

Cannabis Awareness
& Prevention

Middle School Educators!

You are invited to participate in the Empowering YOU-th study evaluating a cannabis awareness & prevention curriculum: **Let's Talk Cannabis**.

Incentives available for participating schools, educators, and students!

This study uses student surveys to compare the effects of teaching students an updated cannabis awareness & prevention curriculum (**Let's Talk Cannabis**) within the Stanford Cannabis Awareness & Prevention Toolkit with teaching students using **other** curriculums.

All participating schools will receive training in use of the **Let's Talk Cannabis** curriculum.

ACTIVITIES

- Teach the **Let's Talk Cannabis** curriculum (3 sessions) or conduct your existing cannabis or drug education curriculum. (Stanford will randomize you to one or the other group)
- Students will complete short in-class surveys
- Educators will complete a short implementation survey
- A subset of students & teachers may participate in short interviews about the **Let's Talk Cannabis** curriculum

INCENTIVES

- **\$500** for participating schools
- **\$200** for educators
- **\$10 gift card** for each survey for participating students
- Become a partner of the Stanford Cannabis & Tobacco Prevention Toolkits

ELIGIBILITY

- You teach middle school students
- Willing to use the curriculum now or later
