

EXCELLENCE: IT TAKES EVERYONE!

Dr. Deborah A. Flores
Superintendent

Thank you to the entire staff of the Gilroy Unified School District for being part of the greatest team effort of my career. I am so grateful that together we continue to strive to provide caring, compassionate education in the midst of the COVID-19 pandemic. Team GUSD continues to model flexibility and the importance of being a lifelong learner to our students and families.

Together, we maintain a never-ending sense of optimism and an ever-abundant sense of humor. Together, we have met and addressed the needs of some of our most vulnerable students so that they can attend school virtually with their classmates. We have also met and addressed the needs of so many families as they have struggled with technology challenges and other issues. The last months have been excruciatingly difficult and challenging, but have we continued to provide the best programs and services that we possibly can for our students and families.
