Look for these signs of an OPIOID OVERDOSE

**ABNORMAL BREATHING**
- Slow or no breathing
- Gurgling or snoring

**CAN’T BE WOKEN UP**
- Nodding off
- Found in unusual position

**SKIN CHANGES**
- Cold & clammy skin
- Gray or blue skin

BE READY TO HELP YOUR FRIENDS OR FAMILY.
If you think someone is overdosing, call 9-1-1.
Neither you or the person overdosing can be charged for drug use or possession.
