26-27 Webinar & CoTP Series

Differentiated to Meet You Where You Are

Webinars and Communities of Transformative Practice (CoTPs) are offered as an interwoven series, building on one another and allowing participants to go deeper into topics together. The experience is differentiated into two pathways: **Group A** for schools in early stages of planning and visioning, and **Group B** for schools deepening engagement and transformation. Please note that CCSPP grantee participation is expected.
