Advancing Equity Through and Beyond Crisis

The Santa Clara County Office of Education's Tobacco Use Prevention Education (TUPE) Program partners with The Leadership Academy to bring you a leadership webinar series featuring content experts from across the country to tackle just-in-time topics and discuss tangible strategies that schools and school systems can adopt around alternatives to suspensions for vape/tobacco related offenses and beyond.

The purpose of these webinars is to:

- Leverage COVID-19 as our “equity check” to ensure that all students remain socially, emotionally, and academically whole throughout and after the pandemic
- Support a deeper understanding of restorative practices in order to reduce out-of-school time and provide targeted and customized supports for students
- Provide a local and national lens around best practices highlighting the urgency and necessity to rebuild school climate and culture through a strengths-based, relationship-building, and equity-focused approach

Upcoming Webinars

SEPT 23
2020
