid-range pathway that supports continuity while maintaining appropriate preparation and safeguards.

The gap is most pronounced in vacancies. When no teacher of record is present to anchor instruction, the temporary educator must establish routines, organize instruction, implement supports, maintain communication with families, and uphold the learning environment without guidance from a returning teacher. These responsibilities require foundational preparation and guided practice to carry out effectively. Current substitute permits do not include these expectations, and the full-year authorizations used for vacancies create an imbalance between assignment length and the preparation that is appropriate for short-duration service.

In special education, the gap is shaped further by statutory requirements. Education Code section 56061 establishes the 20 day substitute limit and prescribes procedures for extensions. These limits reflect the heightened responsibilities associated with implementing IEPs, providing accommodations, and ensuring compliance with IDEA and Section 504. When extended service becomes necessary, the next available options are full-year authorizations such as the STSP, PIP, or, in statutory-leave situations, the TPSL. None of these were designed to function as short-duration continuity pathways for temporary vacancies or mid-range assignments that require the consistent provision of required services.

The system also lacks consistent expectations for preparation, support, and accountability when an individual serves beyond short-term limits. LEAs vary in how they communicate extended placements to families, how they verify continued recruitment efforts for fully credentialed teachers, and how they support individuals placed in extended roles. Without a statewide framework that defines minimum preparation, establishes support expectations, and requires transparent use, extended temporary coverage can drift into ongoing staffing patterns without safeguards for instructional continuity or public confidence.

Taken together, these gaps demonstrate that the existing structure does not provide a preparation-aligned, time-limited pathway for extended service in either general education or special education. A revised mid-range option, grounded in defined preparation and support expectations and accompanied by clear accountability and time limits, is necessary to maintain continuity in classrooms while LEAs continue efforts to recruit fully credentialed teachers.

Current Need

The gaps identified above point to a clear need for a structured, preparation-aligned pathway that supports extended temporary service while protecting instructional continuity and ensuring responsible use. When an assignment is designated beyond the thirty-day limit in general education or the twenty-day limit in special education, the responsibilities assumed by the temporary educator shift from short-term coverage to sustaining or establishing the elements of classroom function that affect student learning and access to required support. Addressing this shift requires expectations that go beyond what existing substitute permits were designed to support.

First, there is a need for a statewide option that allows a single individual to remain with a classroom for a defined, limited period when a vacancy or extended leave occurs, without defaulting to rotation practices that disrupt routines and undermine continuity for students. Such an option must be time-limited and clearly temporary, preserving the expectation that fully credentialed teachers remain the long-term goal for every classroom.

Second, any extended temporary option must include minimum levels of preparation that equip individuals to maintain classroom routines, carry forward basic instructional workflows, and implement required supports for diverse learners. Without foundational training, individuals assigned for several weeks may be unable to sustain the elements of continuity that students rely on, particularly in classrooms serving students with disabilities, English learners, and students with behavioral or instructional support plans.

Education partners also described the need for preparation that is feasible for LEAs to deliver and portable across districts, so that substitutes do not need to be retrained each time they serve in a new setting. Although education partners did not propose a specific model, their feedback highlighted the opportunity for the state, working with partners, to help alleviate local burden by making essential readiness content more widely available for preservice or on-the-job use.

This suggests a use case for a structured micro-certification approach (Appendix D) aligned with the essential content areas in Title 5, section 80022 and verified locally in the spirit of the TPSL framework. A micro-certification structure would support portability, reduce duplication of training, and allow completed preparation to contribute toward intern preservice requirements, helping ensure that preparation for extended assignments strengthens both immediate staffing stability and longer-term pathways into full credential programs.

Third, individuals serving in extended assignments need access to structured support during the period of service. Short-term preparation alone is not sufficient to ensure that temporary educators can navigate instructional pacing, manage the learning environment, communicate with families, and uphold required services. A coherent support structure helps safeguard students' access to stable, predictable learning conditions throughout the temporary placement.

Fourth, there is a need for transparent and accountable use of extended short-term staffing options. Families, boards of education, and the public expect clarity about when classrooms are staffed by individuals who are not fully credentialed, how long those assignments last, and what efforts the LEA is making to fill the position with an appropriately prepared teacher. Clear expectations for documentation, recruitment, and communication help ensure that extended short-term staffing does not drift into ongoing use.

Finally, any statewide approach must align with federal and state requirements, particularly in special education. Assignments that extend beyond the statutory substitute limits must ensure that students with disabilities continue to receive services consistent with IDEA, Section 504, and California Education Code. This requires preparation and support that enable temporary educators to implement accommodations and behavioral plans reliably.

Together, these needs point toward the development of a mid-range staffing option that is limited in duration, structured in preparation and support, transparent in use, and aligned with statutory and instructional requirements. Such an option would allow LEAs to maintain stability in classrooms during extended absences or vacancies while continuing efforts to recruit fully credentialed teachers.

While some extended assignments will always arise unexpectedly, many can be reasonably anticipated through spring staffing processes, known statutory and medical leaves, and positions that have historically been difficult to fill. The mid-range option contemplated in this item is therefore intended to function primarily as a planned component of short-term staffing strategies, while retaining flexibility for genuinely unforeseen vacancies or emergencies.

Development of the TPSL Framework

When the Teaching Permit for Statutory Leave was developed, employer groups, employee organizations, and student-focused civil rights advocates worked with the Commission to identify the minimum preparation and support expectations needed when an individual temporarily assumes responsibility for a classroom. This collaboration established the structure in Title 5 section 80022. The regulation defines essential content areas needed for service in temporary teaching assignments, such as curriculum and instruction, reading and literacy, pedagogy, human development, classroom management, English learner supports, ethics, health and safety, and the implementation of required services for students with disabilities. This content is designed to be delivered at the local level through three 45-hour modules each year for the TPSL holder's first three years of service (Appendix A).

During recent engagements with employers, the question arose about the origins of the 45-hour number. The 45-hour preparation baseline was set as the contact-hour equivalent of three semester units during the TPSL development process. It was expressed in hours rather than academic units so that local education agencies could design, implement, and verify preparation locally without relying on higher education credit structures. The weekly support requirement of an average of two hours per week was created to ensure that temporary educators receive consistent guidance from credentialed personnel to maintain routines, uphold student access to instruction, and implement required supports reliably.

Although developed for statutory leave situations, the TPSL framework establishes a practical baseline for the preparation and support expected when a temporary educator serves beyond a short assignment. Of note, many of the same groups that contributed to the development of the TPSL framework later co-sponsored AB 1224 as well as those that opposed it. For that reason, it served as a logical starting point in discussions with education partners.

Recommendations

Extended absences and temporary vacancies create staffing needs that fall between short-duration substitute coverage and full-year emergency authorizations. The following recommendations propose a set of options that together create a structured mid-length staffing spectrum. Each option is time limited, preparation aligned and designed to preserve the expectation that fully credentialed teachers remain the preferred long-term solution in every classroom.

The recommendations below are intended to provide a foundation for Commission discussion. Staff seek Commission guidance on the appropriate levels of required preparation, the semester unit and contact-hour equivalents associated with that preparation, the design of support expectations, and the level of subject-matter alignment needed in extended service, particularly in special education and other high need settings.

Table 2: Proposed Short-Terms Staffing Structure

Current Emergency Permit Type	*General Education*	*Special Education*	*Level of Responsibility*
Substitute-Prospective Teachers	30 days	20 days	Day-to-day substitute
Substitute Teacher	30 days	20 days	Day-to-day substitute
Credential Holder Substitute	30 days	20 days	Day-to-day substitute
Career Substitute Teacher: Experience	60 days	20 days	Mid-range substitute

New Proposed Mid-Range Options	*General Education*	*Special Education*	*Level of Responsibility*
Credential Holder Substitute	60 days	20 days	Mid-range substitute
Career Substitute Teacher: Training	60 days	20 days	Mid-range substitute
Teaching Permit for Vacancy or Leave	60 days	60 days	Interim teacher of record

Current Limited Teaching Permits	*General Education*	*Special Education*	*Level of Responsibility*
Teaching Permit for Statutory Leave	Up to 1yr	Up to 1yr	Interim teacher of record
Short Term Staffing Permit	Up to 1yr	Up to 1yr	Interim teacher of record
Provisional Internship Permit	Up to 1yr	Up to 1yr	Interim teacher of record

Recommendation 1: Expand the 30-Day Substitute Authorization for Credentialed Teachers
Proposal: Allow fully credentialed teachers in substitute assignments to serve up to sixty cumulative instructional days for any one teacher of record in both general education and special education.

Rationale: Credentialed teachers are the individuals best prepared to maintain continuity when short-term limits are exceeded. They have completed a state-approved preparation program that includes supervised clinical practice and coursework in curriculum and instruction, pedagogy, human development, literacy, and the needs of diverse learners. Expanding their substitute authorization provides a low-risk and high-stability option without compromising instructional quality.

- Support Expectations: Local education agencies shall ensure that credentialed teachers assigned for extended substitute service receive basic site-level support sufficient to sustain routines and meet local expectations, with particular attention to serving English learners and students with disabilities.

Recommendation 2: Establish an Alternate Pathway for the 60-Day Career Substitute Permit
Proposal: Create a new path to earn a 60-Day Career Substitute Permit for individuals holding a bachelor's degree to serve up to sixty cumulative instructional days for any one teacher of record in general education assignments. This permit would serve as an alternative pathway to the existing Emergency Career Substitute Permit, providing a 60-day option for individuals who do not yet meet the Career Substitute Permit's three-year experience requirement but are needed for mid-range assignments.

Rationale: A 60-day option with structured preparation and support provides a preparation-aligned route for individuals who can help maintain stability in mid-range substitute assignments but do not yet qualify for the Emergency Career Substitute Permit. This approach preserves the value of the Career Substitute authorization while creating an additional readiness-oriented pathway for LEAs facing extended absences or vacancies when there are not sufficient numbers of substitutes in a local area with the requisite experience to qualify for the permit through the experience route.

Many of the assignments that would rely on this option can be anticipated. Long-term leaves and unfilled positions identified after the hiring season allow local education agencies to arrange preparation and support in advance, although the permit is sufficiently flexible for unexpected vacancies that require immediate continuity.

- Proposed Preparation Requirements: Fifteen hours of preservice preparation aligned with the Title 5 section 80022 content areas covering essential readiness topics including classroom management, mandated reporting, local procedures, health and safety, and basic instructional routines. Thirty hours of on-the-job training aligned with the Title 5 section 80022 content areas at a scope and depth appropriate for substitute service to be completed after initial issuance of the permit.

  See Appendix B for an example of how the preservice and on-the-job learning could be organized.

- Support Requirements: An average of two hours per week of support that may be provided flexibly by site-based certificated staff. Support may include coaching, check-ins, modeling of routines, or assistance with instructional planning.

  See Appendix C for a sample schedule of flexible support. Note: Where the flexible support aligns with Title 5 section 80022 content areas, it could contribute to the on-the-job learning requirements.

- Subject Matter: No separate subject-matter requirement would be recommended for this permit. Instructional alignment will be supported through preservice preparation, on-the-job training, and the required system of support.

- Designated Subjects Career Technical Education: Because the Designated Subjects Career Technical Education 30-day substitute permit shares the same statutory day limits, this 60-day option would also be extended to CTE assignments, with details adapted to the

Designated Subjects structure. The intent is parity with general-education expectations while honoring the requirements of the CTE system.

- A holder who completes the required preservice preparation and receives continued local support may serve in additional 60-day substitute assignments within the same year, provided each assignment meets the criteria for extended service. For reissuance beyond the initial year, the individual must complete the next level of preparation aligned with the Title 5 section 80022 content areas and the LEA must verify continued need, continued support, and a new assignment determination.

Recommendation 3: Create a 60-Day Limited Teaching Permit for Vacancies
Proposal: Create a 60-Day Limited Teaching Permit for Vacancies authorizing service in both general education and special education settings when no teacher of record is available. This permit is intended for situations in which a classroom lacks an anchoring, fully credentialed teacher and requires a temporary educator who can uphold instructional routines, required services, and legal obligations.

Rationale: Vacancy assignments carry the highest level of risk to students because no fully credentialed teacher anchors instruction. In these situations, students must still receive required services under IDEA, Section 504, and state law, and they must experience stable routines, aligned instruction, and consistent implementation of supports. Full alignment with section 80022 ensures that temporary educators have the foundational preparation and structured support required to uphold these expectations. The 60-day limit reinforces that this authorization is a short-term bridge while recruitment efforts continue, not a replacement for a fully credentialed teacher.

- Preparation Requirements: Forty-five hours of preservice preparation meeting all Title 5 section 80022 content expectations prior to issuance of the permit. This includes foundational readiness in ethics, health and safety, curriculum and instruction, reading and literacy, pedagogy, human development, supports for English learners, and the implementation of IEP requirements.
- Support Requirements: An average of two hours per week of support aligned with section 80022. Support must include participation from at least one appropriately credentialed educator in the assignment area to ensure accurate implementation of curriculum, accommodations, and required services. Site-based certificated personnel may provide additional support consistent with local staffing models.
- Subject Matter: Basic subject-matter knowledge—not full subject matter readiness—is required for the permit holder. In multiple subject settings, this can be met through Multiple Subject coursework, exams, or degree major; in single subject settings, through the corresponding Single Subject options. In special education settings, subject-matter knowledge may be shown through either the multiple or single subject routes, or through relevant coursework or experience working with students with disabilities. These expectations provide a basic level of subject-matter familiarity without requiring the full subject-matter demonstration of a credentialed teacher.

- Renewal: This authorization would not be renewable for the same vacancy. Education Code section 56061 sets statutory limits on substitute service in special education and reflects the heightened responsibility associated with IEP implementation and federally required services. To remain aligned with these statutory boundaries, the 60-Day Limited Teaching Permit for Vacancies may only be issued once per vacancy. Any subsequent use would require a new vacancy determination and a new request from the employing agency. This ensures that the authorization functions as a short-term continuity option rather than a standing assignment or de facto extension of the statutory substitute limits governed by Education Code section 56061.

Accountability and Transparency

Extended substitute assignments and temporary vacancy placements carry significant responsibility. Even when used appropriately and for short periods, these assignments place an uncredentialed or partially prepared educator in front of students who rely on consistent routines, aligned instruction, and required services. For this reason, any 60-day authorization must be used only as an emergency stopgap, transparently, and with continued attention to placing a fully credentialed teacher as soon as possible. Accountability expectations help ensure that these authorizations function as short-term bridges rather than longer-term workarounds.

When an LEA determines that an extended assignment is necessary, a brief verification from the superintendent or designee should confirm the staffing need, the steps taken to recruit a fully credentialed or intern eligible educator, and the plan to continue recruitment while the temporary authorization is in use. This verification is not intended to be burdensome. Rather, it provides a simple acknowledgement that extended placements are exceptional and that efforts to secure a permanent, fully prepared teacher remain active.

Because the use of extended authorizations reflects real staffing conditions in schools, LEAs should also share this information with their local governing boards through a public item. This allows communities to understand how many classrooms required extended coverage, how long the placements lasted, and the preparation and support provided to the individuals serving in those roles. This process also allows policy makers to understand the nuances of teacher shortage in local areas, providing opportunity to craft policies that may help mitigate the challenges. These expectations follow the same spirit as existing reporting for emergency permits and help maintain public visibility into how schools are managing vacancies and extended absences.

An annual summary of the use of emergency permits to cover assignments beyond 20 or 30 days at the end of the school year can support this transparency. By reviewing the full set of extended assignments used across the year, LEAs can better understand patterns in vacancies, progress toward filling open positions, and the types of supports that were most helpful to temporary educators. This end-of-year reflection also provides boards and communities with a clearer picture of local staffing challenges.

At the state level, the Commission should track the issuance and use of 60-day authorizations to inform future policy work. Statewide patterns can help identify credential areas and regions

experiencing persistent shortages and can contribute to broader workforce development efforts.

Overall, these accountability measures reinforce the expectation that extended service remains temporary and closely supported. They help maintain public confidence and ensure that students in high-need settings are not disproportionately assigned temporary personnel without preparation, support, or oversight. They also reflect a shared commitment among employers, educators, and civil rights partners to keep the needs of students at the center of any extended staffing solution.

Staff Recommendation
Staff recommend that the Commission review and discuss the options presented in this item and provide direction to guide the development of a refined proposal for consideration at a future meeting. In particular, staff seek input on the minimum preparation and support expectations that should accompany extended short-term assignments. Areas for Commission guidance include:

- the appropriate level of preparation for individuals serving in vacancy roles, expressed in semester-unit or contact-hour equivalents aligned with the essential content areas in Title 5 section 80022,
- the appropriate amount and structure of preservice preparation and on-the-job learning for individuals serving in extended substitute assignments,
- the design and flexibility of the required support structure for temporary educators, including expectations for frequency, focus, and the role of site-based certificated staff, and
- the degree of subject-matter alignment needed in extended service, particularly in special education and other high-need settings.

Staff also request direction on the limitations, reporting expectations, and time limits for any new authorization, and on whether preparation completed under these options should count toward intern preservice requirements.

Next Steps
Staff will continue engagement with education partners and return to the Commission with a refined proposal informed by the Commission's discussion and by additional listening and learning scheduled in the coming months.

Appendix D

Example Title V, Section 80022 Micro-Certification Use Case

This appendix provides a brief, illustrative example of how training required under Title 5, section 80022 could be organized using a micro-certification structure. Commissioners and education partners have expressed interest in whether modern documentation tools could help local education agencies improve access to consistent training, support continuity during temporary staffing disruptions, and reduce duplication for individuals who serve across multiple districts. The concept described below is hypothetical and is offered only to illustrate one possible design approach.

Figure 1: Example digital badge and associated metadata

A micro-certification is a short, structured set of learning activities organized around a specific topic. Each micro-certification could include core content, a simple applied task, a brief artifact demonstrating what was completed, and a short reflection. When the activities are finished, a local verifier reviews the evidence and issues a digital badge. The badge is conferred and the held by the completer. The badge contains metadata identifying the topic, the activities completed, the date of completion, and the individual who verified the work. A micro-certification does not authorize service and does not replace any credential or permit. It provides portable documentation that required training has been completed. The term micro-certification is used here to avoid confusion with California's credentialing structure, since the term credential refers to a state authorization and should not be associated with short training modules.

The preparation expectations in Title 5 section 80022, lend themselves naturally to a modular structure of this kind. The regulation identifies essential content areas and organizes them across three 45-hour blocks of preparation. A micro-certification approach could group these required activities into “stacks” or curated collections of short micro-certification modules aligned with the Foundational, Intermediate, and Proficient levels specified in regulation. Each module would reflect the depth required at that level, and together they would document completion of the full Title 5, section 80022 training sequence.

A Commission-approved intern program sponsor could determine whether the completed sequence aligns with its own preservice expectations. Alternatively, the Commission could explore granting equivalence through other means. Local education agencies that are not program sponsors could still use the micro-certification sequence for their own verification needs, including documentation of training required for the Teaching Permit for Statutory Leave or for any future authorization that relies on section 80022 preparation.

A minimum viable micro-certification model could consist of a version-controlled set of shared training resources aligned to Title 5, section 80022, combined with a simple local process for verifying completion. LEAs would determine how learning is delivered, how evidence is reviewed, and who may serve as verifiers. Verification could then be used to generate a digital badge or completion record. Additional iterations could evolve the model and incorporate features that respond to user feedback and local implementation experience. Any such development would depend on future direction and available resources, as there is no current funding or staffing dedicated to this work.

The table below shows, for illustrative purposes, how the topics in section 80022 could be distributed across the three levels while still following the required regulatory sequence.

Title 5, section 80022 topics as micro-certifications			
Legend: F = Foundational; I = Intermediate; P = Proficient			
Micro-certification	Stack 1	Stack 2	Stack 3
Health, Safety, and Hygiene	F, I, P		
Ethics	F, I, P		
Local Context	F, I, P		
Curriculum and Instruction	F	I	P
Reading and Language Arts	F	I	P
Pedagogy	F	I	P
Human Development	F		I, P
Teaching English Learners	F	I	P
Best Practices in Instruction and IEPs	F	I	P
Classroom Management and Learning Environment	F	I	P
Relationships Between Theory and Practice		F	I, P
Using Technology in the Classroom		F, I	P

This appendix is intended only to illustrate how a modular documentation structure could help organize required preparation, support portability for educators working across LEAs, and

provide a clearer record of training in situations where continuity of instruction is essential. It does not propose changes to section 80022 or establish new requirements. If Commissioners are interested in further exploration of this concept, staff could bring a more fulsome elaboration to a future meeting.

EXHIBIT “D”

RENEWAL - 1535

MOU Exhibit 6: School Intervention Protocol

I. Intervention Authority and Responsibility

Pursuant to Education Code sections 47604.32 and 47607, the District has the legal authority and responsibility to oversee that the Charter School complies with the material terms of the Charter, pursues and meets the student outcomes identified in the Charter, adheres to generally accepted accounting principles, meets reporting requirements, complies with applicable law, monitors the fiscal condition of the Charter School, and does not engage in fiscal mismanagement. In addition, the District has the responsibility, under Education Code section 47607(d), to provide the Charter School reasonable opportunity to remedy a violation prior to revocation.

II. Process for Charter School Intervention

The decision to intervene in a school is precipitated by the District's reasonable belief that a specific school performance or compliance problem exists that indicates a material violation of the terms of the Charter, the MOU and/or applicable law. When engaging in School Intervention, the District shall, first and foremost, protect the interests of students and the public. To that end, the District shall engage in the following intervention procedures:

Statement of Concern(s) (Letter #1): Direct contact with the Charter School followed by a Letter stating the District's concerns. The Letter will reasonably state the District's concern; the basis or evidence on which the District's concern is founded; the result required to remedy the concern; the time in which the District expects the result to be achieved; and the means by which the District expects to verify achievement of the required result. Ordinarily, the District will provide the Charter School a minimum of fifteen (15) calendar days to achieve the required result.

Notice of Deficiency (Letter #2): In the event that the Charter School has failed to make meaningful progress in addressing the concern(s) identified in the initial Statement of Concern, the District will issue a Notice of Deficiency that identifies the deficiency, the basis or evidence on which it is founded, and the result required to remedy the deficiency. In addition, the District will require that the Charter School document and submit to the District the specific steps it is taking to remedy the deficiency and the anticipated completion date. The District will expect a satisfactory remedy within fifteen (15) calendar days from the date of the Notice unless the School shows good cause why that time should be extended. The District may at its discretion conduct additional oversight, including but not limited to one or more site visits, to monitor progress in remedying the deficiency.

Charter Probation (Letter #3): The District may in its discretion place the Charter School on Charter Probation and state the specific conditions of Probation including directing the school to take specific corrective action and to make substantial progress in addressing all remaining concerns by a specified date.

At its discretion, the District may appoint a school improvement team to supervise the corrective action and/or designate a monitor to evaluate the corrective action on an ongoing basis.

In addition, at its discretion, the District may impose any or all of the following Probation Sanctions pending satisfactory remedy of the concerns:

- Prohibit the school from enrolling any new students;
- Prohibit the school from expanding grade levels;
- Require professional development for leadership staff in areas of concern;
- Appoint a District representative or additional District representative (where there is already an existing District representative) to be an active and voting member of the Charter School's board of directors.

Charter Review (Letter #4): The District will restate the deficiencies and the Charter School's history of failure to correct or address those deficiencies. The District will develop recommendations to revoke the charter or to impose lesser sanctions. The District Board will decide whether to commence revocation proceedings.

Charter Revocation: If the District Board decides to commence revocation proceedings, the District shall schedule a District Board agenda item to hold a public hearing and consider revocation of the charter. The District shall provide written notice to the Charter School of the District's intent to revoke the charter and the facts in support of revocation.

No later than 30 days after providing the notice of intent to revoke the charter, the District shall hold a public hearing on whether evidence exists to revoke the Charter.

No later than 30 days after the public hearing, the District shall issue a final decision on the revocation. The District and the Charter School may agree to extend the date of the issuance of the final decision by an additional 30 days. Any decision to revoke the School's charter shall be based on written factual findings and supported by substantial evidence specific to the Charter School.

If the Charter School's charter is revoked based on the Charter School's failure to meet or pursue any of the student outcomes identified in the charter, or a material violation of any of the conditions, standards, or procedures contained in the Charter, the School shall continue to qualify as a charter school until such time as the Charter School has exhausted any appeals that it elects to pursue under Education Code section 47607(f).

III. Health and Safety

Nothing in the foregoing Process for Charter School Intervention shall impair the District's authority and legal duty to intervene in accordance with the Charter Schools Act and other applicable law, including the authority, pursuant to

Education Code section 47607(d), to revoke the charter immediately if necessary to remedy a severe and imminent threat to the health or safety of the Charter School's students.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Escuela Popular Del Pueblo
San Jose, California

Report on the Consolidated financial statements

Opinion

We have audited the accompanying consolidated financial statements of Escuela Popular Del Pueblo which comprise the statement of financial position as of June 30, 2024, and the related consolidated statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the consolidated financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Escuela Popular Del Pueblo as of June 30, 2024, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Escuela Popular Del Pueblo and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Escuela Popular Del Pueblo's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Escuela Popular Del Pueblo's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Escuela Popular Del Pueblo's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information listed in the table of contents, including the schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Local Education Agency Organization Structure but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2024, on our consideration of Escuela Popular Del Pueblo's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Escuela Popular Del Pueblo's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Escuela Popular Del Pueblo's internal control over financial reporting and compliance.

RENEWAL - 1557

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Escuela Popular Del Pueblo (the school) and Subsidiary (the Organization) is a non-profit public benefit corporation that was incorporated in the State of California on October 2, 2000. The Organization is comprised of two charter schools, Escuela Popular Accelerated Family Learning Center (EPAFLC) and Escuela Popular Center for Training and Careers (EPCTC). Both schools were granted a five-year charter under the sponsorship of the East Side Union High School District, pursuant to the terms of the Charter Schools Act of 1992.

EPAFLC is a family learning center that serves Transitional Kindergarten through Grade 12. EPAFLC was developed as a grassroots effort to serve the unique needs of the Latino community in East San Jose.

EPCTC is a high school that serves students in Grades 9 through 12 who are over the age of 19. Many of these students have previously dropped out of school and are looking for a second chance to earn their high school degree. EPCTC combines a rigorous, standards-based academic program with relevant job skills training. EPCTC equips its students with a high school diploma and relevant job skills that will enables them to be effective members in today's workforce.

The Organization is the sole member of 149 N. White Road LLC (LLC), which was created in May 2017 to purchase school facilities utilized by EPAFLC and EPCTC. During the fiscal year end June 30, 2024, the Organization leased two facilities from the LLC (See Note 10).

B. Basis of Accounting

The Charter's policy is to prepare its financial statements on the accrual basis of accounting; consequently, revenues are recognized when earned rather than when cash is received and certain expenses and purchases of assets are recognized when the obligation is incurred rather than when cash is disbursed.

C. Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Escuela Popular Del Pueblo and 149 N. White Road, LLC, which comprise the Organization as a whole. Intercompany accounts and transactions have been eliminated in consolidation.

D. Financial Statement Presentation

The financial statements are presented in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958 dated August 2016, and the provisions of the American Institute of Certified Public Accountants (AICPA) "Audit and Accounting Guide for Not-for-Profit Organizations" (the "Guide"). ASC 958-205 was effective July 1, 2018. Under the Guide, Escuela Popular Del Pueblo is required to report information regarding its financial position and activities according to two classes of net assets:

Net assets without donor restrictions – These net assets generally result from revenues generated by receiving contributions that have no donor restrictions, providing services, and receiving interest from operating investments, less expenses incurred in providing program-related services, raising contributions, and performing administrative functions.

Net assets with donor restrictions – These assets result from gifts of cash and other assets that are received with donor stipulations that limit the use of the donated assets, either temporarily or permanently, until the donor restriction expires (that is until the stipulated time restriction ends or the purpose of the restriction is accomplished) the net assets are restricted. When a restriction expires, restricted net assets are reclassified to net assets without donor restrictions.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

D. Financial Statement Presentation (continued)

As a public charter school, the Charter also accounts for its financial transactions in accordance with the policies and procedures of the Department of Education's *California School Accounting Manual* presented in Procedure 810 Charter Schools. Fund accounting is not used in the Charter's financial statement presentation.

E. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures, such as depreciation expense and the net book value of capital assets. Accordingly, actual results could differ from those estimates.

F. Contributions

Unconditional contributions are recognized when pledged and recorded as net assets without donor restrictions or net assets with donor restrictions, depending on the existence and/or nature of any donor-imposed restrictions. Conditional promises to give are recognized when the conditions on which they depend are substantially met. Gifts of cash and other assets are reported with donor restricted support if they are received with donor stipulations that limit the use of the donated assets.

When a restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported on the statement of activities as "net assets released from restrictions." Donor-restricted contributions whose restrictions are met in the same reporting period are reported as net assets without donor restriction support. Contributions restricted for the acquisition of land, buildings, and equipment are reported as net assets without restriction upon acquisition of the assets and the assets are placed in service.

Non-cash contributions of goods, materials, and facilities are recorded at fair value at the date of contribution. Contributed services are recorded at fair value at the date of contribution if they are used to create or enhance a non-financial asset or require specialized skills, are provided by someone possessing those skills, and would have to be purchased by the organization if not donated.

G. In Lieu of Property Tax Revenue

Secured property taxes attach as an enforceable lien on property as of March 1. Taxes are payable in two installments on December 10 and April 10. Unsecured property taxes are payable in one installment on or before August 31. The County bills and collects the taxes for the authorizing agency. In lieu of distributing funds out of property tax proceeds, the authorizing agency makes monthly payments to Escuela Popular Del Pueblo. Revenues are recognized by the Charter when earned.

H. Functional Expenses

The costs of providing services have been summarized on a functional basis in the statement of activities and detailed in the statement of functional expenses. Certain costs and expenses have been allocated between program and supporting services based on management's estimates.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (continued)

I. Cash and Cash Equivalents

Escuela Popular Del Pueblo considers all highly liquid deposits and investments with an original maturity of less than ninety days to be cash equivalents.

J. Investments

The Charter's method of accounting for most investments is the fair value method. Fair value is determined by published quotes when they are readily available. Gains and losses resulting from adjustments to fair values are included in the accompanying statement of activities. Investment return is presented net of any investment fees.

K. Receivables and Allowances

Accounts receivable are stated at the amount management expects to collect from outstanding balances. An allowance for doubtful accounts is established, as necessary, based on past experience and other factors which, in management's judgment, deserve current recognition in estimating bad debts. Such factors include the relationship of the allowance for doubtful accounts to accounts receivable and current economic conditions. Based on review of these factors, the Charter establishes or adjusts the allowance for specific revenue sources as a whole. At June 30, 2024, an allowance for doubtful accounts was not considered necessary as all accounts receivable were deemed collectible.

L. Capital Assets

Escuela Popular Del Pueblo has adopted a policy to capitalize asset purchases over $5,000. Lesser amounts are expensed. Donations of capital assets are recorded as contributions at their estimated fair value. Such donations are reported as net assets without donor restrictions. Capital assets are depreciated using the straight-line method over the estimated useful lives of the property and equipment or the related lease terms.

M. Deferred Revenue

Deferred revenue arises when potential revenue does not meet the criteria for recognition in the current period and when resources are received by the organization prior to the incurrence of expenses. In subsequent periods, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the statement of financial position and revenue is recognized.

N. Income Taxes

Escuela Popular Del Pueblo is a 509(a)(1) publicly supported nonprofit organization that is exempt from income taxes under Section 501(a) and 501(c)(3) of the Internal Revenue Code and classified by the Internal Revenue Service as other than a private foundation. The Charter is exempt from state franchise or income tax under Section 23701(d) of the California Revenue and Taxation Code. As a school, the Charter is not required to register with the California Attorney General as a charity.

The Charter's management believes all of its significant tax positions would be upheld under examination; therefore, no provision for income tax has been recorded. The Charter's information and/or tax returns are subject to examination by the regulatory authorities for up to four years from the date of filing.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (continued)

O. Fair Value Measurements

The Fair Value Measurements Topic of the FASB *Accounting Standards Codification* establishes a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
Level 2	Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

P. Lease Arrangements

In February 2016, FASB issued ASU No. 2016-02, *Leases (Topic 842)*, a new lease standard effective no later than the fiscal year 2022-23. Under FASB ASC 842, a right-of-use asset and a related lease liability must be recorded on the statement of financial position (balance sheet) for proper recognition of any operating lease. A right-of-use asset is an intangible asset that pertains to the lessee's right to occupy, operate, and hold a leased asset during the agreed rental period. A lease liability is the financial obligation for the payments required by the lease, discounted to present value.

NOTE 2 – CASH AND CASH EQUIVALENTS

Cash and cash equivalents, as of June 30, 2024, consists of the $25,719,598 in cash in banks. As of June 30, 2024, $21,864,320 of the Escuela Popular Del Pueblo's bank balance was exposed to custodial credit risk as there were deposits over $250,000 in accounts held at one or more banks. Custodial credit risk is the risk that in the event of a bank failure, an organization's deposits may not be returned to it. Escuela Popular Del Pueblo does have a policy for custodial credit risk for deposits. The FDIC insures up to $250,000 per depositor per insured bank.

The Bond matures in the following tranches: $2,490,000 due July 1, 2027 with an interest rate of 5.5%, per annum; $5,455,000 due July 1, 2037 with an interest rate of 6.25%, per annum; $14,600,000 due July 1, 2050 with an interest rate of 6.5%, per annum. The Bond is secured by the underlying educational facilities. The bond contained a discount when issued of $1,103,625, which is being amortized as interest expense over the life of the bond. For the year ended June 30, 2024, the interest expense related to the Bond was $1,365,563.

The bonded debt is held under the LLC yet debt payments are structured as lease payments from the Charter to the LLC. The bonds require the Organization to comply with certain financial and nonfinancal covenants. Future repayment obligations for the bond are as follows:

NOTE 10 – EMPLOYEE RETIREMENT PLANS

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. In accordance with *California Education Code* 47605, charter schools have the option of participating in such plans if an election to participate is specified within the charter petition. The Charter has made such election. Certificated employees are members of the California State Teachers' Retirement System (CalSTRS).

California State Teachers' Retirement System (CalSTRS)

Plan Description
Escuela Popular Del Pueblo contributes to the California State Teachers' Retirement System (CalSTRS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalSTRS. The plan provides retirement, disability and survivor benefits to beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law. CalSTRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalSTRS annual financial report may be obtained from CalSTRS, 7667 Folsom Boulevard; Sacramento, California 95826.

Funding Policy
Active plan members are required to contribute 10.25% or 10.205% of their 2023-24 salary depending on the employee's membership date in the plan. The required employer contribution rate for fiscal year 2023-24 was 19.10% of annual payroll. The contribution requirements of the plan members are established by state statute. The Charter's contributions to CalSTRS were $506,537; 100% of the required contribution.

On-Behalf Payments
The State of California makes direct on-behalf payments for retirement benefits to CalSTRS on behalf of all school agencies in California. The amount of on-behalf payments made for Escuela Popular Del Pueblo is estimated at $223,901. The on-behalf payment amount is computed as the proportionate share of total 2022-23 State on-behalf contributions.

NOTE 11– COMMITMENTS AND CONTINGENCIES

Charter School Authorization

As mentioned in Note 1A, Escuela Popular Del Pueblo is approved to operate as a public charter school through authorization by the East Side Union High School District. As such, the Charter is subject to the risk of possible non-renewal or revocation at the discretion of its authorizing agency if certain criteria for student outcomes, management, and/or fiscal solvency are not met.

On July 9, 2021, the Governor of California approved Assembly Bill 130 (AB 130). Effective July 1, 2021, AB 130 added a provision within the California Education Code (EC) whereby all charter schools whose term expires on or between January 1, 2022, and June 30, 2025, inclusive, shall have their term extended by two years. Additionally, on July 10, 2023, the Governor of California approved Senate Bill 114 (SB 114), which amended EC 47607.4. The EC was amended to add "all charter schools whose term expires on or between January 1, 2024, and June 30, 2027, inclusive, shall have their term extended by one additional year." As a result, the charter petition end date is extended to June 30, 2025 for Escuela Popular Accelerated Family Learning and the charter petition end date is extended to June 30, 2026 for Escuela Popular Center for Training and Careers.

The Charter makes payments to the authorizing agency, to provide required services for special education and other purchased services in addition to fees for oversight. Fees associated with oversight consisted of 1% of revenue from local control funding formula sources. Total fees for oversight amounted to $146,780 and total expenses for special education amounted to $15,963 for the fiscal year ending June 30, 2024.

NOTE 11 – COMMITMENTS AND CONTINGENCIES (continued)

Governmental Funds

Escuela Popular Del Pueblo has received state and federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursements would not be material.

Multiemployer Defined Benefit Plan Participation

Under current law on multiemployer defined benefit plans, the Charter's voluntary withdrawal from any underfunded multiemployer defined benefit plan would require the Charter to make payments to the plan, which would approximate the Charter's proportionate share of the multiemployer plan's unfunded vested liabilities. CalSTRS has estimated that the Charter's share of withdrawal liability is approximately $2,921,733 as of June 30, 2023. The Charter does not currently intend to withdraw from CalSTRS or CalPERS. Refer to Note 10 for additional information on employee retirement plans.

Pending or Threatened Litigation

The Charter is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the Charter as of June 30, 2024.

NOTE 12– INTERAGENCY LEASE AGREEMENTS

The charter schools entered into a lease agreement with the LLC to occupy two facilities. The two facilities are utilized for instructional services in order to meet the goals established by the charter school. The lease called for a security deposit of $28,855 which has been recorded as a noncurrent asset on the statement of financial position. The lease agreement ends through June 2050. During the fiscal year ended June 30, 2024, the Charter paid $2,284,748 in lease payments under this operating lease. At June 30, 2024, the right-of-use asset was $32,230,888 and the operating lease liability was $33,382,781.

The following table shows the present value of the operating lease liability as the actual lease payments less the implied discount rate and the right-of-use asset as the lease expense over the straight-line basis reduced by the implied discount rate. The Charter has accounted for its lease agreements using an implied discount rate of 5.50%. The associated asset and liability are amortized over the remaining term of the lease as follows:

Fiscal Year Ending June 30,	Lease Payments
2025	$ 2,287,423
2026	2,288,998
2027	2,314,682
2028	2,334,332
2029	2,333,707
Thereafter	51,930,767
Total lease payments	63,489,909
NPV adjustment	(30,107,128)
Total Operating Lease Liability	$ 33,382,781

NOTE 13 – DONATED GOODS AND SERVICES

During the year, many parents, administrators and other individuals donated significant amounts of time and services to Paso Robles Charter School Project, Incorporated in an effort to advance the Charter's programs and objectives. These services have not been recorded in the Organization's financial statements because they do not meet the criteria required by generally accepted accounting principles. The Organization did not receive any donated items during the year ended June 30, 2024.

NOTE 14 – SUBSEQUENT EVENTS

Escuela Popular Del Pueblo has evaluated subsequent events for the period from June 30, 2024 through December 16, 2024, the date the financial statements were available to be issued. Management did not identify any transactions or events that require disclosure or that would have an impact on the financial statements.

OTHER INDEPENDENT AUDITORS' REPORTS

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditors' Report

To the Board of Directors of
Escuela Popular Del Pueblo
San Jose, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Escuela Popular Del Pueblo (the "Charter") as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Charter's basic financial statements and have issued our report thereon dated December 16, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Charter's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Charter's internal control. Accordingly, we do not express an opinion on the effectiveness of the Charter's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Charter's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Charter's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Charter's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Independent Auditors' Report

To the Board of Directors of
Escuela Popular Del Pueblo
San Jose, California

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Escuela Popular Del Pueblo's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Escuela Popular Del Pueblo's major federal programs for the year ended June 30, 2024. Escuela Popular Del Pueblo's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Escuela Popular Del Pueblo complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Escuela Popular Del Pueblo and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on compliance for each major federal program. Our audit does not provide a legal determination of Escuela Popular Del Pueblo's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Escuela Popular Del Pueblo's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Escuela Popular Del Pueblo's compliance based on our audit.

Auditor's Responsibilities for the Audit of Compliance (continued)

Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards,* and the Uniform Guidance will always detect a material noncompliance when it exists. The risk of not detecting a material noncompliance resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user of the report on compliance about Escuela Popular Del Pueblo's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Escuela Popular Del Pueblo's compliance with the compliance requirements referred to above and performing such procedures as we consider necessary in the circumstances.
- Obtain an understanding of Escuela Popular Del Pueblo's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances, and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Escuela Popular Del Pueblo's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Accordingly, no such opinion is expressed; and

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies or material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of State Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the K-12 Audit Guide. Accordingly, this report is not suitable for any other purpose.

PART III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

PART IV – STATE AWARD FINDINGS AND QUESTIONED COSTS

FINDING 2024-001 – UNDUPLICATED LOCAL CONTROL FUNDING FORMULA PUPIL COUNTS (40000)

Criteria: Students classified as free or reduced-price meal eligible (FRPM) and who are not directly certified on the CALPADS 1.18 FRPM/English Learner/Foster Youth – Student List Report must have supporting documentation that indicates the student was eligible for the determination. Auditors are required to verify compliance with Education Code Section 42238.02(b)(3)(b) in Section W of the 2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting.

Condition: One (1) out of 14 students tested from the CALPADS 1.18 FRPM/English Learner/Foster Youth – Student List Report who was classified as FRPM was noted as "Paid" or "Denied" on their alternative household income form. The error rate of 1/14 or 0.07% was extrapolated to the entire population of students only classified as free or reduced. The total extrapolated error rate indicated that a total of 1 student was incorrectly classified.

Effect: The Charter is not in compliance with applicable State requirements.

PART IV – STATE AWARD FINDINGS AND QUESTIONED COSTS

FINDING 2024-001 – UNDUPLICATED LOCAL CONTROL FUNDING FORMULA PUPIL COUNTS (40000) (continued)

Cause: Clerical oversight.

Questioned Costs: $3,178 calculated using the CDE UPP audit penalty calculator.

Repeat Finding: This is not a repeat finding.

Recommendation: We recommend that the District maintain supporting documentation to support student classification as free or reduced on the CALPADS 1.18 FRPM/English Learner/Foster Youth – Student List Report. Additionally, the CALPADS reporting should be revised for any students lacking supporting documentation to support their classification as free or reduced before the close of the Fall I Amendment Window.

Corrective Action Plan: Management will implement procedures to avoid error when reviewing alternative household income forms and verify the correct classification for CALPADS reporting.

PART V – SUMMARY OF PRIOR AUDIT FINDINGS

FINDING 2023-001: STATE COMPLIANCE - IMMUNIZATIONS (40000

Summary: Pupils are required to have two varicella vaccine doses and one Tdap dose as required by Title 17, California Code of Regulations Section 6025 (Title 17) prior to admission into 7th or 8th Grade, or has a current medical exemption from varicella or Tdap on file. One pupil did not meet the vaccination requirements as required under Title 17. The students' attendance for days that they attended without the appropriate vaccinations cannot be included in the Average Daily Attendance calculations. The pupils did not receive the required vaccinations, and the Organization did not recognize the error. It was recommended that the Organization establish a system to track and monitor immunization records to ensure that students receive and document the appropriate vaccinations in a timely manner.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Escuela Popular Del Pueblo which comprise the consolidated statement of financial position as of June 30, 2025, and the related consolidated statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the consolidated financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Escuela Popular Del Pueblo as of June 30, 2025, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Escuela Popular Del Pueblo and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Escuela Popular Del Pueblo's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists.

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Escuela Popular Del Pueblo's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Escuela Popular Del Pueblo's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information listed in the table of contents, including the schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Local Education Agency Organization Structure but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 28, 2026, on our consideration of Escuela Popular Del Pueblo's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters.

Other Reporting Required by *Government Auditing Standards* (continued)

The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Escuela Popular Del Pueblo's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Escuela Popular Del Pueblo's internal control over financial reporting and compliance.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Escuela Popular Del Pueblo (the Charter) is a non-profit public benefit corporation that was incorporated in the State of California on October 2, 2000. The Charter is comprised of two charter schools, Escuela Popular Accelerated Family Learning Center (EPAFLC) and Escuela Popular Center for Training and Careers (EPCTC). Both schools were granted a five-year charter under the sponsorship of the East Side Union High School District, pursuant to the terms of the Charter Schools Act of 1992.

EPAFLC is a family learning center that serves Transitional Kindergarten through Grade 12. EPAFLC was developed as a grassroots effort to serve the unique needs of the Latino community in East San Jose.

EPCTC is a high school that serves students in Grades 9 through 12 who are over the age of 19. Many of these students have previously dropped out of school and are looking for a second chance to earn their high school degree. EPCTC combines a rigorous, standards-based academic program with relevant job skills training. EPCTC equips its students with a high school diploma and relevant job skills that will enables them to be effective members in today's workforce.

The Charter is the sole member of 149 N. White Road LLC (LLC), which was created in May 2017 to purchase school facilities utilized by EPAFLC and EPCTC. During the fiscal year end June 30, 2025, the Charter leased two facilities from the LLC (See Note 10). Collectively, the Charter and LLC are referred to as the "Organization".

B. Basis of Accounting

The Organization's policy is to prepare its financial statements on the accrual basis of accounting; consequently, revenues are recognized when earned rather than when cash is received and certain expenses and purchases of assets are recognized when the obligation is incurred rather than when cash is disbursed.

C. Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Escuela Popular Del Pueblo and 149 N. White Road, LLC, which comprise the Organization as a whole. Intercompany accounts and transactions have been eliminated in consolidation.

D. Financial Statement Presentation

The financial statements are presented in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958 dated August 2016, and the provisions of the American Institute of Certified Public Accountants (AICPA) "Audit and Accounting Guide for Not-for-Profit Organizations" (the "Guide"). ASC 958-205 was effective July 1, 2018. Under the Guide, the Organization is required to report information regarding its financial position and activities according to two classes of net assets:

Net assets without donor restrictions – These net assets generally result from revenues generated by receiving contributions that have no donor restrictions, providing services, and receiving interest from operating investments, less expenses incurred in providing program-related services, raising contributions, and performing administrative functions.

Net assets with donor restrictions – These assets result from gifts of cash and other assets that are received with donor stipulations that limit the use of the donated assets, either temporarily or permanently, until the donor restriction expires (that is until the stipulated time restriction ends or the purpose of the restriction is accomplished) the net assets are restricted. When a restriction expires, restricted net assets are reclassified to net assets without donor restrictions.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

D. Financial Statement Presentation (continued)

As a public charter school, the Charter also accounts for its financial transactions in accordance with the policies and procedures of the Department of Education's *California School Accounting Manual* presented in Procedure 810 Charter Schools. Fund accounting is not used in the Charter's financial statement presentation.

E. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures, such as depreciation expense and the net book value of capital assets. Accordingly, actual results could differ from those estimates.

F. Contributions

Unconditional contributions are recognized when pledged and recorded as net assets without donor restrictions or net assets with donor restrictions, depending on the existence and/or nature of any donor-imposed restrictions. Conditional promises to give are recognized when the conditions on which they depend are substantially met. Gifts of cash and other assets are reported with donor restricted support if they are received with donor stipulations that limit the use of the donated assets.

When a restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported on the statement of activities as "net assets released from restrictions." Donor-restricted contributions whose restrictions are met in the same reporting period are reported as net assets without donor restriction support. Contributions restricted for the acquisition of land, buildings, and equipment are reported as net assets without restriction upon acquisition of the assets and the assets are placed in service.

Non-cash contributions of goods, materials, and facilities are recorded at fair value at the date of contribution. Contributed services are recorded at fair value at the date of contribution if they are used to create or enhance a non-financial asset or require specialized skills, are provided by someone possessing those skills, and would have to be purchased by the organization if not donated.

G. In Lieu of Property Tax Revenue

Secured property taxes attach as an enforceable lien on property as of March 1. Taxes are payable in two installments on December 10 and April 10. Unsecured property taxes are payable in one installment on or before August 31. The County bills and collects the taxes for the authorizing agency. In lieu of distributing funds out of property tax proceeds, the authorizing agency makes monthly payments to Escuela Popular Del Pueblo. Revenues are recognized by the Charter when earned.

H. Functional Expenses

The costs of providing services have been summarized on a functional basis in the statement of activities and detailed in the statement of functional expenses. Certain costs and expenses have been allocated between program and supporting services based on management's estimates.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (continued)

I. Cash and Cash Equivalents

Escuela Popular Del Pueblo considers all highly liquid deposits and investments with an original maturity of less than ninety days to be cash equivalents.

J. Investments

The Organization's method of accounting for most investments is the fair value method. Fair value is determined by published quotes when they are readily available. Gains and losses resulting from adjustments to fair values are included in the accompanying statement of activities. Investment return is presented net of any investment fees.

K. Receivables and Allowances

Accounts receivable are stated at the amount management expects to collect from outstanding balances. An allowance for doubtful accounts is established, as necessary, based on past experience and other factors which, in management's judgment, deserve current recognition in estimating bad debts. Such factors include the relationship of the allowance for doubtful accounts to accounts receivable and current economic conditions. Based on review of these factors, the Charter establishes or adjusts the allowance for specific revenue sources as a whole. At June 30, 2025, an allowance for doubtful accounts was not considered necessary as all accounts receivable were deemed collectible.

L. Capital Assets

The Organization has adopted a policy to capitalize asset purchases over $5,000. Lesser amounts are expensed. Donations of capital assets are recorded as contributions at their estimated fair value. Such donations are reported as net assets without donor restrictions. Capital assets are depreciated using the straight-line method over the estimated useful lives of the property and equipment or the related lease terms.

M. Deferred Revenue

Deferred revenue arises when potential revenue does not meet the criteria for recognition in the current period and when resources are received by the organization prior to the incurrence of expenses. In subsequent periods, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the statement of financial position and revenue is recognized.

N. Lease Arrangements

In February 2016, FASB issued ASU No. 2016-02, *Leases (Topic 842)*, a new lease standard effective no later than the fiscal year 2022-23. Under FASB ASC 842, a right-of-use asset and a related lease liability must be recorded on the statement of financial position (balance sheet) for proper recognition of any operating lease. A right-of-use asset is an intangible asset that pertains to the lessee's right to occupy, operate, and hold a leased asset during the agreed rental period. A lease liability is the financial obligation for the payments required by the lease, discounted to present value.

O. Income Taxes

Escuela Popular Del Pueblo is a 509(a)(1) publicly supported nonprofit organization that is exempt from income taxes under Section 501(a) and 501(c)(3) of the Internal Revenue Code and classified by the Internal Revenue Service as other than a private foundation. The Charter is exempt from state franchise or income tax under Section 23701(d) and the LLC under 23701(h) of the California Revenue and Taxation Code. As a school, the Charter is not required to register with the California Attorney General as a charity.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (continued)

O. Income Taxes (continued)

The Organization's management believes all of its significant tax positions would be upheld under examination; therefore, no provision for income tax has been recorded. The Organization's information and/or tax returns are subject to examination by the regulatory authorities for up to four years from the date of filing.

P. Fair Value Measurements

The Fair Value Measurements Topic of the FASB *Accounting Standards Codification* establishes a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
Level 2	Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 2 – CASH AND CASH EQUIVALENTS

Cash and cash equivalents, as of June 30, 2025, consists of the following:

Cash with fiscal agent	$ 15,420,024
Cash in banks	13,701,743
Total Cash and Cash Equivalents	$ 29,121,767

Cash with Fiscal Agent

The Organization, under the LLC, maintains $15,420,024 of its cash with Wilmington Trust in money market investment funds. The fiscal agent is a trustee authorized to hold reserve funds related to the bonded debt. Cash with fiscal agent is carried at amortized cost on behalf of the Organization. These types of investments do not qualify as securities as defined in FASB ASB 820, *Investments – Debt and Equity Securities*, thus the fair value disclosures required by ASC 820 are not provided.

Cash in Banks

Custodial Credit Risk
As of June 30, 2025, $13,808,698 of the Escuela Popular Del Pueblo's bank balance was exposed to custodial credit risk as there were deposits over $250,000 in accounts held at one or more banks. Custodial credit risk is the risk that in the event of a bank failure, an organization's deposits may not be returned to it. Escuela Popular Del Pueblo does have a policy for custodial credit risk for deposits. The FDIC insures up to $250,000 per depositor per insured bank.

NOTE 10 – EMPLOYEE RETIREMENT PLANS

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. In accordance with *California Education Code* 47605, charter schools have the option of participating in such plans if an election to participate is specified within the charter petition. The Charter has made such election. Certificated employees are members of the California State Teachers' Retirement System (CalSTRS). The Organization offers an alternative plan or social security for any employees not eligible for CalSTRS.

California State Teachers' Retirement System (CalSTRS)

Plan Description
Escuela Popular Del Pueblo contributes to the California State Teachers' Retirement System (CalSTRS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalSTRS. The plan provides retirement, disability and survivor benefits to beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law. CalSTRS issues a separate annual comprehensive financial report that includes financial statements and required supplementary information. Copies of the CalSTRS annual financial report may be obtained from CalSTRS, P.O. Box 15275, Sacramento, California 95851-0275

Funding Policy
Active plan members are required to contribute 10.25% or 10.205% of their 2024-25 salary depending on the employee's membership date in the plan. The required employer contribution rate for fiscal year 2024-25 was 19.10% of annual payroll. The contribution requirements of the plan members are established by state statute. The Charter's contributions to CalSTRS were $616,795; 100% of the required contribution.

On-Behalf Payments
The State of California makes direct on-behalf payments for retirement benefits to CalSTRS on behalf of all school agencies in California. The amount of on-behalf payments made for Escuela Popular Del Pueblo is estimated at $249,174. The on-behalf payment amount is computed as the proportionate share of total 2024-25 State on-behalf contributions.

NOTE 11– COMMITMENTS AND CONTINGENCIES

Charter School Authorization

As mentioned in Note 1A, Escuela Popular Del Pueblo is approved to operate as a public charter school through authorization by the East Side Union High School District. As such, the Charter is subject to the risk of possible non-renewal or revocation at the discretion of its authorizing agency if certain criteria for student outcomes, management, and/or fiscal solvency are not met.

The Governor of California approved Assembly Bill 130 (AB 130) in July 2021 and approved Senate Bill 114 (SB 114) in July 2023. As a result of these legislative changes, the charter petition end date was extended to June 30, 2025 for Escuela Popular Accelerated Family Learning and the charter petition end date is extended to June 30, 2026 for Escuela Popular Center for Training and Careers. A charter petition renewal was approved during the year for Escuela Popular Accelerated Family Learning for a term ending June 30, 2027.

The Charter makes payments to the authorizing agency, to provide required services for special education and other purchased services in addition to fees for oversight. Fees associated with oversight consisted of 1% of revenue from local control funding formula sources. Total fees for oversight amounted to $154,345 and total expenses for special education amounted to $15,170 for the fiscal year ending June 30, 2025.

Governmental Funds

Escuela Popular Del Pueblo has received state and federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursements would not be material.

Multiemployer Defined Benefit Plan Participation

Under current law on multiemployer defined benefit plans, the Charter's voluntary withdrawal from any underfunded multiemployer defined benefit plan would require the Charter to make payments to the plan, which would approximate the Charter's proportionate share of the multiemployer plan's unfunded vested liabilities. The Charter does not currently intend to withdraw from CalSTRS. Refer to Note 10 for additional information on employee retirement plans.

Pending or Threatened Litigation

The Organization is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the Organization as of June 30, 2025.

NOTE 12 – DONATED GOODS AND SERVICES

During the year, many parents, administrators and other individuals donated significant amounts of time and services to Escuela Popular Del Pueblo in an effort to advance the Charter's programs and objectives. These services have not been recorded in the Organization's financial statements because they do not meet the criteria required by generally accepted accounting principles. The Organization did not receive any donated items during the year ended June 30, 2025.

NOTE 13 – INTERAGENCY ACTIVITY

The charter schools entered into a lease agreement with the LLC to occupy two facilities. The two facilities are utilized for instructional services in order to meet the goals established by the charter school. The lease called for a security deposit of $28,855 which has been recorded as a noncurrent asset on the statement of financial position. The lease agreement ends through June 2050.

During the fiscal year ended June 30, 2025, the Charter paid $1,635,885 in lease payments under this operating lease, along with recording $1,965,154 as lease expense, and recognizing $1,151,893 in local revenue related to a lease adjustment. At June 30, 2025, the right-of-use asset was $27,200,580 and the operating lease liability was $27,529,849 for the Charter; offset by a lease receivable of $1,481,162 for the LLC. Lastly, the Charter prepaid rent of $12,126,023 which is an asset for the Charter and deferred revenue for the LLC. The Charter has accounted for its lease agreements using an implied discount rate of 5.50%. Future lease payments over the remaining term of the lease are as follows:

Fiscal Year Ending June 30,	Lease Payments
2026	$ 1,525,771

Escuela Popular Del Pueblo
San Jose, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the consolidated financial statements of Escuela Popular Del Pueblo and its subsidiary (the "Organization") as of and for the year ended June 30, 2025, and the related notes to the consolidated financial statements, which collectively comprise the Organization's financial statements and have issued our report thereon dated January 28, 2026.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Organization's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Organization's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Independent Auditors' Report

To the Board of Directors of
Escuela Popular Del Pueblo
San Jose, California

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Escuela Popular Del Pueblo's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Escuela Popular Del Pueblo's major federal programs for the year ended June 30, 2025. Escuela Popular Del Pueblo's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Escuela Popular Del Pueblo complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Escuela Popular Del Pueblo and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on compliance for each major federal program. Our audit does not provide a legal determination of Escuela Popular Del Pueblo's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Escuela Popular Del Pueblo's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Escuela Popular Del Pueblo's compliance based on our audit.

Auditor's Responsibilities for the Audit of Compliance (continued)

Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards,* and the Uniform Guidance will always detect a material noncompliance when it exists. The risk of not detecting a material noncompliance resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user of the report on compliance about Escuela Popular Del Pueblo's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Escuela Popular Del Pueblo's compliance with the compliance requirements referred to above and performing such procedures as we consider necessary in the circumstances.
- Obtain an understanding of Escuela Popular Del Pueblo's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances, and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Escuela Popular Del Pueblo's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Re: Escuela Popular/Center for Training and Careers, Family Learning Charter Renewal Petition Appeal to the Santa Clara County Office of Education

Dear Dr Toston:

Escuela Popular/Center for Training and Careers, Family Learning's (the "Charter School") charter renewal petition was submitted to the East Side Union High School District ("ESUHSD" or the "District") on December 17, 2025. The ESUHSD Board of Education voted to deny the petition on April 13, 2026.

The Charter School respectfully submits its charter petition to the Santa Clara County Board of Education (the "County"). We have listed below the relevant and appropriate changes to the charter petition, which are necessary to reflect approval by the County.

1. **Chartering Authority**

Any text referring to the East Side Union High School District, ESUHSD, or the District as the chartering authority would be revised to read "Santa Clara County Board of Education," "Santa Clara County Office of Education," "SCCBOE," "SCCOE," or the "County."

2. **Compliance with County Board Policy and Memorandum of Understanding**

Any language inconsistent, or potentially inconsistent, with the County's charter school Memorandum of Understanding will be discussed among the parties to agree to a cure. The Charter School agrees to the County's standard MOU for charter schools. The description of the Dispute Resolution Process in the County's MOU would replace the reasonably comprehensive description of dispute resolution currently in the charter.

3. **SCCOE risk management requirements**

The language on page 161 would be updated to state: "The Charter School agrees to indemnify, defend, and hold harmless the County for the actions of the Charter School and its governing nonprofit public benefit corporation under this charter, to the fullest extent permitted by law and in a manner consistent with the County's risk management policies."

Phone: (408) 426-6593
www.escuelapopular.org

4. Collective Bargaining

The following language would be added to page 4, list number 2: "The Charter School recognizes the employees' rights under the EERA provisions to organize for collective bargaining."

5. Changes to the Charter Necessary to meet the SCCOE Matrix Requirements

The Charter School agrees to provide a reasonably comprehensive description of the following unique components of SCCOE's charter review matrix, upon request:

a. Process by which salaries, benefits, working conditions, and items (calendars, holidays, vacations, workday and year) will be determined.
b. Seismic safety (structural integrity and earthquake preparedness), natural disaster and emergencies practices.
c. The English Learner reclassification rate

* * *

We will make every effort to submit any supplemental documentation that the County may request in a timely manner. We look forward to working with the County Board and the Santa Clara County Office of Education during consideration of the charter renewal petition. Please feel free contact me at patricia@escuelapopular.org or (408) 426-6593 if you have any questions.

As the authorized lead petitioner (See Appendix 1 Resolution for Charter Renewal Petition with Board Minutes), I , Patricia Reguerin, hereby certify that the information submitted in this petition for renewal of a California public charter school named for Escuela Popular/Center for Training and Careers Family Learning Center (the "Charter School," "Escuela Popular" or "EPCTC"), located within the boundaries of the East Side Union High School District (the "District" of "ESUHSD"), and to be authorized by the Santa Clara County Board of Education ("SCCBOE"), with oversight by the Santa Clara County Office of Education ("SCCOE") (collectively referred to herein as the "County"), operated by Escuela Popular del Pueblo, is true to the best of my knowledge and belief; I also certify that this renewal petition does not constitute the conversion of a private school to the status of a public charter school; and further, I understand that if awarded a charter, the Charter School will follow any and all federal, state, and local laws and regulations that apply to the Charter School, including but not limited to:

1. The Charter School shall meet all statewide standards and conduct the student assessments required, pursuant to Education Code Section 60605, and any other Statewide Standards authorized in statute, or student assessments applicable to students in non-charter public schools [Ref. Executive Summary

Escuela Popular del Pueblo, a California nonprofit public benefit corporation with 501(c)(3) tax-exempt status, is proud to submit the Escuela Popular Center for Training and Careers, Family Learning Center charter petition for renewal to SCCBOE. In 2003, Escuela Popular and the Center for Training and Careers came together to create a charter school that combines a challenging, standards-based academic program with relevant job, career, and college-readiness skills for students over 18 years old. EPCTC is an extension of Escuela Popular Accelerated Family Learning Center ("EPAFLC") (TK12), and serves the current and future students 18 years old or older who no longer qualify to attend EPAFLC The students in EPCTC work toward a high school diploma while learning job skills that prepare them to be effective members of today's workforce.

Both partners in the EPCTC Charter School, Escuela Popular and Center for Training and Careers, Inc., have long histories of service to the East San Jose community. Escuela Popular has been providing educational services to the East San José, California community since 1986. Escuela Popular developed as a grassroots effort to serve the growing need for English classes. As demand grew, the curriculum of Escuela Popular expanded to include parent education, citizenship classes, history/civics, and afterschool/youth programs, in addition to English classes. In May 2002, Escuela Popular was granted a charter by the East Side Union School District to operate a family learning center for K-12 and adult learners seeking a high school diploma. Initially, Escuela Popular operated a K-12 academy for over 400 students in three age-appropriate academies in two facilities, each with separate leadership. The student population is of Latino heritage and most of the students are eligible for the free and reduced price meal program or fall under the federal poverty guidelines. The majority of Escuela Popular's students are recent immigrants who are monolingual Spanish speakers, in addition to long-time East San Jose residents.

The Center for Training and Careers, Inc. (now known as ConXion to Community and referred to herein as "CTC") is a community-based, non-profit, public benefit corporation, which has successfully provided educational and vocational training along with employment services to youth and adults since 1977. CTC was established to develop and enhance employment opportunities for the educationally and economically disadvantaged of the San Jose community. CTC has been a partner with Escuela Popular for over 20 years. (See Appendix 3 for Partnership Agreement.)

The overall vision of EPCTC is to empower our community through education. EPCTC provides educational and career opportunities for adult students. Working cooperatively with EPAFLC, we aim to maintain a family learning environment across the two schools by serving both parents and children. We are committed to providing meaningful learning experiences in a small school setting to ensure we are positively impacting the lives of every student. EPCTC is a community school that is open for extended hours to accommodate the academic and non-academic needs of our adult students, many of whom may already be working and parenting. Our Charter school prepares students to attend college or enter the workforce directly into a skilled job.

EPCTC draws upon the proven strengths of the two founding organizations, Escuela

Popular and the Center for Training and Careers, and operates in the community that these two organizations have collectively served for nearly 50 years.

From the outset, EPCTC's students' status in society and the resulting issues that they face have been central to the Charter school's educational approach. Critical issues students face include:

- poverty;
- Meal and food security;
- Housing;
- Access to health care;
- Students with Interrupted Formal Education ("SIFE") or Students with Limited or Interrupted Formal Education ("SLIFE");
- language isolation from the dominant culture;
- immigration issues and resulting insecurities;
- culture shock resulting in a feeling of disempowerment and dependency;
- life threatening travel to the United States resulting in trauma;
- family separation; and,
- Different academic, language, and social emotional challenges from those of U.S. born students.

EPCTC realizes that no individual can be successful academically unless these issues are addressed. Experience teaches us that in spite of these circumstances, students can and do succeed in pursuit of their goals. EPCTC is a community school that goes beyond traditional academic instruction to provide a wide range of services and support to students and their families. EPCTC fulfills a vital need in the community, proudly serving diverse families who are historically underserved, with the support and collaboration of the County.

EPCTC is committed to preparing all students, but particularly first generation Latino (term as a broad descriptor for individuals of Latin American origin or descent used to refer to both males and mixed-gender groups) students and English Learners, for success in life.

Escuela Popular serves a community who is majority Latino, low-income, homeless or unhoused, and English Learners.

The California School Dashboard ("Dashboard") in 2024 reported that in 2023-24, EPCTC served **515 students** with diverse needs and backgrounds: **82.3%** were socioeconomically disadvantaged ("SED") students; **14.8%** were Homeless Youth ("HY"); **0.2%** were students with disabilities ("SWD"); and, **0%** were Foster Youth ("FY"). Notably, **100%** of our students were Latino. The Dashboard reports that the percentage of students who were English Learners ("ELs") was 17.3%; however, the correct percentage of ELs is **99.2%** from CALPADS Fall 1, 8.1 Snapshot Report as the student demographics on the Dashboard starting in 2020-21 were no longer updated to include Adult English Learners ("ADELs") as English Learners.

Challenges of the 2018-2026 Charter Term

It is important to consider that the percentage of EPCTC's numerically significant subgroups is much higher than the State's student population. 100% of EPCTC students are Latino, versus 56.1% of the State's public school population; similarly, 82.3% of EPCTC's students are socioeconomically disadvantaged, versus 62.7% of the State's public school population as determined by eligibility for free or reduced price meals; 99.2% of EPCTC's students are English Learners, versus 18.4% of the State's English Learners. Perhaps most impactful is that 81% of EPCTC students are Homeless or Unhoused, versus only 3.6% of the State's public school population. The reason this is an unfair comparison is because the majority of EPCTC's students are homeless, learning English, living in poverty, and Latino; whereas these qualities occur far less frequently in the State's student population.

Between 2018–19 and 2024–25 as noted in Table i.1 below, EPCTC maintained a consistently high percentage of SED students, ranging from approximately 80% to over 96% in the most recent year. This trend demonstrates the Charter School's commitment to serving economically vulnerable populations. The percentage of ELs including ADELs has remained exceptionally high with an average of over 99%. The EL population remains a central focus of EPCTC's instructional and language development efforts.

Throughout these years, the student population has remained overwhelmingly Latino, consistently between 98 and 100%, showing strong cultural cohesion within the Charter School community. The proportion of students identified as homeless fluctuated widely, from approximately 6.5% in 2020–21 to more than 81% in 2024–25, suggesting changes in community housing stability and reporting practices. As an adult school, it is not surprising that there would be a small percentage of SWD who chose to continue their education. Moreover, since foster youth age out on their 18th birthday, it is not surprising that 0% of the students are Foster in an adult program. Collectively, these data trends highlight EPCTC's enduring role as a community Charter School that primarily serves Latino, SED students, and ELs, adapting to changes in reporting standards while continuing to address the needs of vulnerable and mobile student groups.

This seven-year demographic trend underscores EPCTC's critical mission in serving English Learners, low-income families, and students facing housing insecurity. The consistency of need, paired with a culturally and linguistically focused model, positions the Charter School as a vital anchor for underserved families in the region.

*Only included students under 22 years old instead of total student population.

EPCTC serves a highly transient population. The majority of students enrolled at EPCTC are recent immigrants or newcomers to the country and who are monolingual Spanish speakers. The student population is highly mobile given the nature of the population served.

Due to the high transiency rate, the stability rate[1] of the students is lower than that of the District, and the State. The CDE developed a stability rate measure to identify the number and percent of students who receive a "full year" of learning in the same school. Though this is not an accountability measure, the stability rate report is intended to support educators and other educational partners to better understand the needs of students and to support academic and social emotional needs of students and families.

The stability rate data show that EPCTC serves a highly mobile and transient student population, with rates consistently between 11% and 22% from 2017–18 through 2023–24, compared with 86% for the District and 91% for the State. This difference underscores the unique challenges the Charter School faces in maintaining continuous enrollment throughout the school year. Because EPCTC students are low-income adults, English Learners, and mostly individuals reengaging with education after an interruption, student mobility is an expected characteristic of the population rather than an indicator of school performance. Many students enroll at EPCTC to complete credits, strengthen English proficiency, or earn a high school diploma while balancing employment, family, and other adult responsibilities, which naturally impacts year-to-year stability rates.

EPCTC has developed procedures to best serve students who enter the Charter School on a rolling basis, many of whom do not experience a full year of instruction at the same

school. Despite this challenge, the fact that EPCTC continues to demonstrate improvement in academic achievement with such a highly mobile population is a testimony to its commitment to serving the community. The 22% stability rate in 2023–24 represents an increase from prior years and indicates that EPCTC's efforts to improve student engagement, strengthen relationships, and provide wraparound supports are showing results. Although a low stability rate affects state accountability measures such as SBAC performance, graduation rates, and the College and Career Indicator, EPCTC's mission centers on offering accessible, high-quality education to all learners, particularly those seeking a second opportunity to achieve success.

EPCTC is proud of its accomplishments during the current charter term. EPCTC remains committed to supporting historically disadvantaged students through providing interventions and opportunities to ensure every student achieves their fullest potential. EPCTC utilizes a personalized approach to bring every student to grade level or beyond. EPCTC consistently supports students, families, and the community, to ensure students are ready for college and career (See Appendix 4 Letters of Support).

Charter Renewal Criteria

The passage of Assembly Bill 1505, effective July 1, 2020, has established renewal criteria by which the chartering authority shall consider to grant the charter for renewal. EPCTC currently meets the criteria under Dashboard Alternative Status Schools ("DASS") to be considered for approval of the renewal for a period of five (5) years. **EPCTC meets the renewal criteria under Education Code Section 47607(c)(7) and should be granted a renewal for a term of five years.**

Highlighting the Success of the 2018-2026 Charter Term

1. The Charter School has presented a **sound educational program**.

- Accrediting Commission for Schools ("ACS"), Western Association of Schools and Colleges ("WASC") granted EPCTC a Full, Six-Year Accreditation Status through June 30, 2030, with a Mid-Cycle Review during the 2026-27 school year (See Appendix 5 WASC Self-Study, Mid-Cycle Visit Committee Report, and Confirmation Letter).
- Average student-teacher ratio is 22:1 in a site-based model.
- Charter School offers personalized support to ensure students make progress toward meeting Northwest Evaluation Association's ("NWEA") Measures of Academic Progress ("MAP") growth targets.
- Curriculum is aligned with California State Standards including but not limited to, the Common Core State Standards ("CCSS"), Next Generation Science Standards ("NGSS"), History-Social Science Framework, remaining State Content Standards, and English Language Development ("ELD") Standards (hereinafter collectively referred to as the "State Standards").
- The Charter School has achieved measurable increases in academic achievement, as defined by at least one year's progress for each year in school.
- ESUHSD, adult students, and the community as a whole have also benefited:
- The Charter School improves economic opportunity for families and the community by increasing academic achievement, high school graduation rate, and English language acquisition for low-income adult students, students of color, and their children.
- The Charter School has strong community investment in the Charter School and is supported by local partnerships.

2. The Charter School has shown that it is demonstrably likely to **successfully implement the proposed educational program**.

- The Charter School has received full accreditation by ACS WASC.
- Nearly 100% of students at the Charter School reported that they feel safe and connected to the Charter School community based on the Local Climate Survey in 2024.
- The Charter School is a diverse, 21st Century School. EPCTC's enrollment includes the following numerically significant student subgroups: 82.3% were SED students; 99.4% of students were ELs; 81% were HY; and, 100% of students were Latino.
- The Charter School provides a range of professional development opportunities

for its teachers and staff. Professional Development opportunities are paramount at EPCTC. All staff members have completed required training courses, including all mandated and legally required workshops (See Appendix 6 Mandated and Required Training Report). EPCTC's teachers work collaboratively to best serve the students at EPCTC and also learn together in focused trainings. These trainings have included and will continue to include: suicide prevention and awareness, reducing suspension, instructional strategies to promote academic engagement, instructional strategies to support homeless students, instructional strategies to support ELs, increasing academic achievement in English, history, math, and science, classroom management, de-escalation strategies, Positive Behavior Intervention and Supports ("PBIS"), Understanding by Design ("UbD"), CRESST from UCLA to improve educational systems, Positive School-wide Climate and Culture, Culturally Relevant Pedagogy, student choice and voice in the classroom, (Growth) Mindset Matters, addressing learning modalities, and the development of diversity, equity, and inclusion goals.

Teachers are offered professional development opportunities weekly to ensure the application of new concepts and successful implementation of new skills. In addition, new teachers are given additional support. Most importantly, the Charter School examines a variety of internal and external assessments to determine progress and areas of opportunities. These assessments include Smarter Balance Assessment Consortium ("SBAC"), English Language Proficiency Assessments for California ("ELPAC"), NWEA MAP, curriculum embedded assessments, attendance, behavior, and high school credits. During these data analysis sessions, the administrators, teachers, and staff analyze their students' assessment data to identify common areas of opportunity. Finally, the teachers then revise lesson plans using UbD to focus on the areas of opportunities. Administration assesses the impact of these data analysis sessions by conducting frequent classroom walk-throughs, classroom observations, and by providing meaningful feedback to teachers and staff. Teachers are encouraged to attend workshops and seminars. For example, staff may choose to attend the California Charter School Association Annual Conference, the Charter School Development Conference, the California Association for Bilingual Education, the California Teachers of English to Speakers of Other Languages, or the California Association of Teachers of English. Many staff members also participate in a variety of local and County conferences and workshops.

- The Charter School's English Learners are progressing on the ELPAC at a rate of 12% (English Learner Progress Indicator ("ELPI") – Dashboard 2024).
- The Charter School has established an effective communication and student record system. PowerSchool, EPCTC's Student Information System ("SIS") is a powerful, easy-to-use communication tool which enables students, teachers, and administrators to work together to improve student achievement. With ParentSquare (EPCTC's general broadcast system), teachers and administrators can send student-specific and general messages home whenever necessary via telephone, text message, or via electronic mail. Messages can also be sent concerning school events and emergencies, or individual communications sent to

each student concerning their school experience and attendance. EPCTC also utilizes Google Classroom, Teacher Newsletters, and its own website.

- The Charter School is an integral part of the local community. EPCTC is focused on providing students opportunities to be academically and socially emotionally successful (See Appendix 7 School Climate and Culture Calendar). Moreover, students engage and interact with the community at large through work experience, activities, and participation in events to develop school culture. EPCTC students are an integral part of the community and recognize the challenges in the world around them.

3. The Charter School is **serving all students who wish to attend**.

- EPCTC has a respected history of serving historically disadvantaged students, including "racial and ethnic pupils, special education pupils, and English Learner pupils, including redesignated fluent English proficient pupils, as defined by the evaluation rubrics in Section 52064.5 that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted." The best evidence that EPCTC is serving all students who wish to attend is that it is serving these historically disadvantaged populations in numbers, on a percentage basis, which are higher than or equal to the territorial jurisdiction of the District.
- The Charter School's enrollment rate has remained constant over the last six years of the charter term with an average of 538 students enrolled each year.
- The Charter School's attendance rate has remained constant over the last seven years of the charter term with an average daily attendance rate of over 82% each year.

4. The Charter School's **petition is reasonably comprehensive**.

This charter petition is reasonably comprehensive. The petition contains reasonably comprehensive descriptions for each element and fully describes the program illustrating how EPCTC will continue to meet its goals and objectives described herein. EPCTC will continue to benefit the County by providing adult students within its jurisdiction with another great choice and expanded educational opportunity.

5. The Charter School **satisfies the academic renewal criteria** for a presumptive five-year renewal.

Pursuant to the amendments made to Education Code Section 47607, and the creation of Education Code Section 47607(c)(7), by Assembly Bill 1505 (2019), at the time of charter renewal, a chartering authority shall consider the performance of the Charter School on the State and local indicators reported on the Dashboard and applicable alternative metrics" **EPCTC is a DASS school, entitled to presumptive approval because it met the agreed upon alternative metrics.**

In addition to the shift toward assessing Dashboard data, Assembly Bill 1505 also created a three-tiered system of evaluating charter schools' performance, plus a separate category for Dashboard DASS schools. Each of the four tiers has unique qualifying criteria.

The three performance categories and DASS thresholds are as follows:

- High Performing – Presumptive renewal if the charter school meets the established renewal criteria – Education Code Section 47607(c)(2).
- Low Performing – Presumptive non-renewal if the charter school meets the non-renewal criteria, unless the chartering authority makes a finding to approve for a two-year term – Education Code Section 47607.2(a).
- Middle Performing – Presumptive renewal unless the charter school failed to meet or make sufficient progress toward meeting standards and closure is in the best interest of students, evaluated using the Dashboard and Education Code Section 47607.2(b).
- DASS – Presumptive renewal with consideration of performance on the Dashboard and applicable alternative metrics, with nonrenewal only in the event that the chartering authority finds that closure is in the best interest of students – Education Code Section 47607(c)(7).

EPCTC is a DASS school, entitled to presumptive approval because it met the agreed-upon alternative metrics.

EPCTC has been approved for the DASS program and shall comply with all applicable requirements under the state accountability system, including the Dashboard. EPCTC has been a DASS Active School since August 2024. EPCTC is currently listed as a DASS Active School by the California Department of Education**.**

The high-, middle-, and low-performing categories described above do not apply to charter schools like EPCTC, which have been approved as Dashboard Alternative Status Schools, though the law does require a review of Dashboard data. Rather, according to Education Code Section 47607(c)(7):

> In determining whether to grant a charter renewal for such a charter school, the chartering authority shall consider, in addition to the charter school's performance on the state and local indicators included in the evaluation rubrics adopted pursuant to subdivision (c) of Section 52064.5, the charter school's performance on alternative metrics applicable to the charter school based on the pupil population served. The chartering authority shall meet with the charter school during the first year of the charter school's term to mutually agree to discuss alternative metrics to be considered pursuant to this paragraph and shall notify the charter school of the alternative metrics to be used.
>
> The chartering authority may deny a charter renewal pursuant to this paragraph only upon making written findings, setting forth specific facts to support the findings, that the closure of the charter school is in the best interest of pupils.

EPCTC's greatest achievements are those of its students. As detailed in the "DASS Charter School Renewal MOU Criteria" below, EPCTC has shown increases in pupil academic achievement across several indicators. These metrics include state and local indicators on the Dashboard as well as alternative metrics. Pursuant to Education Code section 47607, in preparation for charter renewals of DASS schools, EPCTC collaborated with the District and developed mutually agreed upon indicators and alternative metrics to be used for renewal criteria**.** These metrics are identified within the "DASS Charter School Renewal MOU Criteria" below. EPCTC has demonstrated based on its overall academic achievement outcomes that the Charter School is a high-performing DASS school compared to similar DASS schools in the District and communities it serves. EPCTC also exceeds county DASS schools averages as well as the State DASS schools averages for several indicators as demonstrated in the section below.

California School Dashboard

The Dashboard state indicators include the following:

- Chronic Absenteeism: kindergarten through grade eight
- Suspension Rate: kindergarten through grade twelve
- English Learner Progress: grades one through twelve
- Graduation Rate: high school only
- College/Career: high school only (note: the College/Career Indicator was not reported on the 2022 Dashboard)
- Academic: grades three through eight and grade eleven – English language arts/literacy and Mathematics

Dashboard Performance

CAASPP System – English Language Arts

The overall student population improved from a DFS of -64.1 points in 2018 to -61.8 points in 2024, reflecting a gain of 2.3 points. Similarly, Hispanic and Latino students, who represent the majority of the Charter School's enrollment, showed parallel progress with a 2.3-point improvement over the same period. Although data were unavailable for several years due to pandemic-related interruptions, the recovery in 2024 suggests that the Charter School successfully reestablished pre-pandemic performance levels through sustained alignment to the California Common Core State Standards and consistent instructional practices. This upward movement reflects the Charter School's strong implementation of standards-based curriculum under LCFF Priority 2: Implementation of State Standards (Conditions of Learning).

The steady performance among all students demonstrates the Charter School's instructional strength and teacher preparedness, while the small decline among socioeconomically disadvantaged students highlights the continuing challenge of addressing gaps for learners managing multiple responsibilities such as work and family. The Charter School plans to strengthen differentiated reading instruction, increase access to targeted literacy interventions, and expand teacher training focused on accelerating English Language Arts achievement. The consistent improvement in English Language Arts achievement from 2018 to 2024 exemplifies LCFF Priority 4: Student Achievement

(Pupil Outcomes), demonstrating at least one year of progress for every year of instruction and reflecting the Charter School's ongoing dedication to equitable learning outcomes supported by qualified staff and high-quality instructional materials. **EPCTC achieved measurable increases in ELA achievement from 2018 to 2024.**

CAASPP System - Mathematics

Mathematics ("Math") performance at the Charter School reflects an initial decline in DFS across all measured student groups over the charter term. For all students (and Latino students), the DFS decreased from -139.4 in 2018 to -193.3 in 2022 and then improved to -166.5 in 2024, a gain of 26.8 points over two years. SED students improved from 199.0 in 2022 to -161.8 in 2024, a 37.2-point increase. These results demonstrate that the Charter School's math instruction has regained momentum through targeted interventions, small-group reteaching, and consistent implementation of data-driven lessons aligned with LCFF Priority 2: Implementation of State Standards (Conditions of Learning). EPCTC's progress in mathematics reflects significant strength in supporting ELs and adult students who had previously struggled with math fluency. The next steps include increasing opportunities for individualized learning, incorporating real-world math applications, and continuing to refine standards-based instruction aligned to the California Mathematics Framework. These actions directly support LCFF Priority 4: Student Achievement (Pupil Outcomes) by advancing student proficiency through equitable and rigorous instruction. **EPCTC achieved measurable increases in Math achievement from 2022 to 2024.**

English Language Progress

The English Learner Progress Indicator ("ELPI") at EPCTC has been reported in compliance with Dashboard requirements; however, the data only partially captures the EPCTC's English Learner outcomes because the state includes only students under the age of 22, which represents approximately 10% of total enrollment. Since the Charter School serves a majority adult English Learner population, the data significantly underrepresent true linguistic progress. EPCTC's English Language Development ("ELD") program integrates English acquisition with academic content learning, demonstrating full alignment to LCFF Priority 2: Implementation of State Standards (Conditions of Learning). Through daily structured ELD instruction and scaffolded support, students achieve measurable gains in listening, speaking, reading, and writing, which are evident in classroom performance and NWEA results. EPCTC continues to ensure that ELs receive equitable access to rigorous academic content while improving proficiency in English, a key measure of LCFF Priority 4: Student Achievement (Pupil Outcomes). **EPCTC remains committed to accurate reporting, the ELPI results should be interpreted with caution.**

Other Dashboard Measures

EPCTC is proud of its Graduation Rate and Suspension Rate and though the College and Career Indicator may seem low, EPCTC will demonstrate the increase of the College

Going Rate from DataQuest which is more effectual for a Charter School that serves adults.

Graduation Rate

EPCTC demonstrates significant growth in its 1-Year DASS Graduation Rate, reflecting measurable academic recovery and student persistence following pandemic-related declines. Between 2022 and 2024, the graduation rate for all students (and Latino students) rose from 51.2% to 74.3%, marking a 23.1-point increase in just two years. SED students showed a nearly identical pattern of growth, increasing from 51.3% in 2022 to 74.2% in 2024, a 22.9-point gain. This progress highlights the Charter School's success in implementing reengagement strategies, credit recovery programs, and individualized academic counseling that help adult learners complete diploma requirements. The one-year DASS measure accurately reflects the Charter School's reengagement model and mission to serve students who return to school to complete their education. The strong upward trend in graduation outcomes demonstrates fulfillment of LCFF Priority 5: Student Engagement (Engagement), showing persistence, regular attendance, and steady completion rates among adult learners.

It is important to note that the reported data represent the 1-Year DASS Graduation Rate, not the traditional cohort graduation rate used for comprehensive high schools. The DASS rate measures the percentage of students who complete high school within a single academic year, which is a more appropriate indicator for the Charter School's reengagement model serving adult credit-deficient and returning students. Therefore, the strong upward trend from 2022 to 2024 illustrates that EPCTC is effectively accelerating credit completion and reengaging students who had previously disengaged from school, reaffirming its mission to provide pathways to graduation for all learners. **EPCTC achieved measurable increases in the one-year DASS Graduation Rate from 2022 to 2024 demonstrating at least one year's progress for each year in school.**

Suspension Rate

EPCTC continues to demonstrate its strong commitment to creating a positive, inclusive,

and student-centered learning environment, as evidenced by its consistent **0 percent suspension rate** from 2018 through 2024. This achievement represents excellence in cultivating positive behavior and relationships, reflecting LCFF Priority 6: School Climate (Engagement). The Charter School's approach emphasizes restorative practices, mutual respect, and individualized behavioral support, reducing the need for punitive discipline. The continuation of professional development focused on trauma-informed care and positive behavioral supports will help sustain this exemplary school climate while further strengthening the Charter School's capacity to support students socially and emotionally. **EPCTC has consistently maintained a 0% Suspension Rate.**

College and Career Indicator

EPCTC's College and Career Indicator ("CCI") demonstrates a small but positive increase from 0.0% in 2018 to 0.4% in 2024. While this metric does not fully reflect the postsecondary goals of adult learners, it demonstrates that the Charter School has made progress in expanding career pathways, dual enrollment, and workforce readiness programming aligned to LCFF Priority 7: Course Access (Conditions of Learning). The more accurate indicator of success, the College Going Rate from DataQuest, shows that the percentage of graduates enrolling in college rose from 23.5% in 2017 to 40.6% in 2023, a 17.1-point increase. This improvement underscores EPCTC's commitment to LCFF Priority 8: Student Outcomes (Pupil Outcomes), ensuring that graduates transition successfully to postsecondary education or employment. Continued partnerships with local community colleges and workforce programs will enhance these outcomes and further align instruction with career readiness goals.

The CCI was designed for traditional, comprehensive high schools, where students are typically under 18 and progress through a four-year sequence of A–G coursework, AP exams, and CTE Pathway completions. In contrast, EPCTC serves an adult learner population whose educational goals often focus on earning a high school diploma, learning English, and acquiring workforce skills rather than participating in standardized testing or college-level coursework. EPCTC does not offer AP or IB courses that define CCI "Prepared" status. Consequently, even though EPCTC provides standards-based

instruction, counseling for community college enrollment, and CTE Pathway completion opportunities, the structure of the state's CCI measure does not accurately reflect the Charter School's mission or the postsecondary readiness of its adult learners. **Though the CCI results seem like the EPCTC's students are not prepared for college or career, the College Going Rate from DataQuest demonstrates that 40% of students are prepared and attending college.**

EPCTC demonstrates notable improvement in its College Going Rate over the charter term, reflecting a growing culture of postsecondary readiness and persistence among graduates. The percentage of all students (Latino students) enrolling in college increased from 23.5% in 2017 to 40.6% in 2023, a 17.1-point gain. This progress illustrates the Charter School's success in building equitable access to postsecondary pathways through partnerships with local community colleges, culturally responsive college readiness initiatives, and individualized student planning. This steady upward trend indicates that the Charter School's emphasis on academic counseling, college awareness activities, and dual enrollment opportunities is helping students transition successfully into higher education. The same pattern is evident among SED students, whose college enrollment rose from 23.9% to 39.3%, a 15.4-point increase, demonstrating that targeted support systems and guidance counseling are effectively meeting the needs of students facing financial and social barriers. **The 17-point increase in college enrollment since 2017 demonstrates that EPCTC's long-term strategies for academic preparation and student guidance are effectively translating into postsecondary opportunity and lifelong learning.**

EPCTC continues to prepare students for postsecondary success through individualized academic counseling, ELD, and workforce readiness programs. Many EPCTC graduates pursue community college coursework, vocational training, or career advancement after earning their high school diplomas, demonstrating the Charter School's effectiveness in supporting lifelong learning beyond traditional college enrollment metrics. Together, the sustained 0% suspension rate and the Charter School's focus on postsecondary readiness underscore EPCTC's holistic mission to empower students academically, socially, and professionally within a supportive and equitable learning environment.

Year-over-Year Progress

In addition to the CAASPP, EPCTC's students have been making progress on the MAP Growth in Reading and Math. EPCTC has utilized MAP Growth as verifiable data for the term of the charter.

EPCTC demonstrates consistent and measurable growth in Reading proficiency across all student groups, highlighting the success of its literacy interventions and instructional alignment. From 2018–19 to 2024–25, the percentage of all students meeting grade-level standards in Reading increased from 46% to 58%, representing an 11-point gain. SED students improved from 46% to 58%, a 13-point increase, showing strong progress among one of the Charter School's most significant subgroups. ELs (including ADELs) also demonstrated steady improvement, growing from 46% to 57%, a 12-point gain that reflects the Charter School's effective ELD strategies and targeted literacy support.

Homeless students showed the greatest improvement, increasing from 45% in 2018–19 to 58% in 2024–25, a 14-point gain that underscores EPCTC's success in serving highly mobile and vulnerable populations. Latino students, who comprise nearly the entire student body, mirrored the schoolwide pattern with an 11-point increase over the same period. These results reflect strong implementation of State Standards and ELD Standards aligned to LCFF Priority 2: Implementation of State Standards, and they demonstrate LCFF Priority 4: Student Achievement through one year or more of progress per year since 2021–22. The Charter School will deepen differentiated literacy instruction and expand targeted ELD and intervention supports so that late-entering and highly mobile learners sustain these gains. **EPCTC achieved measurable increases in ELA achievement from 2018 to 2024 demonstrating at least one year's progress for each year in school.**

EPCTC shows steady improvement in Math performance across all student groups, reflecting consistent implementation of targeted instructional supports and intervention strategies. The percentage of all students (and Latino students) meeting grade-level standards increased from 37% in 2018–19 to 43% in 2024–25, representing a 6-point gain. SED students achieved an 8-point increase, rising from 37% to 45%, while ELs (including ADELs) improved from 36% to 43%, a 7-point gain. Homeless students made one of the largest gains, improving from 36% in 2018–19 to 45% in 2024–25, an 8-point increase that underscores the EPCTC's commitment to providing equitable access to instruction and stability for transient or at-risk learners. The improvement since 2023–24 also shows that students are now making at least one year of growth per year in Math. These improvements reflect standards-aligned instruction, small-group reteaching, and individualized learning plans consistent with LCFF Priority 2: Implementation of State Standards and demonstrate progress on LCFF Priority 4: Student Achievement. The Charter School will extend math intervention time, increase real-world problem solving for adult learners, and continue collaborative data reviews to accelerate growth for newcomers. **EPCTC achieved measurable increases in Math achievement from 2018 to 2024 demonstrating at least one year's progress for each year in school.**

Alternative Metrics for EPCTC as a DASS School

The alternative metrics used by EPCTC were originally identified and formalized in the 2018 charter petition in collaboration with the District as part of a shared understanding that traditional accountability measures alone would not fully capture the progress and success of a continuation school and DASS school serving adult, credit deficient, and highly mobile students. Through the charter development and approval process, EPCTC and ESUHSD reached agreement on a set of outcome measures that more accurately reflect student engagement, persistence, academic growth, and credit attainment, including attendance rate, benchmark scores, credit completion, one year graduation rate, participation in feedback systems, growth on norm referenced assessments for eligible students, and increases in long term enrollment. These metrics were selected to align with the LCAP priorities while accounting for the unique enrollment patterns, instructional models, and recovery focused mission of EPCTC. Expectations for meeting each metric were clearly defined at the time of approval of the 2018 charter petition, establishing how success would be measured, which student populations would be included, and the performance thresholds that would indicate progress or attainment. EPCTC has consistently used these agreed upon metrics to monitor outcomes, reflect on implementation, and adjust practices over time, with progress reviewed annually and documented. A longitudinal reflection of EPCTC's performance relative to these alternative metrics is provided in Table i.15: Reflection on EPCTC's Progress Toward Alternative Metrics (2018–2026), which demonstrates how the Charter School has tracked, evaluated, and responded to performance trends across the charter term.

Attendance Rate

Attendance remains a strength and a success in student engagement. Over seven years the Charter School averaged more than 82% attendance, with annual rates ranging from 81.65% to 83.67%. The Charter School's annual rates ranged from a low of 81.65% in 2019–2020 to a high of 83.67% in 2020–2021, demonstrating remarkable stability even

through the COVID-19 pandemic and subsequent recovery years. This consistency, despite serving a population that often faces significant barriers to consistent attendance, including work obligations, family responsibilities, and housing instability, aligns with LCFF Priority 5: Student Engagement. EPCTC will continue to pair proactive attendance communication with access to community resources and time-flexible learning to sustain engagement.

EPCTC has developed procedures to best serve students and families who enter the Charter School on a rolling basis and many of whom do not experience a full year of instruction at the same school. This flexible model enables students to enroll and participate as their life circumstances allow, which naturally affects traditional attendance metrics. Nevertheless, the fact that EPCTC sustains an average attendance rate above 80% with a highly mobile student population is evidence of the school's commitment to meeting learners where they are. Through personalized outreach, attendance monitoring, and wraparound supports, EPCTC continues to foster engagement and connection for every student, ensuring that consistent participation remains a central part of its mission to provide accessible, high-quality education to the community. **EPCTC has averaged over 82% average daily attendance over the last seven years.**

Student Participation on the Local School Climate Survey

Student voice through the local climate survey shows meaningful engagement and a practical path forward. Participation averaged 63.6% across the charter term, with rates of 68% and 70% in 2020–21 and 2021–22 and 60% in 2024–25 after a temporary dip. These results indicate trust in feedback processes and inform continuous improvement actions that strengthen LCFF Priority 6: School Climate and LCFF Priority 3: Parent Involvement where outreach strategies also reach adult learners' families. EPCTC will embed brief survey prompts into class sessions and expand mobile-friendly options to increase participation among working students. The Charter School uses survey data to inform decisions about instructional practices, student support services, and school culture initiatives. The fact that EPCTC continues to receive meaningful survey participation despite serving a highly mobile and diverse population demonstrates the Charter School's commitment to inclusive decision-making and to maintaining a strong connection between students and staff. **EPCTC maintained an average of 63.6% of students participating in the annual school climate survey.**

Credit Completion

Credit completion demonstrates academic persistence and access. EPCTC students earned on average about 78% of attempted credits, with a high of 83.18% in 2022–23 and a low of 71.46% during the pandemic. These outcomes confirm that personalized pacing, credit recovery, and targeted supports are helping adult learners progress toward graduation in alignment with LCFF Priority 7: Course Access and LCFF Priority 4: Student Achievement. The Charter School will expand competency-based options and extended learning to support midyear entrants and students balancing work and family obligations. **EPCTC maintained an average of 78% of students earning and completing courses for credits that they attempted.**

Continuous Enrollment/Long Term Students Enrollment

EPCTC has steadily increased the percentage of students who remain continuously enrolled or identified as long-term students. Continuous enrollment shows strong retention gains with clear next steps. The percentage of long-term students grew from 19% in 2018–19 to a peak of 45.6% in 2022–23 and stabilized at 36.22% in 2024–25, averaging about 32% across the term. These improvements reflect a supportive environment, individualized pathways, and wraparound services that strengthen LCFF Priority 5: Student Engagement and LCFF Priority 6: School Climate. The Charter School will continue to expand academic advising, flexible scheduling, and stability supports that help students remain enrolled long enough to meet their goals. This upward trend reflects the Charter School's focused efforts to engage and retain students who often face life circumstances that make sustained enrollment challenging, such as employment obligations, family responsibilities, or relocation. Although student mobility remains a defining feature of the population served, the improvement in continuous enrollment illustrates a learning environment where more students are choosing to stay and complete their education. **EPCTC maintained an average of 32% of students remaining continuously enrolled long-term.**

STUDENT OUTCOMES REFLECTION FROM 2018 TO 2026 CHARTER TERM	
Attendance Rate Status: Exceeded	**Meet or exceed an average of 75% yearly attendance**
As shown in Table i.11, EPCTC exceeded its attendance goal with an average rate of over 82% across seven years, surpassing the 75% benchmark. This consistency is a major strength that reflects a strong culture of student engagement, proactive communication, and flexible attendance supports. The success stems from staff who monitor attendance daily, provide outreach to absent students, and offer accessible class schedules for adult learners managing employment and family duties. The primary challenge continues to be addressing external barriers such as housing instability and work obligations that affect daily attendance. Next steps include deepening partnerships with local agencies to provide students with transportation and wellness resources that further remove attendance barriers. Under State Priority 1 (Basic Conditions of Learning), maintaining qualified teachers and safe facilities supports these efforts, while Priority 2 (Implementation of State Standards) ensures that instruction during attendance time remains high-quality and aligned to state expectations, maximizing learning for students who show strong persistence in attending classes.	
NWEA ELA Growth Target Status: *Exceeded*	**40% of over 19 students meet ELA Growth Report**

As demonstrated in Table i.9, EPCTC exceeded its ELA Growth Target, with 40% of students meeting their growth goals on the NWEA assessment. This result highlights the school's strength in literacy instruction, effective use of data, and ongoing professional development. Students demonstrated consistent progress in reading proficiency, improving from 46% to 58% over the charter term. The success is also attributed to teachers' collaboration and targeted instructional planning aligned to State Priority 2 (Implementation of State Standards), ensuring that literacy instruction integrates CCSS and ELD Standards. A continuing challenge involves extending this literacy growth to the remaining students who are performing below grade level, many of whom are recent immigrants with limited English exposure. The next steps include expanding one-on-one tutoring and increasing the integration of language-rich content areas, especially for advanced ELD learners. Under Priority 1, maintaining well-prepared teachers who use evidence-based literacy strategies will be essential to sustain and extend these gains.	
NWEA Math Growth Target **Status: *Partially Met***	**55% of over 19 students meet Math growth target**
Table i.10 shows that EPCTC partially met its Math Growth Target, with 55% of students achieving their growth goals. The data illustrate notable improvement since 2018, rising from 37% to 43% of students meeting grade-level standards. Strengths include the school's use of small-group reteaching, data-informed instruction, and persistent teacher collaboration. These align closely with Priority 2 (Implementation of State Standards) by ensuring that math instruction is rooted in the California Mathematics Framework and that teachers are supported in its application through ongoing professional development. The main challenge remains closing achievement gaps for English Learners and newly enrolled students who enter with significant math learning loss. The next steps involve expanding intervention blocks, integrating technology-based practice, and providing targeted teacher training on conceptual mathematics aligned to Priority 1 (Basic). By deepening these supports, EPCTC aims to ensure that all students, regardless of entry point, can make accelerated progress in math proficiency.	
Graduation Rate **Status: *Partially Met***	**80% of seniors will graduate within their senior year**

As indicated in Table i.5, EPCTC made remarkable progress in increasing its one-year DASS graduation rate from 51.2% in 2022 to 74.3% in 2024, demonstrating a 23.1-point improvement. This trend underscores the school's commitment to reengaging adult learners and guiding them toward diploma completion. The primary strength lies in flexible scheduling, individualized academic counseling, and personalized learning plans that support students facing complex life circumstances. These results align with Priority 2, showing that instruction and assessment are aligned to state standards that prepare students for graduation and post-secondary options. The challenge lies in sustaining momentum toward the 80% goal and ensuring continued support for students who struggle with attendance or credit recovery. The next steps include enhancing partnerships with community colleges, expanding access to career technical education pathways, and strengthening academic mentoring. Through these actions, EPCTC will continue to align with Priority 1, maintaining qualified staff and adequate instructional materials to ensure that all students have equitable access to complete their graduation requirements.

Student Participation on TEN Feedback Loop or School Climate Survey Status: *Partially Met*	**80% of student participation on the TEN Feedback Loop or School Climate Survey**
As presented in Table i.12, EPCTC's average student participation on the School Climate Survey was 63.6%, which, while below the 80% goal, represents meaningful engagement from students actively attending classes. A key strength is the establishment of a consistent feedback loop, allowing students to voice their opinions about school safety, connection, and instructional quality. This supports Priority 1 (Basic Conditions of Learning) by confirming that students perceive the school as a safe, inclusive environment staffed by qualified professionals. Challenges arise from the school's high mobility and adult learner demographics, which make consistent survey participation difficult. The next steps include embedding feedback opportunities into regular class sessions and using multiple digital formats to reach working students. These refinements will ensure that student perspectives continue to inform planning and strengthen schoolwide systems of support.	
Credits Completion Status: *Exceeded*	**Complete 70% of total credits attempted**
According to Table i.13, EPCTC exceeded its goal for credits completion, achieving an average rate of 78% and reaching a high of 83.18% in 2022–2023, surpassing	

the 70% target. This accomplishment highlights the school's academic rigor, flexibility, and individualized student supports. The results demonstrate alignment with Priority 2, as students successfully meet credit requirements based on courses aligned to California State Standards. A remaining challenge involves supporting students who enroll late in the term and require additional time to complete coursework. The next steps include expanding credit recovery options, using competency-based assessments, and providing extended learning opportunities. Under Priority 1, maintaining qualified staff and access to instructional resources will ensure continued success in helping students meet credit goals and accelerate progress toward graduation.	
Increase Number of Enrolled Long-Term Students **Status: *Exceeded***	**10% increase in number of continuously enrolled/long-term students**
Table i.14 shows that EPCTC exceeded its goal of increasing long-term student enrollment by 10%, achieving a rise from 19% in 2018–2019 to 36.22% in 2024–2025, with a peak of 45.6% in 2022–2023. This increase reflects the school's growing capacity to retain students through positive relationships, supportive services, and relevant coursework. The strength lies in its ability to turn a once highly transient population into one that values stability and continuity. Challenges remain in sustaining enrollment growth among students facing financial or housing instability. Next steps include enhancing academic advising and wraparound supports to maintain consistent re-enrollment. These efforts align with Priority 1 (Basic) by ensuring that students have stable access to safe facilities, qualified teachers, and the necessary materials to continue their education without interruption.	

Approving EPCTC is in the Best Interest of Students

Under Education Code Section 47607(c)(7), DASS charter schools are eligible for presumptive renewal, with consideration of performance on the Dashboard and applicable alternative metrics. Nonrenewal may occur only if the chartering authority determines that closure would be in the best interest of students. For EPCTC, the evidence overwhelmingly demonstrates that closure would not be in the best interest of its 515 students, as the Charter School provides a critical educational pathway uniquely designed to serve adult learners who are reengaging in their education after prior interruptions.

EPCTC's mission and model are centered on serving students who are predominantly Latino, socioeconomically disadvantaged, English Learners, and often experiencing homelessness, housing insecurity, or family and work obligations that make traditional programs inaccessible. While the District also authorizes a Charter School that serves younger adults between the ages of 18 and 27, EPCTC fills an equally vital but distinct role by providing flexible, individualized, and culturally responsive instruction for a broader range of adult learners, many of whom are older, parents, or working full time. The Charter School's environment offers a level of structure, care, and community engagement not typically available in larger or more traditional adult programs.

Beyond Dashboard data, EPCTC demonstrates consistent year-over-year progress in student outcomes that reflect strong alignment with LCFF Priority 4: Student Achievement and LCFF Priority 5: Student Engagement. Reading proficiency has increased by 11 percentage points and math proficiency by 6 points over the charter term, with significant gains among ELs, homeless students, and SED groups. The Charter School maintains an average attendance rate of 82%, a remarkable indicator of engagement for a highly mobile and working adult population, and a credit completion rate of 78%, supported by strong academic counseling and flexible pacing structures. These outcomes affirm EPCTC's success in closing the achievement gap for populations historically underserved by traditional schools.

EPCTC's commitment to LCFF Priority 1: Basic Services and LCFF Priority 6: School Climate is reflected in its safe, inclusive environment and its sustained 0 percent suspension rate. The Charter School's restorative and relationship-based approach fosters belonging, emotional safety, and mutual respect which are qualities essential for adult learners returning to education after prior academic setbacks. EPCTC also aligns with LCFF Priority 7: Course Access by ensuring all students receive individualized academic plans, access to standards-based coursework, and support to meet graduation and career readiness goals.

The Charter School's closure would have profound and lasting negative consequences. Approximately 515 adult students would lose access to a trusted, stable, and supportive educational setting that accommodates their work and family commitments. Many would struggle to find another program capable of providing the same level of individualized instruction, flexible scheduling, and wraparound support. For numerous students, EPCTC is not just a school; it is a community where they feel safe, respected, and empowered to reclaim their education. The loss of small class sizes, personal academic guidance, bilingual support, and targeted support services would create a severe disruption to their educational progress and diminish their opportunities for graduation and workforce advancement.

Conclusion

In accordance with Education Code Section 47607(c)(7), renewal of the EPCTC charter is in the best interest of students. EPCTC provides an essential educational environment that fosters academic recovery, social-emotional growth, and college and career readiness for adults who might otherwise remain disconnected from formal education. Renewal ensures continuity of services for 515 adult learners and preserves a proven, equitable model that aligns with California's priorities for access, engagement, and lifelong learning.

In accordance with Education Code Section 47607(c)(7), the presumptive outcome for DASS schools is charter renewal. The chartering authority may only deny renewal if it makes specific written findings, supported by evidence, that closure of the charter school would be in the best interest of students. Given the Charter School's strong academic outcomes, inclusive environment, and vital role in serving adult learners, it is

evident that closure of EPCTC would not be in the best interest of its students.

Thus, EPCTC requests a 5-year renewal term, from July 1, 2026 to June 30, 2031.

Element A: The Educational Program

The educational program of the charter school, designed, among other things, to identify those whom the charter school is attempting to educate, what it means to be an "educated person" in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners. - Education Code Section 47605(c)(5)(A)(i)

The annual goals, for the charter school for all pupils and for each subgroup of pupils identified pursuant to Section 52052, to be achieved in the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, and specific annual actions to achieve those goals. A charter petition may identify additional school priorities, the goals for the school priorities, and the specific annual actions to achieve those goals. - Education Code Section 47605(c)(5)(A)(ii)

If the proposed charter school will serve high school pupils, the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the "A" to "G" admission criteria may be considered to meet college entrance requirements. - Education Code Section 47605(c)(5)(A)(iii)

Target Student Population

EPCTC typically serves 750 high school, 9-12th grade students, aged over 18:

- Students who are recent immigrants and for whom the U.S. school experience is new and intimidating. Students' primary language is Spanish.
- Out-of-school students who have not been successful in large, comprehensive high schools. Most of these students are seeking a second chance at getting an education and improving their lives, as well as their children's lives.
- Students who are working adults, holding one or more jobs to meet the Bay Area's rising living costs.
- Students who are parenting and/or head of households.
- Students who endure family separation.

Demographically, EPCTC serves a predominantly low-income, Latino community. A brief summary of pertinent demographic information is as follows:

- Ethnicity: EPCTC is 100% Latino.
- Income: approximately 96.5% of students fall under the federal poverty guidelines.
- EPCTC's students are highly mobile, sometimes having to leave school to work full-time or respond to family emergencies in their home country.
- The majority of EPCTC's students have either never attended traditional schools or were unsuccessful in traditional schools because of their unique needs.

- Students have had interrupted cycles of education in the United States and/or in their home countries.
- The majority of EPCTC students come to the school performing well below grade level in Language Arts and Mathematics.

EPCTC Student Needs

Through our extensive experience and involvement with our target population, we have been able to identify and address our students' immediate needs.

1) We recognize that all of our students need to become fluent in English. At the same time, we realize the importance of maintaining and further developing their Spanish fluency.
2) Although many of our students plan to attend college at some point, their immediate need is to acquire the skills that will help them become a productive member of the workforce.
3) We appreciate that students need a smooth transition into the new culture. Maintaining family and cultural values while adapting to the new cultural values needs to be supported by the school environment. Our students need their international perspective to be nurtured and valued.
4) Planning for the future and opening doors to new paths is important, specifically in planning and preparing for higher education and entering the workforce.
5) Their need to embark consciously and independently on a learning program that ultimately enables them to become life-long learners, productive members of society, efficient workers, and effective family members.
6) Students need flexible scheduling and enrolling options to accommodate their family and work responsibilities.
7) Student need access to free and high-quality childcare services.

Attendance: School Year and School Day

Escuela Popular will meet or exceed the instructional minutes and school days required by the California Education Code. The school year consists of 177 instructional days. Generally, the school day begins at: 8:30 A.M. and ends at: 2:00 P.M. for the morning program. On Wednesdays, students in the morning program are dismissed at 1:10 P.M. and at 12:45 P.M. on minimum days. Evening program begins at 4:15 P.M. and ends at 9:50 P.M.

Enrollment Projections

EPCTC currently serves 525 students in grades 9-12 with an enrollment of 550 students during this charter term. EPCTC has historically experienced a low stability rate, but EPCTC is committed to serving students who wish to attend the Charter School.

Table A.1: Enrollment Projections from 2026-31

What it Means to be an Educated Person in The 21st Century

The knowledge, skills and competencies required to be an "educated person" in the 21st century continues to increase as our state, country, and global community evolve. the rapid shifts in industries that drive the economy require a drastically different employment force than in previous generations. The contributions made by all levels of today's workforce are measured based upon the value added to an idea, product, or service. In order to be competitive in today's job market, knowledge and capacity in more than one discipline is often necessary, whereas competence in one area was sufficient in the past. Working effectively as part of an interdisciplinary team to successfully carry out the mission of an organization is increasingly important, specifically amongst a diverse community.

Therefore, we believe an "educated person" in the 21st century is a self-motivated, competent, lifelong learner who exhibits the following traits:

RISE by being...

Responsible citizens

- who are globally aware,
- who appreciate the civic, economic, historical and cultural perspectives of diverse peoples,
- who can function in a multicultural world,
- • who are proud of their roots and personal value,
- who care for the environment.

Intellectually curious and independent learners

- who achieve academic excellence through rigorous active learning,
- who use critical thinking skills to understand and solve complex problems across disciplines,
- who are able to analyze, synthesize, and evaluate.

Sound healthy individuals

- who understand the importance of physical fitness, and the need for a lifestyle that is balanced intellectually, physically, and emotionally,
- who achieve wellbeing for themselves.

Effective bi-literate and bilingual communicators

- who can acquire information through reading and listening,
- who can write clearly and concisely,
- who can communicate ideas and thoughts in group setting and when making presentations,
- who can use academic language effectively in Spanish and English.

EPCTC believes that a well-developed academic program coupled with targeted job skills training that are offered in a nurturing learning environment both inside and outside of the classroom will help to prepare students with these skills.

How Learning Best Occurs – Instructional Design

Support with Basic Needs

Escuela Popular believes that learning best occurs when student needs are diagnosed and matched with meaningful and relevant educational strategies. Additionally, Escuela Popular meets students where they are academically and linguistically. In light of the school's target student population, Escuela Popular believes that English Learners are capable of achieving the highest academic standards where students learn English without having to sacrifice content or their native language. Students are provided with additional resources, to eliminate barriers, such as free childcare, transportation, flexible scheduling, open enrollment, parent education, nutrition classes, health & wellness electives, medical van, immigrant rights resources, DACA support, citizenship application support, FAFSA application support, AB540 application support, and advocacy support.

Broad Curriculum Content

Escuela Popular follows an accelerated and sequenced ELD curriculum that prepares students for high school core classes aligned to Common Core State Standards. Our instruction is designed using the Backwards Mapping, Understanding by Design, approach to teaching. Embedded in our curriculum are critical thinking, writing, speaking, collaboration, and technology skills to provide a rigorous high school education.

Our teachers utilize formative and summative assessments, adopted from Dylan William's Assessment for Learning techniques and strategies. Escuela Popular provides a safe learning environment that promotes and prepares students for college & career readiness through a robust academic counseling program that offers college admissions support, financial aid application completion & submission, AB540 applications, college entrance placement exam guidance, college campus visits, and individualized class scheduling.

Curriculum

Curriculum plays a vital role in any educational program. Quality curriculum needs to be culturally relevant, aligned to State Standards, and current in both delivery and instructional methods. (See Appendix 8 Course Descriptions/Scope and Sequence/Curriculum Maps.) All of the instructional materials and resources mentioned are subject to be changed as the educational partners will need to play an active role in reviewing and advising the Executive Director and the Board on the purchase of instructional materials and resources needed.

Description of Instructional Approaches and Strategies

EPCTC is achieving its mission by implementing strategically selected practices, concepts, and models. The design of this charter school is based upon the collection of best practices and experiences of the founding members, who have over 75 years of experience and training working with this target population. In addition, EPCTC draws upon the expertise of the CTC staff to co-develop relevant, engaging job skills courses that complement the academic program and provide the target population with the skills and habits they need to enter a highly skilled workforce. Below are the core practices, concepts, and models that EPCTC employs.

Intensive English Language Development Accompanied with Formative and Summative Assessments

Many of EPCTC's students are native Spanish speakers with a great need for intensive English language development. Therefore, the curriculum calls for pre-literacy intensive English instruction, where students are routinely assessed on English language development and grouped based upon their language proficiency. As their proficiency develops, multiple content areas such as Social Studies and Sciences, are introduced

with primary language support.

Performance-Based Learning and Skills

Teachers provide students with opportunities to engage in authentic and meaningful tasks that are essential to applying the skills needed in the workforce and career readiness. Technology skills (job skills) learned spiral through all academic core classes. Performance tasks assigned incorporate the skills the students have learned in technology classes and core academic classes, providing a relevant and authentic application. These culminating performance tasks provide relevance to the students as well as help them hone their job skills through the use of technology. Performance tasks could include:

- Interviews, debates, role plays, persuasive writing,
- Culminating oral personal education reflection task (PER),
- Developing a business plan in economics,
- Writing and designing a publication that advocates for a particular policy initiative,
- Engage in debates related to current and relevant topics.

Newcomer Center Model

Many of the students served by EPCTC are recent immigrants who are attending school in this country for the first-time. They are newcomers to the U.S. culture and often are not familiar with the codes of power needed to be successful in school or in this country. Therefore, EPCTC seeks to provide a nurturing environment that is flexible and sensitive to these needs; which incorporates life skills to navigate the new society and access appropriate resources. On-site referral services, academic counseling, advocacy on issues such as immigration, housing, workplace rights, and civil rights are provided to address issues outside the classroom that may prevent students from learning.

EPCTC seeks to eliminate barriers by taking a holistic approach to supporting students in school providing resources in the following: VTA bus passes, no-cost childcare, morning and evening classes, academic counseling that takes into account previous education.

Description of Learning Setting

Family Learning Center Model

Escuela Popular regards family involvement and support as essential to students' academic success. EPCTC involves the whole family in the learning experience. Many parents attending EPCTC have children attending EPAFLC. These parents, who need to learn English and obtain their high school diploma, become students alongside their children. Home becomes a place of learners. Parents are able to support their children's education because they can better relate to their children's learning experience. Between EPAFLC and EPCTC, the grade levels served allow for entire families to attend as students. In addition, EPCTC provides its students with high quality no-cost childcare.

Small Learning Communities Through a School-Within-School Model

Students learn best in small nurturing environment where they are known well, treated as individuals, and their backgrounds are honored. Small learning environments allow for

stronger bonds/relationships amongst students and teachers, where students can receive individualized attention.

Description of Program Aligned to School's Mission and Vision
Vision: Escuela Popular educates to transform lives.

Mission: Our family learning center believes that teaching is an act of love through which learning is reciprocal. We develop bilingual, bicultural students fully prepared to continue onto higher education and empowered to pursue their goals in a global society.

As a family learning center, Escuela Popular's mission is to provide all students with the opportunity to engage in purposeful, stimulating, and enriched educational experiences to meet their basic needs and to go beyond them. Through the Escuela Popular/Center for Training and Careers, Family Learning Center, adults and families are served as well.

- Escuela Popular believes that teaching is an act of love, and that life-long learning empowers all human beings.

The overall vision of EPCTC is to empower the community through education. EPCTC is a Transitional Kindergarten to 12th grade family learning center that serves entire families in conjunction with EPCTC's Over 19 Academy. We are committed to providing meaningful learning experiences in a small school setting to ensure that we are impacting the lives of every student. We seek to enable students to become self-motivated, competent, and lifelong learners. We are a community school with quality age-appropriate academies in a school within a school model. - **Collaboration:** We are committed to nurturing an environment of respect and collaboration, which enriches teamwork, sharing responsibilities, collective problem solving, and building on each other's strengths. We continue to build healthy and strong relationships through open dialogue.
- **Constructivist Learning:** Since we believe teaching is an act of love, we meet our students where they are and differentiate our engagement with them accordingly. We will learn and build upon our students' prior knowledge and intuition.
- **Safe and Organized Learning Environment:** We create a learning environment where equity is highly valued so participants feel safe to express themselves, take risks in learning, and trust that their voices will be heard. As equal participants, students and staff should take ownership in contributing to a school culture that is organized, responsive and well prepared.
- **Success:** Success is the short and long-term transformation of individual's experience as they continually evolve into lifelong bilingual learners who achieve well-being for themselves, their families, and community.

EPCTC is committed to providing meaningful learning experiences in a small school setting to ensure an impact within the lives of every student. EPCTC is a community school with quality age-appropriate academies in a School-Within-School model. EPCTC is open extended hours to accommodate the academic and non- academic needs of its students. EPCTC is focused on preparing its students to master the State Standards, pursue higher education opportunities and/or career opportunities.

Means to achieve mission and vision

EPCTC is achieving its mission and vision by implementing the following practices, concepts, and models. The design of this charter school is based upon the collection of the best practices and experience of the founding members who have over 100 years of experience and training working with this target population. We feel that learning best occurs when student needs are diagnosed and matched with meaningful and relevant educational strategies.

Educational Philosophy

The educational philosophy at EPCTC is driven by the knowledge that all students, if given adequate support from a community school, are capable of succeeding in college, career, and life. It is with that optimism and with research-based strategies on improving student achievement that the Charter School's educational program is designed. The Charter School mission and vision drive everything at EPCTC, from school culture to the academic program.

Description of Curriculum Aligned to Student Performance Standards

EPCTC is a welcoming and safe environment for all students, which develops relevant curriculum partnered with performance tasks; and aligned with the appropriate standard based on the course subject, as a key to building on the students' strengths and bringing relevance to their studies. EPCTC also believes that the everyday learning experiences for all students should be authentic and relevant to their lives. Interdisciplinary units help students connect everyday experiences with learning and serve to better prepare students for college and careers. EPCTC also strongly stresses the development of bilingual/biliterate students. EPCTC emphasizes life-long learning and prepares students to attend college or directly enter the workforce.

EPCTC has aligned its learning outcomes to the Common Core State Standards, Next Generation Science Standards, California English Language Development Standards, and College & Career Readiness Standards. EPCTC believes that assessment informs practice, and continually reflects upon its curriculum and instruction to ensure that students exceed standards.

EPCTC attempts to diagnose and discover the academic strength and level of each student and build individual academic plans that are appropriate to their needs. EPCTC focuses upon:

- intensive English language development instruction with conceptual and primary language support (Spanish)
- continuous and routine assessment of English language development
- student responsive scheduling based on academic level
- individualized academic plans
- college and workforce preparation
- upon achieving an emerging level of English language development, then transitioning to multiple disciplinary studies.
- developing bilingual and bi-cultural students

EPCTC's goal is to provide all over 18 students with the opportunity to engage in purposeful, stimulating, and career enhancing educational experiences to meet their basic needs and go beyond, in addition to the following:

- EPCTC will treat all students as gifted and talented. Differentiate instruction to fully develop student talents, recognizing their varied learning styles.
- EPCTC will be led by the instructional leaders of the organization and will be responsive to student needs by developing a shared decision-making process that is focused around student needs.
- EPCTC is committed to community improvement by fostering pride in learning and student leadership. The school believes that educated individuals raise the standard of living and quality of life of their families and the community as whole. The goal is to develop and prepare all students, faculty and staff to participate actively in the community.
- The goal is to teach students to dream and achieve their dreams through education.

Plan to Support Students Not Meeting Pupil Outcomes

Teachers regularly monitor student progress. Escuela Popular regularly monitors student progress. Teachers regularly administer assessments, such as NWEA MAP, SBAC, ELPAC, PFT and other applicable external and internal assessments, to identify students who may be academically low-achieving or at-promise at the beginning of the year and on regular cycles throughout the year. Those students performing significantly below grade level have access to the following opportunities:

- **Summer school:** Courses are offered during the summer session to focus on the areas of reading, writing, listening, and speaking during a 4-6 week session.
- **Math Lab:** This class is designed to address students' current level and development in pre- core math standards. Teachers provide individualized instruction for students in order to prepare students for core Math courses, at the students' pace of learning.
- **Outside of Classroom Support:** Teachers provide support after school, before school, using online tools, and during school breaks to individual students. Additional support assists students with reaching a level of understanding and mastery to be promoted next level of learning.
- **Additional Tutoring:** Tutoring periods are established within the school day to support students in the areas of Math and English.
- **Foundational skills support and instruction:** These are necessary and important components of any reading program so that students may become proficient and fluent readers. The skills include phonological awareness that ranges from phonemic awareness, the ability to detect and manipulate individual sounds within words, syllables within words, words within sentences and rhymes. Many nonreaders hear sounds but are unaware of the individual phonemes
- **10-Week Interval and performance-based course scheduling:** Students are scheduled in courses appropriate to their reading, writing, speaking, and listening levels, students needing additional time to focus on specific standards have the opportunity to retake and/or receive additional instruction before moving to the next level, as needed by the student.
- **Small Class Sizes:** Teacher to student ratio is small, when compared to comprehensive schools, at times as low as 10 to 1 ratio, allowing more time for individualized instruction.
- **Bilingual Staff (Spanish) to support with conceptual understandings:** Bilingual staff provides support in primary language to teach concepts and understandings, then transferring the learning to English. Students not reaching the standards often have success in learning it in their primary language to expedite their learning in English.
- **Lexile leveled assigned texts:** Teachers have available student's individual Lexile levels which allows for individualized reading assignments and practice to engage students in reading assignments that are within the students reading range for maximum potential to improve reading comprehension and vocabulary.

Additionally, students have access to academic counseling support where they receive guidance and support on fulfilling their academic plan and graduation requirements. There is on-going communication to support students who are not meeting their student

outcomes.

Instructional Design and Strategies Based Upon Successful Practice or Research

In meeting these students' needs, we have seen an increase in academic success.

1) Our teaching methods are inspired by "popular education" as defined by Paulo Freire. The concept of popular education is based upon serving students by identifying basic needs and building on their strengths while providing instruction that is relevant to their lives. EPCTC assesses its students to find out where they are when they come to EPCTC and then begin to direct their education to higher levels of learning. For example, most of the student population requires intensive ESL, Literacy, and Math classes in their first year with EPCTC. As their English proficiency and Literacy levels increase, students are able to meet the challenges of other core subjects, such as the social sciences and natural sciences. EPCTC also places emphasis on dual language instruction so that our students become biliterate. Spanish is the source of knowledge used to accelerate our students' academic progress.
2) EPCTC regards family involvement and support as essential to students' academic success. EPCTC involves the entire family in the learning experience. Parents in EPCTC will often have siblings and children attending Escuela Popular. Home becomes a place of learners. Parents and children reinforce each other's education because they can better relate to each other's learning experience.
3) Most of the staff at EPCTC is reflective of the student body. Many have faced similar obstacles as those faced by its students. The curriculum and school culture are familiar to the culture of the students. In this manner, EPCTC is able to provide a smooth transition into the new culture. Codes of power that exist in the U.S. are explicitly taught to its students.
4) EPCTC engages students in activities that nurture freedom, a sense of well-being, and a consciousness that with the right attitude they can undertake any challenge and be successful. Students are challenged to dream and to work towards the accomplishment of those dreams.

Based on this educational design, EPCTC students may spend 1-3 years developing their English language proficiency. EPCTC students begin at a reading level equivalent to the third grade and through the access high level instruction and support they are able to understand rich literature such as Macbeth, Don Quixote, and Animal Farm.

Credit Recovery

A Counselor meets with each high school student each year. The Counselor monitors the grades of all students each semester. If a student is credit deficient, the Counselor conferences with the student and educational rights holder to develop a plan for the student for credit recovery. Students may recover credits by reenrolling in the class the following year or during summer school. The Counselor monitors all students taking credit recovery courses monthly and reports the student's progress to the Principal, the educational rights holder, and the student. If a student fails to make progress the following month, the Counselor conferences with the student and educational rights

holder to review the plan for credit recovery and make necessary adjustments to the student's schedule.

Dual Enrollment

EPCTC offers an opportunity for students to participate in a dual enrollment program with San Jose City College. College courses provide students with college credits. Students receive a transcript from San Jose City College upon request. (See Appendix 9 Dual Enrollment Agreement.)

Accreditation and Transferability of Courses

EPCTC received a six-year Western Association of Schools and Colleges accreditation which affirms the quality and credibility of its academic program. Additionally, A-G approved courses support alignment with California college entrance requirements. Together, WASC accreditation and A-G approval ensure that courses offered at EPCTC are transferable to other public high schools and meet UC/CSU eligibility standards. During the initial enrollment process, Orientation, and through individual meetings with the counselor, and students, EPCTC informs students about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. If a student is transferring into EPCTC and the transfer might result in an inability to obtain the credits needed to graduate, EPCTC will advise the students about credit recovery options and what is required to meet graduation requirements. EPCTC will explain which course requirements the student is missing and suggest avenues by which the necessary credits can be obtained. In addition, students can find this information in the Student and Family Handbook (See Appendix 10).

Professional Development

Comprehensive professional development is imperative to the success of our teachers in effectively teaching students. (See Appendix 11 Collaborative Meeting Schedule.) EPCTC has developed a strong professional development plan to support and address the needs of teachers to ensure that the highest quality instruction and support is offered to the students. The primary areas of focus for professional development include understanding the mission and vision of the Charter School, implementing best practices to ensure college and career readiness, school safety, standards-based curriculum and differentiated instruction, supporting all students including EL, SED, SWD, interventions, SEL, data analysis, family partnerships and participating in shared decision making including contributing to key critical planning documents LCAP, WASC, etc.).

The following topics below will be covered in PD sessions during the charter term, including but not limited to academics and governance.

Supporting Special Populations

EPCTC is an inclusive charter school and offers services for all students in special populations. This includes, but is not limited to, socioeconomically disadvantaged students; students who are identified as EL; students who are identified as RFEP; students who are Homeless or Foster Youth; and students who receive Special Education services. EPCTC serves all students with an Individualized Education Program ("IEP"), regardless of their eligibility. EPCTC will follow the applicable regulations of the ESEA. The students who are identified as EL will receive daily instruction in ELD in addition to teachers using Specially Designed Academic Instruction in English ("SDAIE") strategies including accessing prior knowledge, cooperative learning, hands-on instruction, student communication, explicit vocabulary instruction, multicultural education and checking for understanding.

Students are most successful when there is a cooperative effort between the students and Charter School personnel with a commitment to and clear agreements regarding shared responsibility. EPCTC has developed time in the professional development calendar for teachers to evaluate data and to plan strategically to support all learners. Instruction is differentiated according to learning styles, strengths, abilities, and interests to support all learners. Students receive actionable and timely feedback, which empowers them to achieve by building on what they know. All students will receive a rigorous, standards-based, and experiential learning experience. Teachers provide additional differentiated instruction. Students who experience problems with academic achievement or who demonstrate the need for behavior support will be referred to services by the Student Support Services office or the Student Study Team ("SST") for further discussion regarding interventions.

EPCTC maintains a culture of high expectations for all students. EPCTC believes that all students can achieve high standards, regardless of their strengths and challenges, and, therefore, all students should be offered opportunities to engage in and succeed with a rigorous curriculum.

Multi-Tiered System of Supports and Response to Instruction and Intervention is a comprehensive framework designed to ensure the academic, behavioral, and social success of all students. By integrating State Standards with differentiated and student-centered learning, MTSS addresses individualized student needs through an alignment of systems that promote success. California's long-standing history of support systems includes Response to Instruction and Intervention ("RtI²") processes, Special Education services, Title I and Title III programs, services for English Learners, and those in gifted and talented programs. MTSS builds on these foundations by driving systemic change through intentional design and redesign of services, enabling rapid identification, and matching of student needs with appropriate interventions.

[2]

While both MTSS and RtI² share similar goals, MTSS encompasses a broader and more comprehensive scope. RtI² focuses primarily on students who are struggling and emphasizes teamwork and data-driven decision-making to improve student outcomes. In contrast, MTSS seeks to align all systems, initiatives, and resources across the Charter School and grade levels. It systematically supports all students, including gifted and academically high-achieving students, by integrating services in a way that sets higher expectations for every student. Unlike RtI², which emphasizes specific interventions for struggling students, MTSS promotes universal supports such as UbD strategies to ensure all students benefit from differentiated instruction and opportunities for success.

MTSS integrates instructional and intervention supports with a focus on long-term systemic change, ensuring sustainability and alignment with State Standards. It challenges school staff to adopt innovative practices across all school settings, promoting collaboration and high expectations for all students. MTSS does not influence special education placement decisions but instead focuses on supporting all students in educational contexts through intentional and holistic design.

MTSS incorporates many of RtI²'s principles, such as high-quality, research-based instruction that values cultural and linguistic relevance. Both frameworks rely on universal screening, diagnostic assessments, and progress monitoring to inform tiered interventions. They also emphasize positive behavioral supports, collaborative problem

solving, and data-driven practices to improve student outcomes. MTSS expands upon these shared principles by embedding them into a broader system designed to serve the needs of every student, ensuring equity and inclusivity in education.

This comprehensive approach positions MTSS as a powerful framework for fostering academic, social, and behavioral growth while addressing the diverse needs of students.3

Student Study Team Process

The Student Study Team is a positive schoolwide early intervention process to support students who are not making satisfactory academic, behavioral, and/or social progress. EPCTC sets up an SST, which is comprised of students, teachers, administrators, and other professionals, as appropriate. The SST meets regularly to highlight a student's strengths upon which a plan for improvement can be based. The SST designs a practical support plan that all team members agree to implement. Follow-up meetings will take place to monitor student progress with the interventions in place. The SST may determine to refer a student for special education evaluation or may monitor the students through the SST protocol based on the student's need.

SST Protocol

Step 1. The Charter School personnel (teacher, support staff, administrator) or the student or educational rights holder requests a referral to the SST. This referral includes information regarding specific concerns and prior interventions and accommodations. The student and educational rights holder are contacted and informed of the referral.

Step 2. The team members review and collect information relevant to the student's performance. This information could include information provided in student's cumulative file, educational rights holder/teacher/administrator observations, grade reports, formative assessments, homework, attendance, educational rights holder, and student information regarding the student's academic and health history, teacher reports, results of state academic assessments, and a list of prior interventions.

Step 3. The team establishes a meeting time when all members can participate and be actively involved in the problem-solving process. A translator is provided if needed.

Step 4. The SST meeting representatives summarize strengths, concerns, discuss, and develop an action plan with academic or behavioral interventions. Modified interventions are then documented and monitored for success. The team brings: 1) completed evaluation forms; 2) relevant work samples; 3) list of interventions attempted; 4) and the student's cumulative file.

Step 5. If the plan is unsuccessful, a follow-up meeting is held within 4-6 weeks to discuss alternatives for accommodations and interventions. The SST process may be repeated. If the revised plan remains unsuccessful, the student may qualify for more structured modifications or a Section 504 Plan. An unsuccessful SST process could lead to a

determination or qualification for Special Education.

All throughout the SST process, clear lines of communication are in place between EPCTC administration, staff, students, and special education staff (as appropriate) as the SST process is implemented.

Supporting Academically Low-Achieving Students
EPCTC is designed to respond to and support the needs of students who come to the Charter School achieving below their potential. Our school size, community supports, and educational program allow us to readily identify and target low-achieving students and provide them with the support they may need to succeed. Students and teachers regularly check student progress, and the following process is followed.

Assessment
All EPCTC students participate in and benefit from an academically rigorous and standards-based curriculum. Academically low-achieving students are identified by meeting any of the following criteria performs at least two (2) grades below grade level, does not meet standards on state testing, answers sixty percent (60%) or more incorrectly on school benchmarks or multiple measures assessments, and fails to demonstrate a minimum of one year of academic growth in reading, writing, and/or math during each year. Academically low-achieving students are identified by teachers, who notify the students and refer them for interventions.

Interventions
EPCTC takes a systematic approach to closing the achievement gap by allocating multiple resources to academically low-performing students. EPCTC teachers will address the needs of academically low-achieving students in the following manner:

After-School Tutoring
Students who are identified as academically low-achieving in reading or math are strongly encouraged to enroll in after-school tutoring. These sessions are taught by trained tutors who provide students with extra time to complete their regular coursework and receive additional assistance to develop English and math skills. Students receive support with study and time management skills. In addition, academically low-achieving students at the high school level benefit from the opportunity to complete homework assignments in a quiet environment with support as needed from teachers.

Additional Staff Support Time for Students
Classroom teachers are available before and after-school for small groups or individual review sessions. Academically low-achieving students are encouraged to attend these sessions on a weekly basis. In meeting with students, teachers may reteach material, provide additional support for completing assignments, provide additional individualized instruction, and/or offer alternative assessments.

Teaching Learning Communities
During weekly meetings, and during informal daily collaboration time, teachers meet and discuss individual progress of academically low-achieving students. The discussions focus on tracking progress, identifying areas of need, and effective intervention strategies.

Progress Monitoring
EPCTC is also committed to monitoring the progress of academically low-achieving students as part of prevention and interventions. As part of the MTSS, EPCTC will utilize RtI and will monitor the progress of each academically low-achieving student through the following processes:

In the MTSS and RtI² frameworks, Tiers 1, 2, and 3 provide a structured approach to supporting students based on their individual needs, with progress monitoring integral to each tier.

Tier 1 – Universal and Core Instruction: represents high-quality, standards-aligned instruction for all students in the general education setting. This tier includes differentiated teaching, positive behavioral supports, and frequent assessments to ensure that at least 80-90% of students can succeed without additional intervention. Universal screening and regular progress monitoring at this level help identify students who may need additional support. Small group instruction and individualized differentiation are used at this level.

As part of the Tier 1 foundation, all students receive interventions in the classroom. Data mined from benchmarks, DIBELS assessments, MAP Growth assessments, previous year ELPAC and SBAC assessments are used to determine students' strengths and challenges. During core classes, students will receive individualized instruction and activities to strengthen their progress toward standards mastery. The differentiated instruction and work will allow all students to access both the curriculum and core content at various academic levels. A student's specific need may change as interventions are put into place, which is why EPCTC will utilize progress monitoring to adjust the interventions to assure standard mastery. Students will also take part in small group instruction during this time, and work both individually and collaboratively, depending on the assignment or the activity.

Tier 2 – Strategic Intervention: targets students who require additional help beyond Tier 1. These students, typically about 10-15% of the population, receive small-group interventions tailored to their specific needs, such as supplemental instruction in literacy, math, or behavior. At this level, progress monitoring occurs more frequently to evaluate the effectiveness of interventions and adjust strategies as needed.

Through a small group setting, standard and concept specific lessons will be administered. Teachers will be able to observe and assess students, both formally and informally, and differentiate as needed. Strategic intervention allows students to practice and develop skills. On-going benchmark and progress monitoring will be used to adjust interventions. Tier 2 groupings are flexible and can be changed, as necessary. The groupings' fluidity allows for students making progress to assess out of this tier, while

other students can participate if warranted.

Tier 3 – Intensive Intervention: is the most intensive level of support, designed for the 1-5% of students who need individualized, specialized interventions due to significant academic, behavioral, or social challenges. Progress monitoring at this tier is even more frequent and detailed, allowing teachers to closely track individual progress, refine interventions, and determine next steps. Across all tiers, progress monitoring ensures that instruction and interventions are data-driven and responsive, providing every student with the support necessary for success.

Intensive intervention allows students to receive explicit instruction and focus on only one skill until proficient and prepared to move on. Highly flexible grouping will allow teachers to reorganize students, including multiage grouping when appropriate.

Student progress is monitored on an ongoing basis through a combination of teacher observation, checklists, classroom assessments, intervention assessments, and benchmark assessments to determine the effectiveness of interventions. Student progress is communicated to the student and educational rights holder every six (6) weeks. If after the intervention session, the strategies in place are deemed unsuccessful, the intervention will be adjusted for the next six (6) weeks. If the student continues to not make adequate progress they will be referred to the SST process.

Supporting Academically High-Achieving Students

The mission of EPCTC is to ensure all students are bilingual and bicultural students, fully prepared to continue on to higher education and empowered to pursue their goals in a global society. Teachers are prepared to provide additional challenges for academically high-achieving students. Teachers are taught how to extend student learning by doing pre-assessments of concepts/skills previously mastered and students are able to engage in and share the products of accelerated learning activities, such as PowerPoint/Google Sheet presentations, independent projects or projects with peers who have similar interests.

Assessment

The counselor will identify academically high-achieving students by collecting data from existing sources, such as, the cumulative record, CAASPP data, quarterly benchmark results, grades, and interviews with advisors.

EPCTC's counselor will identify academically high-achieving students from varying linguistic, economic, and cultural backgrounds. These students will have the opportunity to participate in dual enrollment courses and other student leadership roles such as president of a club or captain of a team. The administrator and later counselor will be responsible for keeping academically high-achieving students abreast of specialized programs and extracurricular activities.

Throughout the school year, evidence of learning is collected and showcased to share the deeper and broader understanding and application of content.

Enrichment

EPCTC will provide growth and enrichment opportunities for excellence for students who demonstrate an ability to achieve beyond their grade level. The Charter School is committed to providing academically high-achieving students with opportunities to study the curriculum in more depth and to extend their proficiency by utilizing higher order thinking skills. Teachers will use differentiated instructional strategies to provide challenging assignments to academically high-achieving students to further develop their originality, creativity, and uniqueness.

EPCTC encourages academically high-achieving students to become leaders in student government, tutoring younger students, running events such as committee member, fundraisers in support of nonprofit organizations, emceeing events, becoming ambassadors for Charter School tours, or representing EPCTC at community events and functions. Academically high-achieving students may also compete in school contests and competitions, and work with the Principal to form other activities to engage all of their peers in maintaining a strong, positive EPCTC community.

Flexible academic groupings within and out of the classroom, along with the extracurricular enrichment opportunities, are designed and implemented to fully serve academically high-achieving students as well as students working toward academic success. EPCTC teachers provide a qualitatively differentiated curriculum that stresses higher order thinking, concept learning, and cross-curricular study grounded in academic content standards to prepare for CAASPP testing, to promote brain development, and to engage learners at all levels.

Web Projects

Web projects provide students opportunities to independently research topics of their interest that are closely linked to an area of study in which the rest of the class is participating. Teachers will provide guidelines and web resources for such projects. The teacher also gives the student the rubric for the assessment of such projects. All students will have access to a Chromebook to explore and research such projects.

Small Group Research Projects

Teachers can arrange for a group of high-performing, self-directed students to work together exploring a topic. Students assign themselves roles such as report writer, PowerPoint creator, or group facilitator. Each student will specialize in one area of expertise. The teacher will build in class time for these academically high-achieving students to work on their research project when the other students may be practicing skills the small group has already mastered or working independently. The teacher will schedule a time for this group to present the research project to the class and present it to other classes and outside audiences as well. Such activities by students encourage cooperative learning among academically high-achieving students and raises expectations for all students.

Independent Projects
Students may also research a topic based on that student's own inquiry or based on the curriculum in the classroom. Teachers support students with learning to access resources from a variety of sources. The independent project may be completed in the form of a report written by the student, a PowerPoint/Google presentation, a video, or another product showcasing the knowledge gained.

Supporting Socioeconomically Disadvantaged Students
The majority of EPCTC students are socioeconomically disadvantaged students, therefore, the educational program has been specifically designed to ensure that the EPCTC mission is fulfilled. The priorities to serve SED students include providing support to succeed even though they may have socioeconomic challenges and prior lack of access to educational opportunities. The goal is to close the achievement gap. As a community school, EPCTC provides wraparound services. EPCTC offers additional supports to ensure students have access to instruction by providing school uniforms, meals, backpacks, school supplies, and counseling. These services help remove barriers to learning and create a supportive environment for students. Finally, EPCTC's collaboration with community and nonprofit organizations addresses a wide range of needs for students and families. These services include resources which provide access to food, healthcare, housing assistance, legal support for immigration issues, tutoring, and counseling services. EPCTC provides daily meals to students, every day including early release days. All students are provided with a Chromebook and a wi-fi hotspot if needed to close the digital divide. Students are provided with technological support for the equipment. Students may attend the after-school program with is open from 7:30 AM to 6:00 PM for free every day the Charter School is in session and for 30 days during school breaks. Students have opportunities to participate in extracurricular activities like sports, clubs, and organizations that they may not otherwise be able to previously participate in due to lack of transportation, access, and cost. Students attend field trips. EPCTC provides workshops for families on important issues related to parenting and education. Funds are allocated to ensure all students have access to all opportunities.

Supporting the Social Emotional Needs of Students
In addition to a powerful commitment to SEL and the work that the Student Support Services department has been doing to support the social emotional needs of students, EPCTC is dedicated to building a community of learners who respect one another and take responsibility for a path toward their future college or career ambitions. In order to support each student's path, EPCTC implements positive reinforcement to teach important life skills while allowing students to build community with their peers.

Students will regularly be acknowledged for demonstrating the Charter School's values and making good choices. There are a variety of ways in which students receive positive reinforcement through EPCTC's strong PBIS program.

Supporting Homeless and Foster Youth
EPCTC recognizes the importance of providing homeless and foster youth with a supportive educational environment. In response to their needs, EPCTC will work closely

with Santa Clara County agencies in identifying and monitoring homeless and foster youth who enroll. EPCTC will coordinate with the Department of Family and Children's Services to account for the Charter School's foster population. EPCTC also verifies all students who attended school in California through CALPADS to recognize all students who were homeless or in foster care. EPCTC will seek to develop strong relationships with child welfare agency staff, meeting frequently with personnel at child welfare agencies to discuss aligned goals and strategies for serving foster youth. EPCTC cultivates a respectful school culture, in which foster youth can feel secure in approaching adults on campus regarding difficulties in accessing resources, or for general counseling and guidance. Foster youth with specific needs that cannot be met on campus will be referred to local partner resources that are gratis to the student whenever possible. Additionally, these youths will have full access to all programs offered by EPCTC.

EPCTC follows the identification, enrollment, and continued support procedures as outlined by the McKinney-Vento Act and detailed in its Homeless and Foster Youth Policy. EPCTC has a Homeless Liaison who provides outreach to families and coordinates services between the family and other agencies. EPCTC includes a Student Residency Questionnaire at enrollment to determine eligibility for families under the McKinney-Vento Homeless Assistance Act. The Charter School is committed to providing a high-quality education with all supports necessary to ensure that HY have the opportunity to succeed. In order to help HY, the Homeless Liaison will assist in procuring referrals to health, dental, mental health, substance abuse services, housing services, and any other appropriate services. The Homeless Liaison will assist the student themselves to enroll, obtain necessary immunizations or immunization records. The Homeless Liaison will inform the student of educational and related opportunities to assist them in becoming academically successful.

With reservation funds for homeless education, EPCTC provides an individual device, internet access, transportation to and from school (bus passes or gas cards), clothing, shoes, laundry supplies, food, toiletries, school supplies, field trips, social emotional counseling, academic support, a mentor, tutoring, and a backpack with school supplies. EPCTC also provides a quiet space to work for HY. Specifically for high school activities, EPCTC covers fees for caps and gowns and ensures fee waivers to apply for college or university. In order to ensure that the students have access to the entire high school experience, EPCTC also covers the cost of admission to games, formal ball, and field trips.

Supporting English Learners

To address the significant academic needs of EL students, all of the major components of EPCTC's instructional program have been carefully designed to promote the academic and social success of ELs. Some of English Learners' needs and challenges include learning academic content and transitioning to a new culture and community. English Learners are a diverse group of students with varying backgrounds, experiences, cultural contexts, academic proficiencies, and levels of English proficiency. The same can be said of newcomers who may enroll at EPCTC (English Learners arriving in the U.S. as defined in Section 7011(5) of Title 20 of the United States Codes as "immigrant children and

youth"), who will experience many of the same challenges as other ELs but whose English proficiency is often lower than other ELs.

The Charter School is prepared to meet the needs of ELs, Long-Term English Learners ("LTELs") or ELs at Risk of Becoming Long-Term EL ("AR-LTELs"). EPCTC's bilingual program, SDAIE strategies, integrated and designated ELD instructional strategies, and integration of LTELs in the rigorous classroom environment are all research-based strategies for supporting LTELs. For example, a comprehensive study of LTEL students recommended practices for schools to support ELD and general academic success for LTELs, such as: "clustered placement in rigorous grade-level content classes mixed with English proficient students and taught with differentiated SDAIE strategies."[4]

EPCTC will meet all applicable legal requirements for ELs, including long-term English Learners or ELs at risk of becoming LTELs, as they pertain to annual notification to students, student identification, placement, program options, ELD and core content instruction, teacher qualifications and training, reclassification to fluent English proficient status, monitoring and evaluating program effectiveness, and standardized testing requirements. The Charter School will implement policies to ensure proper placement, evaluation, and communication regarding ELs and the rights of students.

EPCTC believes that ELs are capable of achieving the highest academic standards in a well-designed program where students learn English without having to sacrifice content or their native language. EPCTC has developed a bilingual program that needs to truly be bilingual where at least two languages are mastered by all students. Cognitively, research shows that students who are proficient in more than one language outperform monolingual students on tasks that call for divergent thinking, pattern recognition, and problem solving. Students are able to continue their development of both languages through grade 12, equipping them with a high level of language proficiency in two or more languages. EPCTC feels that this model is very appropriate for students because the majority are monolingual native Spanish speakers, and the instruction builds upon their language skills. EPCTC recruits, trains and retains bilingual teachers who share the Charter School's philosophy and are dedicated to being successful with ELs who comprise the majority of the neighborhood community.

Identification of English Learners

In order to identify students who are ELs in a timely fashion and to provide appropriate instructional support and services, all students will be required to complete a Home Language Survey upon enrollment at the Charter School, if it is the first California public school in which they enroll. (Education Code Section 52164.1. Students who indicate that their home language is other than English will be assessed using the ELPAC assessment aligned to the California ELD Standards if they have not previously been identified as an English learner by a California public school or if there is no record of prior ELPAC test results. EPCTC also verifies every student new to the Charter School on CALPADS to access relevant EL data to ensure proper placement in designated ELD.

[4] Olson, Laurie. "A Closer Look at Long Term English Learners: A Focus on New Directions," In the STARlight, Issue 7. December 2010.

English Language Proficiency Assessment

All students who are identified as ELs will be tested with the ELPAC. The ELPAC has four proficiency levels (Level 4: well developed; Level 3: moderately developed; Level 2: somewhat developed; and Level 1: minimally developed) and is aligned with the 2012 California ELD Standards.

The ELPAC consists of two separate assessments:

- Initial Assessment ("IA")

The ELPAC IA is used to identify students as either an English Learner, or as fluent in English. The IA is administered only once during a student's time in the California public school system based upon the results of the home language survey. The locally scored IA will be the official score. The IA is given to students in grades K–12 whose primary language is not English to determine their English proficiency status.

- Summative Assessment ("SA")

ELs will take the SA every year until they are reclassified as fluent English proficient. The ELPAC SA is only given to students who have previously been identified as an EL based upon the IA results, in order to measure how well they are progressing with English development in each of the four domains. The results are used as one of four criteria to determine if the student is ready to be reclassified as fluent English proficient, to help inform proper educational placement, and to report progress for accountability.

Both the ELPAC SA and IA are assessments administered in seven grade spans—K, 1, 2, 3–5, 6–8, 9–10, and 11–12. For ELs within EPCTC's grade span, the test is administered in groups, exclusive of speaking, which is administered individually. The ELPAC IA and SA will be administered via a computer-based platform.

Testing times will vary depending upon the grade level, domain, and individual student. Both the ELPAC IA and SA are given in two separate testing windows throughout the school year.

The IA testing window is year-round (July 1–June 30). Any student whose primary language is other than English as determined by the home language survey and who has not previously been identified as an English Learner by a California public school or for whom there is no record of results from an administration of an English language proficiency test, shall be assessed for English language proficiency within 30 calendar days after the date of first enrollment in a California public school, or within 60 calendar days before the date of first enrollment, but not before July 1 of that school year.

The SA testing window is determined by the CDE. It is expected to be a four-month window after January 1 (for example, February 1–May 31). The English language proficiency of all currently enrolled ELs shall be assessed by administering the test during the annual assessment window.

The Charter School will notify all students of its responsibility for ELPAC testing and of

ELPAC results within thirty days of receiving results from the publisher. The ELPAC shall be used to fulfill the requirements under the ESSA for annual English proficiency testing.

The English language proficiency of all currently enrolled English learners, including newcomers and LTELs, will be assessed in accordance with the test contractor's directions and Education Code guidelines. Students with disabilities will be permitted to take the test with the accommodations listed in the Education Code if they are specified in the student's IEP or Section 504 plan. An alternate assessment for English language proficiency will be administered to students who are unable to participate in the ELPAC, according to the guidelines set forth in the student's IEP. For EL students who have IEPs, EPCTC will ensure that linguistically appropriate IEPs are developed, including the components required by Education Code Section 56345(b).

Reclassification Procedures

Reclassification procedures utilize multiple criteria in determining whether to classify a pupil as proficient in English including, but not limited to, all of the following:

- Assessment of language proficiency using an objective assessment instrument including, but not limited to, the ELPAC.
- Participation of the pupil's teachers and any other certificated staff with direct responsibility for teaching or placement decisions of the pupil to evaluate the pupil's curriculum mastery.
- Educational rights holder and student opinion and consultation, achieved through notice to students of the language reclassification and placement including a description of the reclassification process and the student's opportunity to participate, and encouragement of the participation of students and educational rights holder in the reclassification procedure including seeking their opinion and consultation during the reclassification process.
- Comparison of the pupil's performance in basic skills against an empirically established range of performance in basic skills based upon the performance of English proficient pupils of the same age that demonstrate to others that the pupil is sufficiently proficient in English to participate effectively in a curriculum designed for pupils of the same age whose native language is English. This could include SBAC scores, NWEA MAP assessment data, grade in English and other core classes, and other empirical data.

Educational Program for English Language Acquisition

In addition to the major program design features at EPCTC that support students who are English learners, teachers at EPCTC will employ the following specific strategies in their classrooms: (notably, these strategies are beneficial for all students, not just English Learners)

Six Key Strategies for Teachers of English Learners[5]

1. Vocabulary and Language Development
   - Teachers will introduce new concepts by discussing vocabulary words key to that concept.
   - Teachers will build on a student's background knowledge and cultural background.

[5] Adapted from Alliance for Excellent Education. (December 2005). Case study on the New Teacher Center, University of California at Santa Cruz; and Project GLAD (Guided Language Acquisition Design).

- Classrooms will reflect a language-rich environment (i.e., language charts, shared reading and writing experiences, and other writing displayed throughout the room and used daily by students).

2. Guided Interaction (collaborative learning)
   - Teachers will structure lessons so that students work together to understand what they read—by listening, speaking, reading, and writing collaboratively about the academic concepts in the text.
   - Teachers will provide students with opportunities to negotiate meaning from language and text and to work in cooperative pairs or groups to develop problem solving and social skills.
   - Teachers will group students flexibly, at times working in heterogeneous groups and at times not.

3. Metacognition and Authentic Assessment
   - Rather than having students simply memorize information, teachers will model and explicitly teach thinking skills (metacognition) crucial to learning new concepts.
   - Teachers will use a variety of activities to check for student understanding, acknowledging that students learning a second language need a variety of ways to demonstrate their understanding of concepts that are not wholly reliant on advanced language skills.
   - Teachers will "make thinking public," the metacognitive aspect of teachers and students modeling how an answer was arrived at, not merely what the correct answer was.

4. Explicit Instruction
   - Teachers will utilize direct teaching methods to teach concepts, academic language, reading comprehension strategies, text patterns, vocabulary, writing patterns, and decoding skills needed to complete classroom tasks.

5. Meaning-Based Context and Universal Themes
   - Teachers will incorporate meaningful references from the students' everyday lives and use them as springboards to interest them in academic concepts.
   - Teachers will create classroom environments that provide authentic opportunities for the use of academic language.
   - Teachers will provide students with opportunities to activate and focus prior knowledge via inquiry charts, brainstorming, and clustering.

6. Modeling, Graphic Organizers, and Visuals
   - Teachers will regularly utilize a variety of visual aids, graphic organizers (such as Thinking Maps), pictures, diagrams, summaries, and charts to help English learners easily recognize essential information and its relationship to supporting ideas.

Specially Designed Academic Instruction in English

Instruction using SDAIE is grounded in a pedagogical commitment to meeting the needs of diverse learners, in this case particularly those students who are English learners. The teachers at EPCTC will engage in the following practices to support universal access of subject matter content for all students[6]:

- During lesson planning and preparation, teachers will identify lesson objectives aligned with State Standards.
- Teachers will link new content to students' background experiences and introduce unfamiliar vocabulary to facilitate comprehension.
- Teachers will use controlled vocabulary, sentence structure, visuals, and gestures as necessary and appropriate to make the presentation of content comprehensible.
- Teachers will provide students with a variety of strategies for organizing and retaining information associated with effective learning, such as graphic organizers and note-taking.
- Teachers will provide students with regular opportunities to interact with their peers through collaborative learning activities, such as think/pair/share, partner, and group projects.
- Teachers will provide students with regular opportunities to use new language skills in context.
- Teachers will pace lessons to appropriately allow for the participation and active engagement of all students.
- Teachers will utilize language-based as well as content-based assessments.

Integrated and Designated ELD Instruction

EL Students will receive both Integrated ELD instruction and Designated ELD instruction at EPCTC.

Integrated ELD

At EPCTC, teachers in all core content areas will integrate the ELD components of the core curriculum text and develop language forms and functions while developing core content knowledge. Teachers in ELA will integrate ELD in the ELA Curriculum as described in the CDE's ELA/ELD Framework. In addition, ELs will also receive designated ELD during a dedicated period daily.

Designated ELD

The designated ELD program at EPCTC is designed to build skills in each of the language domains. It engages students in reading, writing, listening, speaking, and language. Lessons emphasize effective, research-based strategies shown to improve overall reading abilities with scaffolds to meet the different levels of English language proficiency. Individual, small group, and whole-class instruction is personalized based on formative assessments.

Monitoring and Evaluation of EL Program Effectiveness

The Charter School evaluates the effectiveness of its education program for ELs by: Adhering to Charter School-adopted academic benchmarks by language proficiency level and years in program to determine annual progress.

- Monitoring teacher qualifications.
- Monitoring the use of appropriate instructional strategies based on student achievement data.
- Monitoring student identification and placement.
- Monitoring program choice options.
- Monitoring availability of adequate resources.

Monitoring English Learner Progress

The teachers will monitor ELs progress through ELD folders and collect work samples to measure progress regarding comprehension, fluency, vocabulary, pronunciation, and grammar usage four times a year. Teachers provide quarterly progress reports to students on the growth in English Proficiency. Staff will monitor RFEP students for a minimum of four years. The Principal will maintain a list of students who are identified as ELs with ELPAC, CAASPP, enrollment in public schools in the United States, and reclassification data. EPCTC also maintains data regarding grade progression, benchmark scores, and promotion to next grade with standard mastery.

Each EL has an ELD Folder to track academic progress. EPCTC will maintain ELD information including Home Language Survey, ELPAC results, Reclassification Forms, and Years 1-4 monitoring forms. EPCTC will provide intervention to students who score Standard Not Met or Standard Nearly Met in ELA and math on the CAASPP.

Supporting Students with Disabilities

EPCTC supports all students with disabilities (See Appendix 13 SEIS Report of Students and Services Provided) until their 22nd birthday. As adult students they hold their own educational rights unless they have an educational rights holder. EPCTC will provide designated services to SWD based on their IEP through an onsite staff member who holds the appropriate credential or by a qualified outsourced educational service provider. Students are offered a continuum of services in the least restrictive environment based on that student's progress toward meeting their IEP goals. As a student enters EPCTC, a 30-day IEP is held to define the present levels of functioning and services to be provided. Special attention is given to transition plans as part of the student's IEP. As students transition to middle school, high school and college or career, the EPCTC staff works directly with the student and their family to develop transition plans and goals. Progress toward English language proficiency for SWD and who are also ELs are monitored by the IEP team. The IEP team may determine if reclassification is appropriate for the students following a review of reclassification criteria and the student's progress toward IEP goals. Students with disabilities will receive instruction or monitoring based on that student's IEP goals. EPCTC is committed to providing a continuum of services in the least restrictive environment.

Overview

The Charter School shall comply with all applicable state and federal laws in serving SWD, including, but not limited to, Section 504, the ADA, and the IDEA.

The Charter School shall be its own local educational agency ("LEA") and is a member of the El Dorado County Charter ("EDCOE") Special Education Local Plan Area ("SELPA") in conformity with Education Code Section 47641(a).

The Charter School has included a letter of good standing from EDCOE (See Appendix 14 EDCOE SELPA Letter of Good Standing). As an LEA member of the SELPA, the Charter School shall receive state and federal revenues directly, in accordance with the SELPA's allocation plan.

The Charter School shall comply with all state and federal laws related to the provision of special education instruction and related services and all SELPA policies and procedures; and shall utilize appropriate SELPA forms.

The Charter School may seek resources and services (e.g., Speech, Occupational Therapy, Adapted P.E., Nursing, and Transportation) from the SELPA, subject to SELPA approval and availability. The Charter School may also provide related services by hiring credentialed or licensed providers through private agencies or independent contractors (See Appendix 15 Special Education Service Provider Contracts).

The Charter School shall be solely responsible for its compliance with Section 504 and the ADA. The facilities to be utilized by the Charter School shall be accessible for all SWD (See Appendix 16 Facility Inspection Tool).

Section 504 of the Rehabilitation Act

The Charter School recognizes its legal responsibility to ensure that no qualified person with a disability shall, on the basis of disability, be excluded from participation, be denied the benefits of, or otherwise be subjected to discrimination under any program of the Charter School. A student who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment, is eligible for protections under Section 504.

A Section 504 team will be assembled by the Principal or designee and shall include the educational rights holder, the student, and other qualified persons knowledgeable about the student, the meaning of the evaluation data, placement options, and accommodations. The Section 504 team will review the student's existing records; including academic, social, and behavioral records, and is responsible for making a determination as to whether an evaluation for Section 504 services is appropriate.

If the student has already been evaluated under the IDEA but found ineligible for special education instruction or related services under the IDEA, those evaluations may be used to help determine eligibility under Section 504. The student evaluation shall be carried out by the Section 504 team, which will evaluate the nature of the student's disability and the

impact upon the student's education. This evaluation will include consideration of any behaviors that interfere with regular participation in the educational program and/or activities. The Section 504 team may also consider the following information in its evaluation:

- Tests and other evaluation materials that have been validated for the specific purpose for which they are used and are administered by trained personnel.
- Tests and other evaluation materials including those tailored to assess specific areas of educational need, and not merely those which are designed to provide a single general intelligence quotient.
- Tests are selected and administered to ensure that when a test is administered to a student with impaired sensory, manual or speaking skills, the test results accurately reflect the student's aptitude or achievement level, or whatever factor the test purports to measure, rather than reflecting the student's impaired sensory, manual or speaking skills.

The final determination of whether the student will or will not be identified as a person with a disability is made by the Section 504 team in writing and notice is given in writing to the student in their primary language along and educational rights holder with the procedural safeguards available to them. If during the evaluation, the Section 504 team obtains information indicating possible eligibility of the student for special education per the IDEA, a referral for assessment under the IDEA will be made by the Section 504 team.

If the student is found by the Section 504 team to have a disability under Section 504, the Section 504 team shall be responsible for determining what, if any, accommodations or services are needed to ensure that the student receives a free and appropriate public education ("FAPE"). In developing the Section 504 Plan, the Section 504 team shall consider all relevant information utilized during the evaluation of the student, drawing upon a variety of sources, including, but not limited to, assessments conducted by the Charter School's professional staff.

The Section 504 Plan shall describe the Section 504 disability and any program accommodations, modifications or services that may be necessary.

All Section 504 team participants, students, educational rights holder, teachers, and any other participants in the student's education, including substitutes and tutors, should have access to a copy of each student's Section 504 Plan. The Principal or designee will ensure that teachers include Section 504 Plans with lesson plans for short-term substitutes and that they review the Section 504 Plan with a long-term substitute. A copy of the Section 504 Plan shall be maintained in the student's file. Each student's Section 504 Plan will be reviewed at least once per year to determine the appropriateness of the Plan, needed modifications to the plan, and continued eligibility.

Services for Students under the "IDEA"

The following description regarding how special education and related services shall be provided and funded is being proposed by the Charter School for the sole purpose of providing a reasonably comprehensive description of the special education program in

the Charter Petition and is not binding on the County. The specific manner in which special education and related services shall be provided and funded shall be set forth in an agreement, delineating the respective responsibilities of the Charter School and the SELPA.

The Charter School shall provide special education instruction and related services in accordance with the IDEA, Education Code requirements, and applicable policies and practices of the SELPA.

The Charter School shall provide services for special education students enrolled in the Charter School. The Charter School shall follow SELPA policies and procedures and shall utilize SELPA forms in seeking out and identifying and serving students who may qualify for special education programs and services and for responding to record requests and complaints and maintaining the confidentiality of student records.

The Charter School agrees to promptly respond to all SELPA or County inquiries, to comply with reasonable directives from the SELPA or the County, and to allow the SELPA or the County access to Charter School students, staff, facilities, equipment, and records as required or imposed by law.

Identification and Referral

The Charter School shall have the responsibility to identify, refer, and work cooperatively in locating Charter School students who have or may have exceptional needs that qualify them to receive special education services. The Charter School shall implement SELPA policies and procedures to ensure timely identification and referral of students who have,

or may have, such exceptional needs. A student shall be referred for special education only after the resources of the general education program have been considered, and where appropriate, utilized.

The Charter School shall follow SELPA child-find procedures to identify all students who may require assessment to consider special education eligibility and special education and related services in the case that general education interventions do not provide a free appropriate public education to the student in question.

Assessments

The term "assessments" shall have the same meaning as the term "evaluation" in the IDEA, as provided in Section 1414, Title 20 of the United States Code. The Charter School shall determine what assessments, if any, are necessary and arrange for such assessments for referred or eligible students in accordance with applicable law. The Charter School shall obtain student or educational rights holder consent to assess Charter School students.

IEP Meetings

The Charter School shall arrange and notice the necessary IEP meetings. IEP team membership shall be in compliance with state and federal law. The Charter School shall be responsible for having the following individuals in attendance at the IEP meetings: the Principal and/or the Charter School designated representative with appropriate administrative authority as required by the IDEA; the student's special education teacher; the student's general education teacher if the student is or may be in a general education classroom; the student; the student's educational rights holder; and other Charter School representatives who are knowledgeable about the general education program at the Charter School and/or about the student. The Charter School shall arrange for the attendance or participation of all other necessary staff that may include, but are not limited to, an appropriate administrator to comply with the requirements of the IDEA, a speech therapist, psychologist, resource specialist, and behavior specialist; and shall document the IEP meeting and provide notice of procedural rights.

IEP Development

The Charter School understands that the decisions regarding eligibility, goals/objectives, program, services, placement, and exit from special education shall be the decision of the IEP team, pursuant to the IEP process. Programs, services, and placements shall be provided to all eligible Charter School students in accordance with the policies, procedures and requirements of the SELPA and State and Federal law.

IEP Implementation

The Charter School shall be responsible for all school site implementation of the IEP. As part of this responsibility, the Charter School shall provide students with timely reports on their progress as provided in the student's IEP at least as frequently as report cards are provided for the Charter School's non-special education students. The Charter School shall also provide all home-school coordination and information exchange. The Charter School shall also be responsible for providing all curriculum, classroom materials,

classroom modifications, and assistive technology.

Interim and Initial Placements of New Charter School Students
The Charter School shall comply with Education Code Section 56325 with regard to students transferring into the Charter School within the academic school year. In accordance with Education Code Section 56325(a)(1), for students who enroll in the Charter School from another school district within the State, but outside of the SELPA with a current IEP within the same academic year, the Charter School shall provide the student with a free appropriate public education, including services comparable to those described in the previously approved IEP, in consultation with the student and educational rights holder, for a period not to exceed thirty (30) days, by which time the Charter School shall adopt the previously approved IEP or shall develop, adopt, and implement a new IEP that is consistent with federal and state law.

In accordance with Education Code Section 56325(a)(2), in the case of an individual with exceptional needs who has an IEP and transfers into the Charter School from a district operated program under the same special education local plan area of the Charter School within the same academic year, the Charter School shall continue, without delay, to provide services comparable to those described in the existing approved IEP, unless the student and educational rights holder and the Charter School agree to develop, adopt, and implement a new IEP that is consistent with federal and state law.

For students transferring to the Charter School with an IEP from outside of California during the same academic year, the Charter School shall provide the student with a free appropriate public education, including services comparable to those described in the previously approved IEP in consultation with the students, until the Charter School conducts an assessment pursuant to paragraph (1) of subsection (a) of Section 1414 of Title 20 of the United States Code, if determined to be necessary by the Charter School, and develops a new IEP, if appropriate that is consistent with federal and state law.

Non-Public Placements/Non-Public Agencies

SELPA Representation

The Charter School understands that it shall represent itself at all SELPA meetings.

Funding

The Charter School understands that it shall be subject to the allocation plan of the SELPA.

Element B: Measurable Student Outcomes

The measurable pupil outcomes identified for use by the charter school "Pupil outcomes," for purposes of this part, means the extent to which all pupils of the charter school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the charter school's educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all pupil subgroups served by the charter school, as that term is defined in subdivision (a) of Section 52052. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served by the charter school. - Education Code Section 47605(c)(5)(B)

Outcomes Aligned to State Standards

Mission and Vision Align to Assessments
These student outcomes align to the Charter School's mission, curriculum, and assessments. EPCTC will annually review these student outcomes based upon the data received through student assessments and will continue to develop further student outcomes and/or benchmarks for student progress during the Charter school's operation.

Local Control and Accountability Plan
In accordance with, and using the procedures prescribed by, Education Code Section 47606.5, EPCTC shall comply with all applicable requirements of the LCAP including any applicable regulations promulgated, and the template adopted by the State Board of Education (See Appendix 17 Local Control and Accountability Plan). The Charter School reserves the right to establish additional and/or amend school-specific goals and corresponding assessments throughout the duration of the charter. EPCTC shall submit the LCAP to the Santa Clara County Superintendent of Schools annually on or before July 1, as required by Education Code Section 47604.33. The Charter School shall present a report on the annual update to the LCAP and the local control funding formula budget overview for parents on or before February 28 of each year as part of a nonconsent item at a regularly scheduled Board meeting.

The LCAP and any revisions necessary to implement the LCAP, including goals and actions listed below, shall not be considered a material revision to the charter, and shall be maintained by EPCTC at the school site.

"A-G" Requirements
EPCTC students have the opportunity to take courses that meet the A-G requirements. EPCTC has been approved for six courses by the University of California/California State University as creditable toward the a-g admission requirement.

These student outcomes align to the Charter School's mission, curriculum, and assessments. The Charter School will annually review these student outcomes based upon the data received through student assessments and will continue to develop further student outcomes and benchmarks for student progress during the Charter School's operation.

Pursuant to Education Code Sections 47605(c)(5)(A)(ii) and 47605(c)(5)(B), EPCTC has below established reasonably comprehensive descriptions of goals, actions, and outcomes, both schoolwide and for each subgroup of students, which address and align with the State Priorities identified in Education Code Section 52060(d).

Charter School Goals, Actions, And Measurable Outcomes
The following strategic goals represent a five-year charter renewal term (2026-31). They are informed by EPCTC's current baseline performance as detailed in the Student Outcomes Reflection. The goals expand upon existing initiatives and strategies addressing identified performance gaps. The following goals, actions, and metrics have been developed to ensure alignment with some of the Eight California State Priorities and to address the needs of historically underserved student populations. These priorities are:

- Priority 1 – Basic Services/Conditions of Learning (rate of teacher misassignment, student access to standards-aligned instructional materials, facilities in good repair),
- Priority 2 – State Standards/Conditions of Learning (implementation of academic content and performance standards adopted by the state board for all students, including ELs),
- Priority 3 – Parental Involvement/Engagement (seek parent input in decision making, promotion of parent participation in programs for unduplicated pupils and special need subgroups),
- Priority 4 – Pupil Achievement/Public Outcomes (academic performance, EL progress, college readiness),
- Priority 5 – Pupil Engagement (school attendance rates, chronic absenteeism rates, middle school dropout rates, high school dropout rates, high school graduations rates),
- Priority 6 – School Climate/Engagement (suspension rates, expulsion rates, other local measures including surveys of pupils and teachers on the sense of safety and school connectedness),
- Priority 7 – Course Access/Conditions of Learning (Pupil enrollment in a broad course of study that includes all of the subject areas described in Education Code Section 51210 and subdivisions (a) to (i), inclusive, of Section 51220), and,
- Priority 8 – Other Pupil Outcomes (Pupil outcomes in the subject areas described in Education Code Section 51210 and subdivisions (a) to (i), inclusive, of Education Code Section 51220).

The goals and actions intentionally focus on supporting EPCTC's significant student subgroups from the subgroups identified by the Dashboard.

Significant Subgroups at EPCTC:

- English Learners (including ADELs)
- Socioeconomically Disadvantaged students
- Homeless Students
- Hispanic/Latino

School-Wide Student Performance Goals

Acknowledgment That Exit Outcomes and Performance Goals May Need Modifications

EPCTC will annually review these pupil outcomes based upon the data received through student assessments and will continue to develop further pupil outcomes and/or benchmarks for pupil progress during the school's operation.

High School Graduation Requirements
EPCTC works hard to ensure that every student who remains continuously enrolled in the Charter School for four years of high school can graduate from high school and be prepared for college and career. High school courses are approved to meet the A-G requirements recommended by the UC/CSU. (See Appendix 18 for the Course Sequence and A-G Approved Courses.)

Element C: Student Progress Measurement

The method by which pupil progress in meeting those pupil outcomes is measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card. - Education Code Section 47605(c)(5)(C)

The Charter School will incorporate a variety of assessments to measure student progress. Measurable outcomes and assessment tools provide key data about the efficacy of the program, which in turn helps the administration and Board make key decisions about program development and modifications, while also monitoring individual, subgroup, and schoolwide student achievement. The assessments align to the Charter School mission, curriculum, and exit outcomes listed in the LCAP and in Element B of this charter.

Mandated State Assessments

As is required by state law, the Charter School shall meet all statewide standards and conduct the state pupil assessments required pursuant to Education Code Section 60605, including the CAASPP tests and other state-mandated assessments such as the ELPAC and Physical Fitness Test ("PFT"). We firmly believe that the EPCTC academic program fully prepares students for success in these statewide assessment programs. Additional support structures are in place to ensure that students are meeting or making progress toward the State Standards that are measured by the state-mandated assessments. Proficiency for our English Learners, 99.4% of our students, is measured in accordance with the ELPAC, CAASPP test data, teacher observations, and other school-based measures.

Growth Measures: Diagnostic, Formative and Summative Assessments

In order to effectively assess students' academic growth over time, EPCTC utilizes several growth measures, including diagnostic, formative, "authentic" assessments, and ongoing teacher assessments as well as summative assessments. MAP Growth (Reading and Math) are used as diagnostic tools and formative and summative assessments. More formative assessments include quizzes, exit tickets, pre-tests, and post-tests. More summative assessments include the unit tests, exams, projects, presentations, and essays.

Other Assessments

Students are given the annual state-mandated standardized assessments. The Matrix below includes the currently required State assessments for students and internal assessments used at EPCTC. Such assessments, as further described in the LCAP, are aligned with the Eight State Priorities. EPCTC affirms that its methods for measuring pupil outcomes for the Eight State Priorities, as described in Element B of this Charter, shall be consistent with the way information is reported on a School Accountability Report Card ("SARC") as required by Education Code Section 47605(b)(5)(C). Throughout the year, the students will take multiple assessments as prescribed in the Assessment Schedule. (See Appendix 19 Assessment Calendar.)

Measuring Academic Progress

In order to provide a personalized educational experience and to understand better when students have achieved specific competencies and are ready to advance, and where they need help, we use MAP Growth. They are fully adaptive assessment tools that produce a measure of student growth and achievement. This information is used to differentiate lesson plans, create focused instructional groupings, as needed, and be a consideration in determining placement. Focused on growth rather than "proficiency," these assessments are administered at the beginning of the year, midyear, and in the spring, providing an opportunity to track growth throughout the year. EPCTC selected MAP Growth because they facilitate in-depth and immediate results that help teachers and students create and monitor customized learning goals for each student. Additionally, MAP Growth track student progress year-over-year and within the school year and expedites teachers' ability to further differentiate instruction to respond to student needs.

The following assessment tools will be used to measure progress toward the student performance goals identified in the petition:

Table C.1: Assessments (Subject to Change)

Alignment to Mission, Exit Outcomes, and Curriculum
These student outcomes align to the Charter School's mission, curriculum and assessments. EPCTC will annually review these student outcomes based upon the data received through student assessments and will continue to develop further student outcomes and/or benchmarks for student progress during the Charter School's operation. Assessment and evaluation are critical factors in demonstrating success and informing future practice, policy development, and professional development. Schools are complex organizations that are not easily measured. The same is true for evaluating student learning and teaching methods.

Consequently, EPCTC believes that collecting both quantitative and qualitative data from multiple sources can inform the progress of the Charter School and keep the Charter school accountable to its educational partners.

Multiple, Valid, and Reliable Measures (Internal & External)
The following are the key assessment tools EPCTC will use to measure student progress:

Teacher Assessments
These assessments evaluate students' performance on specific content standards within the core academic subjects as well as their development of career-centered skills. Teacher assessments are in various forms; rubrics, essays, presentations, quizzes, midterm exams, final projects, group projects, and computer-based learning tests.

Performance Tasks
Students will present evidence of their achievements. The performance tasks may consist of essays, oral presentations, dramatic presentations, video presentations, and models.

Standardized Testing
Students 21 and under are tested using the SBAC, ELPAC, NWEA MAP Reading, NWEA MAP Math, and PFT tests. In addition, students are pre- and post-tested in reading and Math using the Northwest Evaluation Association MAP (Measures of Academic Progress).

Minimal Required Performance Level Necessary to Attain Each Standard
Minimum required performance for students to pass English courses is "C" or higher and for all other courses it is a "D" or higher.

Data Analysis and Reporting of Data
EPCTC uses a proactive approach to data analysis. The Board of Directors and the Charter School leadership will establish strong goals for student achievement and the supports needed for Charter School teachers to analyze student data easily and continuously. The most common type of data will be internally created assessments and curriculum-based assessments. These data will allow teachers to receive summative data quickly so they can immediately adjust instruction to assure student mastery of standards. The use of MAP Growth (Reading and Math) will allow teachers to receive formative data quickly so they can determine the strength of the lesson pacing and student mastery of standards.

After each MAP Growth (Reading and Math) round of assessments, results will be compiled and analyzed by administration and teachers, looking for areas of growth and new or continuing areas of opportunity. Data will be disaggregated by subgroups to determine achievement gaps, if any. The administrators will perform an intensive analysis. Professional Development will take place after collection of results to address the trends identified in the results analysis and to adjust instruction as necessary to meet the new and continuing needs of EPCTC's students. Results will then be shared with students, and summary data will be provided to the Board, to discuss growth, review and adjust goals discussed previously (reporting of student achievement data includes the annual SARC, (See Appendix 20 Student Accountability Report Card) and reflection and analysis as part of the annual LCAP goal setting process. Students' MAP Growth results will also trigger another review of a student's current Charter School performance for either an intervention and/or enrichment.

Personally identifiable and de-identified data will only be shared pursuant to the same FERPA and state law guidelines.

Use of Data

EPCTC understands the power of data collection, analysis, reporting and use of data. The process will begin with the development of the LCAP which includes input from parents/guardians, students, teachers, staff and community, and it is approved by the Board of Directors no later than June 30th for the following school year. In the LCAP are the Charter School goals and actions to address the Eight State Priorities as identified by the educational partners and a review of data. The teachers will review formative and summative data individually, as noted in the professional development calendar, collaboratively to develop the strategies that showed the most positive impact on student achievement. At the beginning of each school year, teachers and administration will meet to discuss topics, data and goals for the school year to include curriculum, assessments, interventions, enrichment, grading, SBAC and ELPAC data, LCAP and more goal setting. At the end of the school year, the teachers will review the progress of all students including significant subgroups, grade levels, core content areas and the Chater School as a whole, and will set goals for the following school year. The LCAP will be published on the Charter School's website.

The Executive Director will present the results of assessments semesterly to the Board of Directors at regularly scheduled Board meetings so that the Board understands the students' progress toward meeting goals. The Executive Director will present the data to the Board aggregated schoolwide, by grade level, by significant subgroups and by core content areas. The Board meetings are open to all educational partners.

The Board shall be ultimately responsible for the operation and activities of Escuela Popular.

The authorized number of directors shall be ten (10), two (2) of whom shall be nominated by Center for Training and Careers/WorkNet (the "CTC Representatives") and elected in accordance with the bylaws. The remaining seven (7) of whom shall be nominated by the Escuela Popular (the "Escuela Popular Representatives") and elected in accordance with the bylaws. Students promoted off of the waiting list shall be informed in writing and shall have five (5) days from the date of contact to respond. In addition, the Charter School shall attempt on at least two separate occasions to contact the students promoted off of the waiting list by telephone. EPCTC is committed to using restorative practices in order to build a strong student and faculty culture, a community of mutual respect, and to reduce discipline referrals, suspensions, and expulsions. Escuela Popular believes that everyone can learn from their mistakes and learn to solve their own conflicts by correcting their mistakes. These policies balance students' rights to due process with the Charter School's responsibility to maintain a safe learning environment.

A. General Provisions

EPCTC shall provide due process for all students, including adequate and timely notice to students of the grounds for all suspension, expulsion, and involuntary removal recommendations and decisions and their due process rights regarding suspensions, expulsions, and involuntary removals.

EPCTC shall document and implement the alternatives to suspension and expulsion.

B. School Climate and Student Discipline System

EPCTC's goal is to provide a school climate that is safe, supportive, and nurturing for each student. All students have a right to learn while attending a safe school. As such, a student discipline system that addresses prevention, early intervention, schoolwide positive behavior intervention and support, and consistent expectations as well as appropriate consequences for behavior is a necessary part of school life.

EPCTC's student discipline system focuses on the implementation of a schoolwide positive behavior intervention and support system that helps to prevent the occurrence of problem behaviors that may result in disciplinary actions. This student discipline system includes a multi-tiered approach that is implemented by school staff through: school leaders actively supporting the implementation of schoolwide positive behavior interventions and supports; teaching and consistently reviewing schoolwide rules and behavioral expectations; teaching and modeling appropriate social and behavior skills; reinforcing appropriate student behaviors; using effective classroom management strategies; providing early intervention for inappropriate behaviors; collaborating and communicating regularly with families regarding behavioral expectations, individual student behavior plans, student progress, and any necessary consequences, such as suspension or alternatives to suspension referred herein.

The goals of EPCTC's student discipline system are to:

- Promote student self-discipline, independence, and mutual respect for others;
- Model, teach and encourage socially appropriate behavior so that students will be happy and successful in the real world;

- Maximize learning time by decreasing the number of office referrals and suspensions;
- Monitor and correct student misconduct through positive behavioral interventions; and,
- Analyze student behavioral data to further guide the development and implementation of schoolwide behavioral supports and interventions.

Behavioral Interventions
Students who engage in misconduct may be provided with behavioral responses to intervention. Through this referral process students with behavioral difficulties will further behavioral intervention support and staff will continue to monitor progress through data collection.

In certain circumstances, disciplinary responses that remove students from the classroom or school environment may be necessary through suspension and/or expulsion. In these cases, EPCTC's goal is to make sure that students continue their education, learn how to behave appropriately, and correct any harm they may have caused. Please note that while instituting more severe disciplinary actions, EPCTC shall follow certain public school procedural safeguards, federal and state laws, and restrictions. This is especially true when working through disciplinary matters with students with disabilities.

Implementing Restorative Justice practices as an alternative to traditional discipline is a learning process, one that takes time, patience and understanding. The goal is to build a stronger and more inclusive school community.

Suspension Alternatives
Alternatives to suspension include consequences that are identified as appropriate responses to misconduct and that provide the student with an opportunity to learn the skills necessary to avoid future misconduct. Alternatives to suspension may include but is not limited to:

- Changes in student's schedule tailored to student's needs;
- Implementation of a behavior monitoring system;
- Implementation of a behavioral contract including reinforcers for success and consequences for continued problems, such as loss of privileges (e.g.: short term loss of class/schoolwide fun activities that may be earned through positive behavior) or restoration (e.g.: apologizing to the person they hurt, cleaning up a mess they made, fixing something they broke, or writing a paragraph on bullying to present during anti-bullying activities);
- Referral to group or individual counseling;
- Instruction in social emotional/behavioral skills;
- Use of problem-solving approach to assist student in identifying the problem and possible appropriate solutions.

Professional development
Professional development in the area of schoolwide positive behavior support is provided to all staff members on an ongoing basis. Professional development for school staff may

include topics such as classroom management, using a problem-solving approach to discipline, managing student behaviors, creating positive classroom culture, and creating positive behavior support plans.

C. Suspension and Expulsion Policy and Procedures

Policy

The Suspension and Expulsion Policy and Procedures have been established in order to promote learning and protect the safety and well-being of all students at the Charter School. In creating this policy, the Charter School has reviewed Education Code Section 48900 *et seq*., which describe the offenses for which students at noncharter schools' may be suspended or expelled and the procedures governing those suspensions and expulsions to establish its list of offenses and procedures for suspensions, expulsions, and involuntary removal. The language that follows is largely consistent with the language of Education Code Section 48900 *et seq.* The Charter School is committed to annual review of policies and procedures surrounding suspensions, expulsions and involuntary removal, and, as necessary, modification of the lists of offenses for which students are subject to suspension, expulsion, or involuntary removal, so long as such modification is not materially different from this charter petition.

Consistent with this Policy, it may be necessary to suspend or expel a student from regular classroom instruction. This shall serve as the Charter School's policy and procedures for student suspension, expulsion, and involuntary removal, and it may be amended from time to time without the need to seek a material revision of the charter so long as the amendments comport with legal requirements. Charter School staff shall enforce disciplinary policies and procedures fairly and consistently among all students. This Policy and its Procedures will be printed and distributed annually as part of the Student and Family Handbook which will clearly describe discipline expectations.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of this Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff, or other persons or to prevent damage to school property.

The Charter School administration shall ensure that students and their guardians[8] (for SWD under 22 years of age) are notified in writing upon enrollment of all discipline and involuntary removal policies and procedures. The notice shall state that this Policy and its Procedures are available upon request at the Charter School's office.

[8] The Charter School shall ensure that a homeless child or youth's educational rights holder; a foster child or youth's educational rights holder, attorney, and county social worker; and an Indian child's tribal social worker and, if applicable, county social worker have the same rights as a parent or guardian to receive a suspension notice, expulsion notice, manifestation determination notice, involuntary transfer notice, involuntary removal notice, and other documents and related information. For purposes of this Policy and its Procedures, the term "parent/guardian" shall include these parties.

Suspended or expelled students shall be excluded from all school and school related activities unless otherwise agreed during the period of suspension or expulsion.

A student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability pursuant to the IDEA or who is qualified for services under Section 504 is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to general education students except when federal and state law requires additional or different procedures. The Charter School shall follow all applicable federal and state laws including but not limited to the applicable provisions of the Education Code, when imposing any form of discipline on a student identified as an individual with disabilities for whom the Charter School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according to due process to such students.

No student shall be involuntarily removed by the Charter School for any reason unless the student and educational rights holder have been provided with a written notice of intent to remove the student no less than five (5) school days before the effective date of the action. The written notice shall be in the native language of the student or the student's educational rights holder and shall inform the student, the student or the student's educational rights holder of the basis for which the student is being involuntarily removed and the student or the student's educational rights holder's right to request a hearing to challenge the involuntary removal. If a student or the student's educational rights holder requests a hearing, the Charter School shall utilize the same hearing procedures specified below for expulsions before the effective date of the action to involuntarily remove the student. If the student or the student's educational rights holder requests a hearing, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision. As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include removals for misconduct which may be grounds for suspension or expulsion as enumerated below.

F. Suspension Process

Suspensions shall be initiated according to the following procedures:

1. ***Conference***
   Suspension shall be preceded, if possible, by a conference conducted by the Principal or designee with the student and the student's educational rights holder and, whenever practical, the teacher, supervisor or Charter School employee who

referred the student to the Principal or designee.

The conference may be omitted if the Principal or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or Charter School personnel. If a student is suspended without this conference, both the educational rights holder and student shall be notified of the student's right to return to school for the purpose of a conference.

At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against the student and shall be given the opportunity to present their version and evidence in their defense, in accordance with Education Code Section 47605(c)(5)(J)(i). This conference shall be held within two (2) school days, unless the student waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. Penalties shall not be imposed on a student for the failure of the student's educational rights holder to attend a conference with Charter School officials. Reinstatement of the suspended student shall not be contingent upon attendance by the student's educational rights holder at the conference.

2. ***Notice to Students***

At the time of the suspension, the Principal or designee shall make a reasonable effort to contact the student by contacting available telephone numbers, voicemail, email, text message, or in person. Whenever a student is suspended, they shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense(s) committed by the student as well as the date the student may return to school following the suspension. If Charter School officials wish to ask the student to confer regarding matters pertinent to the suspension, the notice may request that the student respond to such requests without delay.

3. ***Suspension Time Limits/Recommendation for Expulsion***

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. Upon a recommendation of expulsion by the Principal or designee, the student shall be invited to a conference to determine if the suspension for the student should be extended pending an expulsion hearing. In such instances when the Charter School has determined a suspension period shall be extended, such extension shall be made only after a conference is held with the student, unless the student fails to attend the conference.

The Principal or designee upon either of the following will make this determination: 1) the student's presence will be disruptive to the education process; or 2) the student poses a threat or danger to others. Upon either determination, the student's suspension will be extended pending the results of an expulsion hearing.

4. ***Homework Assignments During Suspension***
   In accordance with Education Code Section 47606.2(a), upon the request of a student, educational rights holder, or teacher shall provide to a student in any of grades 9 to 12, inclusive, who has been suspended from school for two (2) or more school days, the homework that the student would otherwise have been assigned.

   In accordance with Education Code Section 47606.2(b), if a homework assignment that is requested pursuant to Section 47606.2(a) and turned into the teacher by the student either upon the student's return to school from suspension or within the timeframe originally prescribed by the teacher, whichever is later, is not graded before the end of the academic term, that assignment shall not be included in the calculation of the student's overall grade in the class.

G. Authority to Expel

As required by Education Code Section 47605(c)(5)(J)(ii), students recommended for expulsion are entitled to a hearing adjudicated by a neutral officer to determine whether the student should be expelled. The procedures herein provide for such a hearing and the notice of said hearing, as required by law.

A student may be expelled either by the neutral and impartial Charter School Board following a hearing before it or by the Charter School Board of Directors upon the recommendation of an Administrative Panel, to be assigned by the Board as needed. The Administrative Panel shall consist of at least three (3) members who are certificated and neither a teacher of the student nor a member of the Board. The Administrative Panel shall be presided over by a designated neutral hearing chairperson. The Administrative Panel may recommend expulsion of any student found to have committed an expellable offense, and the Board of Directors shall make the final determination.

H. Expulsion Procedures

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the Principal or designee determines that the student has committed an expellable offense and recommends the student for expulsion.

In the event an Administrative Panel hears the case, it will make a recommendation to the Board for a final decision whether to expel. The hearing shall be held in closed session (complying with all student confidentiality rules under FERPA). The student may make a written request for a public hearing in open session three (3) days prior to the date of the scheduled hearing. Such request is subject to Board review.

Written notice of the hearing shall be forwarded to the student and the student's educational rights holder at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the student. The Charter School will utilize a multi-modal approach to noticing delivery which may include email,

telephone, or in-person delivery, and will include documentation or receipt of delivery. The notice provided in a language understood by the student and the student's educational rights holder shall include:

1. The date and place of the expulsion hearing;

2. A statement of the specific facts, charges, and offenses upon which the proposed expulsion is based;

3. A copy of the Charter School's disciplinary rules which relate to the alleged violation;

4. Notification of the student's or educational rights holder's obligation to provide information about the student's status at the Charter School to any other school district or school to which the student seeks enrollment;

5. The opportunity for the student and/or the student's educational rights holder to appear in person or to employ and be represented by counsel or a nonattorney advisor;

6. The right to inspect and obtain copies of all documents to be used at the hearing;

7. The opportunity to confront and question all witnesses who testify at the hearing;

8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses

The Hearing Officer or Administrative Panel may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by the Charter School or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the student. The hearing in this case is referring to the Administrative Panel.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of their right to (a) receive five (5) days notice of their scheduled testimony; (b) have up to two (2) adult support persons of their choosing present in the hearing at the time the complaining witness testifies, which may include an educational rights holder, or legal counsel; and (c) elect to have the hearing closed while testifying.

2. The Charter School must also provide the victim with a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.

3. At the discretion of the Administrative Panel conducting the expulsion hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which the complaining witness may leave the hearing room.

4. The Administrative Panel may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.

5. The Administrative Panel may also limit time for taking the testimony of the complaining witness to the hours the complaining witness is normally in school, if there is no good cause to take the testimony during other hours.

6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the Administrative Panel from removing a support person whom the presiding person finds is disrupting the hearing. The Administrative Panel may permit any one of the support persons for the complaining witness to accompany the complaining witness to the witness stand.

7. If one or both of the support persons is also a witness, the Charter School must present evidence that the witness' presence is both desired by the witness and will be helpful to the Charter School. The Administrative Panel Chairperson shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the Administrative Panel Chairperson from exercising their discretion to remove a person from the hearing whom they believe is prompting, swaying, or influencing the witness.

8. The testimony of the support person shall be presented before the testimony of the complaining witness, and the complaining witness shall be excluded from the hearing room during that testimony.

9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the student being expelled, the complaining witness shall have the right to have their testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.

10. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the entity conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by an educational rights holder, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

I. Record of Hearing.

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

J. Presentation of Evidence.

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony.

If, due to a written request by the expelled student, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have their testimony heard in a session closed to the public.

K. Expulsion Decision.

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board, which will make a final determination regarding the expulsion. The Board shall make the final determination regarding the expulsion within ten (10) school days following the conclusion of the hearing. The decision of the Board of Directors is final.

If the Administrative Panel decides not to recommend expulsion or the Board ultimately decides not to expel, the student shall immediately be returned to their previous educational program.

The Board of Directors may also determine to suspend the enforcement of the expulsion order for a period of not more than one (1) calendar year from the date of the expulsion hearing and return the student to the student's previous educational program under a probationary status and rehabilitation plan to be determined by the Board. During the period of the suspension of the expulsion order, the student is deemed to be on probationary status. The Board of Directors may revoke the suspension of an expulsion order under this section if the student commits any of the enumerated offenses listed above or violates any of the Charter School's rules and regulations governing student conduct. If the Board revokes the suspension of an expulsion order, the student may be expelled under the terms of the original expulsion order. The Board of Directors shall apply the criteria for suspending the enforcement of the expulsion order equally to all students, including individuals with exceptional needs as defined in Education Code Section 56026. The Board of Directors shall further comply with the provisions set forth under Education Code Section 48917, except as otherwise expressly set forth herein.

L. Written Notice to Expel.

The Principal or designee, following a decision of the Board to expel, shall send written notice of the decision to expel, including the Board's adopted findings of fact, to the student and student's educational rights holder. This notice shall also include the following: (a) Notice of the specific offense(s) committed by the student; (b) Notice of the student's or educational rights holder's obligation to inform any new district in which the student seeks to enroll of the student's status with the Charter School; (c) rehabilitation plan with a date not later than one (1) year from the date of expulsion when the student may reapply to the Charter School for readmission; and, (d) alternative education programs in the County or their school district of residence and an offer to collaborate with student and student's educational rights holder to assist with locating alternative placements during expulsion.

The Principal or designee shall send a copy of the written notice of the decision to expel to the chartering authority, and within thirty (30) days to the Superintendent of the student's district of residence. This notice shall include the following: (a) The student's name; (b) The specific expellable offense(s) committed by the student; and, (c) The rehabilitation plan with a date not later than one (1) year from the date of expulsion when the student may reapply to the Charter School for readmission;

M. Disciplinary Records.

The Charter School shall maintain records of all student suspensions and expulsions at the Charter School. Such records shall be made available to the chartering authority upon request.

N. No Right to Appeal.

The student shall have no right of appeal from expulsion from the Charter School as the Charter School Board's decision to expel shall be final.

O. Expelled Students/Alternative Education.

Students who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence. The Charter School shall work cooperatively with the student as requested by the student or by the school district of residence to assist with locating alternative placements during expulsion.

P. Rehabilitation Plans.

Students who are expelled from the Charter School shall be given a rehabilitation plan upon expulsion as developed by the Board at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one (1) year from the date of expulsion when the student may reapply to the Charter School for readmission.

Q. Readmission or Admission of Previously Expelled Student.

The decision to readmit a student after the end of the student's expulsion term or to admit a previously expelled student from another school district or charter school who has not been readmitted/admitted to another school or school district after the end of the student's expulsion term, shall be in the sole discretion of the Board following a meeting with the Principal or designee and the student and student's educational rights holder to determine whether the student has successfully completed the rehabilitation plan and to determine whether the student poses a threat to others or will be disruptive to the Charter School environment. The Principal or designee shall make a recommendation to the Board following the meeting regarding the Principal's or designee's determination. The Board shall then make a final decision regarding readmission or admission of the student during the closed session of a public meeting, reporting out any action taken during closed session consistent with the requirements of the Brown Act. The student's readmission is also contingent upon the Charter School's capacity at the time the student seeks readmission or admission to the Charter School.

R. Notice to Teachers.

The Charter School shall notify teachers of each student who has engaged in or is reasonably suspected to have engaged in any of the acts listed in Education Code Section 49079 and the corresponding enumerated offenses set forth above.

S. Special Procedures for Consideration of Suspension, Expulsion, or Involuntary Removal of Students with Disabilities.

1. Notification of the SELPA

The Charter School shall immediately notify the SELPA and coordinate the procedures in this policy with the SELPA of the discipline of any student with a disability or student who the Charter School would be deemed to have knowledge that the student had a disability.

2. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting (which could constitute a change in placement and the student's IEP would reflect this change), and to progress toward meeting the goals set out in the student's IEP/Section 504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur.

3. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a student with a disability because of a violation of a code of student conduct, the Charter School, the educational rights holder, the student, and relevant members of the IEP/Section 504 Team shall review all relevant information in the student's file, including the student's IEP/Section 504 Plan, any teacher observations, and any relevant information provided by the student or educational rights holder to determine:

a. Manifestation Determination: If the conduct in question was caused by, or had a direct and substantial relationship to, the student's disability; or
b. Procedural Safeguards: If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/Section 504 Plan.

If the Charter School, the student, the educational rights holder, and relevant members of the IEP/ Section 504 Team determine that either of the above is applicable for the student, the conduct shall be determined to be a manifestation of the student's disability.

If the Charter School, the student, the educational rights holder, and relevant members of the IEP/Section 504 Team make the determination that the conduct was a manifestation of the student's disability, the IEP/Section 504 Team shall:

a. Conduct a functional behavioral assessment and implement a behavioral intervention plan for such student, provided that the Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;
b. If a behavioral intervention plan has been developed, review the behavioral intervention plan if the student already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and,

c. Return the student to the placement from which the student was removed, unless the student, the educational rights holder, and the Charter School agree to a change of placement as part of the modification of the behavioral intervention plan.

If the Charter School, the student, the educational rights holder, and relevant members of the IEP/ Section 504 Team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a direct result of the failure to implement the IEP/Section 504 Plan, then the Charter School may apply the relevant disciplinary procedures to students with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

4. Due Process Appeals

The student with a disability or the educational rights holder who disagrees with any decision regarding placement, or the manifestation determination, or the Charter School believes that maintaining the current placement of the student is substantially likely to result in injury to the student or to others, may request an expedited administrative hearing through the Special Education Dispute Resolution by utilizing the dispute provisions of the IEP/Section 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the student, the educational rights holder, or the Charter School, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer in accordance with state and federal law including 20 U.S.C. Section 1415(k), until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, unless the student or educational rights holder and the Charter School agree otherwise.

In accordance with 20 U.S.C. Section 1415(k)(3), if a student or educational rights holder disagree with any decision regarding placement, or the manifestation determination, or if the Charter School believes that maintaining the current placement of the student is substantially likely to result in injury to the student or to others, the student, educational rights holder, or Charter School may request a hearing.

In such an appeal, a hearing officer may: (1) return a student with a disability to the placement from which the student was removed; or (2) order a change in placement of a student with a disability to an appropriate interim alternative educational setting for not more than forty-five (45) school days if the hearing officer determines that maintaining the current placement of such student is substantially likely to result in injury to the student or to others.

5. Special Circumstances

Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a student with a disability who violates a code of student conduct.

The Principal or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

a. Carries or possesses a weapon, as defined in 18 U.S.C. Section 930, to or at school, on school premises, or to or at a school function;
b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or,
c. Has inflicted serious bodily injury, as defined by 20 U.S.C. Section 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

6. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's IEP/Section 504 Team.

T. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to IDEA and who has violated the Charter School's disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if the Charter School had knowledge that the student was disabled before the behavior occurred.

The Charter School shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

The student or educational rights holder has expressed concern in writing, or orally if the student or educational rights holder does not know how to write or has a disability that prevents a written statement, to Charter School supervisory or administrative personnel, or to one of the student's teachers, that the student is in need of special education or related services.
b. The student or educational rights holder has requested an evaluation of the student.
c. The student's teacher, or other Charter School personnel, has expressed specific concerns about a pattern of behavior demonstrated by the student, directly to the director of special education or to other Charter School supervisory personnel.

assert any of the protections available to IDEA-eligible students with disabilities, including the right to stay-put.

If the Charter School had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. The Charter School shall conduct an expedited evaluation if requested by the student or educational rights holder; however, the student shall remain in the education placement determined by the Charter School pending the results of the evaluation.

The Charter School shall not be deemed to have knowledge that the student had a disability if the student or educational rights holder has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

U. Notification of the School District of Residence.

Upon expelling any student, the Charter School shall notify the student's school district of residence immediately or as soon as practicable. Such notice shall include:

6. If the student is eligible for Section 504 accommodations, documentation that the Charter School conducted a manifestation determination meeting to address two questions:
   a. Was the misconduct caused by, or directly and substantially related to the student's disability?
   b. Was the misconduct a direct result of the Charter School's failure to implement Section 504 Plan?

This notice will be sent to the student's district of residence. If the student is a resident of a school district other than the District, the Charter School must notify the Superintendent of the student's district of residence within thirty (30) days of the expulsion. Additionally,

The County shall promptly refer any complaints or reports regarding such disputes not related to a possible violation of this charter or laws related to the Charter School.

Disputes Between the Charter School and the County

The Charter School understands that agreement to a dispute resolution process must be bilateral and the Charter School cannot unilaterally bind the County to a specific procedure. The Charter School agrees that this process may be revised as agreed upon by the County and Charter School in a mutually agreed upon MOU.

The Charter School staff and Board and the County staff and Board are encouraged to resolve all disputes regarding this charter pursuant to the terms of this section. Both shall refrain from public commentary regarding any disputes until the matter has progressed through the dispute resolution process.

The Charter School and the County will be encouraged to attempt to resolve any disputes amicably and reasonably without resorting to formal procedures.

In the event of a dispute between the Charter School and the County, Charter School staff, employees and Board members of the Charter School and the County agree to first frame the issue in written format ("dispute statement") and to refer the issue to the County Superintendent and Executive Director of the Charter School, or their respective designees. In the event that the County Board of Education believes that the dispute relates to an issue that could lead to revocation of the charter in accordance with Education Code Section 47607, the Charter School requests that this shall be noted in the written dispute statement, although it recognizes it cannot legally bind the County to do so. However, participation in the dispute resolution procedures outlined in this section shall not be interpreted to impede or act as a prerequisite to the County's ability to proceed with revocation in accordance with Education Code Section 47607 and its implementing regulations.

The Superintendent and Executive Director, or their respective designees, shall informally meet and confer in a timely fashion to attempt to resolve the dispute, not later than five (5) business days from receipt of the dispute statement. Director, or their respective designees, and attempt to resolve the dispute within fifteen (15) business days from receipt of the dispute statement.

If this joint meeting fails to resolve the dispute, the Superintendent and Executive Director, or their respective designees, shall meet to jointly identify a neutral third-party mediator to engage the parties in a mediation session designed to facilitate resolution of the dispute. The format of the mediation session shall be developed jointly by the Superintendent and Executive Director, or their respective designees. Mediation shall be held within sixty (60) business days of receipt of the dispute statement. The costs of the mediator shall be split equally between the County and the Charter School. If mediation does not resolve the dispute either party may pursue any other remedy available under the law. All timelines and procedures in this section may be revised upon a written mutual agreement of the County and the Charter School.

The County may inspect or observe any part of the charter school at any time but shall provide reasonable notice to the Charter school's Executive Director. Inspection, observation, monitoring, and oversight may not be assigned or subcontracted to a third party by the County without the Charter school's consent.

County Impact Statement
***Potential civil liability effects, if any, upon the school and upon the District.* - Education Code Section 47605(g)**

Conclusion
Escuela Popular/Center for Training and Carers, Family Learning Center's charter renewal petition merits renewal under the applicable legal standards under the Charter Schools Act, and as a DASS school under the standards articulated in Education Code Section 47607(c)(7), the chartering authority should approve the renewal charter for a period of five years.

By approving this charter renewal petition, the County will be fulfilling the intent of the Charter Schools Act of 1992 to improve student learning, create new professional opportunities for teachers, and provide students with expanded choices in education and following the directive of law to encourage the creation of Charter Schools. By approving this charter renewal petition, the County will be considering EPCTC's schoolwide and student subgroup performance on the state and local indicators on the California School Dashboard including academic achievement in ELA, academic achievement in math, and EL progress. In regard to the community impact, EPCTC is a well-established Charter School that has been serving students in East San Jose since 2004 so it will not substantially undermine existing County services, academics, or program offerings. The Petitioner looks forward to EPCTC's continued autonomous operation, pursuant to rigorous standards of accountability, while also working cooperatively with the County as a partner in ensuring that historically disadvantaged adult students living in this region have the opportunity to obtain an education at a school that best meets their needs. To this end, EPCTC pledges to work cooperatively with the County to address any concerns regarding this document, or any aspect of the Charter School's program, in furtherance of its petition to renewal of Escuela Popular's charter and to present the strongest possible proposal requesting a five (5) year term from July 1, 2026 through June 30, 2031.
